3 Did the organization cease conducting, or make significant changes in how it conducts, any program services? ☐ Yes ☒ No

If "Yes," describe these changes on Schedule O.

4 Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. Assist landowners and operators to plan implement natural resources conservation measures. Such assistance includes technical advice and cost-share. Primary areas of concentration are soil, air, and water quality; animal and plant nutrient management; grazing lands management; wetlands conservation; and wildlife habitat. Staff assisted producers in designing and installing nutrient management systems; management plans were also developed and monitored. Staff worked with these producers to ensure they understand the proper procedure for collecting manure samples and how to properly apply the manure according to plant uptake needs. Wetlands were created or expanded, with accompanying acres receiving grazing management planning. Grazing management technical assistance was provided to producers, interested individuals learned more about grassland birds through a bird tour and producers participated in a three-day grazing school to learn about grazing management techniques. Residents of targeted watersheds received information, technical advice and cost-share in order to address water quality impairments, soil health, and conservation stewardship initiatives.

4b (Code:) (Expenses \$ 791,743 including grants of \$ 0) (Revenue \$ 757,027)

Cooperated with the State of South Dakota and three conservation districts to address a mountain pine beetle infestation in the Black Hills. Staff marked, with paint, those trees infested by the beetle and that should be removed. Producers were then eligible for State cost-share programs to assist them in removing the trees. Staff also worked in Custer State Park paint-marking trees that the State then contracted with others to remove. Most of this project's staff were seasonal but one remained year-round to assist the State in follow-up on those involved in the tree removal cost-share programs.

4c (Code:) (Expenses \$ 36,824 including grants of \$ 7,952) (Revenue \$ 30,923)

Educate the public and Association members on natural resources conservation issues and available programs. The Association sponsored or co-sponsored several education events. Multiple leadership development sessions for conservation district officials and staff were conducted. The Association assisted SD Ag in the Classroom to incorporate environmental education activities in their curriculum. The Association cooperated with the South Dakota State University Ag-Bio Prexy Council to raise awareness of agriculture and natural resources stewardship through their Ag Day activities on campus. In cooperation with governmental and non-governmental partners, education efforts increased on the importance of healthy soils for production and sustainability. The Association continued their involvement in raising awareness of renewable energy issues, opportunities and challenges. The Association provided a grant to South Dakota State University to conduct tree research.

Part IV Supplemental Information

Provide the descriptions required for Part I-A, line 1; Part I-B, line 4; Part I-C, line 5; Part II-A (affiliated group list); Part II-A, line 2; and Part II-B, line 1. Also, complete this part for any additional information.

Part I-A, line 1: The State of South Dakota requires anyone representing an organization to register as a lobbyist in order to speak on behalf of the organization before a legislative committee. The Association registered the executive director and the president of the board of directors as lobbyists so that they might appear before legislative committees on behalf of the Association and its members. During the legislative session, the primary activity of the Association was to monitor legislative activities and report on a weekly basis to the Association's membership. This report took the form of an e-mail sent to each conservation district office. It is a concise report of selected legislation that might be of interest to the members and did not usually encourage or solicit action by the conservation district. The Association's registered lobbyists provided limited testimony (less than fifteen times) to legislative committees; this testimony was

Part IV Supplemental Information *(continued)*

normally to update the committee on the activities of the conservation districts in assisting with the programs the committee had jurisdiction over.

Nationally, the Association kept members informed on possible and pending legislation and rules and how they might affect the conservation district's activities. Information received from various groups was usually forwarded to the conservation district's e-mail accounts via the Internet; in some instances, the Association may include a brief analysis of the information. The Association encouraged its members to stay informed on political issues and become engaged, as the member deemed appropriate, in the discussion. The Association's executive director has some contact in the form of e-mail and phone calls, with the Congressional offices, primarily at the initiation of the Congressional staff.

The Association incurred few expenses in the activity since Internet access is readily available for general activities. \$120.00 was paid to the Secretary of State for two lobbyist registrations. Staff time was estimated at one hour per week when the SD Legislature was not in session (46 weeks) and 16 hours per week during SD Legislature session (6 weeks) for a total of 142 hours and estimated value of \$4,970 at \$35/hour.
