SCHEDULE J, PART I, LINE 7	The payment of incentive compensation to participants is performance driven and based on 1) achievement of the Annual Net Project Income objective as approved by the Board of Directors and 2) individual performance based on goals established at the beginning of the fiscal year. The incentive compensation participants are categorized in groups and tiers within groups with assigned ranges of target incentive percentages. Participants' target incentive is a percentage of their base pay. Participants are eligible to receive 100% of their target incentive compensation if the Annual Net Project Income objective is achieved. If the Annual Net Project Income objective is not achieved but Research Operations realizes a positive operating income for the year, participants will receive a pro rata portion of their targeted incentive. If the Annual net Project Income objective is exceeded, participants are eligible to receive incentive payments ranging from 1 to 1.5 times their target incentive. Achievement of the Annual Net Project Income objective allows participants to become eligible for incentive compensation. Participants' actual awards are based on individual performance against specific objectives. The CEO and corporate officers evaluate each participant's contribution to the overall performance of Research Operations and to the achievement of their individual goals and proposes an incentive payment based on the respective group and tier and range of eligible incentive percentages. Once the CEO and corporate officers have approved the incentive compensation plan, the Compensation Committee of the Board of Directors reviews and approves the plan for all incentive eligible employees. The total amount of incentive compensation may not exceed 25% of the actual Annual Net Project Income.
