**Part IV Supplemental Information.** Provide the information required in Part I, line 2, Part III, column (b), and any other additional information.

Part I Grants are available to a small number of SART teams in Minnesota. Team coordinators submit a request for minigrant expenditures.

— both what they want to accomplish with the funds and how much funding they need. Grantees receive on average less than \$2000/year.

Once the request is approved, the team implements their plan. When completed, the team submits a request for reimbursement including

documentation for all expenses. Those are reviewed and approved before reimbursement is made. Staff members are in monthly in-person

contact with the teams and receive ongoing reports about progress of the approved project.

## Form 990 Part III: Statement of Program Service Accomplishments

### **Sexual Violence Prevention Minnesota Department of Health (MDH)**

The goal of sexual violence prevention is to change the social discourse and environment so that our response to sexual violence is before rather than after the harm occurs. With a primary prevention agenda our goal is to prevent the perpetration of sexual violence. By framing our work as such we make it clear that our focus is on what causes one to perpetrate sexual harm and how we go about intervening in the community, social and family factors that contribute to perpetration. We are clear that the onus for stopping the harm is on those who cause harm, those who excuse or ignore the harm of perpetration: the onus for stopping sexual harm is not on the victims – adult or children. To this end, our ongoing collaboration with the Minnesota Department of Health and other prevention partners informs these activities. This work is supported primarily by MDH funds. Bringing new allies and partners into the prevention work is critical to its success across Minnesota. During FY 2014, we continued on our goal of bringing in new supporters from various sectors which are not typically involved in the issue of sexual violence. We hosted a day long *Demand the Change for Children* at Mall of America where we highlighted family and child friendly activities and entertainment to draw adults and children into conversation about how we can foster social change that promises healthy families and communities for all children. We have supported the state prevention plan by attending monthly leadership team meetings; monthly staff leadership coordination sessions; and co-hosting and presenting at quarterly Sexual Violence Prevention Network meetings. We worked collaboratively with MDH staff and other MDH partners to develop local community capacity to develop and implement primary prevention strategies and plans. We have worked with those are charged with designing effective sex offender management strategies to identify where sex offender supervision and prevention intersect. We also collaborated with the MN Men's Action Network in supporting two Minnesota communities engaged in community based work to stop sexual violence. We work collaboratively with the MN Indian women's Sexual Assault Coalition, MN Coalition for Battered Women, the Sacred Hoop Coalition and others to ensure that our prevention strategies gather input from diverse communities in the state. We provided ongoing training and technical assistance to 52 rape crisis centers serving 78 counties and allied organizations across Minnesota to enhance their capacity as prevention educators and catalysts of change. We are committed to making the prevention of sexual violence a priority in Minnesota and the funding and collaboration with the Minnesota Department of Health makes that possible.

### **Sexual Violence Justice Institute (SVJI) Minnesota SMART Team Funding MN Office of Justice Programs**

In recognition of the significant barriers which sexual assault victims face when considering their options MNCASA began playing a large role in helping Minnesota SART teams develop collaborative processes that could enhance their ability to be more victim-centered in their response to reported cases of rape. We received funding from the State of Minnesota, Office of Justice Programs for the ***Sexual Violence Justice Institute***, the program of MNCASA that works with the multidisciplinary teams and other communities interested in enhancing their multidisciplinary response to incidents of sexual assault. In Minnesota we work with 12 teams across the state as they assess their community needs and status of the current response to incidents of sexual violence; develop and implement protocols built on best practice models; train

responders; and monitor and evaluate their work. We provided training and consultation to each team regarding their processes; brought key team members together to learn from one another; supported the site coordinators as they learned best practices regarding process facilitation and group dynamics. Much of our work was on site with the teams' monthly meetings. We also conducted webinars, teleconference meetings with site coordinators, and issued training materials and documents to assist on emerging issues; maintained an updated website for ready access to resources. The SVJI also sponsored trainings and resources for prosecutors and law enforcement officers regarding promising and best practices in the investigation and prosecution of sexual assault cases. We provided training to sexual assault advocates who are providing legal advocacy to survivors. We continue to work to implement best and promising practices regarding the accessibility and quality of forensic examiner programs as delineated by state law and federal rules. We also support the use of expert testimony in sexual assault cases and provide resources to build the capacity of advocates and others to serve as expert witnesses. Throughout the year we collaborated with many partners in the criminal justice world including the MN County Attorneys Association, The Police Chiefs Association, The Minnesota Sheriffs Association, MN Bureau of Criminal Apprehension, the Minnesota Hospital Association, the Minnesota Chapter of the International Association of Forensic Nurses, prosecutors, advocates, probation officers, and law enforcement officers across the state.

#### **Violence Against Women Act – Coalition Set Aside Grant Office on Violence Against Women**

The Violence Against Women Act created a targeted funding stream for sexual assault coalitions to ensure that rape crisis centers in each state has a larger umbrella organization which was focused on the statewide initiatives and resource development that small independent rape crisis centers could not manage. We are fortunate to be able to support strong coalition building with allied organizations and agencies to address the intersectionality of this issue with many others. In this capacity we work with other crime area coalitions, housing groups, criminal justice system professionals, those who create policy change and those who implement policy change on a local, state or institutional level. We are able to collaborate with partners to provide training to our members and to allied professionals such as Guardians ad Litem, law enforcement officers and prosecutors; to identify gaps in community response to survivors; and to elevate the statewide attention to the needs of survivors and the programs which serve them. With VAWA funds we have been able to gather the knowledge and resources to become the go-to organization in Minnesota with regard to sexual violence, child sexual abuse, sex trafficking, college campus sexual violence and collaborative responses to incidents of rape.

#### **Technical Assistance Grant, National SART Team Assistance Office on Violence Against Women**

Many states and counties are establishing sexual assault response teams to address long standing barriers that keep victims of rape from trusting that the criminal justice system will take their reports of rape seriously and will help them achieve justice. It is well known that multidisciplinary collaborative teams, while well intentioned, often are unable to identify how to work together to solve the significant problems that local jurisdictions face. The goal of the Technical Assistance project is to provide targeted support to these efforts based in MNCASA's years of experience in successfully supporting Sexual Assault Response Teams. This project serves grantees of the Office on Violence Against Women who are committed to establishing successful SART teams. The TA project provides ongoing consultation and support to teams in Louisiana, and Utah. The TA staff consult on an ongoing basis with many team members in communities across the US who are looking to enhance their teamwork and their victim centered approach to sexual assault response. We responded to referrals from the Grants to Encourage Arrest policies, Rural grantees and STOP grantees; conducted trainings at six national conferences; provided bi-monthly webinars on team coordination issues

for a national audience with an average of 35 participants each; developed training, evaluation and communication documents to help any jurisdiction which is attempting to begin a MD team.

### **Sexual Assault Audit and Technology Integration Project**

#### **Office of Justice Programs**

In recent years, an increasing amount of public attention has been placed on how the criminal justice system has handled sexual assault cases. Much of this interest has focused specifically on law enforcement agencies, stemming from questions about case classifications and the startlingly low number of sexual assault cases being fully investigated and referred for prosecution. For more background, see the Police Executive Research Forum's report [Improving the Police Response to Sexual Assault here](#).

Instead of seeing greater numbers of agencies fall subject to this set of circumstances, the Sexual Violence Justice Institute at the Minnesota Coalition Against Sexual Assault (SVJI @ MNCASA) and local law enforcement leaders were interested in exploring a more proactive approach. This alternate model would allow agencies to learn about their current response to sexual assault and identify ways to improve as part of their commitment to excellence. A proactive process may lead to information that could improve case outcomes and increase overall victim satisfaction. The Hastings Police Department stepped forward as a leader to engage in the learning process, agreeing to work with SVJI to study the nexus between sexual assault investigations, case file documentation, and case outcomes.

The project has been broken down into two separate phases. The first phase is devoted to information gathering as a way to assess the current response to sexual assault cases. This includes hearing from members of the department, local prosecutors, sexual assault advocates, and victims who reported sexual assault to the department. Additionally, a review of department data, response policies, and sexual assault case files will identify current strengths and opportunities for improvement. This information will be used to inform the second phase of the project which is devoted to improving the response by supplementing the tools officers use in documenting sexual assault case investigations, helping move officers through the complex decision-making required in sexual assault investigations, and putting recommended best practices for investigation and report writing at their fingertips.

### **Medical Forensic Exam Access Project**

#### **Office of Justice Programs**

With special funding from Minnesota's Office of Justice Programs at the Minnesota Department of Public Safety, SVJI@MNCASA recently began the Medical Forensic Exam Access (MFEA) Project. Medical forensic exams exist to provide victims with a medical and forensic evaluation after a sexual assault takes place. The first priority of the trained Sexual Assault Nurse Examiners (SANEs) or healthcare practitioners who conduct these exams should be to provide care for the patient via medical expertise; moreover, during these exams there is also opportunity to collect any evidence from the assault that might be present on the victim's body and/or clothing. The potential evidence collected during medical forensic exams might aid in the victim's law enforcement investigation or prosecution.

**SVJI@MNCASA's Medical Forensic Exam Access Project aims to improve consistency regarding forensic medical exam access, quality, and payment processes for sexual assault victims across the state of Minnesota.** Project activities will include:

- Creating and conducting regular trainings that demonstrate best practice for medical forensic exams to advocate groups, hospitals and clinics, and other multi-disciplinary organizations
- Creating and updating best practice models for medical forensic exams in rural MN areas
- Conducting regular site visits across the state regarding forensic compliance issues and concerns
- Creating and distributing a Sexual Assault Response Kit for hospitals and clinics without SANE involvement

- Maintaining on-line resources available 24/7 to SANEs and medical forensic examiners
- Designing and implementing a 24/7 live consultation phone line that SANEs, doctors, and nurses can access to consult with a highly-experienced SANE
- Reinstating the SANE Shadowing Program
- Tracking SANE and medical forensic exam response data as well as medical expert testimony experiences
- Organizing and facilitating roundtable discussions with area experts regarding underserved populations and their access (or lack thereof) to forensic medical exams

## **MN Model Protocol for Response to Sex Trafficking Ramsey County Attorney's office**

Minors are sold for sex every day, throughout Minnesota, in towns and cities, at truck stops and motels, in cabins, apartments, and houses. Although these children regularly interact with law enforcement, child protection, corrections, schools, medical facilities, social service agencies, and others, **they are often overlooked or misidentified**. Minnesota's Safe Harbor for Sexually Exploited Youth Law, effective August 1, 2014, is designed to ensure that juveniles who are sexually exploited or at risk of exploitation are treated as victims under Minnesota law. Safe Harbor creates a **system of response called "No Wrong Door" to identify child victims of sexual exploitation and move them towards recovery and healing**, while holding the true criminals – the traffickers and purchasers of these children – responsible for their actions.

The Legislature has tasked the Ramsey County Attorney's Office with leading statewide efforts to enhance our comprehensive, systemic response to sex trafficking and exploitation. The involvement of systems professionals and community members from throughout Minnesota is key to our success.

The Safe Harbor Statewide Model Protocol Project is led by SVJI in cooperation with the Ramsey County Attorney's Office and community partners. The 18-month project is focused on developing a model statewide protocol that can be adapted in communities throughout the state. Using a victim-centered approach, the protocol will address issues affecting prosecution, law enforcement, health care, advocacy, social services, child protection/child welfare, schools and corrections.

## **Ms. Foundation for Women**

The Ms. Foundation has long recognized that child sexual abuse is embedded into many intractable social issues facing families and communities and believes true justice is prevention. That's why they take a lead role to end child sexual abuse by supporting innovative and practical approaches to prevention, and ignite lasting cultural change. With support from the Ms. Foundation, we have focused our efforts on influencing legislative policy at the state level to make sexual violence and child sexual abuse prevention a Minnesota priority. These efforts include both advocacy/direct lobbying of policy makers and honoring and engaging the voices of those affected by sexual violence to build a movement of people committed to ending sexual violence. During FY14 we focused on these objectives: improve grassroots advocacy capacities; win the support of a targeted network of state elected officials; and strengthen coalition partnerships. This project expanded the statewide network of grassroots advocates created through Demand the Change for Children, and put the network into action to advocate for child sexual abuse and sexual violence prevention. The project also trained, organized, and supported a network of survivors capable of telling their stories in public policy and media advocacy contexts with a strong prevention message.

### **\*Champion Communities/Training**

This project focused on building the capacity of local communities to create collaborative efforts to prevent sexual violence before anyone is harmed. In addition to working with two pilot communities (Bemidji and Winona) providing intensive technical assistance and consultation, the project provided webinars and tools to communities throughout the state who were interested in building their primary prevention capacity. Two statewide trainings were also provided to address key topics that contribute to disproportional impact of sexual violence on various populations based on race or gender.
