## HOLDINGS

This section reflects positions purchased/sold on a trade date basis, and includes positions purchased and omits positions sold in the current month. "Market Value" and "Unrealized Gain/(Loss)" are representative values as of the last business day of the statement period and may not reflect the value that could be obtained in the market. Fixed Income securities are sorted by maturity or pre-refunding date, and alphabetically within date. Estimated Annual Income (EAI) is calculated on a pre-tax basis and does not include any reduction for applicable non-US withholding taxes, if any. EAI for certain securities may include return of principal or capital gains which could overstate such estimates. For securities that have a defined maturity date within the next 12 months, EAI is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment, and does not reflect changes in its price. Structured products, identified in the Security Description column, appear in various statement product categories. When displayed, accrued interest, annual income and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period. Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis on the sale of covered securities acquired on or after January 1, 2011, and classify the gain or loss as either long-term or short-term. These regulations also require that we make basis adjustments on covered securities due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. Cost basis is reflected on statements for informational purposes and should not be used in the preparation of your income tax returns. Refer to the Expanded Disclosures for additional information.

## CASH, BANK DEPOSIT PROGRAM AND MONEY MARKET FUNDS

Cash, Bank Deposit Program, and Money Market Funds are generally displayed on a settlement date basis. You have the right to instruct us to liquidate your bank deposit balance(s) or shares of any money market fund balance(s) at any time and have the proceeds of such liquidation remitted to you. Estimated Annual Income, Accrued Interest, and APY% will only be displayed for fully settled positions.

"Total Purchases vs Market Value" is provided to assist you in comparing your "Total Purchases," excluding reinvested distributions, with the current value of the mutual fund positions in your account

"Cumulative Cash Distributions" when shown, may reflect distributions on shares no longer held in the account. It may not reflect all distributions received in cash, due to but not limited to investments made prior to addition of this information on statements, securities transfers, timing of recent distributions, and certain adjustments made in your account

"Net Value Increase/ (Decrease)" reflects the difference between your total purchases, and the sum of the current value of the fund's shares, and cash distributions shown. This calculation is for informational purposes only and does not reflect your total unrealized gain or loss nor should it be used for tax purposes

"Total Purchases vs Market Value" is provided to assist you in comparing your "Total Purchases," excluding reinvested distributions, with the current value of the mutual fund positions in your account

"Cumulative Cash Distributions" when shown, may reflect distributions on shares no longer held in the account. It may not reflect all distributions received in cash, due to but not limited to investments made prior to addition of this information on statements, securities transfers, timing of recent distributions, and certain adjustments made in your account

"Net Value Increase/ (Decrease)" reflects the difference between your total purchases, and the sum of the current value of the fund's shares, and cash distributions shown. This calculation is for informational purposes only and does not reflect your total unrealized gain or loss nor should it be used for tax purposes

ALTERNATIVE INVESTMENTS

Your interests in Alternative Investments, which may have been purchased through us, may not be held here, and are not covered by SIPC. The information provided to you 1) is included solely as a service to you, and certain transactions may not be reported, 2) is derived from you or another external source for which we are not responsible, and may have been modified to take into consideration capital calls or distributions to the extent applicable, 3) may not reflect actual shares, share prices or values; 4) may include invested or distributed amounts in addition to a fair value estimate, and 5) should not be relied upon for tax reporting purposes. Alternative Investments are illiquid and may not be valued daily. The estimated valuation provided will be as of the most recent date available and will be included in summaries of your assets. Such valuation may not be the most recent provided by the fund in which you are invested. No representation is made that the valuation is a market value or that the interest could be liquidated at this value. We are not required to take any action with respect to your investment unless valid instructions are received from you in a timely manner. Some positions reflected on your statement may not represent interests in the fund, but rather redemption proceeds withheld by the issuer pending final valuations which are not subject to the investment performance of the fund and may or may not accrue interest for the length of the withholding.

For Managed Futures and Alternative Investments, there are likely to be restrictions on redemptions, see applicable offering document. The "Commitment/Aggregate" investment reflected in the "Hedge Funds" category is equal to the total investment to date. "Redemptions" as reflected in the "Hedge Funds" category are equal to any past redemptions/sales that were reported to us. "Estimated Value" is the value reported to us as of the most recent date available. "Commitment" in the "Private Equity" and "Real Estate" categories is equal to the obligation of an investor to provide funding to the Partnership from time to time in accordance with the Limited Partnership Agreement. The "Contributions" field reflected in the "Private Equity" and "Real Estate" categories is equal to the total investor funding to date in accordance with the Limited Partnership Agreement. "Distributions" in the "Hedge Funds," "Private Equity" and "Real Estate" categories consist of distributed prior income or return of capital from the fund. This is presented for informational purposes only and should not be used for tax reporting purposes and would not be included in any tax reporting that we provide.

The service on those investments designated "(RPTG ONLY)" is limited to performance reporting only. No investment advice or research is provided. If you have questions, contact your Financial Advisor.

HEDGE FUNDS - SHARES

"Trade Date" as reported in the "Hedge Funds - Shares" category may reflect the date on which the positions were transferred into the current account. "Total Purchases vs. Estimated Value" is provided to assist you in comparing your "Total Purchases," excluding reinvested distributions, with the current value of Hedge Fund positions in your account as reflected in the Hedge Funds - Shares category. "Net Value Increase/(Decrease)" reflects the difference between your total purchases and the estimated value of the fund's shares. This calculation is for informational purposes only and does not reflect your total unrealized gain or loss nor should it be used for tax purposes.

HOLDINGS

This section reflects positions purchased/sold on a trade date basis, and includes positions purchased and omits positions sold in the current month. "Market Value" and "Unrealized Gain/(Loss)" are representative values as of the last business day of the statement period and may not reflect the value that could be obtained in the market. Fixed Income securities are sorted by maturity or pre-refunding date, and alphabetically within date. Estimated Annual Income (EAI) is calculated on a pre-tax basis and does not include any reduction for applicable non-US withholding taxes, if any. EAI for certain securities may include return of principal or capital gains which could overstate such estimates. For securities that have a defined maturity date within the next 12 months, EAI is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment, and does not reflect changes in its price. Structured products, identified in the Security Description column, appear in various statement product categories. When displayed, accrued interest, annual income and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period. Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis on the sale of covered securities acquired on or after January 1, 2011, and classify the gain or loss as either long-term or short-term. These regulations also require that we make basis adjustments on covered securities due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. Cost basis is reflected on statements for informational purposes and should not be used in the preparation of your income tax returns. Refer to the Expanded Disclosures for additional information.

CASH, BANK DEPOSIT PROGRAM AND MONEY MARKET FUNDS

Cash, Bank Deposit Program, and Money Market Funds are generally displayed on a settlement date basis. You have the right to instruct us to liquidate your bank deposit balance(s) or shares of any money market fund balance(s) at any time and have the proceeds of such liquidation remitted to you. Estimated Annual Income, Accrued Interest, and APY% will only be displayed for fully settled positions.

This section reflects positions purchased/sold on a trade date basis, and includes positions purchased and omits positions sold in the current month. "Market Value" and "Unrealized Gain/(Loss)" are representative values as of the last business day of the statement period and may not reflect the value that could be obtained in the market. Fixed income securities are sorted by maturity or pre-refunding date, and alphabetically within date. Estimated Annual Income (EAI) is calculated on a pre-tax basis and does not include any reduction for applicable non-US withholding taxes, if any. EAI for certain securities may include return of principal or capital gains which could overstate such estimates. For securities that have a defined maturity date within the next 12 months, EAI is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment, and does not reflect changes in its price. Structured products, identified in the Security Description column, appear in various statement product categories. When displayed, accrued interest, annual income and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period. Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis on the sale of covered securities acquired on or after January 1, 2011, and classify the gain or loss as either long-term or short-term. These regulations also require that we make basis adjustments on covered securities due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. Cost basis is reflected on statements for informational purposes and should not be used in the preparation of your income tax returns. Refer to the Expanded Disclosures for additional information.

Estimated yield reflects only the income generated by an investment, and does not reflect changes in its price. Structured products, identified in the Security Description column, appear in various statement product categories. When displayed, accrued interest, annual income and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period. Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis on the sale of covered securities acquired on or after January 1, 2011, and classify the gain or loss as either long-term or short-term. These regulations also require that we make basis adjustments on covered securities due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. Cost basis is reflected on statements for informational purposes and should not be used in the preparation of your income tax returns. Refer to the Expanded Disclosures for additional information.

CASH, BANK DEPOSIT PROGRAM AND MONEY MARKET FUNDS

Cash, Bank Deposit Program, and Money Market Funds are generally displayed on a settlement date basis. You have the right to instruct us to liquidate your bank deposit balance(s) or shares of any money market fund balance(s) at any time and have the proceeds of such liquidation remitted to you. Estimated Annual Income, Accrued Interest, and APY% will only be displayed for fully settled positions.

Structured products, identified in the Security Description column, appear in various statement product categories. When displayed, accrued interest, annual income and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period. Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis on the sale of covered securities acquired on or after January 1, 2011, and classify the gain or loss as either long-term or short-term. These regulations also require that we make basis adjustments on covered securities due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. Cost basis is reflected on statements for informational purposes and should not be used in the preparation of your income tax returns. Refer to the Expanded Disclosures for additional information.

CASH, BANK DEPOSIT PROGRAM AND MONEY MARKET FUNDS

Cash, Bank Deposit Program, and Money Market Funds are generally displayed on a settlement date basis. You have the right to instruct us to liquidate your bank deposit balance(s) or shares of any money market fund balance(s) at any time and have the proceeds of such liquidation remitted to you. Estimated Annual Income, Accrued Interest, and APY% will only be displayed for fully settled positions.

## HOLDINGS

This section reflects positions purchased/sold on a trade date basis, and includes positions purchased and omits positions sold in the current month. "Market Value" and "Unrealized Gain/(Loss)" are representative values as of the last business day of the statement period and may not reflect the value that could be obtained in the market. Fixed Income securities are sorted by maturity or pre-refunding date, and alphabetically within date. Estimated Annual Income (EAI) is calculated on a pre-tax basis and does not include any reduction for applicable non-US withholding taxes, if any. EAI for certain securities may include return of principal or capital gains which could overstate such estimates. For securities that have a defined maturity date within the next 12 months, EAI is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment, and does not reflect changes in its price. Structured products, identified in the Security Description column, appear in various statement product categories. When displayed, accrued interest, annual income and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period. Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis on the sale of covered securities acquired on or after January 1, 2011, and classify the gain or loss as either long-term or short-term. These regulations also require that we make basis adjustments on covered securities due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. Cost basis is reflected on statements for informational purposes and should not be used in the preparation of your income tax returns. Refer to the Expanded Disclosures for additional information.

## HOLDINGS

This section reflects positions purchased/sold on a trade date basis, and includes positions purchased and omits positions sold in the current month. "Market Value" and "Unrealized Gain/(Loss)" are representative values as of the last business day of the statement period and may not reflect the value that could be obtained in the market. Fixed Income securities are sorted by maturity or pre-refunding date, and alphabetically within date. Estimated Annual Income (EAI) is calculated on a pre-tax basis and does not include any reduction for applicable non-US withholding taxes, if any. EAI for certain securities may include return of principal or capital gains which could overstate such estimates. For securities that have a defined maturity date within the next 12 months, EAI is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment, and does not reflect changes in its price. Structured products, identified in the Security Description column, appear in various statement product categories. When displayed, accrued interest, annual income, and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period. Treasury regulations require that we report on Form 1099-B, after the close of the tax year, your adjusted cost basis on the sale of covered securities acquired on or after January 1, 2011, and classify the gain or loss as either long-term or short-term. These regulations also require that we make basis adjustments on covered securities due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. Cost basis is reflected on statements for informational purposes and should not be used in the preparation of your income tax returns. Refer to the Expanded Disclosures for additional information.

## CASH, BANK DEPOSIT PROGRAM AND MONEY MARKET FUNDS

Cash, Bank Deposit Program, and Money Market Funds are generally displayed on a settlement date basis. You have the right to instruct us to liquidate your bank deposit balance(s) or shares of any money market fund balance(s) at any time and have the proceeds of such liquidation remitted to you. Estimated Annual Income, Accrued Interest, and APY% will only be displayed for fully settled positions.
