Independent Auditors' Report

To the Board of Trustees of
Upper Connecticut Valley Hospital Association:

Report on the Financial Statements

We have audited the accompanying financial statements of Upper Connecticut Valley Hospital Association, which comprise the statements of financial position as of September 30, 2014 and 2013, and the related statements of operations and changes in unrestricted net assets, changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Upper Connecticut Valley Hospital Association as of September 30, 2014 and 2013, and the results of its operations, changes in net assets and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

As of and for the Years Ended September 30, 2014 and 2013

1. Organization and Summary of Significant Accounting Policies:

Organization – Upper Connecticut Valley Hospital Association (the Hospital) is a 16-bed acute care hospital serving Northern New Hampshire. Effective April 1, 2001, the Hospital was designated as a Critical Access Hospital.

Summary of Significant Accounting Policies:

a. Basis of Statement Presentation

The accompanying financial statements, which are presented on the accrual basis of accounting, have been prepared consistent with the American Institute of Certified Public Accountants Audit and Accounting Guide, *Health Care Organizations*. In accordance with the provisions of the Audit Guide, net assets and revenue, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified as follows:

Unrestricted Net Assets

Net assets not subject to donor-imposed stipulations.

Temporarily Restricted Net Assets

Net assets subject to donor-imposed stipulations that may be or will be met by actions of the Hospital and/or the passage of time.

Permanently Restricted Net Assets

Net assets subject to donor-imposed stipulations that must be maintained permanently by the Hospital.

b. Cash and Cash Equivalents

Cash and cash equivalents include demand deposits, petty cash funds, money market deposits and certificates of deposit with a maturity of three months or less, excluding amounts whose use is limited by board designation or amounts included in investments for temporarily and permanently restricted net assets.

c. Receivables

Patient accounts and loans receivable are carried at their estimated collectible amounts Interest income on applicable loans receivable is recognized using the interest method. Patient credit is generally extended on a short-term basis; thus, trade receivables do not bear interest. Patient accounts receivables are periodically evaluated for collectability based on credit history and current financial condition. Provisions for losses on loans receivable are determined on the basis of loss experience, known and inherent risks, estimated value of collateral and current economic conditions.

Notes to Financial Statements

As of and for the Years Ended September 30, 2014 and 2013

1. Organization and Summary of Significant Accounting Policies (continued):

d. Supplies

Supplies are carried at the lower of cost (determined by the first-in, first-out method) or market.

e. Assets Whose Use is Limited

Assets set aside by the Board of Trustees for identified purposes, over which the Board retains control and which may, at its discretion, be subsequently used for other purposes, and are classified as noncurrent assets.

f. Property, Plant and Equipment

Property and equipment is stated at cost at time of purchase or fair market value at time of donation, less accumulated depreciation. The Hospital's policy is to capitalize expenditures for major improvements and charge maintenance and repairs currently for expenditures, which do not extend the lives of the related assets. The provision for depreciation has been determined using the straight-line method at rates which are intended to amortize the cost of the assets over their estimated useful lives, which have generally been determined by reference to the recommendations of the American Hospital Association.

The Hospital reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, as well as the effects of obsolescence, demand, competition and other economic factors.

g. <u>Investments and Investment Income</u>

Investments in equity securities are reported at readily determinable fair market value. Realized gains or losses on the sale of investment securities are determined by the specific identification method.

Investment income or loss (including unrealized and realized gains and losses on investments, interest and dividends) are included in excess of revenues over expenses classified as nonoperating investment income (loss), unless the income or loss is limited in use by donor restriction.

h. Risk and Uncertainties

Investment securities, including assets limited as to use, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect the net assets of the Hospital.

Notes to Financial Statements

As of and for the Years Ended September 30, 2014 and 2013

1. Organization and Summary of Significant Accounting Policies (continued):

i. Net Patient Service Revenue

Net patient service revenue is reported at the estimated not realizable amounts from patients, third-party payors and others for services rendered. Revenue under third-party payor agreements is subject to audit and retroactive adjustment. Provisions for estimated third-party payor settlements are provided in the period the related services are rendered. Differences between the estimated amounts accrued and interim and final settlements are reported in operations in the year of settlement. Management believes that adequate provision has been made for adjustments that may result from final determination of amounts earned under these programs.

j. Charity Care

The Hospital provides care to patients who meet certain criteria under its community care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as community care, they are not reported as revenue.

k. Concentration of Credit Risk

Financial instruments that potentially expose the Hospital to concentrations of credit and market risk consist primarily of cash, investments and receivables. Cash is maintained at high-quality financial institutions and credit exposure is not limited to any one institution. The Hospital has not experienced any losses on its cash The Hospital's investments do not represent significant concentrations of market risk in as much as the Hospital's investment portfolio is adequately diversified among issuers. See Note 18 for concentration of credit risk for receivables

1. Excess of Revenues Over Expenses

The statement of operations includes excess of revenues over expenses. Changes in unrestricted net assets, which are excluded from excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments and contributions of long-lived assets (including assets acquired from contributions which by donor restriction were to be used for the purpose of acquiring such assets).

m. Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Hospital are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations and changes in unrestricted net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying financial statements.

Notes to Financial Statements

As of and for the Years Ended September 30, 2014 and 2013

1. Organization and Summary of Significant Accounting Policies (continued):

n. Income Taxes

The Hospital is exempt from income tax under Section 501(c)(3) of the Internal Revenue Code. However, the Hospital is subject to federal income tax on any unrelated business taxable income.

Accounting Standards Codification Subtopic 740-10, Accounting for Uncertainty in Income Taxes, addresses the accounting uncertainty of income taxes recognized in an enterprise's financial statements and prescribes a threshold of "more-likely-than-not" for recognition and derecognition of tax positions taken or expected to be taken in a tax return. Subtopic 740-10 also provides guidance on measurement classification, interest and penalties and disclosure. The Hospital has determined that the provisions of Subtopic 740-10 do not have a material effect on the Hospital's financial statements. The Hospital believes it is no longer subject to examinations for fiscal years prior to 2011.

o. Estimates

Management of the Hospital uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported revenues and expenses. Actual results could vary from the estimates that management uses

p. Advertising

The Hospital's advertising costs are charged to operations when the advertising first takes place.

q. Reclassification

Certain reclassifications have been made to the 2013 financial statements to conform to the 2014 presentation.

r. Deferred Revenue

Deferred revenue represents amounts received in advance for exchange transactions including certain government grant receipts and electronic health records incentive income recognized over the life of the associated electronic health record assets.

s. Employee Fringe Benefits

The Hospital has an "earned time" plan to provide certain fringe benefits for its employees. Under this plan, each employee "earns" paid leave for each payroll period worked. Accumulated hours may be used for vacations, holidays or illnesses. Hours earned but not used are vested with the employee. The Hospital accrues the cost of these benefits as they are earned.

Notes to Financial Statements

As of and for the Years Ended September 30, 2014 and 2013

1. Organization and Summary of Significant Accounting Policies (continued):

t. Electronic Health Records Incentive Program

The Medicare and Medicaid electronic health record (EHR) incentive programs provide a financial incentive for achieving "meaningful use" of certified EHR technology. The Medicare criteria for meaningful use will be staged in three stages from fiscal year 2012 through 2016. The Medicaid program provides incentive payments to hospitals as they adopt, and implement, upgrade or demonstrate meaningful use in the first year of participation and demonstrate meaningful use for up to five remaining participating years.

The Hospital recognizes a receivable for unpaid incentive payments at the point when management is reasonably assured it will meet all of the meaningful use objectives and the income is measurable. The total EHR incentive receivable, included in other receivables on the statement of financial position, was \$276,836 and \$451,156 for the years ended September 30, 2014 and 2013, respectively.

For the years ended September 30, 2014 and 2013 the Hospital recorded meaningful use revenue from the Medicaid and Medicare EHR programs of \$133,809 and \$400,063, respectively. Revenue from the programs is included in other operating revenue EHR incentive income recognized is based on management's estimate and amounts are subject to change, with such changes impacting operations in the period changes occur. The final amount for any payment year for the Medicare incentive will be subject to audit, at which time a final settlement will be issued..

2. Net Patient Service Revenue and Patient Accounts Receivable:

2. Net Patient Service Revenue and Patient Accounts Receivable (continued):

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare -

The Hospital is a Critical Access Hospital (CAH). Under the CAH program, the Hospital is reimbursed at 101% of allowable costs for its inpatient and most outpatient services provided to Medicare patients. The Hospital is reimbursed at tentative rates with final determination after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. As part of the Budget Control Act of 2011, effective April 1, 2013, reimbursement rates were reduced by a 2% sequestration. The Hospital's Medicare cost reports have been audited or desk reviewed by the Medicare fiscal intermediary through September 30, 2011.

Medicaid -

Inpatient services rendered to New Hampshire Medicaid program beneficiaries are reimbursed on a prospectively determined per case basis. Outpatient services are reimbursed under a prospectively determined rate per charge for laboratory and certain diagnostic services and a cost reimbursement methodology for all other outpatient services. These outpatient services are reimbursed at an interim rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the fiscal intermediary. The Hospital's cost reports have been audited or desk reviewed by the fiscal intermediary through September 30, 2011.

Anthem -

Inpatient and outpatient services rendered to Anthem subscribers are reimbursed at prospectively determined discounts from charges. The discounted rates are not subject to retroactive adjustment.

The Hospital also has entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Revenue from the Medicare and Medicaid programs accounted for approximately 48% and 17% of the Hospital's patient service revenue (net of contractual allowances and discounts) for the year ended September 30, 2014, respectively, and 53% and 12% of the Hospital's patient service revenue (net of contractual allowances and discounts) for the year ended September 30, 2013, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Net patient service revenue increased approximately \$696,000 for the year ended September 30, 2014 due to differences in settlements from amounts previously estimated.

The Hospital's patient service revenue net of contractual allowances and discounts was comprised of the following for the years ended September 30:

		<u>2014</u>		<u>2013</u>
Governmental payors	\$	10,089,287	\$	10,334,242
Other third party payors		4,354,925 1,282,663		3,343,367 1,499,607
Self-pay	-	1,282,000	-	1,499,007
Total all payors	\$_	15,726,875	\$	15,177,216

2. Net Patient Service Revenue and Patient Accounts Receivable (continued):

Patient Accounts Receivable

Patient accounts receivables are stated net of estimated contractual allowances and allowance for doubtful accounts as follows at September 30:

	<u>2014</u>	<u>2013</u>
Patient accounts receivable	\$ 4,721,307	\$ 4,888,680
LESS: Allowance for uncollectible accounts	926,747	953,860
Allowance for charity care	135,624	263,338
Reserve for contractual allowances	1,521,836	1,659,478
Patient accounts receivable, net	\$ <u>2,137,100</u>	\$ <u>2.012,004</u>

Patient accounts receivable are reduced by an allowance for doubtful account. In evaluating the collectibility of accounts receivable, the Hospital analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with service provided to patients who have third-party coverage, the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary. For receivables associated with self-pay patients, including both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for only part of the bill, the Hospital records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The following table represents a summary of self-pay estimated allowances for doubtful accounts as of September 30, and the related write-offs for the years ended September 30:

	<u>2014</u>	<u>2013</u>
Allowance for doubtful accounts as percentage of patient accounts receivables, net of contractual	29%	30%
Accounts receivables written off during the year	\$1,290,104_	\$ 1,154,014

3. Charity Care:

The Hospital maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services and supplies and equivalent service statistics. For the years ended September 30, 2014 and 2013, 2.14% and 2.73%, respectively, of all services as defined by percentage of gross revenue was provided on a charity care basis.

The estimated expense incurred to provide charity care charges totaling \$515,372 and \$679,363 for the years ended September 30, 2014 and 2013 was \$274,818 and \$379,896, respectively. The Hospital estimates its cost of charity care by applying an overall cost to charge ratio to the gross charges foregone.

Notes to Financial Statements

As of and for the Years Ended September 30, 2014 and 2013

3. Charity Care (continued):

The Hospital provided charity care for the following number of patient admissions/visits for the years ended September 30:

	200	14	2013			
	Charity	% of Total	<u>Charity</u>	% of Total		
Inpatient admissions	40	13%	43	11%		
Outpatient visits	1,173	7%	907	5%		

Community Care — Determination of eligibility for charity care is granted on a sliding fee basis. Patients with family income less than 150% of the Federal Poverty Guidelines shall not be responsible for the balance of their account for services rendered at the Hospital. Those with family income at least equal to 151%, but not exceeding 175% of the Federal Poverty Guidelines shall be responsible for 25% of the remaining balance of their accounts. Those with family income at least equal to 176%, but not exceeding 200% of the guidelines will be responsible for 50% of the remaining balance of their accounts. Those with family income at least equal to 201% but less than 300% of the guidelines are responsible for 75% of their balance.

4. <u>Inventories of Supplies:</u>

7. Fair Value Measurements:

The following method and assumptions were used in estimating the fair value of financial instruments:

Cash and cash equivalents

The carrying amount reported in the statement of financial position for cash and cash equivalents approximates fair value due to its short-term nature.

Internally designated investments and assets limited as to use

Fair values are based on quoted market prices.

Patient accounts receivable

Gross patient accounts receivable net of allowances as reported in the statement of financial position approximates fair value due to its short-term nature.

Accounts payable and accrued expenses

The carrying amount reported in the statement of financial position for accounts payable and accrued expenses approximates fair-value due to its short-term nature.

Due to third-party payors

The carrying amount reported in the statement of financial position for amounts due to third-party payors approximates fair-value due to its short-term nature.

FASB ASC Topic 820 prioritizes, within the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the transparency of information used in the valuation of an asset or liability as of the measurement date.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

- Level I Quoted prices are available in active markets for identical investments as of the reporting
 date. The type of investments in Level I include listed equities held in the name of the
 Hospital, and exclude listed equities and other securities held indirectly through
 commingled funds.
- Level II Pricing inputs, including broker quotes, are generally those other than exchange quoted
 prices in active markets, which are either directly or indirectly observable as of the
 reporting date, and fair value is determined through the use of models or other valuation
 methodologies.
- Level III Pricing inputs are unobservable for the investment and includes situations where there is
 little, if any, market activity for the investment. The inputs into the determination of fair
 value require significant management judgment or estimation. Judgment about inputs
 into the determination of fair value shall be developed based on the best information
 available in the circumstances.

7. Fair Value Measurements (continued):

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level input that is significant to the fair value measurement.

The following table presents the financial instruments carried at fair value as of September 30, 2014 and 2013 by FASB ASC Topics 820 valuation hierarchy defined above.

8. Endowment:

Return Objectives and Risk Parameters

The Hospital has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Hospital must hold in perpetuity or for a donor-specified period(s), as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of the S&P 500 index while assuming a moderate level of investment risk.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Hospital targets a diversified asset allocation that places a weighted ratio on equity-based and fixed income investments to achieve its long-term return objectives within prudent risk constraints.

8. Endowment (continued):

Uniform Prudent Management of Institutional Funds Act

Effective July 1, 2008, the State of New Hampshire adopted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) enacted as Revised Statutes Annotated (RSA) Chapter 292-B. This RSA provides guidance and special rules for the management of endowment funds. Unexpended investment income on permanently restricted net assets is required to be reported as temporarily restricted net assets until appropriated.

10. Capital Lease Obligations:

During the year ended September 30, 2010, the Hospital acquired several pieces of equipment under a capital lease. The equipment is recorded on the Hospital's books at September 30, 2014 and 2013 as capital lease equipment at a cost of \$47,000. The equipment is being amortized on a straight-line basis over five years using the half-year convention. Accumulated amortization on the leased equipment was \$42,300 and \$32,900 at September 30, 2014 and 2013, respectively. The remaining outstanding capital lease obligation as of September 30, 2013 was paid in full during 2014.

Notes to Financial Statements

As of and for the Years Ended September 30, 2014 and 2013

11. Pension Plan:

The Hospital has a defined contribution pension plan that covers substantially all full-time employees. The Hospital contributes to the plan upon the employee's completion of two years of uninterrupted services. The contribution is based upon several variables including compensation and length of employment. The pension expense for the years ended September 30, 2014 and 2013 was \$55,658 and \$54,177, respectively.

12. Commitments and Contingencies:

New England Alliance for Health

The Hospital has been a member of New England Alliance for Health (NEAH) since NEAH's inception on January 1, 2009. As a member, the Hospital receives core services including quality improvement/loss prevention, financial planning and benchmarking, materials management and pharmacy services, professional staff education and development, information services and program administration. The Hospital paid NEAH approximately \$139,000 and \$147,000 for services and insurance during the years ended September 30, 2014 and 2013, respectively.

Effective October 1, 2008, the Hospital insures its comprehensive general liability and professional liability exposures on a claims-made basis, including prior acts coverage, with a commercial carrier. The coverage is provided by primary and excess insurance policies subject to shared policy limits with other selected NEAH entities (nine other healthcare entities located in Massachusetts, New Hampshire and Vermont). The policies are renewable on an annual basis and have been renewed through September 30, 2015. All known significant asserted and unasserted claims alleging malpractice have been communicated to the insurer who is responsible for resolving the claim and the related costs of litigation. An event is insured at the time it is reported to the insurer even if a claim is not yet asserted Generally Accepted Accounting Principles require the Hospital to accrue the ultimate cost of malpractice claims when the incident that gives rise to the claim occurs, without consideration of insurance recoveries. Expected recoveries are presented as a separate asset. The Hospital has accrued \$905,000 and \$200,000 for malpractice claims as of September 30, 2014 and 2013, respectively. Insurance coverage associated with outstanding claims is reported as a component of others receivables and totaled \$905,000 and \$200,000 as of September 30, 2014 and 2013, respectively. The possibility exists, which is a normal risk of doing business, that malpractice claims in excess of insurance coverage may be asserted against the Hospital.

Operating Leases

The Hospital leases various equipment and facilities under operating leases expiring at various dates between 2015 and 2019. Total rental expense was \$231,847 and \$240,618 for the years ended September 30, 2014 and 2013, respectively.

The following is a schedule by year of future minimum lease payments under operating leases as of September 30, 2014, that have initial or remaining lease terms in excess of one year:

2015		\$	144,138
2016			65,232

12. Commitments and Contingencies (continued):

Outsourcing and Statement Processing Agreement

The Hospital has a year-to-year agreement that automatically extends for statement processing. The Hospital also has a two year agreement with the same company for business office outsourcing support services and statement processing effective until June 30, 2015. The agreements can be terminated by either party with 60 days' written notice to the other party of its intent to terminate as of such expiration date. Under the business office outsourcing support services agreement, the Hospital agrees to pay a percentage of total cash collections under this agreement. Under the statement processing agreement, the Hospital agrees to pay an amount per statement/collection letter processed and patient friendly billing statement. The Hospital expensed \$409,218 and \$342,659 under these agreements for the years ended September 30, 2014 and 2013, respectively.

Contractual Services

The Hospital was receiving limited management services from Weeks Medical Center (WMC) through 2013, a neighboring hospital, located in Lancaster, New Hampshire. These services consisted of limited financial management oversight two days per week. The Hospital paid for these services based on the allocated salary and benefits of the personnel performing these services, which were \$14,963 for the year ended September 30, 2013. These services are now being provided by Northern New Hampshire Healthcare Management, LLC (See Note 14).

The Hospital had a contract with Androscoggin Valley Hospital (AVH) for practitioners' services through June 30, 2014. The agreement will renew for an additional year unless either party gives the other party 90 days' notice before the end of the term or renewal term. Either party may terminate the agreement without cause by providing 90 days' written notice to the other party stating the intended date of termination. AVH may bill and collect for the services provided. If AVH provides the services at a loss, the Hospital is liable for the amount of the loss up to a total of \$100,000 for orthopedic services per fiscal year and a total of \$175,000 for all specialty and subspecialty services, including orthopedics per fiscal year.

13. Deferred Revenue:

The Hospital has been awarded certain operational grants and other grants for the purchase of certain equipment. Monies received and contracts awarded on operational grants, but not yet earned, have been recorded as deferred revenue. Monies received for the purchase of equipment are recognized over the life of the associated assets. At September 30, 2014 and 2013, \$167,616 and \$16,841, respectively, is included in deferred revenue related to these grants.

The Hospital recognized electronic health records incentive income over the life of the associated assets. At September 30, 2014 and 2013, \$250,059 and \$157,132, respectively, is included in deferred revenue.

14. Related Parties:

As of July 1, 2012, the Hospital formed an LLC, Northern New Hampshire Healthcare Management, LLC (NNHHM), with WMC and AVH, to provide a vehicle for shared saving arrangements within Coos County. Each Hospital has an equal one-third membership interest in NNHHM. NNHHM currently provides management services for the Hospital which consist of the Chief Administrative Officer (CAO) and Chief Financial Officer (CFO). The CAO position is paid through NNHHM effective January 1, 2013. The CFO position is shared with WMC, and is being compensated for these services based on the allocated salary and benefits of the personnel performing these services. As of September 30, 2014, the Hospital had a receivable from NNHHM in the amount of \$25,000 representing a working capital loan provided without specific repayment terms. Total management service fees paid by the Hospital to NNHHM for the years ended September 30, 2014 and 2013 totaled \$360,218 and \$226,078. respectively.

As of April 10, 2013, the Hospital formed a not-for-profit corporation, Northern New Hampshire Healthcare Collaborative, Inc. (NNHHC), with WMC and AVH to provide a vehicle for shared ownership arrangements between the three organizations. An application for tax-exempt status was filed with the Internal Revenue Service on July 9, 2013. Not-for-profit status was granted effective March 26, 2013. As of September 30, 2014, the Hospital had a receivable from NNHHC in the amount of \$171,259 representing a working capital loan provided without specific repayment terms.

On July 21, 2014, the Hospital, along with WMC, AVH and Littleton Regional Healthcare (LRH), signed a non-binding letter of intent to create a common parent organization that would service all communities in northern New Hampshire. The letter of intent provides a way forward for each of the organizations working together with the others to seek both regulatory approvals needed for this business affiliation. Under this arrangement, the four organizations would each exchange some autonomy, given to the parent organization, to enable the organizations to develop a highly-coordinated health care network that will improve quality, increase efficiencies and lower cost of health care delivery in northern New Hampshire.

The Hospital purchases the following services through Mary Hitchcock Memorial Hospital (MHMH). In 2009, the Hospital joined New England Alliance for Health (NEAH), an LLC owned and managed by MHMH, and pays dues for services to improve the quality of care and contain health care costs. WMC, AVH and MHMH for the years ended September 30, 2014 and 2013 which include:

	<u>2014</u>	2	2013
Weeks Medical Center Financial and health care services	\$ 7.102	\$	52,433
Androscoggin Valley Hospital Health care and laundry services	729,726		681,758
Mary Hitchcock Memorial Hospital Health care services	28,093		7,648

As of September 30, 2014 and 2013, related party liabilities of \$48,997 and \$36,107, respectively, are included in accounts payable and accrued expenses from AVH, MHMH and WMC. As of September 30, 2014 and 2013, \$14,049 and \$15,929, respectively, of related party receivables from WMC and AVH are included in other accounts receivable.

19. DSH Payments and Medicaid Enhancement Tax:

Medicaid disproportionate share hospital (DSH) payments provide financial assistance to hospitals that serve a large number of low-income patients. The federal government distributes federal DSH funds to each state based on a statutory formula. The states, in turn, distribute their portion of the DSH funding among qualifying hospitals. The states are to use their federal DSH allotments to help cover costs of hospitals that provide care to low-income patients when those costs are not covered by other payers. DSH payments are reported as a component of net patient service revenue. Recognized DSH payments totaled \$1,378,899 and \$1,318,938 for the years ended September 30, 2014 and 2013, respectively.

Effective June 20, 1991, the State of New Hampshire imposed a tax on the net patient service revenue of every hospital in the state. The Hospital identifies the Medicaid enhancement tax as a separate expense line item. Medicaid enhancement tax totaled \$620,583 and \$657,353 for the years ended September 30, 2014 and 2013, respectively.

20. Subsequent Events:

The Hospital has reviewed events occurring after September 30, 2014 through December 4, 2014 the date the board of trustees accepted the final draft of the financial statements and made them available to be issued. The Hospital does not believe that any events requiring recognition or disclosure have occurred between the period of September 30, 2014 and the report date, December 4, 2014. The Hospital has not reviewed events occurring after the report date for their potential impact on the information contained in these financial statements.
