Briefly describe the organization's mission

Operation Smile is a children's medical charity that has a presence in more than 60 countries to provide free, safe treatment and surgery for those who suffer from facial deformities such as cleft lip, cleft palate, and other surgically amenable conditions. The organization works to build self-sufficiency and sustainable healthcare infrastructures in our host countries. To do this, Operation Smile trains local doctors to treat children in their own communities, donates crucial medical equipment and supplies, builds public-private partnerships, and creates and mentors in-country Foundations to increase capacity. Operation Smile is committed to raising public awareness, educating, and serving as an advocate for children born with cleft lip and cleft palate, and the need for safe, well timed, and effective surgery. Through partnerships, Operation Smile is conducting research to ultimately help prevent the number of new children born with clefts by identifying the root causes. By inspiring

Medical Missions and Treatment. Operation Smile provides free, safe reconstructive surgery for children and adults suffering from clefts. Treatment is delivered in some of the most remote regions of the world by local and international medical volunteers during surgical programs, as well as through 36 Operation Smile centers that provide year-round patient care. The first medical mission in 1982 to the Philippines was the genesis by which the co-founders started the organization that exists today. Over its 32-year history, the organization has performed more than 200,000 surgeries. In the last fiscal year, Operation Smile hosted 174 medical missions in 124 sites around the world - including 27 new sites in some of the poorest regions of the world - and provided free surgical care for 16,626 children and adults. Nearly 71% of medical professionals who volunteered with Operation Smile last year were from low and middle income countries. Last year, Operation Smile's medical volunteers provided over 335,000 hours of free care for Operation Smile's patients. At our centers, over 100,000 specialty consultations were conducted last fiscal year, and over 34% of patients operated on last year received their surgery at one of these centers. Examples of additional services offered at these centers include post-operative care, counseling, speech therapy, dentistry, orthodontics, nutrition as well as ongoing training and education. Operation Smile's U.S. Care Network is a referral service available to families seeking care for children with cleft deformities in the United States. Last year, the U.S. Care Network attended to 194 people requesting assistance. Additionally, nine children whose deformities were too severe and complex to be cared for during an Operation Smile mission received treatment through our World Care program. Finally, Operation Smile provides a significant number of dental services to patients, in order to ensure comprehensive oral care. Last fiscal year, six dental missions were held and more than 11,000 dental procedures performed.

Public Education and Research. Operation Smile is dedicated to raising awareness of the life-threatening issue of clefts, as well as providing lasting solutions that allow children to be healed regardless of financial standing. Operation Smile advocates for safe surgery as a global health priority through partnerships with leading medical institutions and other nonprofit organizations around the world. To research the cause of clefting, Operation Smile engages in partnerships, so we can work toward reducing the incidence of clefts. For example, Operation Smile piloted the International Family Study to examine genetic characteristics of clefts. To educate the public and global communities about the issues surrounding clefts, Operation Smile conducts ongoing communications to create a greater awareness for the global need, as well as delivers messages that provide information and guidance for families on how to prevent clefts and what steps to take when a child is born with a cleft. Operation Smile has mobilized hundreds of thousands of medical, community and student volunteers worldwide to help us educate the public about the cleft cause. More than 900 student clubs and associations in over 50 countries channel their compassion and energies to help educate others while building core values of leadership and volunteerism, learning firsthand how they can create an impact in the world and help heal humanity. Training and Building Sustainability. Operation Smile continually advances its mission to build a self-sufficient global health network for the treatment of clefts. We do this by training healthcare providers around the world to give them the highly-specialized skills needed to provide treatment for the backlog of children already suffering from clefts, and for those babies who are born every day with this tragic facial deformity. In addition, the organization donates crucial medical equipment and supplies, develops public/private partnerships, and creates global, in-country Foundations that strengthen local development, raise funds and awareness as well as coordinate surgical programs. Operation Smile has also established 36 centers designed to provide year-round care and train medical volunteers to help increase in-country capacity. Through partnerships with the American Heart Association, as well as with leading medical and teaching institutions and foundations, healthcare professionals from developing countries receive evidence-based education, hands-on training and mentoring. Operation Smile also sponsored conferences, seminars, workshops, rotation programs, visiting professorships, exchanges, and short and long-term fellowships. To Operation Smile, students offer the energy and passion necessary to spark the ripple effect for change. Over 900 student clubs and associations in over 50 countries - from grade schools to universities - use their compassion and selflessness to help change children's lives. Operation Smile's Student Programs offer youth a unique opportunity to understand the importance of giving back to their communities and the world, and help them develop the skills necessary to do so. For example, hundreds of high school students from around the world volunteer on Operation Smile's surgical programs every year, providing education on burn care and prevention, oral rehydration therapy, dental hygiene, nutrition, and hand washing to inform local populations of basic healthcare that ultimately improves quality of life. Local in-country students also volunteer during surgical programs to serve as translators and help entertain and soothe patients during screening and in the recovery wards. Each year, Operation Smile also hosts the International Student Leadership Conference where students learn about leadership, character development, team building, and celebrate cultural diversity. In 2014, over 450 students from 25 different countries traveled to Limerick, Ireland where they gained a better understanding of global cultures and developed their skills as future philanthropic leaders.
