Report of Independent Auditors

The Board of Directors
San Juan Regional Medical Center, Inc

We have audited the accompanying consolidated financial statements of San Juan Regional Medical Center, Inc and Affiliates, which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with U S generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits We conducted our audits in accordance with auditing standards generally accepted in the United States Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control Accordingly, we express no such opinion An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Building a better working world

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of San Juan Regional Medical Center, Inc and Affiliates at June 30, 2014 and 2013, and the consolidated results of their operations and their cash flows for the years then ended, in conformity with U S generally accepted accounting principles

1. Organization

San Juan Regional Medical Center, Inc (the Hospital) is a New Mexico not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes on related income The Hospital is located in Farmington, New Mexico, and was incorporated in 1952 to furnish medical and surgical care to the residents of San Juan County (the County), New Mexico

San Juan Regional Rehabilitation Hospital, Inc (SJRRH) is a New Mexico not-for-profit organization located in Farmington, New Mexico, and is exempt from federal and state income taxes on related income The Hospital is the sole member of SJRRH SJRRH provides rehabilitation services primarily to the residents of the County

SJR Holding Company, Inc (SJH) is a New Mexico for-profit corporation and a wholly owned subsidiary of the Hospital SJH's ownership interest in an ambulatory surgery center is SJH's only activity

2. Summary of Significant Accounting Policies

Consolidation

The accompanying consolidated financial statements include the accounts of the Hospital, SJRRH, and SJH (collectively referred to as the Company) Intercompany transactions have been eliminated in consolidation

Use of Estimates

The preparation of the Company's consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements Estimates also affect the reported amounts of revenues and expenses during the reporting period Actual results could differ from those estimates

2. Summary of Significant Accounting Policies (continued)

Cash Equivalents

Cash equivalents include investments in highly liquid debt instruments with original maturities of three months or less, excluding assets whose use is limited by the Hospital and SJRRH Boards of Directors' (the Boards) designation or by other arrangements under trust agreements

Investments and Assets Whose Use Is Limited

Investments in equity securities (other than those accounted for under the equity method) and all investments in debt securities are measured at fair value Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in the excess of revenues over expenses Unrealized gains and losses on investments are also included in the excess of revenues over expenses, as the investments are classified as trading securities

Short-Term Investments

Short-term investments include certificates of deposit, money market investments, and other investment securities that will be liquidated within the next fiscal year

Assets Whose Use Is Limited

Assets whose use is limited consist primarily of assets designated by the Boards for future capital improvements, over which the Boards retain control and may, at their discretion, use for other purposes, deferred compensation arrangements, and assets restricted under the terms of the outstanding hospital revenue bond issues Amounts required to meet current liabilities have been classified as current in the accompanying consolidated balance sheets at June 30, 2014 and 2013

Inventories

Inventories consist of drugs and medical supplies and are stated at the lower of cost (which approximates the first-in, first-out method) or market value

Property and Equipment

Property and equipment acquisitions are recorded at cost Depreciation is provided over the estimated useful life of each class of depreciable asset (which ranges from 3 to 40 years) and is

2. Summary of Significant Accounting Policies (continued)

computed using the straight-line method Equipment under capital lease obligations is amortized using the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment Such amortization is included in depreciation and amortization in the consolidated financial statements

The following useful lives are used by the Company

Building improvements	20 years
Buildings	40 years
Equipment	3–15 years

Interest cost incurred on borrowed funds, net of interest earned on assets held by trustee during the period of construction of capital projects, is capitalized as a component of the cost of acquiring those assets

Net Patient Accounts Receivable and Service Revenue

Net patient accounts receivable have been adjusted to the estimated amounts expected to be collected In evaluating the collectibility of accounts receivable, the Company analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts

Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts For receivables associated with services provided to patients who have third-party coverage, the Company analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and co-payments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely) For receivables associated with self-pay patients, the Company records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts

2. Summary of Significant Accounting Policies (continued)

The Company has agreements with third-party payors that provide for payments to the Company at amounts different from its established rates Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews, and investigations

Other Revenue

Other revenue includes gains and losses on the sales of assets, contributions, cafeteria sales, rental income, and revenue from other miscellaneous sources

Starting in 2011, the Medicare and Medicaid programs are providing an incentive payment to eligible hospitals and professionals if meaningful-use certified electronic health record (EHR) technology is adopted The incentive payment is recognized when management is reasonably assured that San Juan Regional Medical Center has complied with the conditions set forth by Medicare and Medicaid Approximately $3,474,000 in incentive payments were recognized in other revenue for the year ended June 30, 2014, relating to the Medicare and Medicaid incentive programs

Contributions

Unconditional pledges to give cash and other assets are reported at fair value at the date the pledge is received The gifts are reported as temporarily restricted net assets if they are received with donor stipulations that limit the use of the donated assets When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and recognized as a component of other revenue, unless the donation was for property and equipment, in which case it is recognized as a change in net assets Donor-restricted contributions whose restrictions are met within the same year as received are reflected as unrestricted contributions

2. Summary of Significant Accounting Policies (continued)

Excess of Revenue Over Expenses

The consolidated statements of operations and changes in net assets include excess of revenue over expenses Changes in unrestricted net assets, which are excluded from excess of revenue over expenses, consistent with industry practice, include contributions restricted for the acquisition of property and equipment and contributed property

Uncertainty in Income Taxes

Accounting Standards Codification (ASC) 740, *Income Taxes*, prescribes criteria for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return ASC 740 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition In accordance with this accounting guidance, management has reviewed its tax positions and has determined that the Company has no significant uncertain tax positions

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No 2014-9, *Revenue from Contracts with Customers* (ASU 2014-9) ASU 2014-9 provides for a single comprehensive principles-based standard for the recognition of revenue across all industries through the application of the following five-step process

Step 1 Identify the contract(s) with a customer
Step 2 Identify the performance obligations in the contract
Step 3 Determine the transaction price
Step 4 Allocate the transaction price to the performance obligations in the contract
Step 5 Recognize revenue when (or as) the entity satisfies a performance obligation

Among other provisions and in addition to expanded disclosure about the nature, timing and uncertainty of revenue, as well as certain additional quantitative disclosures, ASU 2014-9 changes the health care industry specific presentation guidance under ASU 2011-7, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain health Care Entities* (ASU 2011-7) The provisions of ASU 2014-9 are effective for annual periods beginning after December 15, 2016, including interim periods within those years Early adoption is not permitted

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

The Company has completed an evaluation of all subsequent events through September 29, 2014, which is the issuance date of these consolidated financial statements, and has concluded that no subsequent events have occurred that required recognition or disclosure

3. Net Patient Service Revenue

The Company has the following estimated percentage of patient service revenue by major payor group

	2014	2013
Medicare	**30%**	31%
Managed care	**30**	31
Medicaid	**13**	11
Commercial insurance	**15**	13
Self-pay	**12**	14
	100%	100%

The Company has agreements with third-party payors that provide for payments to the Company at amounts different from its established rates A summary of the payment arrangements with major third-party payors follows

Medicare

Inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors

Substantially all other services rendered to Medicare beneficiaries are paid at prospectively determined rates including inpatient non-acute services, certain outpatient services, and certain capital costs and medical education costs

3. Net Patient Service Revenue (continued)

Medicaid

Approximately 39% and 46% of services, based on gross revenue, provided to Medicaid program beneficiaries in 2014 and 2013, respectively, were reimbursed by the State of New Mexico Inpatient acute care services rendered to New Mexico Medicaid program beneficiaries not covered by a managed care program are paid at prospectively determined rates per discharge

The Company participates in the New Mexico "Centennial Care" Medicaid managed care program Approximately 53% and 46% of services, based on gross revenue, provided to Medicaid program beneficiaries in 2014 and 2013 were paid under the Centennial Care program by third-party health plans

Approximately 8% of services, based on gross revenue, provided to Medicaid program beneficiaries in 2014 and 2013 were paid by Medicaid programs of other states under various fee-for-service and percentage-of-charge methods The prospectively determined payment rates are determined by each state and are accepted by the Company as payment in full as a condition of participation

Medicare and Medicaid Cost Report Settlements

Government audits of the Hospital's and SJRRH's Medicare cost reports have been completed through June 30, 2010 Appeals have been filed for the Hospital's 2008, 2009, and 2010 cost reports based on specific issues that resulted in underpayments to the Hospital Government audits of the Hospital's and SJRRH's Medicaid cost reports have been completed through June 30, 2010 It is management's opinion that estimated Medicare and Medicaid settlements accrued at June 30, 2014, are adequate to provide for the settlement of the Hospital's and SJRRH's cost reports Estimates are continually monitored and reviewed, and as settlements are made or estimates adjusted, differences are reflected in current operations Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation As a result, there is at least a reasonable possibility that recorded estimates could change by a material amount in the near term

3. Net Patient Service Revenue (continued)

Other

The Company has payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations The basis for payment to the Company under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates

4. Concentration of Credit Risk

The Company grants credit without collateral to patients, most of whom are local residents and are insured under third-party payor agreements The following reflects the estimated percentage of gross patient accounts receivable at June 30 by major payor group

	2014	2013
Medicare	**26%**	25%
Managed care	**19**	18
Medicaid	**17**	10
Commercial insurance	**17**	19
Self-pay	**21**	28
	100%	100%

5. Sole Community Provider Support

The Company receives support from the U S federal government, the state of New Mexico, and the County for the care of indigent patients The Company received approximately $11,346,000 in 2014 and $16,909,000 in 2013 related to the care of indigent patients The amounts received for indigent patient care are included in net patient service revenue in the applicable year In a prior year, Centers for Medicare & Medicaid Services (CMS) identified issues in the methodology used to determine government funding for the Sole Community Provider program Negotiations between the state of New Mexico and the U S federal government resulted in payment reductions to all sole community providers in fiscal 2014 The state of New Mexico filed a section 1115(a) Medicaid demonstration waiver that will be the basis of the New Mexico Medicaid program for five "demonstration years" (calendar years) beginning January 1, 2014 The estimated future reduction in annual funding from current levels has not been finalized

6. Charity Care and Uncompensated Care

In support of its mission and philosophy, the Company provides care to all patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates A patient is classified as a charity patient according to certain policies established by the Company regarding the ability of the patient to pay Because the Company does not pursue collection of amounts determined to qualify as charity care, such amounts are not recorded as revenue The costs of these services were approximately $1,896,000 and $1,261,000 in 2014 and 2013, respectively These estimates were determined using a ratio of cost-to-gross charges calculated from the Hospital's most recent statement of operations and applying that ratio to the gross charges associated with providing charity care for the period

In addition, the Company provides care to patients under various federal, state, and County public assistance programs such as Medicare, Medicaid, Indian Health Services, and County indigent programs Public programs such as Medicare provide for the elderly Public programs such as Medicaid and County indigent programs provide for the poor and indigent The Indian Health Services program provides for Native Americans These public programs do not always cover the costs of providing these services The following summarizes the unreimbursed costs for services provided to these patients

	2014	2013
Medicare patients	**$ 19,090,000**	$ 18,303,000
Medicaid patients	**15,740,000**	13,268,000
Indian Health Services patients	**1,533,000**	2,139,000
County indigent patients	**2,470,000**	2,186,000
	$ 38,833,000	$ 35,896,000

	$ 8,879,620	$ 5,355,901

8. Fair Value Measurements

The Company utilizes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows

- Level 1 – Pricing is based on observable inputs for identical instruments such as quoted prices in active markets Financial assets in Level 1 include U S Treasury securities, listed equities, and mutual funds

8. Fair Value Measurements (continued)

- Level 2 – Pricing inputs are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets Financial assets in this category generally include corporate bonds and federal agency securities

- Level 3 – Pricing inputs are generally unobservable and include situations where there is little, if any, market activity for the investment The inputs into the determination of fair value require management's judgment or estimation of assumptions that market participants would use in pricing the assets or liabilities The fair values are, therefore, determined using factors that involve considerable judgment and interpretations, including but not limited to private and public comparables, third-party appraisals, discounted cash flow models, and fund manager estimates

Assets measured at fair value are based on one or more of three valuation techniques The three valuation techniques are identified in the tables below Where more than one technique is noted, individual assets were valued using one or more of the noted techniques The valuation techniques are as follows

a) *Market approach* – Prices and other relevant information generated by market transactions involving identical or comparable assets

b) *Cost approach* – Amount that would be required to replace the service capacity of an asset (replacement cost)

c) *Income approach* – Techniques to convert future amounts to a single present amount based on market expectations, including present value techniques, option pricing, and excess earnings models

8. Fair Value Measurements (continued)

The following table summarizes financial instruments recorded at fair value that are classified in short-term investments, current portion of assets whose use is limited, long-term investments, and assets whose use is limited as presented on the accompanying consolidated balance sheets as of June 30, 2014 and 2013 The table does not include cash and cash equivalents and certificates of deposit, classified either as assets whose use is limited or investments

Fair Value Disclosures

The Company currently has no other financial instruments subject to fair value measurement on a recurring basis Disclosures about the fair value of financial instruments require disclosure of fair value information about those financial instruments, whether or not they are recognized in the balance sheets, but would be practicable to estimate that value Management believes the carrying value of cash, accounts receivable, other receivables, accounts payable, and accrued expenses approximates fair value due to their short-term maturity The fair value of the Company's debt is based upon published or quoted market prices (Level 1) At June 30, 2014 and 2013, the fair value of long-term debt reported in the Company's consolidated balance sheets was approximately $62,521,600 and $66,430,100, respectively

9. Property and Equipment

Property and equipment consisted of the following at June 30

	2014	2013
Land and improvements	**$ 12,152,828**	$ 12,154,943
Buildings and improvements	**176,325,216**	176,049,328
