Return Reference	Explanation
UNCERTAIN TAX POSITION	GAAP requires management to evaluate tax positions taken and recognize a tax liability (or asset) if the Organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. Management has analyzed the tax positions taken and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. If the Organization were to incur an income tax liability in the future, interest and penalties would be reported as income taxes. The Organization is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. Management believes the Organization is no longer subject to income tax examinations by tax authorities for the years prior to 2011.

First, the job description is analyzed for the purposes of selecting like-kind organizations to use the compensation of those like-kind organizations as comparables. The most relevant factors in selecting comparables include the type of services and programs offered, the annual budget and geographical location. Second, the compensation of the person is reviewed and approved using data of the comparable like-kind organizations. These two steps ensure that the compensation is within market. The Board of Directors makes the decision on the compensation of the Chief Executive Officer, and has input on the compensation of the other Employees.
