## INDEPENDENT AUDITORS' REPORT

Board of Directors  
Teton Valley Health Care, Inc.  
Driggs, Idaho

### Report on the Financial Statements

We have audited the accompanying financial statements of Teton Valley Health Care, Inc. (the Hospital) (a nonprofit organization), which comprise the consolidated statements of financial position as of September 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the year ended September 30, 2014, and the nine-month period ended September 30, 2013, and related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Hospital as of September 30, 2014 and 2013, and the results of its operations, changes in its net assets, and cash flows for the year ended September 30, 2014, and the nine-month period ended September 30, 2013, in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating statements of financial position and consolidating statements of operations and changes in net assets on pages 20 through 23 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

**1. Organization and Summary of Significant Accounting Policies:**

**a. Organization**

Effective January 11, 2012, Teton Valley Health Care, Inc. (the Hospital), a nonprofit corporation, was formed under the Idaho Nonprofit Corporation Act, Chapter 3, Title 30, of the Idaho Code. Operations under this nonprofit corporation began on January 1, 2013. The Hospital is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The Hospital has been set up to manage operations previously operated by Teton Valley Hospital, a component unit of Teton County, Idaho (the District). The Hospital is governed by a board of directors consisting of seven members.

The Hospital operates a 13-bed critical access hospital (CAH) and rural health clinic in Driggs, Idaho, and a rural health clinic in Victor, Idaho. The Hospital provides healthcare services to patients in the Teton County area. Services provided include acute care, emergency room, physicians' clinics, and the related ancillary procedures (imaging, laboratory, etc.).

The reporting entity of the Hospital also includes the financial information of Teton Valley Health Care Foundation doing business as Teton Valley Hospital Foundation (the Foundation). The Foundation is organized as an Idaho nonprofit corporation and is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The Foundation was organized to solicit and accept charitable contributions to support the Hospital.

In conjunction with formation of the Hospital, a Liquid Assets Transfer Agreement (LATA) was executed between the Hospital and Teton County, Idaho (the County), effective January 1, 2013. This agreement calls for all rights, title, and interest in the liquid assets of the County, relating to District operations, to be transferred to the Hospital in exchange for payment of a yearly fee of \$70,000 due annually in April, along with a yearly distribution equal to 5% of the Hospital's "Excess of Operating Revenues Over Expenses" as shown on the audited financial statements. This earnings distribution must be paid to the County within 150 days of the Hospital's fiscal year end. In addition, the Hospital shall assume the obligations and liabilities of the County related to the cash and liquid assets of the District. Liquid assets to be transferred shall include bank accounts, cash, tax levy and other liquid assets, and securities related to the operation of the District. Under this agreement, the County also has the option to reinvest all or a portion of such payments received into the Hospital. The Hospital may also make written funding requests for improvements to the Hospital.

In addition, a 99-year lease between the Hospital and the County has been signed, effective January 1, 2013. The agreement entitles the Hospital to lease from the County the hospital facilities, including any real or personal property leases, as well as the property, plant, and equipment currently used in the Hospital's operations. Annual consideration paid to the County will be \$1.

**1. Organization and Summary of Significant Accounting Policies (continued):**

**b. Summary of Significant Accounting Policies**

*Principles of consolidation* – The Hospital consolidates activities of Teton Valley Health Care, Inc. and Teton Valley Health Care Foundation, doing business as Teton Valley Hospital Foundation. All material intercompany transactions and accounts have been eliminated in the consolidated financial statements.

*Use of estimates* – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

*Income tax status* – The Hospital and Foundation are not-for-profit corporations and are exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income tax is necessary. The Hospital and Foundation evaluate uncertain tax positions whereby the effect of the uncertainty would be recorded if the outcome were considered probable and reasonably estimable. As of September 30, 2014, the Hospital and Foundation have no uncertain tax positions requiring accrual.

*Cash and cash equivalents* – Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets restricted as to use.

*Fair value measurements* – Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

The Hospital classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

**Level 1** – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

**Level 2** – Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly. The Hospital’s investments in certificates of deposit are considered Level 2 investments as of September 30, 2014 and 2013.

**Level 3** – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable. The Hospital did not have any Level 3 investments as of September 30, 2014 or 2013.

**Teton Valley Health Care, Inc.**

**Nine-Month Period Ended September 30, 2013**

**1. Organization and Summary of Significant Accounting Policies (continued):**

**b. Summary of Significant Accounting Policies (continued)**

*Investments in certificates of deposit* – Investments in certificates of deposit are measured at fair value in the consolidated statements of financial position based on quoted prices in markets that are not considered to be active (Level 2 input for fair value measurement).

*Inventories* – Inventories are stated at cost on the first-in, first-out method. Inventories consist of pharmaceutical, medical-surgical, and other supplies used in the operation of the Hospital.

*Property, buildings, and equipment* – The Hospital capitalizes assets whose costs exceed \$5,000 and have an estimated useful life of at least two years. Major expenses for capital assets, including leases that increase the useful lives, are capitalized. Maintenance, repairs, and minor renewals are accounted for as expenses as incurred. Capital assets are reported at historical cost or their estimated fair value at the date of donation. Depreciation is provided over the estimated useful life of each class of depreciable asset and computed using the straight-line method. The estimated useful lives of capital assets are as follows:

Land improvements	3 to 15 years
Buildings and improvements	5 to 30 years
Fixed equipment	5 to 20 years
Major movable equipment	2 to 20 years

Gifts of long-lived assets such as land, buildings, or equipment are reported as additions to unrestricted net assets, and are excluded from revenues in excess of expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted net assets.

Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

*Compensated absences* – The Hospital’s employees earn paid time off at varying rates depending on years of service. Employees are allowed to accrue a maximum of 240 hours. The estimated amount of paid time off is expensed and reported as a component of accrued compensation and related liabilities in the consolidated statements of financial position as it is earned.

Employees also earn extended illness bank benefits based on a standard rate-per-hour worked up to a maximum of 480 hours. Unused extended illness bank hours are not paid upon termination of employment. Extended illness bank benefits are expensed when taken. Effective January 3, 2015, employees will no longer be able to accrue extended illness hours as this benefit will no longer be offered by the Hospital.

**1. Organization and Summary of Significant Accounting Policies (continued):**

**b. Summary of Significant Accounting Policies (continued)**

*Excess of revenues, gains, and other support over expenses* – The consolidated statements of operations and changes in net assets include excess of revenues, gains, and other support over expenses. Changes in unrestricted net assets which are excluded from excess of revenues, gains and other support over expenses, consistent with industry practice, include unrealized gains and losses on investments other than trading securities, permanent transfers of assets to and from affiliates for other than goods and services, and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purpose of acquiring such assets).

*Functional expense allocation* – The costs of providing various programs and other activities have been summarized on a functional basis in the consolidated statements of operations and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

*Reclassifications* – Certain items included in the accompanying 2013 financial statements have been reclassified to conform to the 2014 presentation, with no effect on the previously reported change in net assets.

*Subsequent events* – The Hospital has evaluated subsequent events through January 19, 2015, the date on which the financial statements were available to be issued.

**2. Investments in Certificates of Deposit:**

The composition of investments is set forth below. Investments are measured at fair value on a recurring basis using quoted prices in markets that are not considered to be active (Level 2).

**3. Patient Accounts Receivable:**

Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectibility of patient accounts receivable, the Hospital analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for uncollectible accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for uncollectible accounts. For receivables associated with services provided to patients who have third-party coverage, the Hospital analyzes contractually due amounts and provides an allowance for uncollectible accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for uncollectible accounts.

The Hospital's allowance for uncollectible accounts for self-pay patients has not changed significantly from prior years. The Hospital's provisions for bad debts and writeoffs have not changed significantly from prior years. The Hospital changed its charity care and uninsured discount policies during the nine-month period ended September 30, 2013, to be in compliance with the Hospital's new status as a tax-exempt corporation formed under Section 501(c)(3) of the Internal Revenue Code. There have not been any changes to the charity care and uninsured discount policies during the year ended September 30, 2014. The Hospital does not maintain a material allowance for uncollectible accounts from third-party payors, nor did it have significant writeoffs from third-party payors. Patient accounts receivable consist of these amounts:

	<b>2014</b>	<b>2013</b>
Patients and their insurance carriers	\$ 2,460,546	\$ 2,444,926
Blue Cross and Blue Shield	453,283	567,281

<b>Net property, buildings, and equipment</b>	<b>\$ 2,557,052</b>	<b>\$ 2,383,737</b>

*Construction in progress* – As of September 30, 2014, the Hospital’s significant construction in progress related to costs for the purchase and installation of a generator, which is expected to be complete in February 2015, and has a estimated cost to complete of \$74,000.

**5. Employee Health Self-insurance:**

The Hospital participated in a self-insured health insurance plan administered by Boulder Administration Services, Inc. (the TPA) through December 31, 2013. The self-insured health insurance plan was terminated on December 31, 2013. The Hospital did not carry an employer sponsored plan after that point in time during the year ended September 30, 2014. The remaining health insurance claims outstanding as of December 31, 2013, were paid off during the year ended September 30, 2014. Plan expenses incurred under the self-insured health plan were approximately \$240,000 for the twelve-month period ended September 30, 2014, and \$460,000 for the nine-month period ended September 30, 2013. The Hospital accrued an incurred but not reported liability for plan claims that had been incurred but that had not yet been reported to the TPA. The Hospital’s liability for claims incurred but not reported was \$-0- as of September 30, 2014, and \$75,000 as of September 30, 2013.

Activity in the Hospital’s accrued employee health claims liability is as follows:

	2014	2013
Balance, beginning of period	\$ 75,000	\$ 71,000
Current year claims incurred and changes in estimates		
for claims incurred in prior years	241,647	463,722

**6. Long-term Debt:**

The Hospital had long-term debt balances as follows:

	<b>2014</b>	<b>2013</b>
KeyBank National Association loan, payable in monthly installments of \$15,351, including interest at 2.7% The loan matures January 2018, collateralized by Hospital certificates of deposit totaling \$704,802	\$ 587,206	\$ 753,295
Wells Fargo loan, payable in monthly installments of \$1,275, plus interest at 7.5%. The loan matures October 2022, collateralized by the thrift store building	84,404	92,321
Note payable relating to a building, payable in annual installments of \$13,711, plus interest at 3.48%. The loan matures August 2017, collateralized by the building	38,427	50,385

**Notes to Consolidated Financial Statements (Continued)**  
**Year Ended September 30, 2014 and**  
**Nine-Month Period Ended September 30, 2013**

**7. Net Patient Service Revenue:**

The Hospital recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, the Hospital recognizes revenue on the basis of its standard rates for services provided (or on the basis of discounted rates, if negotiated or provided by policy). On the basis of historical experience, a significant portion of the Hospital's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Hospital records a significant provision for bad debts related to uninsured patients in the period the services are provided. Patient service revenue, net of contractual adjustments and discounts (but before the provision for bad debts), recognized in the period from these major payor sources, is as follows:

	<b>2014</b>	<b>2013</b>
Patient service revenue (net of contractual adjustments and discounts):		
Medicare	\$ 4,889,290	\$ 3,470,719
Medicaid	760,643	595,041
Other third-party payors	7,879,704	5,283,194
Patients	1,409,193	896,359
	<b>14,938,830</b>	<b>10,245,313</b>
Less:		
Charity care	49,207	42,674
Provision for bad debts	958,286	748,278
<b>Net patient service revenue</b>	<b>\$ 13,931,337</b>	<b>\$ 9,454,361</b>

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

- *Medicare* – The Hospital is licensed as a critical access hospital and rural health clinic. The Hospital is reimbursed for most inpatient, outpatient, and rural health clinic services at cost with final settlement determined after submission of annual cost reports by the Hospital subject to audits thereof by the Medicare administrative contractor. Nonrural health clinic physician services are reimbursed based on fee schedules.
- *Medicaid* – Inpatient and outpatient services provided to Medicaid program beneficiaries are reimbursed under cost reimbursement methodologies through the Hospital's Medicare cost report, or rates as established by the Medicaid program. Rural health clinic visits are reimbursed at prospectively determined rates. Nonrural health clinic physician services are reimbursed based on fee schedules. The Hospital is reimbursed at a tentative rate with final settlement determined by the Medicaid program based on the Hospital's final Medicare cost report for non fee-schedule services.

**Teton Valley Health Care, Inc.**  
**Notes to Consolidated Financial Statements (Continued)**  
**Year Ended September 30, 2014 and**  
**Nine-Month Period Ended September 30, 2013**

**7. Net Patient Service Revenue (continued):**

The Hospital also has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges, fee schedule, and prospectively determined daily rates.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Net patient service revenue decreased by approximately \$25,000 in the year ended September 30, 2014, and increased by approximately \$3,000 in the nine-month period ended September 30, 2013, due to differences between original estimates and final settlements or revised estimates.

The Hospital provides charity care to patients who are financially unable to pay for the healthcare services they receive. The Hospital's policy is not to pursue collection of amounts determined to qualify as charity care. Accordingly, the Hospital does not report these amounts in net operating revenues or in the allowance for uncollectible accounts. The Hospital determines the costs associated with providing charity care by aggregating the applicable direct and indirect costs, including salaries and wages, benefits, supplies, and other operating expenses, based on data from its costing Hospital. The costs of caring for charity care patients for the year ended September 30, 2014, were approximately \$38,000 and costs for the nine-month period ended September 30, 2013, were approximately \$34,000.

**8. Retirement Plans:**

**403(b) plan** – The Hospital provides retirement benefits through the Teton Valley Health Care, Inc. 403(b) Plan (the 403(b) Plan), a defined contribution plan. The 403(b) Plan was effective as of January 1, 2013. This plan covers all eligible employees who are employed by the Hospital. Contributions are based on a discretionary percentage of wages and salaries. Employees are eligible to participate in the plan after completing 1,000 hours of service in a twelve-month period and attaining the age of 21. The Hospital's contribution for the year ended September 30, 2014, was approximately \$131,000, and the Hospital's contribution for the nine-month period ended September 30, 2013, was approximately \$104,000. The Hospital is the administrator for the plan.

**457(b) plan** – The Hospital also provides retirement benefits through the Teton Valley Healthcare, Inc. 457(b) Plan (the 457(b) Plan), a defined contribution plan. The 457(b) Plan was effective as of January 1, 2013. Only highly compensated employees, as defined in the plan agreement, are eligible to participate in the 457(b) Plan. Such employees are eligible to participate upon their date of hire. Contributions are based on a discretionary percentage of wages and salaries. The Hospital did not contribute to this plan in 2014 or 2013. The Hospital is the administrator for the plan.

**Notes to Consolidated Financial Statements (Continued)**  
**Year Ended September 30, 2014 and**  
**Nine-Month Period Ended September 30, 2013**

**8. Retirement Plans (continued):**

**Defined benefit plan** – Until 2004, the Hospital provided a defined benefit noncontributory pension plan (the Teton Valley Hospital Defined Benefit Plan) (the Plan) for all full-time employees who had completed one year of service and reached age 21. Benefits were based on years of service and career compensation and consisted of cash payments with a maximum possible benefit of \$15,000 per month. Benefit provisions and contribution requirements of Plan members and the Hospital were established by the Board of Trustees.

Effective December 31, 2003, the Hospital froze the defined benefit pension plan. Eligible employees would receive, upon retirement or termination, the benefits accrued on their behalf as of that date. This action is defined as a curtailment and eliminates accrual of additional benefits subsequent to the effective date.

Effective December 31, 2012, the Plan has been terminated. The plan has been fully settled as of September 30, 2014. During the year ended September 30, 2014, the Hospital paid out \$98,217 to plan participants. During the nine-month period ended September 30, 2013, the Hospital paid out \$93,240 to plan participants. As of September 30, 2014 and 2013, the Hospital owed participants \$-0- and \$98,217, respectively, in settlement funds. There is no effect of projected future compensation levels to report as of September 30, 2014, 2013, or 2012.

**9. Functional Expenses:**

The Hospital provides the following healthcare services to residents within its geographic location:

- Acute care
- Emergency services
- Outpatient surgery
- Rural health clinics
- Other outpatient services

Expenses related to providing these services were as follows:

	<b>2014</b>	<b>2013</b>
Healthcare services	\$ 11,144,495	\$ 7,834,266
General and administrative	3,113,105	2,089,034
Fundraising	190,479	161,254
	<b>\$ 14,448,079</b>	<b>\$ 10,084,554</b>

**Year Ended September 30, 2014 and**  
**Nine-Month Period Ended September 30, 2013**

**10. Contingencies:**

***Medical malpractice claims*** – The Hospital has professional liability insurance with National Fire and Marine Insurance Company. The policy provides protection on a “claims-made” basis whereby only malpractice claims reported to the insurance carrier in the current year are covered by the current policies. If there are unreported incidents which result in a malpractice claim in the current year, such claims would be covered in the year the claim was reported to the insurance carrier only if the Hospital purchased claims-made insurance in that year or the Hospital purchased “tail” insurance to cover claims incurred before but reported to the insurance carrier after cancellation or expiration of a claims-made policy. The malpractice insurance provides \$1,000,000 per claim of primary coverage with an annual aggregate limit of \$3,000,000. The policy does not have a deductible.

The Hospital also has excess professional liability insurance with National Fire and Marine Insurance Company on a “claims-made” basis. The excess malpractice insurance provides \$2,000,000 per claim of primary coverage with an annual aggregate limit of \$2,000,000. The policy does not have a deductible.

***Industry regulations*** – The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as: licensure, accreditations, government healthcare program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity continues with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes that the Hospital is in compliance with fraud and abuse statutes, as well as other applicable government laws and regulations.

While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions known or unasserted at this time.

***Healthcare reform*** – As a result of recently enacted federal healthcare reform legislation, substantial changes are anticipated in the United States of America’s healthcare organizations. Such legislation includes numerous provisions affecting the delivery of healthcare services, the financing of healthcare costs, reimbursement of healthcare providers, and the legal obligations of health insurers, providers, and employers. These provisions are currently slated to take effect at specified times over approximately the next decade. The federal healthcare reform legislation does not affect the 2014 financial statements.

**Year Ended September 30, 2014 and**  
**Nine-Month Period Ended September 30, 2013**

**11. Concentrations of Risk:**

*Patient accounts receivable* – The Hospital grants credit without collateral to its patients, most of who are local residents and are insured under third-party payor agreements. The mix of receivables from patients is as follows:

	<b>2014</b>	<b>2013</b>
Medicare	22 %	18 %
Medicaid	2	3
Blue Cross and Blue Shield	14	18
Other commercial insurances	12	18
Patients	50	43
	<b>100 %</b>	<b>100 %</b>

*Physicians* – The Hospital is dependent on local physicians practicing in its service area to provide admissions and utilize hospital services on an outpatient basis. A decrease in the number of physicians providing these services or change in their utilization patterns may have an adverse effect on the Hospital’s operations.

*Cash and cash equivalents and investments in certificates of deposit* – As of September 30, 2014 and 2013, the Hospital maintained deposits in accounts with major financial institutions which exceeded the \$250,000 Federal Deposit Insurance Corporation limit. These financial institutions have strong credit ratings, and management believes that credit risk related to these deposits is minimal.
