Local Initiative For Excellence

A MORE PERFECT HEALTH

It is estimated that 26 percent of Americans ages 18 and older, about one in four adults, suffer from a diagnosable mental illness in any given year and many of these are difficult to treat and many mental illnesses go undiagnosed. The goal of L I F E Foundation (L I F E) is to provide fundamental knowledge about the brain, the basis for what goes wrong to cause mental disorders, and to develop effective treatments. This will be accomplished by providing research grants to support innovative research, to sustain productive research teams, and to encourage and support investigators in the early part of their career. Brain cancer research grants will not be considered by this program.

L I F E invites pilot grant proposals that will provide new and novel insight into understanding brain health. The overall goal is to achieve better health outcomes for patients with brain and neurodegenerative disease. The first round of support will concentrate on funding critical experiments employing molecular genetics approaches to these problems as well as studies involving Regenerative Medicine.

Eligibility for Funding

All UC faculty with 80% or greater FTE, including those based at Cincinnati Children's Hospital Medical Center, as well as outside researchers in non-profit organizations with novel approaches, are eligible to apply for funding. L I F E plans to fund up to three grants this year of \$100,000 (\$50,000 per year for 2 years) for reimbursement of approved research project expenditures as costs are incurred. The funding for the second year will be granted after the approval of the first year's progress report.

A one page Letter of Intent (LOI) and NIH biographical sketch should be submitted to the L I F E Foundation, 4200 Malsbary Road, Cincinnati, Ohio 45242, by March 15 of each year. The LOI should describe the problem to be addressed, its significance, and the approach that will be used to answer the proposed scientific question.

The L I F E Scientific Advisory Committee will invite up to six applicants to submit an application for funding based on scientific merit and the potential for developing a strong basic or translational research program. Applicants will be invited by April 1 of each year.

The full application should be submitted by May 1 of each year at 5:00 pm EST. Applicants will present their proposal to the Scientific Advisory Committee later in May at a mutual agreeable time.

Instructions for Submission of a Full Proposal

Invited applications should be a maximum of six single-spaced pages (excluding references) in no less than 11 point Arial font and margins of 0.5 inches (NIH guideline). The application should include the following:

- Specific Aims
- Background
- Preliminary Data
- Experimental Design

For investigators moving into new areas of research, the lack of preliminary data will not preclude funding. The investigator must demonstrate how their research can be applied to the problem of brain health. The proposal should address the potential for future funding such as NIH grants. Supporting documents must include itemized budget, budget justification, other support, and an NIH biographical sketch.

Budget

Pilot grants will fund expenses directly related to research efforts but not faculty salary support, computers, travel, or indirect costs. Questions regarding allowable expenses should be directed to Jerry Lingrel (jerry.lingrel@uc.edu) 513 558 5326.

Review of Proposals

The Scientific Advisory Committee will review the invited applications for scientific content, likelihood of leveraging the pilot grant into NIH funding, and achieving programmatic goals of LIFE. Specific consideration will be given to applications that demonstrate translational potential and robust collaborations among researchers/disciplines but will not be a requirement.

Progress Reports

All investigators who receive funding will be expected to provide a detailed progress report eleven months after the start of funding. The progress report should indicate project status, challenges, remaining project timeline, and estimated costs for completion. The second year of funding will be granted by the Scientific Advisory Committee based on review of the progress report.

Contact Information

For any questions regarding the application process, please contact Jerry Lingrel (jerry.lingrel@uc.edu) 513 558 5326.

COMPLETION OF THE INVITED APPLICATION

The following items must be submitted for an invited application to be considered complete and eligible for review:

Title Page (see below)

Abstract

Project Narrative:

The Narrative, including specific aims, background, preliminary data and experimental design methods is limited to a maximum of six typewritten pages of discussion, using no less than 11 point Arial font. All appropriate details and graphics must be included in the body of the application and no appendices will be accepted other than appropriate letters of support. A statement of innovation and references do not count in the six page limit.

Budget and Justification:

The budget must be itemized and a detailed budget justification must be included. Projects are limited to a maximum of \$50,000 per year for two years (\$100,000 total).
