financial footnote regarding fin 48 (asc 740)	NPG evaluates uncertainty in income tax positions taken or expected to be taken on a tax return based on a more likely than not recognition standard. If that threshold is met, the tax position is then measured at the largest amount that is greater than 50% likely of being realized upon ultimate settlement and is recognized in NPG's financial statements. To the extent that NPG's estimates change or the final tax outcome of these matters is different than the amounts that have been recorded, such differences will impact the income tax provision when such determinations are made. If applicable, NPG records interest and penalties as a component of income tax expense. Tax years from 2010 through the current year remain open for examination by federal and state tax authorities.
