Independent Auditors' Report

The Board of Directors
Wheaton Franciscan Services, Inc..

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Wheaton Franciscan Services, Inc (WFSI), which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations and changes in unrestricted net assets, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements We did not audit the financial statements of Franciscan Ministries, Inc (FMI), a wholly owned subsidiary, which statements reflect total assets constituting 5 1% for 2014 and 4 7% for 2013 and total revenue constituting 1 5% for both 2014 and 2013, of the related consolidated totals Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for FMI, is based solely on the reports of the other auditors

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U S generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits We conducted our audits in accordance with auditing standards generally accepted in the United States of America Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control Accordingly, we express no such opinion An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

KPMG

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Wheaton Franciscan Services, Inc as of June 30, 2014 and 2013, and the results of their operations and their cash flows for the years then ended, in accordance with U S generally accepted accounting principles

Other Matter

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole The supplementary information included in schedules 1 through 6 is presented for purposes of additional analysis and is not a required part of the consolidated financial statements Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole

(3) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- The preparation of consolidated financial statements in conformity with U S generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements Estimates also affect the reported amounts of revenue and expenses during the reporting period Actual results could differ from those estimates

- The consolidated statements of operations and changes in unrestricted net assets include revenue and gains in excess of expenses and losses Transactions deemed by management to be ongoing, major, or central to the provision of healthcare services are reported as revenue and expenses Transactions incidental to the provision of healthcare services are reported as nonoperating gains and losses

- Net patient service revenue are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined

- Cash and cash equivalents include demand deposits and investments in highly liquid debt instruments with a maturity of three months or less at the time of purchase, excluding amounts presented as assets whose use is limited and restricted assets Short-term investments comprise highly liquid debt instruments with maturity greater than three months and less than 12 months at the time of purchase
- Inventories of supplies are stated at the lower of cost (first-in, first-out) or market
- Investments are measured at fair value in the accompanying consolidated balance sheets Fair value is determined primarily on the basis of quoted market prices or observable market inputs All investments are classified as trading securities Investment income or loss (including realized gains and losses on investments, unrealized gains and losses on trading securities, interest, and dividends) is included in revenue and gains in excess of expenses and losses unless the income or loss is restricted by donors, in which case the investment return is recorded directly to temporarily or permanently restricted net assets
- Assets whose use is limited include assets set aside by the boards of directors for specific purposes, and deferred compensation plans, over which the boards retain control and may at their discretion subsequently use for other purposes, assets held under escrow agreements, assets held by trustees under bond indenture agreements, assets posted as collateral for swap agreements, assets held through interests in foundations, assets held by a captive insurance company, and assets held by Franciscan Ministries, Inc (FMI) Assets whose use is limited, which are required for obligations classified as current liabilities, are reported as current assets in the accompanying consolidated balance sheets
- Property, plant, and equipment acquisitions are recorded at cost Property, plant, and equipment donated for operations are recorded as additions to temporarily restricted net assets at fair value at the date of receipt and as net assets released from restriction when the assets are placed in service Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method Net interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component cost of acquiring those assets
- Deferred finance charges are included in deferred expenses and are amortized over the life of the respective debt or underlying liquidity facility, whichever is shorter, using either the straight-line or the weighted average bonds outstanding method Bond discounts and premiums are amortized over the life of the respective debt using the straight-line or the weighted average bonds outstanding method Amortization of deferred finance charges and bond discounts and premiums are reflected as a component of interest expense in the accompanying consolidated statements of operations
- Income taxes are accounted for under the asset-and-liability method Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled The effect on deferred tax assets and liabilities of

a change in tax rates is recognized in income within nonoperating gains (losses) in the period that includes the enactment date WFSI recognizes the effect of income tax positions only if those positions are more likely than not of being sustained Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized Changes in recognition or measurement are reflected in the period in which the change in judgment occurs

At June 30, 2014 and 2013, WFSI had net operating loss (NOL) carryforwards for financial reporting and federal and state income tax purposes aggregating approximately $1,219 and $228, respectively, for federal and $1,798 and $491, respectively, for state Using a federal tax rate of 34 0% and state tax rate of 7 9%, these NOL carryforwards give rise to deferred tax assets before valuation allowance of $556 and $116 at June 30, 2014 and 2013, respectively The valuation allowance for deferred tax assets was $556 and $116 at June 30, 2014 and 2013, respectively The NOL carryforwards have expiration dates through 2029 Management evaluates the need to maintain a valuation allowance for deferred tax assets based on the assessment of whether it is more likely than not that deferred tax benefits will be realized through the generation of future taxable income Appropriate consideration is given to all available evidence, both positive and negative, in assessing the need for a valuation allowance Amounts released from the valuation allowance are included in other, net in nonoperating gains (losses) in the consolidated statements of operations

No other temporary differences have been considered based on materiality to the consolidated financial statements

- Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized Goodwill is to be reviewed for impairment at least annually or whenever events or circumstances indicate that the carrying value may not be recoverable In September 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-08, *Testing Goodwill for Impairment*, which provides an entity the option to perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount prior to performing the two-step goodwill impairment test If this is the case, the two-step goodwill impairment test is required If it is more likely than not that the fair value of a reporting is greater than its carrying amount, the two-step goodwill impairment test is not required WFSI adopted this guidance in 2013

  If the two-step goodwill impairment test is required, first, the fair value of the reporting unit is compared with its carrying value including goodwill If the fair value of the reporting unit is less than its carrying value, an indication of goodwill impairment exists for the reporting unit and the entity must perform step two of the impairment test (measurement) Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill Fair value of the reporting unit is determined using a discounted cash flow analysis If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed

WFSI performed its annual goodwill impairment test as of June 30, 2014 and did not identify any impairment issues The fair value of the reporting unit is in excess of its carrying value Goodwill totaling $5,136 at June 30, 2014 and 2013 is reported in the accompanying consolidated balance sheets within other long-term assets

WFSI has net amortizable intangible assets of $8,611 and $10,110 at June 30, 2014 and 2013, respectively, included in other long-term assets on the consolidated balance sheets, which are being amortized from 2 to 10 years WFSI recorded amortization expense of $1,499 and $1,019 for 2014 and 2013, respectively

- Long-lived assets (including property, plant, and equipment, goodwill, and other intangibles) are periodically assessed for recoverability based on the occurrence of a significant adverse event or change in the environment in which WFSI operates, or if the expected future cash flows generated by the long-lived asset (undiscounted and without interest) are less than the carrying amount of the long-lived asset An impairment loss is recognized in the period an impairment determination is made to the extent the impaired long-lived asset's carrying value exceeds its fair value No impairments have been recorded as of June 30, 2014 and 2013, respectively

- Changes in unrestricted net assets, which are excluded from revenue and gains in excess of expenses and losses, consistent with industry practice, include unrealized gains and losses on investments on other-than-trading securities, permanent transfers of assets to and from unconsolidated subsidiaries and affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions, which by donor restriction were to be used for the purposes of acquiring such assets), changes in the funded status of the defined-benefit pension plan, and equity transactions of unconsolidated affiliates and other, net

- Certain subsidiaries of WFSI provide care to patients who meet criteria under the community care program (charity care) without charge or at amounts less than their established rates Because there is no effort to pursue collection of amounts determined to qualify as charity care, they are not reported as revenue

- Temporarily restricted net assets represent those net assets whose use by WFSI and its subsidiaries has been limited by donors to a specific time period or purpose Permanently restricted net assets have been restricted by donors to be maintained by WFSI and its subsidiaries in perpetuity WFSI and its subsidiaries' temporarily restricted net assets are restricted for various programs related to the provision of health and pastoral care WFSI and its subsidiaries' investment income from permanently restricted net assets is expendable to support healthcare or other donor-designated services

- Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received, which is then treated as cost Conditional promises to give are reported at fair value at the date the gift is received The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported

(In thousands)

in the consolidated statements of operations as net assets released from restrictions Donor-restricted contributions whose restrictions are met within the same year as received are reflected as other revenue in the accompanying consolidated statements of operations

- Gifts of long-lived assets such as land, buildings, and equipment are reported as unrestricted support and are excluded from the revenue and gains in excess of expenses and losses unless explicit donor stipulations specify how the donated assets must be used Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service
- Provisions for self-insured liability claims include estimates of the ultimate costs for both reported claims and claims incurred but not reported as of the respective consolidated balance sheet dates
- Accounting Standards Codification (ASC) No 815, *Derivatives and Hedging*, requires that an entity recognize all derivatives as either assets or liabilities in the consolidated balance sheets and measure those instruments at fair value The accounting for changes in the fair value of a derivative is dependent upon the intended use of the derivative and the resulting designation WFSI is involved in various interest rate swap programs These derivatives are not designated as hedge instruments, and therefore, changes in their fair value are recognized in the consolidated statements of operations as nonoperating gains or losses in the period of change WFSI is exposed to credit loss in the event of nonperformance by the counterparty in any of its interest rate swap agreements

  WFSI also maintains interest rate swap agreements, which were originally intended to effectively change the interest rate exposure on Series 1998B Bonds and the St Francis Series 1997 Bonds, prior to redemption of debt (note 11) Notional amounts on these interest rate swap agreements are being reduced over the original term of the debt agreements to correspond with the originally scheduled reductions in principal of the related bonds A summary of the outstanding positions under these swaps at June 30, 2014 is as follows

	Notional amount	Maturity date	Rate received	Rate paid
$	3,200	January 2015	SIFMA Index	4 83%
	26,200	August 2024	Lesser of SIFMA Index or 72% of LIBOR	4 36

The carrying value equals fair value As of June 30, 2014 and 2013, the fair value of all outstanding swap agreements was a liability of $4,207 and $4,987, respectively, which is included as a component of other long-term liabilities For the years ended June 30, 2014 and 2013, WFSI recognized valuation adjustments of $780 and $2,037, respectively, for the change in fair value of all swap agreements Net payments equal to differentials received or paid under all swap agreements are recognized monthly

and amounted to $1,375 and $1,555 in 2014 and 2013, respectively, which have been included as interest expense in the accompanying consolidated statements of operations

Pursuant to certain terms of its interest rate swap agreements, WFSI was required to post collateral with its counterparty for the full settlement amount of the derivative liabilities related to the floating-to-fixed swaps As of June 30, 2014 and 2013, WFSI posted $5,148 and $5,548, respectively, of collateral related to these swaps, which are included within the current portion of assets whose use is limited

During 2005, WFSI began participating in a securities lending program Through this securities lending program, managed by its investment custodian, WFSI loans fixed income and equity securities included in its investment portfolio WFSI has no securities out on loan as of June 30, 2013 In June 2014, WFSI reentered the security lending program At June 30, 2014, the fair value of the securities lended was $7,334 The custodian's loan agreements require the borrowers to maintain collateral equal to at least 102% of the market value of the securities loaned This collateral is in the form of cash and cash equivalents and fixed income securities and is revalued on a daily basis At June 30, 2014, WFSI has presented the collateral received as securities lending collateral within current assets and the obligation to return that collateral as a current liability as payable under securities lending agreement in the accompanying consolidated balance sheets

- FMI has entered into various regulatory agreements with the U S Department of Housing and Urban Development (HUD) that provide both Housing Assistance Payments and Rental Assistance Payments These subsidy payments are designed to provide for the difference between the cash needs of the housing project and the cash generated by the tenants' rental payments Tenant leases are generally one year in duration and expire at various times during the year The HUD subsidies are adjusted at the beginning of the lease to reflect any changes to the tenant's rent payment established during the annual recertification process

- WFSI applies the provisions of ASC No 820, *Fair Value Measurements and Disclosures*, for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the consolidated financial statements on a recurring basis ASC No 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date ASC No 820 establishes a framework for measuring fair value and expands disclosures about fair value measurements (note 8)

- WFSI applies the provisions of ASC No 825-10, *Financial Instruments – Overall*, which gives WFSI the irrevocable option to report most financial assets and financial liabilities at fair value on an instrument-by-instrument basis, with changes in fair value reported in earnings WFSI has not elected any additional eligible financial assets or financial liabilities to be reported at fair value

- WFSI applies the provisions of ASU No 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries* ASU No 2010-24 clarifies that a healthcare entity should not net insurance

recoveries against a related malpractice claim liability or similar liability, which is consistent with the guidance in ASC 210-20, *Balance Sheet – Offsetting*

- The Medicare and Medicaid Electronic Health Record (EHR) Incentive Programs (the Programs) provide incentive payments to eligible hospitals and professionals as they adopt, implement, upgrade, or demonstrate meaningful use of certified EHR technology in their first year of participation and demonstrate meaningful use for up to five remaining participation years. The Programs define meaningful use as meeting certain core and menu criteria at certain levels dependent upon the program, the stage of meaningful use, and whether the participant is a hospital or provider professional. WFSI accounts for the Programs using International Accounting Standards (IAS) 20, *Accounting for Government Grants and Disclosures of Government Assistance*. WFSI applies the "ratable recognition" approach, which states that the grant income can be recognized ratably over the entire EHR reporting period once the "reasonable assurance" income recognition threshold of IAS 20 is met. For the years ended June 30, 2014 and 2013, WFSI recognized $11,059 and $21,158, respectively, as other revenue related to the Medicare and Medicaid EHR incentives, which have been received or are expected to be received based on certifications prepared by management under the appropriate guidelines for stage 1 meaningful use attestation.
- Certain 2013 amounts have been reclassified to conform to the 2014 consolidated financial statement presentation.

(4) NET PATIENT SERVICE REVENUE

WFSI's hospitals and other patient care facilities have agreements with third-party payors that provide for payments at amounts different from established rates. A summary of the payment arrangements with major third-party payors is as follows.

- ***Medicare*** – Inpatient acute care services, certain outpatient, rehabilitation, and home health services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to their respective patient classification systems that are based on clinical, diagnostic, and other factors. The prospectively determined rates are not subject to retroactive adjustment. The classification of patients under the Medicare prospective payment systems and the appropriateness of patient's admissions are subject to validation reviews. Certain outpatient services and medical education costs related to Medicare beneficiaries are paid based upon either a cost-reimbursement method, established fee screens, or a combination thereof. WFSI is reimbursed for cost reimbursable items at tentative rates with final settlement determined after submission of annual reimbursement reports and audits thereof by Medicare fiscal intermediaries. WFSI has received final settlements through FY 2011.
- ***Medicaid*** – Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed in accordance with each state's Medicaid reimbursement program. Reimbursement under these programs is based primarily upon prospectively determined rates.

The states of Illinois, Wisconsin, and Iowa have hospital assessment programs to assist in the financing of their Medicaid programs Pursuant to these programs, hospitals within the states of Illinois, Wisconsin, and Iowa are required to remit payment to the respective state under a tax assessment formula WFSI has included its related assessments of $37,470 and $38,932 in purchased services, supplies, and other expense in the accompanying 2014 and 2013 consolidated statements of operations, respectively The additional Medicaid reimbursement associated with these programs is approximately $106,243 and $109,383 for 2014 and 2013, respectively, and is included in net patient service revenue

The aforementioned assessment programs increase the amount of federal matching for the respective Medicaid programs, which is then passed on to hospitals as increased Medicaid reimbursement Wisconsin's assessment program prohibits the use of assessment revenue to supplant current revenue used to support existing hospital payment levels The state distributes the assessment revenue as increased rates for both Medicaid and Medicaid HMO patients

- ***Other*** – WFSI's hospitals and other patient care facilities have also entered into reimbursement agreements with certain commercial insurance carriers, HMOs, and preferred provider organizations The basis for reimbursement under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined per diem rates

  Net patient service revenue for the years ended June 30, 2014 and 2013 includes approximately $8,751 and $14,329, respectively, of net favorable retroactively determined reimbursement settlements from prior years with third-party payors

  Patient's accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectibility of patient's accounts receivable, WFSI analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for uncollectible accounts and provision for bad debts Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts For receivables associated with services provided to patients who have third-party coverage, WFSI analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary. For receivables associated with patient responsibility (which includes both patients without insurance and patients with deductible and co-payment balances due for which third-party coverage exists for part of the bill), the patients are screened against the WFSI charity care policy and uninsured discount policy For any remaining patient responsibility balance, WFSI records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts

  WFSI's allowance for uncollectible accounts for self-pay patients, which includes uninsured patients and residual co-payments and deductibles for which managed care has already paid, increased from 83 2% of self-pay accounts receivable at June 30, 2013, to 93 3% of self-pay accounts receivable at

(In thousands)

June 30, 2014 In addition, WFSI's self-pay write-offs increased from $79,861 for fiscal year 2013 to $80,195 for fiscal year 2014 WFSI has not changed its charity care or uninsured discount policies during fiscal years 2014 or 2013 WFSI does not maintain a material allowance for uncollectible accounts from third-party payors, nor did it have significant write-offs from third-party payors

WFSI recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered For uninsured patients that do not qualify for charity care, WFSI recognizes revenue for services provided (on the basis of discounted rates, as provided by policy) On the basis of historical experience, a portion of WFSI's uninsured patients will be unable or unwilling to pay for the services provided Thus, WFSI records a provision for bad debts related to uninsured patients in the period the services are provided Patient service revenue, net of contractual allowances and discounts (but before the provision for bad debts), recognized in the period from these major payor sources, is as follows.

		2014	2013
Medicare	$	543,886	568,268
Medicaid		243,654	243,425
Managed care/contracted payor		693,349	692,160
Self-pay		99,823	105,465
Other		41,399	33,382
Net patient service revenue before bad debt	$	1,622,111	1,642,700

(5) CONCENTRATION OF CREDIT RISK

Patient care subsidiaries of WFSI grant credit without collateral to their patients, most of whom are local residents and are insured under third-party payor agreements The mix of receivables from patients and third-party payors for 2014 and 2013 is as follows

	2014	2013
Medicare	29 1%	28 0%
Medicaid	10 4	9 0
Managed care	40 4	42 8
Other	20 1	20 2
	100 0%	100 0%

(In thousands)

(6) UNCOMPENSATED AND CHARITY CARE

WFSI shares its talents and resources to benefit the many communities it serves This includes providing education to health professional and community members, research, community health improvement offerings, and subsidized health services, in addition to charity care benefits

For charity care benefits, patient care subsidiaries of WFSI maintain records to identify and monitor the level of charity care they provide This represents free or discounted health services provided to those who cannot afford to pay and who meet criteria for financial assistance Charity care is based on estimated cost and does not include bad debt. The level of charity care provided during the years ended June 30, 2014 and 2013 was $49,483 and $43,946, respectively

(7) INVESTMENTS

During 1998, WFSI created the Wheaton Franciscan Services, Inc Investment Trust (the Trust) for the sole purpose of administering a pooled investment program for WFSI, its subsidiaries, and affiliates WFSI serves as the trustee and is responsible for managing and investing the pooled assets of the Trust Participants accrue interest based on the Trust's actual realized earnings The fair value of the assets in the Trust was $708,943 and $669,623 at June 30, 2014 and 2013, respectively, and is recorded as a component of assets whose use is limited

A summary of the composition of the investment portfolio (including assets whose use is limited and restricted assets) at June 30, 2014 and 2013 is as follows

		2014	2013

(8) FAIR VALUE MEASUREMENTS

(a) Fair Value of Financial Instruments

The following methods and assumptions were used by WFSI in estimating the fair value of its financial instruments

- The carrying amount reported in the consolidated balance sheets for the following approximates fair value because of the short maturities of these instruments cash and cash equivalents, patient accounts receivable, accounts payable and accrued expenses, and estimated third-party payor settlements
- Assets whose use is limited, short-term investments, securities lending collateral, and restricted assets equity securities, mutual funds, and direct U S government obligations are measured using quoted market prices at the reporting date multiplied by the quantity held Corporate bonds, notes, and U S agency securities are measured using other observable inputs Corporate debt securities, U S governmental agency securities, and asset-backed securities are measured using other observable inputs The carrying value equals fair value ASU No 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which creates a practical expedient allowing measurement of fair value based on the net asset value per share of the investment Mutual funds are valued using net asset value per share as a practical expedient
- Interest rate swap agreements The fair value of interest rate swaps is determined using pricing models developed based on the LIBOR swap rate and other observable market data The value was determined after considering the potential impact of collateralization and netting agreements, adjusted to reflect nonperformance risk of both the counterparty and WFSI. The carrying value equals fair value
- The fair value of the fixed-rate long-term debt of WFSI and its subsidiaries was $594,649 and $618,142 at June 30, 2014 and 2013, respectively. The recorded amount of these obligations at June 30, 2014 and 2013 was $572,030 and $594,050, respectively Fair value of fixed-rate long-term debt is estimated based on the quoted market prices for the same or similar issues or on the current rates offered to WFSI for debt of the same remaining maturities For variable rate debt, carrying amounts approximate fair value Fair value was estimated using quoted market prices based upon WFSI's current borrowing rating for rates for similar types of long-term debt securities

(b) Fair Value Hierarchy

WFSI applies the provision of ASC No 820, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between mutual participants at a measurement date These provisions describe a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements) The three levels of the fair value hierarchy are as follows

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that WFSI has the ability to access at the measurement date
- Level 2 are observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 inputs are unobservable inputs for the asset or liability Level 3 assets and liabilities include financial instruments whose value is determined by using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety

Transfers between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another In such instances, the transfer is reported at the beginning of the reporting period WFSI evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets For the year ended June 30, 2014, there were no significant transfers in or out of Level 1, 2, or 3

All of the outstanding long-term bond indebtedness has been issued pursuant to the MTI, and is comprised of unsecured obligations of The Obligated Group Each member of The Obligated Group has jointly and severally guaranteed the payment of any and all amounts due on the outstanding indebtedness issued under the MTI

The following is a summary of the bond insurer and liquidity facility for the outstanding long-term debt.

Outstanding debt series	Liquidity facility
Series 2003B Bonds*	Letter of Credit – U S Bank National Association, expiring in December 2016
Series 2007 Bonds*	Letter of Credit – PNC Bank, expiring in December 2016

* Bear interest at a variable rate, which is currently determined weekly

In the event that the letters of credit are not renewed, mandatory redemption provisions become applicable, which require the then outstanding indebtedness to be paid in full or within an 18-month period

The Series 2003B and Series 2007 bonds are secured by letters of credit with U S Bank National Association and PNC Bank (collectively, the Commercial Banks), respectively These bonds have put options that allow the holders to redeem the bonds prior to maturity The Obligated Group has agreements with remarketing agents to remarket any bonds redeemed as a result of the exercise of the put options If the bonds cannot be remarketed, the Commercial Banks will purchase the bonds under the letters of credit Any liquidity advances as a result of failed remarketing are repayable to U S Bank National Association and PNC Bank within 367 and 60 days, respectively, unless converted to term loans by meeting certain criteria as defined in the letter-of-credit agreements (the Agreements) Any term loans must be repaid in full by the earlier of the letter-of-credit expiration date or the date of certain other events as defined in the Agreements The repayment terms per the Agreements for the Series 2003B and Series 2007 bonds require repayment within 24 and 18 months, respectively

On July 16, 2013, the Obligated Group issued $87,300 of Wisconsin Health and Educational Facilities Authority Wheaton Franciscan Services, Inc System Revenue Bonds, Series 2013A due in varying installments through August 15, 2023 and bearing fixed interest of 2 0% The proceeds were used for the redemption of the Wisconsin Health and Educational Facilities Authority Wheaton Franciscan Services, Inc System Revenue Bonds, Series 2003A

(12) PENSION PLANS

WFSI and certain of its subsidiaries participate in a qualified noncontributory defined-benefit pension plan (the Plan), covering all employees who are at least 21 years of age and work 1,000 or more hours per year The normal retirement benefit of the Plan is a monthly retirement income, a lump-sum payment, or a combination thereof which is computed based on a cash balance accumulated from contributions and interest earnings thereon equal to the one-year treasury bill rate or a rate approved by the WFSI Finance and Operations Committee The benefit is payable commencing any time after the vested employee's termination date but not later than age 65 unless still working The Plan is funded based on the estimated pension cost as determined by the Plan's consulting actuary

The cost related to employee service is recognized using the Projected Unit Credit Cost Method Gains and losses, calculated as the difference between estimates and actual amounts of plan assets and the projected benefit obligation, are amortized over the expected future service period The prior service credits are also amortized over the expected future service period

Prior to January 1, 1995, the Plan had a traditional annuity benefit formula Participants who were covered under the prior plan are grandfathered and entitled to a retirement benefit equal to the greater of their benefit as defined by the Plan or their benefit as defined by the prior plan

Net amounts recognized in the accompanying consolidated balance sheets	$	79,103	58,252

The accumulated charge to unrestricted net assets represents charges or credits arising from the defined-benefit pension plan, but not yet recognized as components of net periodic benefit cost The accumulated charge to unrestricted net assets at June 30, 2014 and 2013 of $147,701 and $194,964, respectively, comprised $204,862 and $263,525 of unrecognized net actuarial losses offset by a reduction for unrecognized prior service credits of $57,161 and $68,561 at June 30, 2014 and 2013, respectively

The accumulated benefit obligation for the Plan was $836,558 and $813,839 at June 30, 2014 and 2013, respectively.

Several organizations participate in the Plan but are not included in the accompanying consolidated financial statements Therefore, the amounts recognized by the participants are shown in the above table, but are not included in the consolidated financial statements The net periodic pension cost for the years ended June 30, 2014 and 2013 related to unconsolidated subsidiaries and affiliates amounted to $470 and 2,448, respectively

Net periodic benefit cost for the Plan for the years ended June 30, 2014 and 2012 included the following components

		2014	2013
Components of net periodic benefit cost			
Service cost	$	29,079	34,263
Interest cost		42,196	38,887
Expected return on plan assets		(50,035)	(47,001)

Discount rate used to determine net periodic benefit cost		3 75%/7 75%	5 26%/8 00%
Rate of compensation increase		Age-based	Age-based
Expected return on plan assets		6 75%	7 00%
Cash balance interest rate assumption		3 0%	3 1%

The weighted average discount rate used in determining the actuarial present value of the projected benefit obligation at June 30, 2014 and 2013 is 8 00%, for grandfathered participants estimated to take their retirement benefit in the form of a lump sum and 4 07% and 4 37% at June 30, 2014 and 2013, respectively, for all other participants.

Effective for terminations on or after July 1, 2013, the actuarial equivalence interest rate used for converting account balances to annuity form was updated from 8% to 4% effective July 1, 2013 and 2% effective July 1, 2014 The plan amendment resulted in a decrease to the projected benefit obligation of $28,625

Effective July 1, 2013, Rush Oak Park Hospital (ROPH) will no longer participate in the pension plan This curtailment to the Plan reduced the projected benefit obligation by $1,015 In addition, the Plan was amended to credit ROPH participants with a full year of benefit accrual for calendar year 2013 based on pay and hours through July 1, 2013 This special termination benefit increased the projected benefit obligation by $676

The Plan's overall expected long-term rate of return on assets is 6 75% and 7 00% for 2014 and 2013, respectively The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories The return is based exclusively on historical returns, without adjustments

WFSI is expected to contribute $17,606 to the Plan in 2015, which is the expense of the Plan

(In thousands)

The benefits expected to be paid in each year from 2015 through 2019 are approximately $56,645, $64,199, $66,445, $69,182, and $70,972 respectively The aggregate benefits expected to be paid in the five years from 2020 through 2024 are approximately $364,775 The expected benefits are based on the same assumptions used to measure WFSI's benefit obligation at June 30 and include estimated future employee service

The Plan has a statement of Investment Policy, which is reviewed and approved by the WFSI board of directors The policy establishes goals and objectives of the fund, asset allocations, allowable and prohibited investments, socially responsible guidelines, and asset classifications as well as specific investment manager guidelines The policy states that the rebalancing of these assets to the target allocations will be reviewed on a semiannual basis Investments are managed by independent advisors Management monitors the performance of these managers on a monthly basis

The table below lists the target asset allocation and acceptable ranges and actual asset allocations as of June 30, 2014 and 2013

Fair Value of Financial Instruments

The following methods and assumptions were used by WFSI in estimating the fair value of its financial instruments of the Plan

- Common stocks, quoted mutual funds, and direct U S government obligations are measured using quoted market prices at the reporting date multiplied by the quantity held Corporate bonds, notes, and U S agency securities are measured using other observable inputs The carrying value equals fair value

Transfers between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another In such instances, the transfer is reported at the beginning of the reporting period For the year ended June 30, 2014, there were no transfers in or out of Level 1, 2, or 3

During 1996, WFSI created a nonqualified Benefit Restoration Plan (the BRP) for senior executives employed in the organization whose benefits under the qualified plan are limited due to limitations imposed by income tax regulations In 2001, the Plan was amended to cover certain benefits previously provided under the BRP In 2008, the BRP was amended to vest the accrued benefits as of December 29, 2008 The payout started in January 2009 with future accrued benefits being paid out annually Accounts payable to BRP participants of $340 and $750 at June 30, 2014 and 2013, respectively, are included in other long-term liabilities

(13) INSURANCE

(a) Professional and General Liability

Wheaton Franciscan Insurance Company (the Captive), a wholly owned subsidiary of WFSI, was formed to provide comprehensive professional and general liability insurance to the organization Professional liability coverage for WFSI qualified subsidiaries located in Wisconsin is procured through Preferred Professional Insurance Company (PPIC), which reinsures all of the risk with the Captive All other WFSI subsidiaries are insured directly by the Captive for professional and general liability risks

For primary professional liability coverage for Wisconsin-based providers, WFSI pays premiums to PPIC based upon actuarial computations that estimate the expected ultimate losses by policy year PPIC then pays the premium, net of PPIC's administrative expenses, to the Captive pursuant to a reinsurance agreement All primary professional liability insurance coverage provided through PPIC is on an occurrence basis

Losses in excess of the primary professional liability limits for the Wisconsin-based providers are fully covered through the hospitals' and employed physicians' mandatory participation in the Patients' Compensation Fund of the State of Wisconsin For other regions, the Captive obtains varying levels of commercial umbrella and excess reinsurance coverage by policy year on a claims-made basis

WFSI recognizes provisions for the ultimate cost of reported losses and for losses incurred but not reported based upon projections by WFSI management and independent actuaries At June 30, 2014 and 2013, loss reserve accruals of $24,847 and $24,688, respectively, are included in the accompanying consolidated financial statements in other long-term liabilities It is management's opinion that the recorded claim reserves are adequate to cover ultimate losses incurred to date Provisions for professional and general liability self-insurance expense amounted to $6,727 and $3,463 for the years ended June 30, 2014 and 2013, respectively, and are included in purchased services, supplies, and other expenses in the

accompanying consolidated statements of operations As related to the professional and general liability, the adoption of ASU 2010-24 had no impact on the consolidated financial statements

(b) Workers' Compensation and Employee Benefits

WFSI is self-insured for workers' compensation claims up to the first $250 WFSI purchases workers' compensation umbrella and excess policies to provide various levels of additional coverage by policy year Workers' compensation self-insurance expense amounted to $6,919 and $5,995 for the years ended June 30, 2014 and 2013, respectively, and is included in salaries and fringe benefits expense in the accompanying consolidated statements of operations The gross liability for estimated self-insured workers' compensation claims of $10,897 and $10,426 at June 30, 2014 and 2013, respectively, is included within accounts payable and accrued expenses in the accompanying consolidated balance sheets

WFSI has adopted the provisions of ASU 2010-24 The estimated workers' compensation insurance recoveries was $1,838 and $1,318, and is included as a component of prepaid expenses and other, respectively, as of June 30, 2014 and 2013, respectively

All claims, premiums, and administrative expenses related to benefits are processed, recorded, and paid directly through WFSI, with the exception of commercially insured HMO's in Illinois and Colorado, life insurance for all associates and long-term disability coverage for executives and physicians Long-term disability coverage, which became commercially insured effective January 1, 2010

WFSI internally estimates the claims incurred but unreported as of the consolidated balance sheet dates for healthcare and other employee benefits Accrued healthcare and other benefits claims of approximately $18,403 and $17,746 at June 30, 2014 and 2013, respectively, consist of the estimated ultimate cost of reported claims and claims incurred but not reported as of the consolidated balance sheet dates and are included within accounts payable and accrued expenses Provisions for self-insured employee healthcare and other employee benefit claims amounted to approximately $94,816 and $97,330 for the years ended June 30, 2014 and 2013, respectively, and are included with salaries and fringe benefits expense in the accompanying consolidated statements of operations There was no impact to the consolidated financial statements for the adoption of ASU 2010-24 with respect to self-insured employee healthcare

(14) INTEGRATION AGREEMENTS AND INVESTMENTS IN UNCONSOLIDATED AFFILIATES

WFSI and certain subsidiaries also have investments in organizations that are not majority owned or controlled by WFSI organizations WFSI and its subsidiaries account for their investments in these organizations using the equity method of accounting The equity method of accounting is discontinued when the equity investment is reduced to zero unless WFSI or its subsidiaries has guaranteed the obligations of the organization or is committed to provide additional capital support

(a) Felician Services, Inc

In 2008, WFSI and Southeast Wisconsin Region entered into a Restated Integration Agreement with Felician Services, Inc (FSI) to better fulfill both WFSI's and FSI's commitment to the mission of the health ministry of the Roman Catholic Church The Restated Integration Agreement was retroactively effective

July 1, 2006 and gives Southeast Wisconsin Region authority to manage and direct the FSI-sponsored entities at (Wheaton Franciscan Healthcare – St Francis, Inc and Wheaton Franciscan Healthcare – Terrace at St Francis, Inc ,) The FSI-sponsored entities are consolidated by WFSI within the accompanying consolidated financial statements given the degree of control and economic interest that WFSI has over the FSI-sponsored entities

The Restated Integration Agreement provides FSI a put option that can be exercised by giving WFSI written notice The execution of the put option requires WFSI to pay FSI an acquisition price of $28,000 for the FSI-sponsored entities, which is accrued and included in other long-term liabilities in the accompanying consolidated balance sheets The put option has not been exercised as of June 30, 2014

(b) United Hospital System, Inc

Effective July 6, 1998, St Catherine's entered into an integration agreement with United Hospital System, Inc to operate as a single system through the formation of UHS, Inc (United) The intent of the integration was to facilitate the development and operation of a healthcare system for the Kenosha, Wisconsin regional community and reduce the cost of and duplication of services The integration agreement provides for the sharing of income or losses on a percentage basis of the consolidated results of operations

WFSI accounts for its 25% equity investment in United on the equity method of accounting WFSI has included its proportional share of United net income of $13,211 and $5,264 in 2014 and 2013, respectively, as other revenue in the accompanying consolidated statements of operations While WFSI received no cash distributions from United in 2014 or 2013, the proportional share of net income is used to reduce the balance due from WFSI to United As of and for the years ended June 30, 2014 and 2013, respectively, United Hospital System, Inc had total assets of $366,965 and $343,701, total net assets of $286,800 and $259,399, and revenue of $301,297 and $287,150

As of June 30, 2014, St Catherine's has substantially finished an expansion project, which is being partially funded by United As of June 30, 2014 and 2013, a due to United in the amount of $31,989 and $49,527, respectively, for repayment of construction advances is included in accounts payable and accrued expenses in the accompanying consolidated balance sheets

(c) Midwest Orthopedic Specialty Hospital, LLC (MOSH)

MOSH, a joint venture entity, was formed in late 2008 to own and operate an orthopedic specialty hospital located on the second floor of the Wheaton Franciscan Healthcare – Franklin (WFH-Franklin) MOSH was granted its hospital license by the State of Wisconsin and opened for operations effective July 31, 2009 The members of MOSH are WFH-Southeast Wisconsin, Inc and TS Ortho, LLC, an independent physician-owned entity Each member has a 50% ownership interest in MOSH

As of June 30, 2014 and 2013, respectively, MOSH has total assets of $45,500 and $46,840, member equity of $42,156 and $43,393, and total revenue of $77,320 and $75,121 WFH accounts for its 50% interest in MOSH under the equity method of accounting For the years ended June 30, 2014 and 2013, WFSI has included its proportional share of MOSH's net income of $18,492 and $18,863, respectively, as other operating revenue in the accompanying consolidated statements of operations Distributions are

(In thousands)

payable by MOSH at the discretion of the joint venture's board of managers WFH received cash distributions of $19,250 and $18,500 from the joint venture during 2014 and 2013, respectively

(15) COMMITMENTS AND CONTINGENCIES

(a) Operating Leases

WFSI and its subsidiaries have entered into various contracts for operating leases of office space, buildings, and equipment During 2014 and 2013, WFSI and its subsidiaries recognized $10,206 and $10,747, respectively, of lease expense under these agreements

As of June 30, 2014, scheduled annual contractual payments under operating leases for the next five years and thereafter are as follows

Year ending June 30		
2015	$	6,682
2016		5,361
2017		4,063
2018		3,672
2019		2,937
Thereafter		10,108
	$	32,823

(b) Housing Contingencies

FMI has entered into multiple Capital Advance Program Mortgage Notes (the Notes) in the amount of $17,100 The Notes bear no interest and repayment is not required as long as the housing projects remain available to low-income, elderly, or disabled persons in accordance with the National Affordable Housing Act of 1990 and are operated in accordance with the Regulatory Agreements and HUD Regulations The Notes are secured by the mortgage upon the land, building, and equipment, and other amounts held by FMI. If a default occurs under the terms of the Notes, mortgages, the Regulatory Agreements, or the regulations, the entire principal and interest accrued at the stated rate would become immediately due and payable without notice These Notes have been recorded as a direct addition to unrestricted net assets in the year received FMI has not entered into any new notes in 2014 or 2013

FMI has also entered into agreements with various federal and state agencies whereby FMI received grants In connection with these grants, FMI must not, among other things, dispose of any property under its control that was acquired and/or improved with grant funds for a period between 15 and 40 years In the event of noncompliance, FMI would reimburse the agency the current fair market value of the property, less any portion of the value attributable to expenditures of nongrant funds for acquisition of, or improvement to, the property These grants have been recorded as a direct addition to unrestricted net assets in the year received. Management believes FMI is in compliance with the grant agreements as of

June 30, 2014 and 2013 and no amounts have been accrued in the accompanying consolidated balance sheets

FMI refinanced Assisi Homes – Batavia Apartments, Inc , a wholly owned entity, on October 31, 2012 Management is working with HUD to amend its Use Agreement with final resolution expected during 2014

(c) Litigation

WFSI and its subsidiaries are involved in litigation arising in the ordinary course of business In the opinion of management, after consultation with legal counsel, the ultimate resolution of professional liability and other litigation matters will not have a material effect on the consolidated financial position or results from operations of WFSI and its subsidiaries

(d) State Sales and Property Tax Exemption

Local taxing authorities throughout the country are increasingly challenging the sales and real estate tax exemptions of not-for-profit healthcare providers.

The State of Illinois has revoked and/or is currently reviewing the ongoing property and sales tax exemption of several Illinois Hospitals (unrelated to Wheaton Franciscan Healthcare) The State's focus has been exclusively on the level of free or discounted care being provided by the hospital Other charitable factors, such as the level of government payors and/or other community services provided by the hospitals, are generally not being considered by the State as factors relevant to exemption As of September 2013, the state of Illinois requires hospitals to report the value of services or activities provided by the hospital compared to the value of the estimated property tax bill

(e) Legal, Regulatory, and Other Contingencies and Commitments

The laws and regulations governing the Medicare, Medicaid, and other government healthcare programs are extremely complex and subject to interpretation, making compliance an ongoing challenge for WFSI and other healthcare organizations Recently the federal government has increased its enforcement activity, including audits and investigations related to billing practices, clinical documentation, and related matters WFSI maintains a compliance program designed to educate employees and to detect and correct possible violations

In 2014 and 2013, WFSI received and expects to receive future notices from the Medicare program requiring that they provide Medicare with documentation for claims to carry out the Recovery Audit Contract (RAC) program WFSI is responding to these requests Review of claims through the RAC program may result in a liability to the Medicare program and could have an adverse impact on the WFSI's net patient service revenue

(f) The Patient Protection and Affordable Care Act

The Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010 (often referred to, collectively, as the Affordable Care Act of the healthcare

reform law), was signed into law on March 23, 2010 The statute will change how healthcare services are delivered and reimbursed through a variety of mechanisms The law contains stronger antifraud enforcement provisions and provides additional funding for enforcement activity

On May 6, 2011, CMS issued a final rule establishing a value-based purchasing program for acute care hospitals paid under the Medicare Inpatient Prospective Payment System Beginning in federal fiscal year 2013, value-based incentive payments will be made based upon a provider's achievement of or improvement in a set of clinical and quality measures designed to foster improved clinical outcomes The VBP started with a 1% reduction in Medicare inpatient payments in federal fiscal year 2013 that will increase annually by 0 25% up to 2% of payments by federal fiscal year 2017 These value-based incentives will be withheld and redistributed based on the hospital performance WFSI continues to monitor the impact of this and other legislation as these regulations become finalized and placed into action

The Budget Control Act of 2011 (BCA) mandated significant reductions and spending caps on the federal budget for fiscal years 2012 through 2021 The BCA also created a joint select committee on deficit reduction (the Super Committee) to develop a plan to further reduce the federal deficit Since the Super Committee failed to act before the mandatory deadline, a 2% reduction in Medicare spending, among other reductions, was to take effect January 1, 2013 in a process known as Sequestration The BCA also required a 26 5% reduction in the sustainable growth rate formula regarding physician reimbursement under Medicare to be effective January 1, 2013

On January 2, 2013, the President signed into law the American Taxpayers Relief Act (ATRA), which delayed Sequestration until March 1, 2013 and is now in effect as of March 1, 2013 and will continue until Congress takes further action The ATRA delays the reduction in physician reimbursements until 2014 As such, only the 2% reduction for nonphysician payments was effective April 1, 2013 On April 1, 2014, the President signed into law the Protecting Access to Medicare Act of 2014, which further delayed any cuts to Medicare reimbursements rates to physicians until March 2015.

WFSI continues to monitor the impact of these regulations

(g) Investment Risks and Uncertainties

WFSI invests in various investment securities Investment securities are exposed to various risks such as interest rate, credit, and overall market volatility risks Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying consolidated balance sheets

(16) SUBSEQUENT EVENTS

WFSI evaluated events and transactions through October 22, 2014, which is the date the consolidated financial statements were issued, noting no subsequent events other than those as previously described in the preceding notes, requiring recording or disclosure in the consolidated financial statements or related notes to the consolidated financial statements
