Form and Line Reference	Explanation
PART I, LINE 6	The organization prepares a community benefit report annually and presents the report to the Washington County, Arkansas Quorum Court. The report is also posted on the organization's website.

Form and Line Reference	Explanation
PART I, LINE 7G	The organization reports subsidized health services for certain clinics. The subsidy reported is equal to the amount of operating loss less the provision for uncollectible accounts. The clinics for which the organization subsidizes meet certain criteria as set forth by the IRS including services for seniors, neonatal services, women's services and psychiatric services.

Form and Line Reference	Explanation
PART III, LINES 2,3,4	On the basis of historical experience, a significant portion of the organization's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the organization records a provision for uncollectible accounts related to uninsured patients in the period the services are provided. This provision for uncollectible accounts is presented on the statement of operations as a component of net patient revenue. The cost of bad debt is estimated using a cost to charge ratio. The amount of bad debt attributable to patients eligible for charity is estimated to be 10%, or a relatively small number. Patients have many chances to learn about financial assistance, and the assumption is made that qualifying patients will act upon the receipt of such information. The organization follows the VHA/Catholic Health Association's guide for planning and reporting community benefits. As such, the organization does not report bad debt from the treatment of patients as a community benefit. See footnote 1, page 11, in the audited financial statements which describes bad debt.

Form and Line Reference	Explanation
PART III, LINE 8	The organization follows the VHA/Catholic Health Association's guide for planning and reporting community benefits. As such, the organization does not report shortfalls from the treatment of Medicare patients as a community benefit. The information on the profitability of Medicare was derived from the 2014 Medicare Cost Report as requested in the Form 990 instructions. Other expense items considered non-allowable by Medicare such as subsidized clinic services for seniors, women, children and psych patients and trauma call provider subsidies in excess of the state trauma grant total to another \$4.7 million of actual costs. Further, the internal cost accounting system calculation includes yet another \$2.2 million in costs yielding a net margin on Medicare patients of \$1,970,000 in 2014.

Form and Line Reference	Explanation
PART III, LINE 9B	The organization's collection (bad debt) policy specifically addresses that collection agencies are required to analyze the patient's ability to pay. In the event that charity is identified, collection efforts are suspended and the account is written off to charity on a timely basis.

Form and Line Reference	Explanation
PART VI, LINE 2	The organization assesses needs in a variety of ways. With respect to practitioner recruitment for development of new health care services, the organization may perform internal assessments of the need for such providers and/or services or engage external consultants to assess those needs. Additionally, the organization is advised of community needs by its community-based board of directors, medical staff, local government and local nonprofit organizations. The organization also identifies the need for new services or shortcomings in existing community health resources by analyzing utilization patterns in its service offerings, I e patients presenting to the emergency room for services no longer provided elsewhere. The Pat Walker Center for Seniors is an example where the organization has responded to the needs of the aging patient population. This patient population became underserved when other local providers elected to discontinue or limit services to patients with Medicare.

Form and Line Reference	Explanation
PART VI, LINE 3	<p>During pre-registration and registration, staff identify patient financial needs during discussions of source of payment. When a patient states an inability to pay, organization personnel screen for financial assistance eligibility by asking for income and family size. Patients that staff believe may qualify for financial assistance are referred to financial counselors to discuss financial assistance available, information needed and the decision process. During the accounts receivable pre-collection process, correspondence letters from the organization clearly state that patients who believe that they may qualify for the financial assistance program should call for this specific help. Phone discussions during the A/R pre-collection phase and the bad debt collection phase screen for those who may qualify for benefits under the financial assistance policy. These efforts are evidenced by instances of financial assistance provided to accounts that were either in the pre-collection or bad debt collections phases when the financial assistance determination was made. The organization also attempts to identify health care coverage under federal and state programs and facilitates patients' enrollment in such programs. Funding of these efforts cost \$167,000 in 2014.</p>

Form and Line Reference	Explanation
PART VI, LINE 4	The organization serves as a regional referral center for northwest Arkansas, western Oklahoma and southwest Missouri. WRMC's primary service area includes Washington, Benton, Madison, Carroll and Boone counties. In 2014, the estimated population according to the US Census Bureau for each of these five counties was as follows: Washington, 220,792, Benton, 242,321, Madison, 15,740, Carroll, 27,744, and Boone, 37,196. The median household income in 2014 for each of these counties was as follows: Washington, \$41,248, Benton, \$54,515, Madison, \$35,771, Carroll, \$36,584 and Boone, \$38,506. The percentage of persons below the poverty level range from 12.2% in Benton County to 22.6% in Madison County. In 2014, white persons made up the greatest percentage of the population for each of the counties. Persons of Hispanic or Latino origin were the second highest ranging from 2.3% in Boone County to 16.2% in Washington County. Over 75% of our inpatient admissions were from Washington and Benton counties. Inpatient admissions from other counties in our secondary service area totaled 14%, with the remaining percentage coming from neighboring Oklahoma and Missouri as well as other counties in Arkansas and across the nation. Washington and Benton county residents represented 84% of our outpatient cases. Of the total admissions in 2014, approximately 14% were uninsured or Medicaid recipients.

Form and Line Reference	Explanation
PART VI, LINE 5	The organization provides community support through being a major participant in disaster readiness, public health emergency activities and community disease surveillance. From an environmental perspective, the organization segregates and properly disposes of hazardous clinical waste in order to safeguard community natural resources. Part of the organization's mission is to improve the health of the citizens in the communities we serve. The organization maintains walking trails around the campus, connected these trails to the city's walking trails and contributed land to the city to add to its walking trails. The organization continually assesses the need for various types of physicians and recruits as appropriate. In 2014, Washington Regional welcomed 29 new physicians to the medical staff. With skills and expertise that complement existing practices and serve a demonstrated need in the community, these new physicians represent a wide range of medical specialties: Emergency Medicine, Family Practice, Internal Medicine, Endocrinology, Pulmonology, Rheumatology, Gastroenterology, Anesthesiology, General Surgery, OB/GYN, Neurology, Neurosurgery, Endovascular Neurosurgery, Hospitalist and Neonatology. Included in the 2014 community benefit totals are amounts for which the organization provided financial support to local nursing education programs. Total support for these programs in 2014 was \$150,000.
