Section A. All Supporting Organizations

- 1 Are all of the organization's supported organizations listed by name in the organization's governing documents? If "No" describe in part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.
- 2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2)
- 3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? If "Yes," answer (b) and (c) below.
- **b** Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? If "Yes," describe in Part VI when and how the organization made the determination.
- c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)
 (B) purposes? If "Yes," explain in Part VI what controls the organization put in place to ensure such use
- 4a Was any supported organization not organized in the United States ("foreign supported organization")? If "Yes" and if you checked 11a or 11b in Part I, answer (b) and (c) below
- b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign
 supported organization? If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations
- c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.
- 5a Did the organization add, substitute, or remove any supported organizations during the tax year? If "Yes," answer (b) and (c) below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed, (ii) the reasons for each such action, (iii) the authority under the organization's organizing document authorizing such action, and (iv) how the action was accomplished (such as by amendment to the organizing document).
- b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?
- c Substitutions only. Was the substitution the result of an event beyond the organization's control?
- 6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (a) its supported organizations; (b) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (c) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? If "Yes," provide detail in Part VI.

Management has direct contact with Legislators, their staff and Government officials to advocate the Hospital's position on key issues affecting the hospital. Frequently, these contacts are made to educate the appropriate representative or official on the implications of specific policy/legislation on the industry in general and/or implications to Fox Chase. At the federal level, during FY 2015 the Hospital advocated for increased medicare reimbursement under the cancer center rules and advocated for increased research funding for the NIH and NCI. Management also provided input on various issues including health care reform and important issues such as drug shortages legislation. Additionally, to assist the Fox Chase entities obtain needed funding for cutting edge technologies and resources used by the scientific and clinical faculty, the hospital affiliate submitted federal grants through the appropriate mechanisms. At the state level, management advocated for the sustained use of Tobacco Funds to support the various cancer programs in the Commonwealth. This funding is central to the programs conducted by the Fox

Group A-Facility 1 -- The American Oncologic Hospital

Part V, Section B, line 5: The community health needs assessment (CHNA) was completed in December of 2012 with input from primary and secondary data including U.S. Census, Pennsylvania Department of Health vital statistics, Claritas Inc., and tumor registry data from Fox Chase Cancer Center (FCCC). The target area included in the CHNA is the primary service area for the institution and comprises 87 zip codes in Bucks, Montgomery and Philadelphia counties with a total population of 1,857,000.

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16i, 18d, 19d, 20e, 21c, 21d, 22d, 23, and 24. In addition to the quantitative data utilized for the CHNA, additional community input was derived from three meetings with our Community Advisory Council (CAC) members and the Southeastern Pennsylvania Household Health Survey with questions based on validated instruments such as the National Center for Health Statistics (NCHS) for the National Health Interview Survey (NHIS), The Behavioral Risk Factor Surveillance System (BRFSS), The California Women's Health Survey, The Social Capital Community Benchmark Survey (Kennedy School of Government, Harvard University) and The Survey on Childhood Obesity (Kaiser Family Foundation/San Jose Mercury News). In total, 4,354 interviews were conducted with adults from the targeted region.

The final CHNA is available to the public via the organizations website https://www.foxchase.org/community/communityhealth. Additional dissemination of its findings have been presented to the Board of Directors, senior leadership, CAC members and to multiple entities within FCCC including: American College of Surgeons (ACoS) Commission on Cancer, Cancer Committee, Cancer Prevention and Cancer Control (Behavioral Research team) and staff from the Office of Health Communications and Health Disparities, the primary education and outreach arm for the institution. An updated FY14 Progress Report was posted to the Fox Chase website and is available for public viewing https://www.foxchase.org/community/communityhealth

our sole focus is cancer. Within the cancer control realm, we address the entire cancer continuum from prevention to survivorship. implementation plan has been developed to address the needs which include lack of knowledge regarding cancer, access to care, specifically screening, complexity of the healthcare system, obesity which has been associated with increasing the risk of certain cancers, cultural and language needs to address the evolving changes in the community population. During the reporting period, the CHNA was completed, an implementation plan has been developed and approved by the Board of Directors and teams have been tasked with implementing specific tasks and/or projects to address the identified needs. Additionally, the plan has been posted to the FCCC website

Group A-Facility 1 -- The American Oncologic Hospital Part V, Section B, line 11: Mox Chase Cancer Center (FCCC) Office of Community Outreach (OCO) has addressed the following unmet needs identified in the 2013 Community Health Needs Assessment (CHNA):

Demographic Changes - the anticipated growth in older populations does not present a challenge for Fox Chase. According to the 2015 Tumor Registry data, 87% of our patient mix in the service area is between the ages of 50-99.

Language Needs - In preparation for the changing language needs, we have embarked on a quality improvement plan for language services. We have established an institutional policy to address languages services that

units for our deaf community and amplifiers for our hard of hearing

patients. Thus far we have instituted the policy and identified and

credentialed physicians who speak a second language, other than English.

Individual languages that address this need speak the following

languages/dialects: Spanish, Mandarin, Cantonese and Vietnamese. Other

languages are available however; this speaks directly to the identified

need in the CHNA. Non-clinical staff who speak another language, are

offered the opportunity to train as dual-medical interpreters through an

approved vendor.

Insurance Plans - FCCC accepts a variety of medical insurance including

Medicare, Medicaid and private insurers. Additional funding from state

and foundation grants enables us to offer cancer screening and treatment

for breast cancer. Financial counseling is available to persons who do

not fall within these categories.

Health Status and Behaviors - Nearly two in five adults in the service area smoke cigarettes, and more than half of them have tried to quit in the past year without success. In response to this need, FCCC Office of Community Outreach has hired and trained health educators to offer community smoking cessation services. The services provided adhere to current evidence-based practices including the nicotine replacement therapy. The OCO continues to provide bilingual (English and Spanish) lung cancer education via our Community Speakers Bureau. This one-hour session provides an overview of cancer, reviews lung cancer risk factors, prevention, symptoms, screening guidelines and treatments for lung cancer.

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16i, 18d, 19d, 20e, 21c, 21d, 22d, 23, and 24. Access and Barriers to Health Care - There is an unmet need in the service area for screenings and preventive care. Through our Speakers Bureau, the OCO provides participants with valuable information regarding screening guidelines for breast, cervical, colorectal, ovarian, prostate To further our education, the OCO brings cancer and skin cancers. screening to the community via its mobile screening unit (MSU). Recognized as a best practice to reducing structural barriers, the OCO brings breast cancer and skin cancer screening to the community. total, we reached 3,254 persons with breast, prostate and/or skin cancer screenings. Individuals requiring language services will be provided with a certified medical interpreter at no cost to the patient. Individuals identified with abnormal findings that require follow-up will be supported with navigation services including transportation to and from FCCC at no cost to the patient.

Difficulty navigating the health care system - in addition to the language and transportation services provided to patients in-need; our community navigator greets MSU patients requiring follow-up care and remains with them as they receives services. Patients diagnosed with cancer are assigned a nurse navigator to support ongoing needs i.e. scheduling, testing and overall coordination of care etc.

Clear Communication - The New Patient Guide was prepared with support from OCO to ensure clear communication (plain language) regarding services. new patient portal has been implemented to facilitate communication between the patient and the health care team. Staff from the Resource and

Education Center (REC) assist patients and family members with setting up their accounts and how to navigate the website. Additionally, REC Staff provides credible resources to assist patients and family members with patient education materials and support to increase their knowledge so they become more active participants in their health care. These services are also available to non-patients from the community.

UNMET NEEDS AND IDENTIFICATION PROCESS The unmet health care needs for this service area were identified and prioritized by comparing the health status, access to care, health behaviors, and utilization of services for residents of the service area to results for the county and state and the Healthy People 2020 goals for the nation. In addition, for Household Health Survey measures, tests of significance were conducted to identify and prioritize unmet needs. Lastly, input from the community meeting participants was also used to further identify and prioritize unmet needs, local problems with access to care, and populations with special health care needs.

As a specialty hospital that focuses on cancer, FCCC does not specifically provide community or patient services that address overweight or obesity. However, these services are addressed by our health system at other hospitals including one adjacent to our campus - Jeanes Hospital. Our health educators, do address the importance of maintaining a healthy weight and the negative impact of obesity on cancer along with general information regarding a balanced diet and exercise guidelines via our Community Speakers Bureau.

Part VI | Supplemental Information

Provide the following information.

- 1 Required descriptions. Provide the descriptions required for Part I, lines 3c, 6a, and 7, Part II and Part III, lines 2, 3, 4, 8 and 9b.
- 2 Needs assessment. Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 Patient education of eligibility for assistance. Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy
- 4 Community information. Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves
- **Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system. If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report. If applicable, identify all states with which the organization, or a related organization, files a community benefit report

Part I, Line 3c:

Not applicable. The American Oncologic Hospital does use Federal Poverty Guidelines.

The Hospital provides patient care services without charge, or at amounts less than established rates, to patients who meet the criteria of its charity care policy. Criteria for consideration under the charity care policy is based primarily on family income and worth, but also recognizes other circumstances where undue financial hardships exist. The Hospital maintains records to identify and monitor the level of charity care it provides. Because collection of amounts determined to qualify as charity care are not pursued, patient service revenues are reduced by such amounts. The Hospital also provides services and supplies below cost to patients covered by government insurance programs, including the Medicare and Medicaid programs.

Part I, Line 6a:

Part VI | Supplemental Information (Continuation)

2012 with input from primary and secondary data including U.S. Census,

Pennsylvania Department of Health vital statistics, Claritas Inc., and

tumor registry data from Fox Chase Cancer Center (FCCC). See Part V,

Section B for further information.

Part I, Line 7:

The net community benefit expense was \$6,869,410

As set forth in the Fox Chase Cancer Center Emergency Care, Charity Care and Financial Assistance Policy, it is the policy of Fox Chase Cancer Center to provide all necessary urgent care to patient without regard to their ability to pay for such care. Given this mission and within the guidelines of prudent business management, it is further the policy of Fox Chase Cancer Center that an orderly and controlled system for the write-off of all types of Bad Debt and Charity Care balances is in effect to insure maximum collections. All patients have the option to apply for the Fox Chase Cancer Center Charity Care Program. The guiding principles behind this policy are to treat all patients equally, with dignity and respect, to assist patient who cannot pay and to balance appropriate financial assistance for patients with fiscal responsibility. Patients and their families have a responsibility to assist Fox Chase Cancer Center in qualifying them for financial assistance.

Fox Chase Cancer Center's cost to charge ratio for Part 1, lines 7a through 7d is derived by total expenses divided by the total gross charges.

Part II, Community Building Activities:

The net community building expense was \$340,579. See Part VI, Line 5 for description of the organization's community building activities and how they promote the health of the communities served.

Part III, Line 2:

Bad debt expense is calculated based on the amount of bad debt transfers,
as well as the amount of balances that are currently in the patient
responsibility bucket based on aging.

Part III, Line 4:

There is no footnote specific to bad debt at this time.

This expense is related to services rendered for which payment is anticipated and credit is extended. These patients do not meet the established Charity Care policy and may therefore have the ability to pay. The cost method is determined based on the patient's liability for services rendered and is a community benefit because it is a cost of providing health care to the general public.

Part III, Line 8:

In 2014, the cost of providing services to the Medicare population was \$6,856,000 (Part III, Line 7) higher than revenue. Medicare allowable cost (Part III, Line 6) was based on cost apportionment derived from the Medicare Cost Report. The Medicare shortfall carried by FCCC provides a community benefit because it benefits a charitable class, the elderly.

Part III, Line 9b:

Yes, the organization's written collection policy contains provisions on

Schedule H (Form 990)

the collection practices to be followed for patients who are known to qualify for charity care or financial assistance.

Part VI, Line 2:

Participation in local, state and regional coalitions enable us to keep abreast of trends and priority needs of the community. Local - Currently, we are involved with multiple efforts including SmokeFree Philly. Funded by CDC, this Philadelphia Department of Public Health program is focused on helping smokers quit. Resources from this coalition are utilized by our community outreach smoking cessation program. Additionally, we have provided physicians as resources for public radio programming. We are also on the Advisory for the Center for Aids Research, providing insight and support for community engagement and also learning about the needs of Aids patients, specifically cancer related needs. State - the Senior Director of OCO is a member of the Strategic Leadership Team for the Pennsylvania statewide Comprehensive Cancer Control (CCC) team. This team is responsible for assisting with planning efforts to address the cancer burden in the state. The Senior Director is also a member of a sub-committee working on increasing the community's awareness of HPV vaccinations. The CCC holds quarterly meetings to review data and discuss strategies and progress made on implemented initiatives. Additionally, PADOH provides ongoing webinars on specific cancers in collaboration with other federal, state or local entities. Several staff are members of the PA Patient Navigation Network - this network is made up of nurse and community navigators and provides resources via an annual symposium and provides a forum to discuss challenges and strategies to support patient access and care. Regionally, our Senior Director for Outreach services is a member of the DHHS Region III Health Equity Council (RHEC) and leads the Schedule H (Form 990) Cultural Competence sub-committee. RHEC reviewed data from multiple state and federal resources and developed a Blue Print Executive Summary that outlines the challenges in the region. Here at FCCC we have and will continue to expand the implementation of the DHHS Office of Minority Health Cultural and Linguistically Appropriate Standards for Healthcare - these include our language services and health literacy efforts. Staff members from OCO are members of the Patient Satisfaction Leadership Team and the Quality Improvement teams. Involvement in these teams enable us to hear about community/patient concerns so we can continue to improve the experiences had by our community/patients.

Part VI, Line 3:

Fox Chase Cancer Center's mission is to prevail over cancer. Activities include basic, clinical and prevention research; detection and treatment of cancer; and community outreach programs. Consistent with this mission, the AOH will consider the inability of its patients to meet the financial burden of cancer care that may arise during treatment. The AOH is committed to treating patients who experience financial difficulties with the same dignity and care extended to all other patients.

Procedure: When a patient calls in to schedule an appointment, the new patient office will notify patient financial services (PFS) of anyone who is either a) not insured b) participates in a health plan that AOH does not accept or is out of network or c) communicates a concern regarding the ability to meet financial obligation. All such patients will be contacted by a financial counselor. No financial assistance will be extended to a patient until a plan of treatment has been established.

External community screening is provided via the mobile screening unit.

This vehicle is outfitted with state-of-the-art breast cancer screening equipment equal in quality to the equipment on-site. During 2014, we provided breast and skin cancer screenings to 3,360 persons in community settings (CBO, FBO, business/corporations, academic institutions).

Through the Office of Health Communications and Health Disparities we have secured external funding via grants (i.e. PA Healthy Women Program (PAHWP), foundations) and other fundraising activity to off-set and/or cover associated costs to screening and diagnostic testing for the uninsured. PAHWP currently provides AOH with 240 slots to be allocated as following: 120 for women 40-49 and 120 for women 50-64.

Procedure: At time of screening, a patient who presents as "uninsured" will be provided with an application for the Pennsylvania Healthy Women Program (breast and cervical cancer screening program). If the eligibility criteria are met, all screening costs are covered. If further diagnosis is required, PAHW will also provide coverage. Should a cancer diagnosis be discovered, AOH prepares and submits a Medicaid application. Reimbursement for treatment will be retroactive. Should the patient not be eligible for Medicaid, AOH will work with Patient Financial Services for financial counseling.

Part VI, Line 4:

The majority of AOH patients reside in the target area identified in the CHNA (see needs assessment section for demographics and target region). A special emphasis has been given to a zip code region referred to as neighbors' surrounding AOH. Education, screening and research programs enable AOH to create stronger partnerships with organizations and provide opportunities for these organizations to become involved in shaping future Schedule H (Form 990)

activities. Several individuals from these efforts hav joined steering and advisory committees, advocating on behalf of the community.

Part VI, Line 5:

With the addition of funds secured via state contracts and foundations, we have provided breast cancer screening and treatment to medically underserved women within our service area. Additional funds enabled us to establish a community outreach tobacco cessation program to address the lung cancer burden in our region. As an affiliate of the Temple University Health System, our medical and non-medical staff are offered participation and CME at the annual Cultural Competence Symposium. The symposium focuses on working effectively with communities; this past year focused on the African American community.

Low-income, uninsured or underinsured women screened on the Fox Chase

Cancer Center (FCCC) Mobile Screening Unit (MSU) for breast cancer are

covered under funds secured via state contract via the Healthy Women

Program (HWP), a federally funded program of CDC's National Breast and

Cervical Cancer Early Detection Program (NECCEDP). Eligible women receive

free or low cost mammograms and if diagnosed receive treatment. In the

event of a cancer diagnosis or a high-risk finding AOH (OCO) will submit

the application to the Healthy Women Program. HWP will forward the

application to the appropriate Pennsylvania County Health Department. Once

approved the patient receives instructions to enroll in a Medicaid plan.

If needed, financial services can provide additional support.

Additional funds secured through foundations such as Susan G. Komen enable

us to provide screening and diagnostic services to medically underserved

transitioned to the HW program.

Community Building Activity- Through our Immersion Science High School Program, FCCC provided free education programming to diverse high school students from the target region. In May of 2015, 250 high school students from the target area participated in a one day Health Careers Symposium hosted by the Immersion Science Program that included >60 hands-on courses in the full array of careers available at an NCI-designated Comprehensive Cancer Center. The Symposium is cost-free in order to ensure diversity and equality of the participants. In addition to the Symposium, 24 students from 22 Philadelphia area schools participated in an 11 session, intensive hands on training course in cancer research. The Immersion Science program provides staged, comprehensive exposure of high school students to increase retention in biomedical careers and to provide direct instruction in laboratory techniques and scientific thinking. There is no cost to participate, and, in fact, summer salaries were provided to students in the Phase 3 segment of the program. In total eleven (11) students were awarded full-time (\$2,250) or half-time (\$1,125) fellowships for research in Fox Chase laboratories.

The Immersion Science program reaches many additional Philadelphia area students through a Teacher Training program. This past fall, seven teachers trained in Immersion Science approaches that will be used in high school classrooms. This program is also free of charge and includes continued access to a Footlocker containing advanced level laboratory equipment for use in their home classrooms. Through this program, an additional 150 students experienced the Immersion Science program in 2015.

In addition, Fox Chase has established partnerships with local institutions to provide career counseling and scientific seminars, free of charge. In 2015, members of the faculty and/or the postdoctoral fellows program participated in collaborations with West Oak Lane Charter School (a science-focused, K-8 charter school in Philadelphia), Central High School, the Franklin Institute, Ursinus College, and Temple University. An estimated 150 hours were provided to students in these educational institutions. Through our Community Speakers Bureau program, Community Health Educators provided 61 free, bilingual (English and Spanish) cancer education programs to community organizations. In total, we reached 2,571 persons with cancer education and information. We addressed a wide array of cancer topics including breast, cervical, colorectal, lung, ovarian and skin cancers. All of the program provide an overview of the cancer, associated risk factors, updated screening guidelines and methods to diagnose and treat cancer. Through our Community Cancer Screening Program we reach a total of 3,254 individuals with breast, skin and prostate cancer screenings. Additional support was provided by the Resource and Education Center that provided 3,783 patients, families, and community members with access to free cancer information and resources that address the cancer continuum. Our community partnerships includes diverse entities including community-based, faith-based, business, legislative, and academic partners. Through these partnerships, we have successfully education, screened audiences and developed relationships to support community wellness.
