4a	(Code) (Expenses \$ 8,373 including grants of \$) (Revenue \$)	The Florida Breast Cancer Foundation presented its 2014-15 Education Day Conference on Saturday, February 28th in Sunny Isles Beach, Florida. The one-day conference had a registration of more than 120 people including more than 10 different community resources that attended as exhibitors at the conference. Supporters, Advocates, and Breast Cancer Survivors learned about the latest cutting-edge research and medical practices and techniques as well as a presentation on survivorship issues. The conference was available to those who could not attend in person but who were able to watch the presentations via live-stream video. After the conference, the link to the live-stream video was available on our website, thus expanding the number of persons who benefited from the conference.
4b	(Code) (Expenses \$ 174,454 including grants of \$ 68,946) (Revenue \$)	The Florida Breast Cancer Foundation awards grants for Education and Research Programs statewide. The Florida Breast Cancer Foundation is working to better the lives of those facing breast cancer in the Florida community. Education awards grants have previously been awarded in support of innovative projects in the areas of breast health and breast cancer education, outreach, and support targeted services not otherwise available to the medically underserved populations of Florida. Education grants are awarded in support of innovative projects in four priority areas: Educate women in the areas where they need to become proactive advocates for their own breast health through education workshops; Provide education to breast cancer survivors, their families and advocates on life after or with cancer, including the "transition phase" from active treatment to survivorship; Provide education on breast health to young women and men with a focus on Middle School, High School and College ages, and Create and provide a method of education, on late stage breast cancer diagnosis, that will help reduce the percentage of these diagnoses, in the areas that exceed the state of Florida average. Scientific Research grants are awarded to institutions in the state of Florida who submit proposals on innovative research projects that have the potential to make a significant impact on breast cancer. The grants must be in one of 5 areas of research: basic, clinical, and translational breast cancer research, epidemiological studies of breast cancer, research on possible links between breast cancer and the environment, psychoimmunological research, and innovative awards and idea grants. 2014-15 was the first year of a two-year grant cycle for 5 research grants of approximately \$200,000 each. During 2014-15, 7 Education grants were awarded for a net of \$63,476.
4c	(Code) (Expenses \$ 282,397 including grants of \$) (Revenue \$)	The mission of the Florida Breast Cancer Foundation is to end Breast Cancer through advocacy, education and research. Aside from research and education grants and the Education Conference, the work of the Foundation is accomplished not by holding events, but by working with resources throughout Florida. We attend health fairs and conferences providing breast health, breast cancer, and survivorship information to advocates, families, and those with breast cancer. We provide speakers at events and at educational opportunities. We respond to more than 300 contacts each year from those seeking information and/or direction on where to go, who to see, or what to do. We help make the connections to those local resources who in turn can provide the services or provide the appropriate local resource that can help. In addition for those interested in obtaining more formal education through breast conferences, whether scientific or advocacy, we provide scholarships that can cover part of the cost of attending the conferences.

Return Reference	Explanation
SCHEDULE C, PART II-B, LINE 1G	The State of Florida has three unique opportunities for non-profit organizations to receive financial support from the citizens of Florida. These are the purchase of specialty license plates, a voluntary contribution check-off program when a license plate is renewed and a voluntary contribution check-off program when a driver license is renewed. To participate in a program requires the Florida Legislature to pass a bill signed by the Governor authorizing the non-profit to be included in the program. In 2002 the Florida Legislature adopted a bill creating the End Breast Cancer specialty license plate with the Florida Breast Cancer Coalition Research Foundation as the recipient organization of the funds from the sale of these specialty license plates. In November 2014 the Board of Directors authorized the Executive Director to engage the services of a lobby firm that could represent the Foundation in obtaining legislative approval for participation in both the license plate voluntary contribution check-off program and the driver license voluntary check-off program. A firm was hired and submitted the required application to the Florida Department of Highway Safety and Motor Vehicles by the deadline of December 1, 2014. The firm was successful in obtaining a sponsor in the Florida Senate and in the Florida House where each sponsor submitted a bill to be considered. Before the Legislative Session began in early March, the Department of Highway Safety and Motor Vehicles submitted a report to the Florida Legislature approving the submission by the Foundation for both programs. In late April the bill passed in both the Senate and in the House and by early May the bill was signed by the Governor. The funds contributed through the two check-off programs are combined with the funds from the sale of the End Breast Cancer license plate to fund research and education programs in accordance with the legislation passed in 2002.
