Return Reference	Explanation
Schedule D, Part III, Line 4	The Nemours mansion is the 300-acre country estate of the late industrialist and philanthropist Alfred I. DuPont. The mansion is located on the grounds of the renowned Alfred I. DuPont Hospital for Children in Wilmington, Delaware. It derives its name from the town in France represented by Mr. Dupont's great-great-grandfather, Pierre Samuel DuPont de Nemour. The mansion was built from 1909 to 1910 and is a fine example of a French chateau in the style of Louis XVI. The 47,000 sq. ft. mansion looms over the surrounding formal gardens and is furnished with fine antiques, famous works of art, beautiful tapestries, and other treasures. The grounds surrounding the mansion extend for one third of a mile along the main vista from the house, and are among the finest examples of french-style gardens in the United States. The mansion and gardens are open for tours between May and December. Tour groups are kept small and include expert commentary by guides familiar with the DuPont family history.

Schedule D, Part X, Line 2	Nemours is exempt from federal income taxes on related income under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3), and is also exempt from state income taxes. Form and Line Reference	Explanation
Schedule H, Part III, Section C, Line 9b	The Nemours financial assistance policy applies to all of the facilities that it operates. Debt collection is not pursued against patients who qualify for the financial assistance program.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 2	Nemours assesses the healthcare needs of these communities using various methods. For example, Nemours community relations team is active at all sites to identify specific community needs for children. At Nemours, we seek to understand the health needs of the families who live in the communities we serve. Nemours has clinical operations in communities in Delaware, southeastern Pennsylvania and southern New Jersey (referred to as the Delaware Valley), Maryland and Florida. Nemours is committed to improving the health of children, even those who never enter our doors. To do this effectively, Nemours conducts community health needs assessments (CHNAs) then explores potential strategies to influence them. The CHNA can be found at www.nemours.org/community . The "areas of opportunity" listed below represent the significant health needs of children and adolescents in the communities our hospitals serve. Areas of opportunity in the Delaware Valley: access to health services, alcohol, tobacco and other drugs, health education, mental and emotional health, nutrition, physical activity and weight, prenatal and infant health, sexual activity. Areas of opportunity in Central Florida: access to health services, health education, injury and safety, mental and emotional health, nutrition, physical activity and weight, prenatal and infant health, vision, hearing and speech. Nemours seeks to educate families about children's health and parenting through its Center for Children's Health Media (KidsHealth.org). KidsHealth helps families by enabling parents, kids and teens to better understand and take mastery of their own health. Nemours creates integrated suites of physician reviewed, family-friendly, engaging media that provide families with knowledge, perspective, advice and comfort.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 3	<p>All of Nemours hospital and clinic locations share the same practice of educating patients and their families in the eligibility process. Information regarding financial assistance can be found on our website at www.nemours.org/patientfamily/payment/financialassistance.html. Nemours employs financial counselors, as well as engages independent firms (collectively referred to as Financial Counselors) to assist in determining Medicaid eligibility. The Financial Counselors, some of whom are multi-lingual, work with families, educate and assist them with form completion regarding any program for which they might be eligible, including programs in the state of residence. Patients that arrive for an appointment at one of our practices, or admitted to or presents to the emergency room at AIDHC or NCH as "self pay" are screened for Medicaid eligibility. The Financial Counselors follow up directly with the respective State regarding their decision/determination. Certain Financial Counselors may go to the families home, if necessary. In some instances, certain Financial Counselors will ask for and receive limited power of attorney, in an effort to assist the family with the Medicaid eligibility process. To benefit from Nemours Financial Assistance Program, a family must participate in the Medicaid eligibility process described above. Through that process, Nemours assesses eligibility for our charity care program, which is based on Federal Poverty Guidelines as indicated in Schedule H, Part I, lines 3a and b. Eligibility for the Nemours Financial Assistance Program is completed by the Financial Counselors. Personnel at AIDHC have also established the Family Advisory Council (FAC), a group of parents whose children have had services at AIDHC. The purpose of the FAC is to obtain feedback from families about additional ways Nemours can assist with financial eligibility issues. Nemours' representatives have participated in the Robert Wood Johnson Foundation funded "Children's Hospital Eligibility Process Improvement Collaborative", an effort about educating providers regarding eligibility best practices. The collaborative touched on topics from literacy and how to write and share a brochure in a way that the family can understand, to assessing what an appropriate staffing level should be. In an effort to perform proactive outreach in the Delaware Valley, Nemours' Financial Counselors go to our various locations, as well as local Community Health Center facilities. Both types of places represent a source from which families come to Nemours. Such visits focus on educating families about the various funding sources for which they might be eligible.</p>

Form and Line Reference	Explanation
Schedule H, Part VI, Line 4	<p>Nemours' clinical operations include two children's hospitals and multiple outpatient clinics. In Wilmington, Delaware, Nemours operates specialty and primary care children's clinics and a health clinic for the elderly. Nemours' service area includes 27 counties throughout Delaware, southeastern Pennsylvania, and southern New Jersey. In 2011, an estimated 204,208 children and youth under the age of 18 live in Delaware, (US Census Bureau, 2011) comprising approximately 22.7% of the area's total population. Nationally, an estimated 73,650,025 children and youth under 18 make up 23.8% of the total population (US Census Bureau, 2011). While Americans' overall health status has been improving, disparities remain in the prevalence of illness and death experienced by minority populations, as compared to the U.S. population as a whole. These disparities affect children as well as adults. Currently, Delaware's children and youth population is comprised primarily of 61% White and 25.7% African American compared to 68.2% White and 14.3% African American, nationally (US Census Bureau, 2011). Household income level can have a significant impact on the health status of children living in the household. For example, children living in low-income households may not have adequate health insurance or access to primary care. Overall, a smaller percentage of children and youth in the Delaware (17.5%) live below 100% of the Federal Poverty Level (FPL) when compared to the national rate of children in poverty (22.5%) (US Census Bureau, 2011). Approximately, 63.9% of the area's children and youth live in households with incomes at or above 200 percent of the poverty level (US Census Bureau, 2011). Children who have health insurance typically have better access to preventive services, such as vaccinations, routine screenings, and medical treatment. The vast majority of children and youth in the Delaware (96.4%) have health insurance coverage (NSCH, 2011), either through a private source or a public health insurance program such as Medicaid. Nemours' clinical operations in Florida include a children's hospital in Orlando, and a statewide physician practice with campuses in Jacksonville, Pensacola and Orlando. In 2011, 3,980,766 children and youth under the age of 18 years are living in Florida (US Census Bureau, 2011). Children under the age of 18 make up 21.1% of Florida's total population compared to 23.8% of the total population nationally (US Census Bureau, 2011). The majority of children and youth in Florida are white (67.6%) while African American children make up 21% of the population (US Census Bureau, 2011). A slightly larger number of children and youth in Florida (24.9%) live below 100% of the FPL when compared to the national rate of children in poverty (22.5%). Based on the US Census bureau (2011), children in Florida are more likely to be uninsured or publicly insured (53.1%), and less likely to be privately insured (59.1%) than children and youth nationally (44.7% and 66.2%, respectively). The majority of children and youth in Florida are covered through private, largely employer-sponsored, health insurance. About 32.1% of children and youth in Florida are covered by public health insurance (US Census Bureau, 2011), a percentage which is slightly lower than the national average (29.5%). Finally, a greater proportion of children and youth are uninsured in Florida than nationally (21% vs. 15.2%) (US Census Bureau, 2011). Return Reference	Explanation
Schedule J, Part I, Line 1a	Nemours has established a policy for the reimbursement of travel and related expenses incurred by its employees. All transportation and travel arrangements shall be the most economical under the circumstances. Excursion or coach fares shall be ordered whenever available. Approval of a vice president shall be required for any other class of travel. Each department has the right to limit travel expenditures based on budgetary restrictions and may limit coverage to certain categories of travel expense. First class travel may occur in situations for Nemours employees wherein other fares are not available or travel is for a long period of time or overseas. Board members also have the option of traveling first class. Effective, January 1, 2009, Nemours instituted a written policy regarding such travel.
Schedule J, Part I, Line 4	The Nemours Foundation maintained a supplemental employee benefit plan (SEBP) for most of the members of The Nemours executive team as determined by the Board of Directors. The SEBP provides each participant an employer provided annual flexible benefit allowance in the form of dollar credits which the participant may apply to any of the benefits offered under the plan which include individual long-term disability insurance, and unfunded nonqualified deferred compensation benefits subject to IRC section 457(f). Under the plan, each of the participants makes an annual election allocating his or her flexible benefit allowance for the upcoming year among the component benefits. The amount of the flexible benefit allowance may vary among the participants as determined by Nemours and Nemours may discontinue the flexible benefit allowances at any time. Contributions to the plan are disclosed in Form 990, Part VII, Column F and Schedule J, Part II, Column (C).
Schedule J, Part I, Line 7	Certain employees of Nemours are eligible for incentive compensation. This compensation is based on qualitative and quantitative organizational goals and the achievement of such goals by the organization, its division and individuals.
