\* Noncovered under the cost basis rules as defined below

Securities acquired before 2011 are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Reporting requirements generally will be phased in over a three-year period, as follows:

- Stock in a corporation acquired on or after January 1, 2011
- Mutual funds and dividend reinvestment plan (DRP) shares acquired on or after January 1, 2012
- Other securities, principally debt securities and options, acquired on or after January 1, 2014, or later, as determined by the Secretary of the Treasury

This Schedule may not reflect all cost basis adjustments necessary for tax reporting purposes, especially for noncovered securities. Adjustments to cost basis may have been made for prior income received and subsequently reclassified by the issuer as a return of capital. In addition, corporate action events may require adjustments to your original cost basis. Return of capital information and cost basis information, as it relates to corporate actions, has been obtained from sources we believe to be reliable.

Adjustments to cost basis can be made after year-end, in particular, for return of capital adjustments, but may also include adjustments for corporate action events. Therefore there may be differences in cost basis reflected on your monthly client brokerage statement at year end versus any subsequent reports, including your 1099-B or online displays you may have available to you.

When you report your cost basis on your tax return, it should be verified using all of your own records. In particular, there may be other adjustments which you need to make, but are not required to be made by Pershing as it relates to H.R. 1424. You should consult with your tax advisor in order to properly report your gain or loss for tax purposes. Pershing shall not be responsible for and makes no representations or warranties with respect to the accuracy of any information that you report to the IRS or other taxing authorities, and, accordingly, disclaims any and all liability that may arise with respect to your use and reliance on the information provided herein for such reporting.

3 Realized loss is net of a disallowance due to a wash sale.

Please refer to the Your Account Information Section in your brokerage account statement for your account's existing tax-lot disposition method. The disposition method is the method which you have selected to use in the disposal of each tax lot of the securities held in your account. If you do not select a method, your account will be defaulted to First In, First Out (FIFO). Your account's selected tax lot method will be used to determine the cost basis for calculating gain and/or loss, unless another method was selected at the time of the security disposal, and this may be reported on the IRS Form 1099-B.
