Form and Line Reference	Explanation
Part I, Line 7 - Explanation of Costing Methodology	The costs were determined by using a cost-to-charge ratio The cost-to-charge computation is based on hospital specific data included in the system-wide audited combined financial statements The formula used for computation equals financial statement data labeled as follows Total expenses - (Provision for bad debts + Other revenue + Interest income)/Gross patient chargesFeather River Hospital is located in a medically underserved area and participates in a quality assurance fee program with the State of California to fund certain Medi-Cal coverage expansions The state redistributes funds to hospitals that provide patient care to a higher proportion of indigent and medically underprivileged patients, who otherwise would most likely not have access to physicians and other medical services The community benefit analysis includes receipts from this redistribution that are used to assist in partially offsetting the significant costs associated with providing patient care to this population group The program may or may not continue in the future based on the State of California's regulations and policies and the approval of the federal government

Form and Line Reference	Explanation
Part III, Line 2 - Methodology Used To Estimate Bad Debt Expense	Uncollected patient accounts are analyzed using written patient financial services policies that apply standard procedures for all patient accounts. The result of the analysis is what is recognized as bad debt expense. For example, all self-pay patients receive a discount. If the discounted account is unpaid after collection efforts, the unpaid balance is classified as bad debt. The cost-to-charge ratio described for Part I, Line 7 is multiplied times the hospital's bad debt expense as reported in the system-wide audited combined financial statements. The resulting figure has been reported as bad debts at cost on Part III, Line 2.

Form and Line Reference	Explanation
Part III, Line 3 - Methodology of Estimated Amount & Rationale for Including in Community Benefit	The portion of the bad debts attributed to charity care as reported on Part III, Line 3 was calculated by an independent third-party consulting firm. This is an estimate of additional charity care that would have been granted if patients had cooperated by furnishing family financial information. A statistically valid sampling of patient accounts written-off was evaluated. The evaluation used various factors to determine which patients would have been eligible for charity care. Had the hospital obtained sufficient information from all patients who qualified for financial assistance, these additional accounts would have been recorded as charity care instead of bad debt.

Form and Line Reference	Explanation
Part III, Line 4 - Bad Debt Expense	The system-wide combined audited financial statements do not contain a footnote describing bad debt expense

Form and Line Reference	Explanation
Part III, Line 8 - Explanation Of Shortfall As Community Benefit	The Medicare cost report apportions the hospitals costs on the basis of inpatient days and ancillary and outpatient charges to establish the costing methodology Healthcare delivery by hospitals is a complex, highly regulated business in the United States Healthcare unit cost inflation is driven by compliance with ever-expanding regulatory requirements, shortages of highly skilled labor and evolving medical and information technology The health care market basket is unrelated to that of the average individual consumer Since the 1997 Balanced Budget Act, Medicare annual payment updates have fallen behind actual healthcare cost inflation to the point that Medicare payments to many U S hospitals are well below the cost of providing care These unreimbursed costs are a community benefit for seniors and others in the community as these individuals are continuing to receive care without which many would become dependent on other governmental resources such as Medicaid The benefit to the community for healthier Medicare recipients is no different than those benefits the community realizes for uninsured and underinsured patients who are eligible for partial and full charity care Medicare is a safety net for seniors and others Without Medicare coverage, many individuals would undoubtedly qualify for charity care In addition to the mismatch between Medicare payment increases and healthcare cost inflation, the highly complex Medicare payment systems and formulas produce disparate payment levels from one hospital to another for the same service These disparate payment levels create disparate results within groups of hospitals Reconciliation of Medicare Revenue from the hospital's Medicare Cost Report to GL * Medicare Cost Report Revenue \$66,665,505 Prior Year Settlements - Cost Report Reimbursable Bad Debts 487,500 Estimates and Accrual Variances 114,664 Other 5,955,728 Subtotal - Amount reported in PtIII, Line 5 73,223,397 Amounts include in Part 1, lines g and f - Total Medicare Revenue 73,223,397*Note The Medicare Cost Report revenue does not include the bad debt reimbursement The Cost Report revenue does include the patient co-pay and deductible amounts Adding the bad debt reimbursement would have duplicated the revenue already accounted for in the co-pay and deductible amounts

Form and Line Reference	Explanation
Part III, Line 9b - Provisions On Collection Practices For Qualified Patients	When a patient has requested screening for charity care, the hospital must immediately cease collection activity and place the account in a charity pending status. If 100% charity is approved, the entire account balance is written off to charity care. If the patient has a sliding scale liability based on the federal poverty guidelines, they are billed only for that liability. If the patient fails to pay their after-charity liability, they are assigned to a collection agency with an identifier that indicates to the agency that the patient is "low income" and the following criteria must be followed by the agency: 1. They may not report the patient to a credit bureau; 2. They may not file a lawsuit to recover the outstanding liability; 3. They may not charge interest.

Part VI - Needs Assessment	Community needs are continually assessed outside of our scheduled CHNA by our many partnerships through community organizations. These partnerships help keep a running dialogue about the state of health in our community, the obstacles, and possible solutions. Organizations feel free to approach our organization for help in areas they identify as opportunities for health improvement and do so often. We also participate with the Butte County Department of Health's CHNA process collaborating with groups across the county in focus groups and workshops to identify needs and ways FRH can help to address them. The Community Health Plan marks the second phase in a collaborative effort to identify our community's most pressing health needs. A Community Health Needs Assessment (CHNA) was conducted in 2013 to identify potential priority areas for community health. The CHNA was conducted not only in response to California's community benefit legislation (SB 697) and The Affordable Care Act (H.R. 3590), but to truly fulfill the mission of the Adventist Health, To share God's love by providing physical, mental and spiritual healing. The CHNA includes both the activity and product of identifying and prioritizing a community's health needs, accomplished through the collection and analysis of data, including input from community stakeholders that is used to inform the development of a community health plan. Community needs are continually assessed outside of our scheduled CHNA by our many partnerships through community organizations. These partnerships help keep a running dialogue about the state of health in our community, the obstacles, and possible solutions. Organizations feel free to approach our organization for help in areas they identify as opportunities for health improvement and do so often. We also participate with the Butte County Department of Health's CHNA process collaborating with groups across the county in focus groups and workshops to identify needs and ways FRH can help to address them. The second component of the CHNA, the community health plan, includes strategies and plans to address prioritized needs, with the goal of contributing to improvements in the community's health. Copies of the hospital's 2013 CHNA study and the 2014 Community Health Plan Update are posted on the hospital's website, https://www.adventisthealth.org/feather-river/Pages/About-Us/community.aspx, as well as on the Adventist Health Corporate website, https://www.adventisthealth.org/Pages/About-Us/Community-Health-Needs-Assessments.aspx

Part VI - Patient Education of Eligibility for Assistance	At the time of registration, Feather River Hospital patients who are uninsured and underinsured are provided information about government healthcare programs. Patients also are orally informed of their right to request charity assistance. Signs are displayed in the patient business office, patient registration areas and the emergency room in multiple languages informing our patients of this right as well. In addition, hospital also provides brochures during the registration process that explains the hospital billing and collection procedures, and how to request financial assistance. Every billing statement sent to patients contains information on how to request financial assistance. The hospital charity assistance policy is posted on the hospital website. Our financial assistance policies are also available on our website for easy access. The Financial Assistance Policy is summarized on the hospital's website, at https://www.adventisthealth.org/feather-river/pages/patients-and-visitors/financial-services.aspx

Part VI - Community Information	Feather River Hospital defines its primary service area as encompassing the ridge communities of Paradise, Magalia, Sterling City and parts of Butte Valley. This geographic region has approximately 45,000 residents and is largely comprised of elderly (Medicare) patients. The hospital's secondary service area, namely Oroville, Chico, Durham, Gridley, etc. This broader geographical region is comprised of more than 120,000 residents. Some services on the hospital (such as the Birth Day Place, the Cancer Center, and the Joint Replacement Center) bring in patients from communities outside these designations due to their specialty and reputation. Paradise, Magalia, and Oroville are considered to be federally-designated medically underserved areas. Feather River Hospital's patient mix is primarily under or uninsured patients with 54% Medicare, 23% Medi-Cal, and 2% private pay leaving on 20% of patients having commercial insurance. In Butte County 80% of the population is considered to be in the uninsured/underinsured category. The average income in Butte County is \$23,787 with 20% of the population considered to be below the poverty line. There are no other Hospitals in our primary service area, yet there is one hospital in Chico and one Hospital in Oroville (cities considered to be in our secondary market).

Part VI - Community Building Activities	Our hospital is involved in numerous community building activities which promote the health of the communities it serves. Numerous community concerns are addressed, including health improvement, education, poverty, workforce development and access to care. We also encourage our employees to serve on community collaboration boards, health advocacy programs, and physical improvement projects to promote the health of the communities we serve. And, we work with neighborhood programs, including schools, work sites and safety net providers to promote health and wellness and prevent disease. These activities are not included elsewhere on Schedule H.

Part VI - Explanation Of How Organization Furthers Its Exempt Purpose	Feather River Hospital is actively involved in and participates with a variety of community events to promote the health of its community. Our Community Benefit Plan is designed to focus on addressing identified health concerns or needs of this community and include numerous programs and service offerings. These include health education efforts such as classes and informational lectures by health care providers, health screenings, support groups for several specific programs, and communication efforts to help inform the community about how they can access these services. Our multiple locations and breadth of services ensure that we address access to care issues and our rural health clinics support the provision of health care services to the medical-underserved population. We encourage our leadership to participate with key community groups in order to ensure strong, positive relationships with the community and use these individuals to create a feedback loop mechanism to ensure we are listening to their needs. Feather River Hospital also works to ensure that the health of our community is a priority through our outreach efforts and in the way that we approve sponsorships and/or donations. We participate with a variety of these efforts that are not part of Part I Charity Care and Other Community Benefits, and are not included elsewhere on Schedule H. These activities include participation with key community groups who work to address health and safety issues of community segments, such as youth at risk, the medically-underserved, and the elderly. Collaboration with Butte College and Chico State University to support the education and training of nurses and other health care professionals by providing opportunities for clinical rotations, student internships, administrative residencies, and financial support for faculty. Donations of appropriate supplies and equipment to organizations and activities to support the continuation of health care services.
