Form and Line Reference	Explanation
Schedule H, Part I, Line 7 Costing Methodology used to calculate financial assistance	The costing methodology includes inpatient, outpatient, and emergency department and is broken down by payer categories. Both direct and overhead costs have been allocated, by services rendered. Each Payer's net revenue is offset by the total cost and the results by Payer are calculated. In addition to a hospital wide cost to charge ratio, we have calculated cost to charge ratios for each Payer, based on the cost of the type of services rendered to their specific patients. Therefore, the community benefit amounts attributable to Medicaid and other government programs are calculated based on their specific cost to charge ratio.

Form and Line Reference	Explanation
Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	Patient service revenue, net of contractual allowances and discounts, is reduced by the provision for bad debts, and accounts receivable is reduced by an allowance for uncollectible accounts. The System establishes an allowance for uncollectible accounts based on many factors, including payer mix, age of receivables, historical cash collection experience, and other relevant information. A significant portion of the Systems uninsured patients will be unable or unwilling to pay for services provided and a significant portion of the Systems insured patients will be unable or unwilling to pay for co-payments and deductibles. Thus, the System records a significant provision for bad debts related to these insured and uninsured patients in the period the services are provided. The System writes down the expected reimbursement after reasonable collection efforts have been exhausted.

Form and Line Reference	Explanation
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	Bad debt is not included in the Community Benefit report FOOTNOTE Patient service revenue, net of contractual allowances and discounts, is reduced by the provision for bad debts, and accounts receivable is reduced by an allowance for uncollectible accounts The System establishes an allowance for uncollectible accounts based on many factors, including payer mix, age of receivables, historical cash collection experience, and other relevant information A significant portion of the System's uninsured patients will be unable or unwilling to pay for services provided and a significant portion of the System's insured patients will be unable or unwilling to pay for co-payments and deductibles Thus, the System records a significant provision for bad debts related to these insured and uninsured patients in the period the services are provided The System writes down the expected reimbursement after reasonable collection efforts have been exhausted

Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs	The shortfall from total costs for Medicare patients is a significant loss to the hospital. The Hospital is providing care to patients whose insurance (Medicare) does not cover the entire cost of their care. This provides significant aid to the elderly in the community. Some of these elderly people would qualify under FAP guidelines for charity care under any other Payer program. The dollars reported are taken from the 2014 Medicare Cost Report and are derived following their guidelines of allowable and non-allowable costs.

Form and Line Reference	Explanation
Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	All patients receive 6 statements over 135 days, which include a statement about how to inquire about financial assistance. Patients who are known to qualify for charity care or are in the process of applying for charity care are not sent to collection until a final charity care determination is made. If they qualify, their account is written down to zero.

Schedule H, Part VI, Line 3 Patient education of eligibility for assistance	Cottage Health, has a multifaceted Financial Assistance Program to ensure that patients who do not have insurance are screened for eligibility in a government sponsored healthcare plan and receive information about charity care programs. Every patient who does not present the hospital with proof of insurance or existing government support will be given a handout (in English or Spanish) upon registration that is compliant with California Assembly Bill 774 (AB774). The handout contains information about the Hospital charity care programs. This includes where to obtain applications, income guidelines, other qualification information and contact information for Customer Service and the Admitting department. The Hospital posts information about the charity care program in all registration areas required by AB774. Signs in English and Spanish are located in all areas where patients are registered for inpatient and outpatient services. Signs are also located in the patient billing office and cashier office. Patients will also be contacted by an admitting representative or eligibility counselor to assist the patient in determining eligibility for government sponsored insurance programs and assist with the application process at no cost to the patient. Patient Financial Counselors who answer customer service calls are instructed to offer charity care applications to all patients who indicate they have financial need.
