Mohave County is one of the fastest growing counties in Arizona. The area around Kingman which is the county seat is expected to continue growing steadily in the coming years. In response to the growth, KRMC has continued to expand its services. We now offer a full range of health and wellness services, including a wellness and fitness center, multiple primary care physician practices, advanced medical programs in cardiology, cancer, and rehabilitation, and home health and hospice care. Moreover, we are honored to serve as a teaching hospital in affiliation with Midwestern University to train doctors specializing in family practice, dermatology, and emergency medicine. With the growing population we are seeing the following problems and trends. We are seeing an increasing number of uninsured patients in our area. We are experiencing a higher volume of self-pay patients who are waiting to seek medical care until the time that they must go to the emergency room. Our Medicaid population is 15% of our total patient population. Our Medicare population is 53% of total patient population. Major strategies to address identified needs and problems include: We have increased recruitment efforts of RN's, therapists and skilled technicians to meet the growing needs of the community. We continue to recruit physicians of various specialties to the area. We continue to expand our facilities to meet the needs of the community. KRMC is collaborating with community organizations to improve community health, expand access to health care, or in other ways benefit the community. Some examples are: We work with the Women's Health Organization to provide discounted mammography to self-pay patients. We work with the Foster Grandparents Association and provide free physical exams. We pay 50% and write off the other 50% for Victims of Crime collaborating with the Mohave County Attorney's Office. KRMC is a teaching hospital with a GME program in association with Midwestern University. KRMC operates several physician practices and a continuity clinic. There are plans to expand these services to the outlying areas of our community. In recent years, KRMC has expanded services to include services that are not usually found in a rural community such as, cardiac catheterization, cancer diagnosis and treatment with a state-of-the-art cancer center, a new outpatient imaging and women's health center, acute rehabilitation unit, cardiac surgical unit for open heart surgery, wound care, and hyperbaric. Our uncompensated care policy is called "Qualifying Discount Program". Our program is defined as Charity Care services provided for which payment is not anticipated because of an inability to pay, and may apply to an entire account balance or a portion of it. Charity Care is separate and distinct from Bad Debts, which are accounts for which credit was extended and payment is anticipated, but not received. Our discount program is based on a percentage of the Federal Poverty Level. KRMC has updated its charity care policy to include those patients whose household income is less than 400% of the FPL. This program is for all patients regardless of their primary insurance status and is based on their family size and income from all sources. Organizational Description for Tax Exemption: KRMC operates an ER that is open to all persons regardless of their ability to pay and complies with all EMTALA regulations. We have notices in the ER that informs the patients of this fact, our admissions staff advises all patients who present for services that we are calling for a nurse and will perform a Medical Screening exam regardless of their ability to pay. We assist them after the medical screening exam with DES applications and in-service them on our Charity Program if should they have an inability to pay. KRMC has an open medical staff with privileges available to all qualified physicians in the area. Kingman Hospital Inc. has a governing body in which independent persons representative of the community comprise a majority. KRMC engages in the training and education of health care professionals with its Graduate Medical Education (GME) program. We participate with Medicare and Medicaid, Campus, Tricare, Veterans Affairs and other governmental health care programs.

NEEDS ASSESSMENT	Since 2011, KRMC in partnership with the Mohave County Department of Public Health has led a major community initiative to improve health and quality of life in Mohave County. The Mohave County Community Health Improvement Initiative involves performing a community health assessment and developing a community health improvement plan every three years. A Community Health Needs Assessment (CHNA) for Mohave County was completed in the spring of 2013 and the findings are documented in the Community Health Profile for Mohave County, Arizona, which details health and wellness statistics and community needs for health services in Mohave County communities. Additionally, KRMC developed goals and strategies for addressing the priority health issues identified in the community health assessment, which are documented in the Kingman Regional Medical Center Implementation Plan for the Mohave County Community Health Improvement Initiative. The CHNA and implementation plan are available for the public on the KRMC website http://www.azkrmc.com

COMMUNITY INFORMATION	<p>Kingman Regional Medical Center (KRMC) serves an approximate 1500 square-mile geographic area in Mohave County, Arizona called Hospital District Number One of Mohave County. The district includes the City of Kingman (pop. 28,000) and numerous smaller outlaying communities. The total estimated population of the district is 78,000, with an estimated 11.6 persons per square mile. According to the latest statistics of the U.S. Census Bureau, the racial mix of the population is 82% Caucasian, 1.5% African American, 2.6% Native American, and 14.1% Hispanic or Latino origin. U.S. Census Bureau statistics for 2012 show 18.6% of Mohave County's population is 100% below the federal poverty level. The median household income is \$39,383. The current unemployment rate in Mohave County is 10.2% (as of June, 2013). Approximately 83.7% of the county's population over age 25 are high school graduates, with 12.2% of the population over age 25 holding a Bachelor's degree or higher.</p>

Form and Line Reference	Explanation
OTHER INFORMATION	<p>Kingman Hospital Incorporated is organized exclusively for charitable, scientific, and educational purposes relating to healthcare in Hospital District #1 of Mohave County. Its primary function is to operate Kingman Regional Medical Center. KHI's Board of Directors consists of 13 members holding terms of five years. All board members are community-minded individuals who do not receive compensation for their services on the KHI Board. All excess funds are kept for the benefit and development of the community's health services as determined by our local board. With this, our hospital average inpatient charges have remained significantly below the Arizona average for the same types of patients. Additionally, excess funds accumulated since KRMC was organized, have been utilized to pay campus expansion / improvements, state-of-the-industry technology, and competitive salaries for employees. Kingman Hospital Inc. continually invests in advanced medical technologies. From specialized diagnostic capabilities to advanced treatments in cardiac care and cancer, patients at KRMC benefit from some of the most sophisticated medical technologies in the region. In 2007, KRMC received the Governor's Arizona Innovation Award in recognition for its investment in technology and services not normally seen in a rural community. KRMC is a major community partner dedicated to enhancing the overall quality-of-life in northwest Arizona. We offer many services and programs to benefit the community, especially our most vulnerable citizens- children, elderly, those in ill health, and those in socio-economic distress. Examples of our community building activities include - Conducting public health lectures at the hospital and at area nursing homes and businesses (monthly) - Conducting health fairs, which are free and open to the public (8 health fairs per year) - Offering a variety of free support groups to help people who are working to change a behavior or who are dealing with a loss, condition, or disease - Publishing a quarterly 8-page newsletter (called Healthwise), which contains important health information for the public. The newsletter is free and distributed throughout northwest Arizona - Providing free growth mats and car seats for babies born at KRMC - Sponsoring physical fitness programs at community elementary schools to help kids be active, fit, and healthy - Placing defibrillators in our community's high-traffic public places to provide immediate lifesaving treatment to someone with cardiac arrest - Providing free or low cost mammograms to uninsured or underinsured women residing in the Hospital District of Mohave County - Providing scholarships for qualified individuals who cannot afford a membership to KRMC's Del E. Webb Wellness Center - Providing scholarships to help nursing students with their educational costs - Providing cash contributions, free services, or other support to over 40 local organizations that serve the needs of our community (e.g., Boys & Girls Club, Kingman Food Bank, Sarah's House, etc.) - Helping uninsured/underinsured patients with their healthcare costs through KRMC's charity care program. Additionally, KRMC is one of the area's largest contributors to the local economy. We employ over 1700 people and during the past year spent over \$10,000,000 with local businesses.</p>

AFFILIATED HEALTH CARE SYSTEM ROLES	N/A

Form and Line Reference	Explanation
PART I, LINE 7	THE ORGANIZATION USED A COST-TO-CHARGE RATIO FOR LINES 7A, 7B, AND 7B. THE COST-TO-CHARGE RATIO WAS DERIVED FROM WORKSHEET 2, RATIO OF PATIENT CARE COST-TO-CHARGES. THE INFORMATION FOR LINES 7E THROUGH 7I WAS DERIVED FROM INFORMATION IN THE GENERAL LEDGER AND OTHER FINANCIAL DATA RELATED SPECIFICALLY TO THE VARIOUS TYPES OF COMMUNITY BENEFITS

Form and Line Reference	Explanation
PART III, LINE 4	<p>Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Medical Center analyzes its past history and identifies trends for each of its major payer sources of revenue to estimate the appropriate allowances for doubtful accounts and provision for uncollectible accounts. Management regularly reviews data about these major payer sources of revenue in evaluating the sufficiency of the allowances for doubtful accounts. For receivables associated with services provided to patients who have third party coverage, the Medical Center analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for uncollectable accounts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third party payer has not yet paid, or for payers who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which include both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Medical Center records a significant provision for uncollectible accounts in the period of service on the basis of its past experience, which indicates that many of the patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated or provided by policy) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts. The Medical Center's allowance for doubtful accounts for self-pay patients decreased from 65% of self-pay accounts receivable at June 30, 2013 to 57% of self-pay accounts receivable at June 30, 2014. In addition, the Medical Center's write-offs increased approximately \$8,100,000 from approximately \$12,600,000 for the year ended June 30, 2013, to approximately \$20,700,000 for the year ended June 30, 2014. Both changes are primarily due to the Medical Center recording an uninsured discount of 30% and increasing the charity care policy's threshold starting in fiscal year 2013. This discount is recorded for self-pay accounts at the time of billing.</p>

Form and Line Reference	Explanation
PART III, LINE 8	The Organization is a sole community hospital that provides healthcare services to community residents and visitors. Accessible, high-quality healthcare service is important for the overall health of all residents. Were there to be a Medicare shortfall, this would reflect the excess of costs over payments received for participants in the Medicare program. Costs are based on Medicare cost report allocations.

Form and Line Reference	Explanation
PART III, LINE 9B	Once the patient is billed and contacted, they are informed of options and of the Qualifying Discount Program (QDP). The other options include paying up front or no interest payments within a scheduled number of days. A cash discount is available to the patient. If qualified for the QDP, the appropriate qualifying amount is adjusted to Charity Care. If a balance remains that does not qualify, the patient has cash discount and no interest payment plan as described above. For patients that the hospital is unable to contact - Eight account statements are sent - Three letters explaining that if the patient fails to contact Patient Financial Services, collection efforts will be passed to an agency. The above is a minimum of 120 day process for all patient payer types. Once the patient account is submitted to a collection agency, it is adjusted to bad debt.

Part VI, Question 12c	The executive assistant to the CEO annually distributes the policy documents and forms to all managers and board members. The related forms contain written explanations by managers and board members. If a potential conflict arises, the situation is then reviewed by the CEO. If a conflict of interest covered by this policy exists, whether or not listed on a disclosure form, then the person involved with the potential conflict of interest recuses himself from voting on the matter.
Part VI, Question 15A-B	A benefits and compensation analyst prepares a study based on external comparisons of similar positions in similar sized organizations in the industry. The study is reviewed by a compensation committee then submitted to the Executive Board for final approval. Contemporary documentation and recordkeeping with respect to deliberations and decisions regarding the compensation process are kept on file. This study is conducted annually.

Independent Auditor's Report

Board of Directors
Kingman Hospital, Inc and Subsidiary
d/b/a Kingman Regional Medical Center
Kingman, Arizona

We have audited the accompanying consolidated financial statements of Kingman Hospital, Inc and Subsidiary d/b/a Kingman Regional Medical Center (collectively, the Medical Center), which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Northwestern Arizona Regional Insurance Company (NARIC), a wholly-owned subsidiary, which statements reflect total assets constituting 5.3% and 5.8%, respectively, of consolidated total assets at June 30, 2014 and 2013, and total revenues constituting 1.0% and 1.1%, respectively, of consolidated total revenues for the years then ended. Those statements were audited by other auditors whose report has been furnished to us and our opinion, insofar as it relates to the amounts included for NARIC, is based solely on the report of the other auditor. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Board of Directors
Kingman Hospital, Inc and Subsidiary
d/b/a Kingman Regional Medical Center

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audit and the report of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Medical Center as of June 30, 2014 and 2013, and the results of their operations, the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Kingman Hospital, Inc. and Subsidiary (d/b/a Kingman Regional Medical Center)

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Kingman Hospital, Inc. d/b/a Kingman Regional Medical Center (the Medical Center) is a not-for-profit acute care hospital. The Medical Center provides inpatient, outpatient and emergency care services for residents of Kingman, Arizona and the surrounding local area. Hospital District Number One of Mohave County, a political subdivision of the state of Arizona (the District), owns certain existing facilities, equipment and land operated by the Medical Center. Northwestern Arizona Regional Insurance Company (NARIC), an Arizona non-profit corporation, provides captive insurance services to the Medical Center. NARIC is a wholly-owned subsidiary of the Medical Center.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Medical Center and NARIC, its wholly-owned subsidiary. Significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Medical Center considers all liquid investments, other than those limited as to use, with original maturities of three months or less to be cash equivalents. At June 30, 2014 and 2013, cash equivalents consisted primarily of money market accounts with brokers.

At June 30, 2014, the Medical Center's cash accounts exceeded federally insured limits by approximately \$12,613,000.

Investments and Investment Return

Investments in equity securities having a readily determinable fair value and in all debt securities are carried at fair value. Investment return includes dividend, interest and other investment income, realized and unrealized gains and losses on investments carried at fair value, and realized gains and losses on other investments.

Kingman Hospital, Inc. and Subsidiary (d/b/a Kingman Regional Medical Center)

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Patient Accounts Receivable

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Medical Center analyzes its past history and identifies trends for each of its major payer sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for uncollectible accounts. Management regularly reviews data about these major payer sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts.

For receivables associated with services provided to patients who have third-party coverage, the Medical Center analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for uncollectible accounts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payer has not yet paid, or for payers who are known to be having financial difficulties that make the realization of amounts due unlikely).

For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Medical Center records a significant provision for uncollectible accounts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated or provided by policy) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The Medical Center's allowance for doubtful accounts for self-pay patients decreased from 65% of self-pay accounts receivable at June 30, 2013 to 57% of self-pay accounts receivable at June 30, 2014. In addition, the Medical Center's charge-offs increased approximately \$8,100,000 from approximately \$12,600,000 for the year ended June 30, 2013, to approximately \$20,700,000 for the year ended June 30, 2014. Both changes are primarily due to the Medical Center recording an uninsured discount of 30% and increasing the charity care policy's threshold starting in fiscal year 2013. This discount is recorded for self-pay accounts at the time of billing.

Supplies

The Medical Center states supply inventories at the lower of cost, determined using the first-in, first-out method, or market. Supplies consist primarily of drugs and medical supplies.

Property and Equipment

Property and equipment acquisitions are recorded at cost and are depreciated on a straight-line basis over the estimated useful life of each asset. Assets under capital lease obligations are depreciated over the shorter of the lease term or their respective estimated useful lives.

Kingman Hospital, Inc. and Subsidiary (d/b/a Kingman Regional Medical Center)

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

The following estimated useful lives for each major depreciable classification of property and equipment are as follows

Land improvements	5 - 25 years
Buildings and building improvements	5 - 20 years
Equipment	3 - 20 years

Donations of property and equipment are reported at fair value at the date of contribution as an increase in unrestricted net assets unless use of the assets is restricted by the donor

Long-lived Asset Impairment

The Medical Center evaluates the recoverability of the carrying value of long-lived assets whenever events or circumstances indicate the carrying amount may not be recoverable. If a long-lived asset is tested for recoverability and the undiscounted estimate future cash flows expected to result from the use and eventual disposition of the asset is less than the carrying amount of the asset, the asset cost is adjusted to fair value and an impairment loss is recognized as the amount by which the carrying amount of a long-lived asset exceeds its fair value.

No asset impairment was recognized during the years ended June 30, 2014 and 2013

Interest in Net Assets of Kingman Regional Medical Center Foundation

Kingman Regional Medical Center Foundation (the Foundation) and the Medical Center are financially interrelated organizations. The Foundation seeks private support for and holds net assets on behalf of the Medical Center. The Medical Center accounts for its interest in the net assets of the Foundation (the Interest) in a manner similar to the equity method. The Interest is stated at fair value and changes in the Interest are included in change in net assets. Transfers of assets between the Foundation and the Medical Center are recognized as increases or decreases in the Interest.

Temporarily Restricted Net Assets

Temporarily restricted net assets are those whose use by the Medical Center has been limited by donors to a specific time period or purpose.

Kingman Hospital, Inc. and Subsidiary (d/b/a Kingman Regional Medical Center)

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Net Patient Service Revenue

The Medical Center has agreements with third-party payers that provide for payments to the Medical Center at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges and per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such estimated amounts are revised in future periods as adjustments become known.

Charity Care

The Medical Center provides care without charge or at amounts less than its established rates to patients meeting certain criteria under its charity care policy. Because the Medical Center does not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as net patient service revenue. The Medical Center estimates the direct and indirect costs of providing charity care by applying the ratio of cost to gross charges to the gross uncompensated care. The Medical Center's direct and indirect costs for services furnished under its charity care policy aggregated approximately \$4,802,000 and \$6,270,000 for 2014 and 2013, respectively.

Contributions

Unconditional promises to give cash and other assets are accrued at estimated fair value at the date each promise is received. Gifts received with donor stipulations are reported as either temporarily or permanently restricted support. When a donor restriction expires, that is, when a time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified and reported as an increase in unrestricted net assets. Donor-restricted contributions whose restrictions are met within the same year as received are reported as temporarily restricted contributions. Conditional contributions are reported as liabilities until the condition is eliminated or the contributed assets are returned to the donor.

Professional Liability Costs

An annual estimated provision is accrued for the self-insured portion of medical professional liability claims and includes an estimate of the ultimate costs for both reported claims and claims incurred but not reported and receivables for any stop-loss recoveries.

Income Taxes

The Medical Center is an Arizona corporation, and has been recognized as exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and a similar provision of state law. However, the Medical Center is subject to federal income tax on any unrelated business taxable income. NARIC is considered by management to be a "feeder organization" under Section 502(b)(2) and is not subject to federal or state income taxes. NARIC has been recognized as exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

Kingman Hospital, Inc. and Subsidiary (d/b/a Kingman Regional Medical Center)

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

The Medical Center files tax returns in the U S federal jurisdiction. With a few exceptions, the Medical Center is no longer subject to U S federal examinations by tax authorities for years before 2011.

Excess of Revenues Over Expenses

The consolidated statements of operations include excess of revenues over expenses. Changes in unrestricted net assets which are excluded from excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments other than trading securities and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purpose of acquiring such assets)

Electronic Health Records Incentive Program

The Electronic Health Records Incentive Program, enacted as part of the *American Recovery and Reinvestment Act of 2009*, provides for one-time incentive payments under both the Medicare and Medicaid programs to eligible hospitals and providers that demonstrate meaningful use of certified electronic health records technology (EHR). Payments under the Medicare program are generally made for up to four years based on a statutory formula. Payments under the Medicaid program are generally made for up to four years based upon a statutory formula, as determined by the state, which is approved by the Centers for Medicare and Medicaid Services. Payment under both programs are contingent on the hospital continuing to meet escalating meaningful use criteria and any other specific requirements that are applicable for the reporting period. The final amount for any payment year is determined based upon an audit by the fiscal intermediary. Events could occur that would cause the final amounts to differ materially from the initial payments under the program.

The Medical Center recognizes revenue at the end of the reporting period when management is reasonably assured it will meet all of the meaningful use objectives and all other contingencies have been met.

During 2014 and 2013, respectively, the Medical Center has recorded approximately \$325,000 and \$306,000 under the Medicare and Medicaid programs related to physician payments, which is included in other revenue within operating revenues in the statements of operations.

In 2014, the Medical Center completed the first-year requirements under the Medicare program and has recorded revenue of approximately \$2,100,000, which is included in other revenue within operating revenues in the statement of operations.

Reclassifications

Certain reclassifications have been made to the 2013 financial statements to conform to the 2014 financial statement presentation. These reclassifications had no effect on the change in net assets.

Kingman Hospital, Inc. and Subsidiary (d/b/a Kingman Regional Medical Center)

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Note 2: Net Patient Service Revenue

The Medical Center recognizes patient service revenue associated with services provided to patients who have third-party payer coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, the Medical Center recognizes revenue on the basis of its standard rates for services provided. On the basis of historical experience, a significant portion of the Medical Center's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Medical Center records a significant provision for uncollectible accounts related to uninsured patients in the period the services are provided. This provision for uncollectible accounts is presented on the statement of operations as a component of net patient service revenue.

The Medical Center has agreements with third-party payers that provide for payments to the Medical Center at amounts different from its established rates. These payment arrangements include:

Medicare Inpatient acute care services, home health services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Outpatient services are predominantly paid based on prospectively determined rates per procedure. The Medical Center is reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports by the Medical Center and audits thereof by the Medicare fiscal intermediary.

Medicaid Inpatient services rendered to Arizona Health Care Cost Containment System (AHCCCS) beneficiaries are paid based on a per diem rate, plus an outlier payment for certain high-cost admissions. Outpatient services are paid using a fee schedule methodology for each service or group of services provided.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates will change materially in the near term.

The Medical Center has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Medical Center under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Note 12: Professional Liability Costs

During the year ended June 30, 2007, the Medical Center formed a captive insurance company, NARIC, to provide professional liability insurance. NARIC has purchased stop-loss insurance on a claims-made basis and they are self-insured on an occurrence basis. The Medical Center has purchased tail liability insurance to cover professional liability claims incurred before, but reported after, cancellation or expiration of the claims-made insurance policy maintained in prior years. Estimates for claims incurred but not reported (IBNR) was \$5,272,086 and \$5,358,314 at June 30, 2014 and 2013, respectively. The amount charged to expense for claims and insurance was approximately \$2,438,000 and \$4,016,000 for the years ended June 30, 2014 and 2013, respectively.

Note 13: Self-funded Health and Dental Insurance

The Medical Center is liable for all health and dental benefits incurred and/or paid for covered services delivered to eligible participants, subject to maximum liability limits as defined in the plan. In order to limit claim liability, the Medical Center has purchased insurance coverage for claims in excess of \$195,000 (\$175,000 for 2013) per individual. The Medical Center charges its expected monthly liability to expense in its consolidated statements of operations.

Estimates for claims payable include both reported and unreported claims and are recorded in accrued expenses and were approximately \$1,720,000 and \$2,247,000 at June 30, 2014 and 2013, respectively. The amount charged to expense for claims was approximately \$18,900,000 and \$17,200,000 for the years ended June 30, 2014 and 2013, respectively.

Note 14: Operating Leases

On July 1, 1990, the Medical Center entered into a lease, covering the hospital facilities and equipment, with the District for a period of 10 years with renewal options for two additional 10-year periods. The Medical Center exercised the first 10-year renewal option on July 1, 2000, and restated the terms and provisions of the lease. The lease was again amended through a supplemental agreement on June 1, 2002. The amended lease calls for payments equal to the scheduled principal and interest payments on the Hospital District Number One of Mohave County, General Obligation Refunding Series 2002 Bonds, plus administrative expenses incurred by the District, plus an annual payment of \$185,400 for additional rent during the lease term, adjusted annually 2%. The Medical Center exercised the second 10-year renewal option beginning July 1, 2010.

Effective July 1, 2012, this lease was amended, which increased the annual payment for additional rent to \$1,200,000 through 2022. Unless cancelled by either the Medical Center or the District, the lease shall automatically renew for an additional one month on the 1st day of each month so full 10-year lease term is created monthly.

The Medical Center has recorded the lease as an operating lease and is recording rent expense on a straight-line basis over the lease term. The difference between recorded rent expense and actual rent payments is recorded as deferred rent. Upon termination or expiration of the lease, all equipment, personal property and fixtures acquired by the Medical Center subsequent to the lease entered into with the District on July 1, 1990, in connection with the operations of the facilities, shall become the property of the District, subject to any outstanding balance owed by the Medical Center as of that date.

On June 1, 1993, the Medical Center entered into an operating lease with the District for real property adjoining the land on which the hospital facilities are located. The term of the lease is for a period that is identical to the term of the 1990 lease and the extensions contained therein. The Medical Center agreed to a lump sum payment of \$500,000, which was recorded as prepaid rent and is being amortized on a straight-line basis over the term of the lease.

Future minimum lease payments at June 30, 2014 for these leases were

2015	\$ 2,678,681
2016	1,417,956
2017	1,417,956
2018	1,417,956
2019	1,417,956
Thereafter	<u>6,928,528</u>
Future minimum lease payments	<u><u>\$ 15,279,033</u></u>

Note 15: Retirement Plans

The Medical Center has a defined contribution annuity retirement 403(b) plan covering substantially all of its employees. The Medical Center matches up to 100% of the first 3% of salary for those employees with less than three years but greater than one year of continuous service, 4% of salary for those employees with less than five full years but more than three full years of service and 6% of salary for those employees with more than five full years of service. Pension expense for the Medical Center for the years ended June 30, 2014 and 2013 was \$2,395,718 and \$2,245,558, respectively.

The Medical Center has an executive benefit 457(b) plan for select employees of the Medical Center. The plan is intended to be an unfunded plan maintained primarily for the purpose of providing deferred compensation benefits for a select group of highly compensated employees. Under the plan, an executive is entitled to receive a designated percentage of their annual compensation upon retirement. This amount is to be paid over a five-year period. All plan assets remain part of the Medical Center's general assets and, as such, are subject to the claims of its creditors. The related liability, which is included with accrued retirement obligations on the consolidated statements of net assets, was \$1,886,983 and \$1,487,813 as of June 30, 2014 and 2013, respectively.

Note 16: Disclosures About Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value.

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying consolidated balance sheets, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended June 30, 2014. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include equity and fixed income mutual funds, marketable equity securities and corporate bonds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include corporate bonds, U S government agency securities and municipal bonds. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include a real estate investment trust.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets using significant unobservable (Level 3) inputs

Real Estate Investment Trust	
Balance, July 1, 2012	\$ 604,207
Total realized and unrealized gains and losses	<u>15,258</u>
Balance, June 30, 2013	619,465

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

The following table presents estimated fair values of the Medical Center's financial instruments at June 30, 2014 and 2013

	2014		2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets				
Cash and cash equivalents	\$ 13,029,563	\$ 13,029,563	\$ 5,623,640	\$ 5,623,640

Financial liabilities				
Capital lease obligations	7,742,370	7,742,370	9,884,072	9,884,072

The following methods were used to estimate the fair value of all other financial instruments recognized in the accompanying statements of net assets at amounts other than fair value

Cash and Cash Equivalents

The carrying amount approximates fair value

Investments

The carrying amount approximates fair value

Capital Lease Obligations

Fair value is estimated based on the borrowing rates currently available to the Medical Center for bank loans with similar terms and maturities

Note 17: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following

Allowance for Net Patient Service Revenue Adjustments

Estimates of allowances for adjustments included in net patient service revenue are described in Notes 1 and 2

Kingman Hospital, Inc. and Subsidiary (d/b/a Kingman Regional Medical Center)

Notes to Consolidated Financial Statements

Malpractice Claims

Estimates related to the accrual for medical malpractice claims are described in Notes 1 and 12

Litigation

In the normal course of business, the Medical Center is, from time to time, subject to allegations that may or do result in litigation. The Medical Center evaluates such allegations by conducting investigations to determine the validity of each potential claim. Based upon the advice of counsel, management records an estimate of the amount of ultimate expected loss, if any, for each of these matters. Events could occur that would cause the estimate of ultimate loss to differ materially in the near term.

Investments

The Medical Center invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect the amount reported in the accompanying consolidated balance sheets.

Note 18: Patient Protection and Affordable Care Act

The *Patient Protection and Affordable Care Act* (PPACA) will substantially reform the United States health care system. The legislation impacts multiple aspects of the health care system, including many provisions that change payments from Medicare, Medicaid and insurance companies. Starting in 2014, the legislation requires the establishment of health insurance exchanges, which will provide individuals without employer provided health care coverage the opportunity to purchase insurance. It is anticipated that some employers currently offering insurance to employees will opt to have employees seek insurance coverage through the insurance exchanges. It is possible that the reimbursement rates paid by insurers participating in the insurance exchanges may be substantially different than rates paid under current health insurance products. Another significant component of the PPACA is the expansion of the Medicaid program to a wide range of newly eligible individuals. In anticipation of this expansion, payments under certain existing programs, such as Medicare disproportionate share, will be substantially decreased. Each state's participation in an expanded Medicaid program is optional.

The state of Arizona has experienced significant financial difficulties as a result of the down turn in the economy. These difficulties may greatly affect the AHCCCS which serves as the state's Medicaid agency. The state of Arizona has indicated it will participate in the Medicaid expansion. Governor Brewer has introduced a bill that would expand the Medicaid program. This may result in revenues not offsetting the Medical Center's reduced revenue from other Medicare/Medicaid programs.

Kingman Hospital, Inc. and Subsidiary (d/b/a Kingman Regional Medical Center)

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Certain provisions of the Federal Government's *Budget Control Act of 2011* went into effect on January 1, 2013. Among these are mandatory payment reductions under the Medicare Fee-for-Service program, known as sequestration. The *American Taxpayer Relief Act of 2012* postponed sequestration for two months, but the order was issued by President Obama on March 1, 2013. Under these provisions, Medicare reimbursement was reduced by 2% on all claims with dates-of-service or dates-of-discharge on or after April 1, 2013. Under current law, sequestration is scheduled to last through 2021. The continuation of these payment cuts for an extended period of time will have an adverse effect on operating results of the Medical Center.

The PPACA is extremely complex and may be difficult for the federal government and each state to implement. While the overall impact of the PPACA cannot currently be estimated, it is possible that it will have a negative impact on the Medical Center's net patient service revenue. Additionally, it is possible the Medical Center will experience payment delays and other operational challenges during PPACA's implementation.
