Independent Auditor's Report

To the Board of Directors of Beebe Medical Center, Inc.:

We have audited the accompanying consolidated financial statements of Beebe Medical Center, Inc. (the "Company"), which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations and change in net assets and of cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company at June 30, 2014 and 2013, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual companies and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and cash flows of the individual companies.

1. Summary of Significant Accounting Policies

Organization and Basis of Presentation

Beebe Medical Center, Inc. (the "Medical Center" or "Beebe") is a not-for-profit, tax-exempt organization under Section 501(c) (3) of the Internal Revenue Code and is incorporated in Delaware. The Medical Center, located in Lewes, Delaware, is the sole member of or controls the following affiliates. Beebe Physician Network, Inc. ("BPN"), Beebe Medical Foundation (the "Foundation") and Delmarva Health Network, LLC ("DHN"), collectively, "the System". The System generally treats patients from Sussex County, Delaware and surrounding areas. Expenses of the System have primarily been incurred in connection with the delivery of health care services to the community.

The Foundation is a not-for-profit, tax-exempt corporation, which engages in fundraising activities for the benefit of the Medical Center

BPN is a not-for-profit tax-exempt corporation that operates a physician network providing integrated physician services in coordination with the Medical Center BPN operates a hospitalist program and fifteen specialty practices, employing 53 physicians as of June 30, 2014

DHN is an accountable-care organization ("ACO") created as a Delaware limited liability company in May 2013 to coordinate patient care and manage chronic diseases to improve patient outcomes and patient experience. Though BMC is the sole member there are 38 physicians in eight primary care practices, one additional hospital and one federally qualified health center participating in the ACO. As the sole member BMC includes DHN as a consolidated affiliate.

Beebe also entered into a partnership with Pure HealthyBack, LLC in October 2013, to form Beebe HealthyBack, LLC ("BHB") BHB was formed to provide a specialized chronic back and neck treatment program in Beebe's service area. Beebe owns a 50% interest and has adopted the equity method for recording its interest in BHB as equity in unconsolidated affiliate in the Consolidating Statement of Operations and Changes in Net Assets.

The consolidated financial statements of Beebe Medical Center, Inc. include the Medical Center, the Foundation, DHN and BPN. All significant inter-company transactions and accounts have been eliminated.

Subsequent events have been evaluated through November 20, 2014, the date the financial statements were issued

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Significant estimates made by management include the estimated net realizable value of patient receivables, valuation of certain investments, and actuarially determined pension and other post-retirement benefits, malpractice and self-insurance reserves.

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid debt instruments with original maturities of three months or less, excluding amounts limited as to use by board designation or donor restrictions or other arrangements under trust agreements

Inventories

Inventories are valued at cost using the FIFO costing method and represent approximately 9% of Total Current Assets

Investments

Investments in equity and debt securities with readily determinable fair values are measured at fair value. Fair values are based on quoted market prices. Investment income on assets limited as to use under bond indenture agreement is recorded as other revenue. All other investment income and realized gains and losses on investments are recorded as non-operating gains and losses, or as a change to temporarily or permanently restricted net assets, if such income is restricted by the donor. Unrealized gains and losses on all investments are excluded from the excess of revenues and gains over expenses and reported as a separate component of changes in net assets, except when market value of a security has declined below cost and is deemed to be other than temporary, impairment has occurred and this is included in excess of revenues and gains over expenses.

Assets Limited as to Use

Assets limited as to use by the Board of Directors (the "Board") are resources that have been designated by the Board for specific purposes. Assets limited as to use under the bond indenture agreement are held by a trustee in a project fund to be used to fund construction expenditures or in a debt service reserve fund. Amounts required to meet current liabilities of the Medical Center under the bond indenture have been classified as current assets in the Consolidated Balance Sheets. The bond indenture agreement requires the Medical Center to maintain, under certain conditions, the debt service reserve fund in amounts defined by the agreement. Assets limited as to use externally restricted by donors are held until the donor restrictions have been met

Property and Equipment

Property and equipment acquisitions are recorded at cost. Useful lives are determined using the American Hospital Association's "Estimated Useful Lives of Depreciable Hospital Assets" guide Depreciation is provided over the estimated useful life of each class of depreciable assets and is computed using the straight-line method. Interest costs associated with the construction of certain capital assets is capitalized and amortized over the life of the asset being depreciated.

Capital leases are recognized as an asset and also as a liability for future payments to be made on the leased asset in the month the equipment is put into service. The lease is recognized on the Statement of Operations through depreciation expense and interest expense associated with the lease payment as well. All of the System's capital leases are on major movable equipment.

Beneficial Interest in Perpetual Trust and Assets Held in Charitable Trusts

Beneficial interest in perpetual trust represents the Medical Center's beneficial interest in a perpetual trust, which is administered by an independent trustee. Because the trust is perpetual and the original corpus cannot be violated, it is reported as permanently restricted net assets. The Medical Center and the Foundation have also entered into charitable remainder trust arrangements with donors, the terms of which generally provide for an annual distribution to a donor beneficiary for their lifetime, after which the assets are distributed to the Medical Center or the Foundation Assets held in charitable trusts have been recorded net of estimated present value of expected future cash flows to be paid to the beneficiary.

Other Assets

Included in other assets are net deferred bond issuance costs and goodwill. The bond issuance costs consist of original issue discount, underwriter's commission, and deferred financing costs, and are being amortized over the life of the bond issues, using the bonds outstanding method

Effective fiscal year 2011 goodwill is no longer amortized but instead is subject to periodic impairment evaluations. Beebe's most recent impairment assessment was completed as of June 30, 2014, which indicated that there was no impairment with respect to goodwill. In performing periodic impairment tests, the fair value of the System is compared to its carrying value, including goodwill. If the carrying value exceeds the fair value, an impairment condition exists, which results in an additional fair value review of all assets and an impairment loss would result impairment tests are required to be conducted at least annually, or when events or conditions occur that might suggest a possible impairment. These events or conditions include, but are not limited to, a significant adverse change in business environment, regulatory environment or legal factors, a current period operating or cash flow loss combined with a history of such losses or a projection of continuing losses, or a sale or disposition of a significant portion of a reporting unit

To determine the fair value of its reporting units, the System used a discounted cash flow approach Included in this analysis are assumptions regarding revenue growth, future operating margin estimates, cost of service expense rates and a weighted average cost of capital Beebe also must estimate residual values at the end of the forecast period and future capital expenditure requirements. If any of the above assumptions changes or fails to materialize, the resulting decline in Beebe's estimated fair value could result in a material impairment charge to goodwill. Goodwill of \$3,104,085 is included in Other Assets as of June 30, 2014 and 2013.

Medical Malpractice Insurance

The System is insured for medical malpractice incidents through a claims-made policy. The provision for estimated medical malpractice claims includes actuarially determined estimates of the ultimate costs for both reported claims and incurred but not reported claims.

Excess of Revenues and Gains over Expenses and Changes in Unrestricted Net Assets

The Consolidated Statements of Operations and Changes in Unrestricted Net Assets include the excess of revenues and gains over expenses. Changes in unrestricted net assets excluded from excess of revenues and gains over expenses and losses, consistent with industry practice, include net unrealized gains and losses on investments to the extent such losses are considered temporary, contributions for long-lived assets, discontinued operations, and changes to the pension and postretirement liabilities.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to fund the acquisition of specific property and equipment expansion projects. Permanently restricted net assets consist of assets that have been restricted by a donor to be maintained in perpetuity. Changes in restricted net assets include investment gains, contributions and net assets released from restrictions for fixed asset purchases.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time

restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations and changes in net assets as net assets released from restrictions

Reclassifications

Certain prior-year balances have been reclassified to conform to the current presentation

Fair Value Measurements

During fiscal year 2009, the System adopted Accounting Standards Codification 820, Fair Value Measurements and Disclosures ("ASC 820") for financial assets and liabilities. ASC 820 defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. Although the adoption of ASC 820 did not change the System's valuation of assets or liabilities, the System is now required to provide additional disclosures as part of their financial statements.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date ASC 820 also establishes a fair value hierarchy that classifies the inputs to valuation techniques used to measure fair value into one of the following three levels

- Level 1 Unadjusted quoted prices in active markets for identical assets, exchange traded securities and mutual funds with quoted prices or liabilities
- Level 2 Inputs other than quoted prices that is observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active
- Level 3 Unobservable inputs derived from extrapolation or interpolation that cannot be substantiated by market data including other investment manager specific inputs such as projected cash flows

The carrying amounts reported on the consolidated balance sheets for cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate their fair value. The fair value of assets limited as to use and investments are included in Note 6. The fair value of long-term obligations is calculated based upon yields available in the quoted market for bonds or debt of similar quality. The carrying amount and the estimated fair value of the Medical Center's long-term obligations are included in Note 10.

2. Litigation

On December 16, 2008, Dr Earl Bradley, a former privileged physician at Beebe was arrested. He was later convicted of having sexually molested more than eighty-five children. Over time, hundreds of lawsuits were filed against Beebe, resulting ultimately in the certification of those claims as a class action on April 6, 2011. Almost immediately following class certification, Beebe, its insurance carriers and class counsel representing all Plaintiffs agreed to participate in joint mediation to determine whether their competing interests could be reconciled and settlement be achieved. In October 2012, the parties announced a tentative settlement of all issues, subject to Court approval, which was determined at a fairness hearing on November 13, 2012.

The agreed upon settlement required Beebe's insurance carriers to pay a total of \$111,796,542 into a fund created on behalf of the Plaintiffs Beebe is also required to contribute an additional

\$100,000 a year for the next five (5) years and provide as much as \$1,000,000 dollars in free medical care to Bradley victims over the next 15 years

In connection with the settlement, as of June 30, 2012, Beebe recorded a total liability of \$120,000,000, of which \$118,600,000 was recorded in Accrued Litigation Settlement and \$1,400,000 was recorded in Other Liabilities on the Balance Sheet. Of Beebe's contribution of \$6,703,458, \$2,543,548 was recorded as Other Operating Expense in fiscal year 2012. Beebe also recorded current assets limited as to use of \$14,703,458, which included \$8,000,000 of insurance proceeds received and Beebe's contribution of \$6,703,458 as of June 30, 2012. The remaining portion of the settlement was funded by Beebe's insurance carriers, \$103,796,542 was recorded as an insurance settlement receivable.

Of the total \$103,796,542 insurance settlement receivable recorded as of June 30, 2012, \$26,000,000 was received by Beebe during fiscal year 2013 and \$77,796,542 was paid directly into the trust fund by Beebe's insurance carriers. Beebe paid \$40,703,458 into the trust fund, which represents Beebe's contribution of \$6,703,458, the \$8,000,000 of insurance proceeds received in fiscal year 2012, and the \$26,000,000 of insurance proceeds received in fiscal year 2013. These amounts were deposited into the settlement fund on November 5, 2012. The remaining liability of \$1,400,000 is primarily recorded in Other Liabilities on the Balance Sheet as of June 30, 2014.

3. Charity Care

The System provides care to patients who meet certain criteria under its charity care policy at amounts less than its established rates. Because the System does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

The System maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges forgone for services and supplies furnished under its charity care policy, and the estimated cost of those services and supplies.

The following information measures the level of charity care provided during the years ended June 30, 2014 and 2013

Estimated costs and expenses incurred to provide charity care

2014

2013

\$ 6,752,158 \$ 6,111,629

4. Net Patient Service Revenue

The System has agreements with third-party payers that provide for payments to the System at amounts different from its established rates. A summary of the payment arrangements of the third-party payers with which the System transacts a significant volume of business follows.

Medicare and Medicaid

Inpatient acute care services rendered to and defined capital costs related to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Outpatient payments are primarily based on a combination of prospectively determined ambulatory payment classifications ("APC's") and fee schedules. Nursing education costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology subject to certain limitations.

The Medical Center is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Medical Center and audits thereof by the Medicare fiscal intermediary. The Medicare cost reports have been audited and settled by the Medicare fiscal intermediary through June 30, 2009.

Delaware Health and Social Services has contracted with managed care companies for the provision of health care services to Medicaid beneficiaries. One managed care company has, in turn, contracted with the System for the provision of physician, acute inpatient and outpatient services under which the System is generally paid based upon inpatient case rates, subject to outlier payments, outpatient percentage of charges, emergency fee schedule and physician services fee schedule. The other managed care company reimburses all inpatient and outpatient services as a percentage of charges.

In the opinion of management, adequate provision has been made for any adjustments that may result from final settlement of Medicare and Medicaid cost reports. Net patient service revenue increased approximately \$1,623,387 and \$1,277,268 in 2014 and 2013, respectively, as a result of favorable adjustments to estimates previously recorded applicable to prior-year third-party cost reports.

Revenues from the Medicare and Medicaid programs accounted for approximately 42% and 11%, respectively, of the System's net patient service revenues from continuing operations for the year ended June 30, 2014, and 39% and 12%, respectively, for the year ended June 30, 2013 Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The System believes that it is in compliance with all applicable laws and regulations. System management is not aware of any pending or threatened investigations involving allegations of wrongdoing. Compliance with such laws and regulations is always subject to future government review and interpretations as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs.

Provision for Bad Debt Expense

The provision for bad debt expense is based on management's assessment of expected net collections considering economic conditions, historical experience, trends in health care coverage and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for uncollectible accounts based on historical write-off experience by payer category, including not covered by insurances, and historical cash collections. The result of these reviews are then used to make modifications to the provision of bad debt expense to establish an appropriate allowance for uncollectible accounts and is recorded in the period of service. No significant modifications were made for fiscal years 2014 and 2013. After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the System follows established guidelines for placing certain past-due patient balances with collection agencies, subject to terms of certain restrictions on collection efforts as determined by the System Account receivables are written off after collection efforts have been followed in accordance with System policy.

The following tables present a detail of net patient revenue by payer, including self-pay amounts.

	2014	2013
Medicare	42 07 %	39 85 %
Medicaid	11 32 %	11 71 %

		Payors	Self-Pay	All Payors		
Net Patient Service Revenue	\$	307,355,356	\$ 4,447,965	\$	311,803,321	

Commercial Insurance

The System has contracted with Blue Cross of Delaware, commercial insurers, carriers, and health maintenance organizations. The basis for payment to the System for covered inpatient, outpatient and physician services under these agreements includes discounted charges or fee schedules for certain outpatient services and physician services subject to co-pay and deductible provisions of policies

5. Other Revenues

Other operating revenue consists mainly of income received from the operation of an employee cafeteria and deli, an adult daycare center, tuition for the school of nursing, property rentals, wellness clinics at local high schools, distributions from group purchasing organizations and interest income on debt service reserve funds. During 2014 BMC settled on the McKesson EMR litigation in the amount of \$4,152,170 consisting of \$1,500,000 in cash and \$2,652,170 in accounts payable forgiven.

8. Endowments

In 2009, the System adopted ASC 958-205 *Not-for-Profit Entities Presentation of Financial Statements* ("ASC 958-205") The standard provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization and disclosures about an organization's endowment

The System's endowment includes approximately fifteen individual donor-restricted endowment funds and three funds designated by the Board of Directors to function as endowments. The net assets associated with endowment funds including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor restrictions

The System's interpretation of the State of Delaware enacted version of the Uniform Prudent Management of Institutional Funds Act ("UPMIFA") requires a not-for-profit organization to classify a portion of donor-restricted endowment fund of perpetual endurance as permanently restricted net assets. The amount classified as permanently restricted is the amount of the fund that must be retained permanently in accordance with explicit donor stipulations or the organization's board determines must be retained permanently consistent with the relevant law. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the System in a manner consistent with the standard of prudence prescribed by UPMIFA

In accordance with UPMIFA, the System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds

- a The duration and preservation of the fund
- b The purpose of the organization and the donor-restricted endowment fund
- c General economic conditions
- d The possible effect of inflation and deflation
- e The expected total return from income and appreciation of investments
- f Other resources of the organization
- g Investment policies of the organization

Endowment funds are categorized in the following net asset classes as of June 30

Endowments with Eroded Corpus

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature that are reported in unrestricted net assets were \$0 as of June 30, 2014 and \$391 as of June 30, 2013.

Return Objectives and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding for programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for a donor specified period as well as board-designated funds. Under this policy the endowment assets are invested in a manner that is intended to produce results that meet or exceed investment returns of a blended portfolio of 60%-70% equity/40%-30% fixed income as measured by the S&P 500 for equities and the Barclay's Capital Intermediate Government/Credit Bond Index for fixed income. The Foundation expects its endowment funds, over time, to provide an average rate of return of approximately 5% annually. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives

To satisfy its long term rate of return objectives, the Foundation relies on a total return strategy in which the investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on tactical fixed income investments. Due to the need for preservation of capital, the Foundation cannot position its portfolio too aggressively in equities.

9. Retirement Plans

The System has a noncontributory defined benefit pension plan covering substantially all of its employees. The benefits are based on years of service and the employees' compensation. The System's measurement date is June 30. The System makes contributions to the plan based upon actuarially determined amounts intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. During fiscal year 2014, the pension plan was amended by freezing the plan to any new employees hired on or after January 1,

2014. These employees will be offered a new Defined Contribution Plan that will have a similar plan design as the Defined Benefit Pension Plan. This would include a three-year vesting period and would not allow any loans. New employees would also be required to be employed for one year before being able to participate. In addition, the System sponsors a defined benefit health care plan that provides postretirement health care benefits to employees with at least 10 years of continuous service (working 1,000 hours in each year) and at least 55 years of age. During fiscal year 2012 the post-retirement plan was amended to replace retirees' health insurance coverage with a subsidy of \$2,000 per year (trended at 5% per year) to enter into a Medicare supplemental plan. During Fiscal Year 2013, the plan was closed and participants who were age 45 or older, with at least 10 years of service as of January 1, 2013, remained in the plan. The impact of these plan amendments reduced the projected benefit obligation by \$7,063,410 in fiscal year 2013.

The accumulated benefit obligation for the pension plan was \$72,962,387 and \$62,667,345 as of the measurement date for the current and prior year, respectively

On December 19, 2008, the Board approved a resolution, effective December 31, 2008, to improve pension benefits by (i) providing a minimum monthly benefit for all employees equal to \$100 per month, (ii) increasing the accrued benefit for certain employees by a stated dollar amount.

For fiscal 2014 disclosure, a 7 0% initial trend rate decreasing to a 5% ultimate trend rate of increase in the per capita cost of covered health care benefits was assumed for 2014. The ultimate trend rate will be reached in 2020.

For fiscal 2014 expense, a 7 0% initial trend rate decreasing to a 5% ultimate trend rate of increase in the per capita cost of covered health care benefits was assumed for 2014. The ultimate trend rate will be reached in 2018.

For 2014, post-retirement healthcare benefit current liabilities were expected benefit payments for fiscal 2015, which were \$1,027,144 Non-current liabilities are the net balance sheet liability less current liabilities or \$31,400,082 For 2013, current liabilities were expected benefit payments for fiscal 2014, which were \$834,792 Non-current liabilities were the net balance sheet liability less current liabilities or \$27,835,559

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plan. A one-percentage-point change in the assumed health care cost trend rate would have the following effects

The investment objectives of the Plan are to maintain the purchasing power of the assets and future contributions, to maintain the ability to pay all benefits and expense obligations when due, to maximize returns within prudent levels of risk, and to control the cost of administering the Plan and managing investments. The Plan's target asset allocation is based on a long-term perspective. The equity target is 60% and the fixed income target is 40% of portfolio assets. Certain types of investments are generally prohibited (e.g., private placements, commodities, real estate, derivatives and options, short and margin transactions). Professional investment managers manage the Plan's investment, and investment objectives include stability, capital preservation, and diversification, rate of return, investment quality, liquidity, and turnover. Investment managers report monthly to the Finance Committee. In selecting the expected long-term rate of return on assets, the System considered the asset allocation policy and the expected returns likely to be earned over the life of the Plan.

15. Commitments and Contingencies

General Litigation

The Medical Center is a defendant in various other civil actions seeking damages for alleged medical malpractice or other civil litigation. These actions are being defended by the Medical Center's insurance carriers or counsel selected by the Medical Center. Counsel to the Medical Center in those matters and management are of the opinion that failure of the Medical Center to prevail in these various actions will not materially adversely affect the financial position of the Medical Center.

Other

The Medical Center's billings will be subject to review by a Medicare Recovery Audit Contractor ("RAC") The RAC program is a CMS initiative to recover provider overpayments. The RAC can review any claim for up to three years prior to the current date. As a result of this initiative, the Medical Center has created a reserve of \$8,093,542 and \$8,420,843 at June 30, 2014 and 2013, respectively. This reserve is included in Estimated Third-party Settlements on the Balance Sheet. As a result of the Medical Center's continuing coding and billing self-audits, there were no refunded overpayments in fiscal years 2013 and 2014.
