Patient Eligibility	Part I, Line 3c Patients with family income at or below 200% of applicable FPG may be eligible for free care if the patient lacks sufficient funds and assets to pay the out-of-pocket portion of their hospital bill Patients with family income above 200% of applicable FPG who have unpaid medical bills exceeding a specified percentage of the patient's annual gross income, as determined on a sliding scale based on FPG, may be deemed medically indigent and eligible for charity care The patient may be eligible for a charity adjustment up to 100% of the unpaid balance of their hospital bill in excess of a specified "patient responsible amount" if the patient has insufficient funds/assets to pay his hospital bill without incurring an undue financial hardship The patient responsible amount is based on a percentage of the patient's annual income in relation to FPG A determination as to whether or not a patient has insufficient funds and/or assets to pay for purposes of determining both financial and medical indigence is made at the time a patient's charity care application is reviewed Assets considered when determining eligibility include cash, stocks, bonds and other financial assets that can be readily converted to cash An additional process to screen for charity patients using publicly available financial information is also in place for patients not submitting a charity care application

Cost to Charge Ratio	Pt I, Ln 7 A cost to charge ratio is used in computing the amounts reported in Lines 7a-7c. The amounts reported on Lines 7e-7i were obtained using direct costs, as determined by a cash outlay or, in the case of reporting employee volunteer hours, by using an average national volunteer wage rate.

Form and Line Reference	Explanation
Bad Debt Expense	Part III, Lines 2, 3 & 4 Bad debt expense is not included as a community benefit for purposes of reporting community benefits to Texas. We treat each patient qualifying for charity care as a charity patient and no charges related to that patient are included in bad debt expense. The hospital is part of a consolidated system of hospitals which operate under the name Texas Health Resources (THR). THR's annual audit is conducted on a system-wide basis with a single consolidated audit report issued for THR and its affiliates. The audited financial statements of THR, which includes the activity of the organization, contain a footnote regarding Accounts Receivable and Allowance for Doubtful Accounts that reads as follows: Patient accounts receivable are reported net of estimated allowances for doubtful accounts and contractual adjustments in the balance sheets. The allowance and resulting provision for bad debts is based upon a combination of the aging of receivables and management's assessment of historical and expected net collections considering business and economic conditions, trends in health care coverage and other collection indicators for each of its major payor sources of revenue. Management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience and payment trends by payor category. Patient accounts are also monitored and, if necessary, past due accounts are placed with collection agencies in accordance with guidelines established by management. For receivables associated with services provided to patients who have third-party coverage, the System analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third party coverage exists for part of the bill), the System records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the billed rates and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts. The System's allowance for doubtful accounts for self-pay patients (including allowances for charity care) increased from 96.0% of self-pay accounts receivable at December 31, 2013, to 96.1% of self-pay accounts receivable at December 31, 2014. In addition, the System's self-pay write-offs for bad debts increased from approximately \$294,476,000 for fiscal year 2013 to approximately \$310,000,000 for fiscal year 2014. The increase in write offs was the result of an overall increase in patient revenue in fiscal year 2014. The System does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write-offs from third-party payors.

Form and Line Reference	Explanation
Medicare Shortfall	Pt III, Ln 8 The state of Texas treats any Medicare shortfall as a community benefit for meeting the state statutory requirements for charity care & community benefit For state purposes, the shortfall is computed by comparing actual Medicare reimbursements with the estimated cost the hospital incurs in providing these services to Medicare patients Cost is determined by applying a cost-to-charge ratio (with costs determined in accordance with generally accepted accounting principles) to billed charges The shortfall amount reported to the state of Texas for 2014 is \$40,290,615 Sch H requires a different method of calculating the Medicare shortfall shown on Part III, Lines 5-7

Form and Line Reference	Explanation
Debt Collection	Part III, Line 9b During the year, standard collection procedures were in place and uniformly applicable to all patient accounts Except to the extent a patient receives a recovery from any third party or other source, no attempts are made to collect unpaid charges from patient accounts approved for adjustment under the Charity Care Program

Form and Line Reference	Explanation
Needs Assessment	Part VI, Line 2 The organization is part of the Texas Health Resources (THR) healthcare system. In addition to the organization's Community Health Needs Assessment (CHNA), THR developed and implemented, as a healthcare system, a Community Benefit Framework (CBF), based on the Public Health Institute's best practices ASACB program. The CBF systematically integrates internal practices into the community to improve the efficiency and effectiveness of THR's community health improvement (CHI) strategy, to address disproportionate unmet health needs (DUHN), to address primary prevention and to improve community capacity. CBF provides a quantitative approach to parallel the CHNA in identifying key communities within THR's service area, and the means to align them with a THR entity. The CBF contains five phases: assessment/profile, infrastructure, Community Health Council, programmatic review and strategy development. THR works with each entity community health representative to examine its structure and programs for gaps, needs, strengths, and alignment with the CBF, CHNA and ASACB standards.

Patient Education	Part VI, Line 3 A description of both the Charity Care program and application are available on the THR website at www.TexasHealth.org in English and Spanish. Signs alerting patients of charity care assistance and related contact information are posted in various areas of the hospital including admissions & registration, the emergency room and other outpatient departments. Additionally, financial assistance information is provided verbally and in writing to self-pay patients by financial counselors. As part of the financial counseling meeting, patients are screened for potential eligibility in other governmental assistance programs. If it is determined that the patient is potentially eligible for governmental assistance, the counselor will assist the patient in completing forms necessary to apply for the assistance. At the same time, patients are provided with a Charity Care application and information flyer. The patient is informed that the hospital is a non-profit organization offering financial assistance to patients deemed medically or financially indigent. A Plain Language Summary titled "Getting Help Paying Your Bill" is included on the back of our patient statements. The plain language summary informs the patients of how to qualify for charity, how to apply for help, necessary documentation, and informs of THR's collection activities. The onsite financial counselors may assist the patient in completing the application and obtain available verification information. Once the patient is discharged, the counselors will continue to contact the patient to ensure all forms and verifications needed to file an application for governmental assistance and Charity Care have been provided. In certain cases, self-pay patients who are discharged before seeing a financial counselor receive both a phone call and a letter to alert them to the existence of the financial assistance program. Each bill sent for hospital services also contains contact information alerting patients that Texas Health has a charity care program.

Texas Health Plano-Facility #1	
Physicians Medical Center - Facility #2	Part V Section B, Ln 5 -Facility #2 Physicians Medical Center utilized vast amounts of qualitative and quantitative data to assess the health needs of the persons in the communities served. As a means to further understand the needs from those engaged in the community, Physicians Medical Center conducted a series of community feedback sessions. Participants of the community feedback interviews included, but were not limited to faith community representatives, public health officials, lay community members and school officials. The information gathered from the community feedback sessions helped Physicians Medical Center to understand the health needs from a community perspective and align this to the data analysis. Part V Section B-7d - Facility #2 Physicians Medical Center produced executive summaries of the completed CHNAs along with other information that is of benefit to community members as well as a comparison between the health needs of the community and the State of Texas statistics. This information is widely available throughout the facility and given out at various community coalition and partnership meetings in an effort to disseminate the information through various community-based outlets. Part V Section B, Ln 11 - Facility #2 CHNA 2013 revealed a vast number of community health issues that require collective action to improve the health of the community. In order to assist the organization in determining which health needs should be addressed, Physicians Medical Center categorized the community needs in alignment with the national objectives of Healthy People 2020 categories. By using a strategic prioritization method to determine the top needs within the community aligned with the ability to address the said issues, two areas were chosen and are being addressed through the 2014-2016 implementation plan. 2014 was the first year of implementation and the focus was to create the systems, structure and interventions that could be consistently deployed at the hospital and at other system hospitals for a consistent impact across the region. The two areas of priority are first, Awareness, Literacy and Navigation ("ALN") and second, Chronic Disease. In addition, our efforts were to clearly align and coordinate services and interventions with community partners for a collective impact to meet these two priority areas defined. 1. Awareness, Literacy and Navigation (ALN) 1a. Community Health Improvement Strategies include collaboration to develop an area resource guide of key services available to the local community, individuals and non-profit partners that address the social determinants of health. Collation of this information began through the community health councils and community partners during 2014. This "easy to understand and use" guide will provide key details including how to access the resource and/or service in the local community to meet the individual's needs. This guide information collected in 2014 will be made available in an online and/or print format during 2015. 1b. Community Benefit Grants. The Texas Health Grant and Sponsorship Program provides community benefit grants, sponsorships and other in-kind resources to improve the health status of the communities served. Grants are limited to the specific areas of health disparities, disease management, wellness, disease prevention and health promotion programs, clinics, charitable care and community health collaborative. 1c. Support/sponsorship of relevant and targeted community programs to advance awareness and health literacy has begun. 1c1. A Plain Language Summary (PLS) of the charity policy is provided on the back of all billing statements. Pt V, Sec B-22d - Facility #2. Charges to Individuals Eligible for Assistance under the FAP. The hospital used the Look-Back Method to compute its Amounts Generally Billed (AGB) percentage. The 4 largest managed care plans were combined and averaged to calculate the AGB. The AGB percentage is used to determine the discount taken from the patient's gross charges. Initially, an uninsured patient is sent a bill with charges less the AGB percentage. If a patient becomes FAP-eligible, then charity care is given for the patient balance due. At no time will the patient pay more than the AGB percentage of their hospital bill.

Schedule I, Part II - Monitoring Grants	Texas Health Plano (THP) is a member of the Texas Health Resources (THR) healthcare system. The majority of the grants distributed by the system are to related tax exempt organizations. The hospital does not specifically monitor the use of grants paid to related organizations since THR administration monitors the use of these grants on a system basis for all members of the THR healthcare system. Grants to non-related tax exempt organizations are generally given to entities that are in the hospital's community and/or service area or to certain organizations which will specifically impact the hospital's community. These grants are typically monitored by hospital personnel who are working closely with the non-related nonprofit organization.

Return Reference	Explanation
Related Transactions- Part V, Line 2	Texas Health Resources (THR) is the parent organization in a large healthcare system made up of both wholly owned entities as well as related controlled joint ventures as listed on Schedule R. THR's role is to plan, manage and coordinate the activities of the affiliated healthcare system in order to maximize opportunities to deliver cost effective quality medical care to residents of north central Texas. THR provides direction and oversight to its wholly owned affiliates through centralized services. They also provide oversight for the controlled joint ventures. As an integral part of providing centralized services to the affiliates, THR maintains intercompany receivable/payable accounts, most of which do not fall within the scope of IRC Section 512(b)(13). The range of centralized services provided by THR include information services, managed care contracting, Human resources, revenue cycle, billing and collections, patient access/admissions, legal, tax, compliance, supply chain, quality, business development, insurance, treasury, marketing, general accounting, real estate services, coding, transcription and strategic planning. In addition, THR does daily cash sweeps of all controlled tax exempt entity cash accounts. As a result, THR has numerous daily transactions with controlled tax exempt entities, none of which fall within the scope of IRC Section 512(b)(13). A management fee is charged for the centralized services and reported on Form 990, Part VII, Section B as a professional services fee. Transactions with related tax exempt organizations falling within the meaning of centralized services as described above, are not listed on Schedule R, Part V, Line 2.
