Part X - FIN 48 Footnote

The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under that guidance, the organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities based on the technical merits of the position. The tax benefits recognized in the financial statements from such position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement. There were no unrecognized tax benefits identified or recorded as liabilities for fiscal year 2014 or 2013.

The Organization is subject to routine audits by taxing jurisdictions.

Subsequent to year end, the Organization was informed that their 2012 Form
