Instruction and Academic Support The 2015 fiscal year for Anderson University (AU) saw a number of new records achieved signaling a 12th straight year of growth across the board in facilities, enrollment, program offerings and external recognition A record freshman class of nearly 800 students helped push enrollment beyond the 3,200 mark, meaning AU essentially doubled in enrollment from 2005 to 2015 Each successive year saw a new enrollment record reached and 2015 was no different In addition, the graduate program reached the 400 mark in enrollment marking a fifth straight year of growth AU is also in the rare position of having steadily increased the academic profile of each successive freshman class while increasing enrollment numbers, something virtually unheard of among private universities of this size AU added a new program in its nursing school for current RNs to earn their BSN degrees The graduate school added a Master of Fine Arts and a Master of Music Education, and the business school added a new degree in applied computing The South Carolina School of the Arts added majors in musical theatre and worship leadership as well AU's progress, growth and innovation have earned its highest external recognition ever This year, AU was ranked #16 among regional colleges in The South by U S News & World Report magazine, which is the highest position in the top tier in university history In addition, the same publication listed AU #2 in The South among schools who have shown the most innovation Part of the reason for that ranking is the naming of AU as an Apple Distinguished School in 2015 Very few institutions of higher learning worldwide are given such a distinction by Apple, but AU's Mobile Learning Initiative, using mobile devices to transform the learning experience inside and outside of the classroom attracted the attention of the technology giant AU's Center of Excellence in Mobile Learning has been sharing that innovation with public schools systems from across the state so that more students can benefit from mobile technology
