	COMMUNITY BENEFITS OVERVIEW	Temple University Health System (TUHS), as the sole member of its affiliated hospitals and physician practices, provides access to facilities, programs, and other resources to carry out a broad array of community services. Through the employees and physicians of Temple University Hospital, Fox Chase Cancer Center, Jeanes Hospital, our faculty and community based Physician practices, we provide comprehensive services to improve the health and quality of living in North Philadelphia and our Southeast Pennsylvania region. TUHS is dedicated to ensuring access to comprehensive primary and specialty quality patient care through population health, linked to academic excellence in medical education and research. Our outreach services are critically important in the diverse, economically challenged neighborhoods surrounding our hospitals, where about 79% of our patients are covered by government programs, including about 43% by Medicare and 36% by Medicaid. TUHS hospitals provide indispensable health care services to residents of Philadelphia, which is the largest city in America without a public hospital. In fact, among Pennsylvania's full-service safety-net providers, Temple University Hospital serves the greatest volume and highest percentage of patients covered by Medicaid. As the chief academic teaching hospital of the Lewis Katz School of Medicine of Temple University, Temple University Hospital (TUH) is a 722-bed non-profit acute care hospital that provides a comprehensive range of medical services to its low-income communities, and a broad spectrum of secondary, tertiary, and quaternary care to patients throughout Southeastern Pennsylvania and beyond. TUH is accredited as an Adult Level 1 Trauma Center by the Pennsylvania Trauma Systems Foundation. In addition to its main campus in North Philadelphia, TUH includes its Episcopal and Northeastern campuses, both of which are in economically distressed areas within three miles of the TUH main and medical school campus. As our chief clinical teaching site, TUH is staffed by over 400 physicians of Temple University Physicians, our faculty-based practice plan, as well as physician scientists from our affiliated Fox Chase Cancer Center and our community-based Temple Physicians, Inc. Temple physicians represent 17 academic departments including subspecialties in emergency medicine, oncology, gastroenterology, obstetrics, gynecology, orthopedics, neurosurgery, neurology, general and specialty surgery and psychiatry. Temple physicians also staff important clinics that address major public health concerns, such as the Comprehensive NeuroAIDS Center at Temple University, which is dedicated to improving the public health impact of bench-to clinic research associated with HIV-induced neurological diseases and cognitive disorders. Temple's nationally renowned physicians offer state of the art treatment options for patients with complex medical problems, some of whom were previously considered untreatable. Using sophisticated technologies and personalized treatments, Temple physicians are working to alter the course of serious disease. In over a dozen research centers, our faculty is speeding the transformation of fundamental scientific discoveries into practical therapies that may one day dramatically improve human health. The Fox Chase - Temple Bone Marrow Transplant Program, a formal affiliation between Fox Chase Cancer Center and TUH, is an example of this type of transformative medicine. Since its inception in 1988, the program has performed over 1,500 transplants, and has participated in countless research studies to promote life-saving treatment modalities. In addition to the academic mission, The Temple Center for Population Health, LLC, (TCPH) promotes and supports the population health efforts of TUH and North Philadelphia. We align our efforts with the goals of the United States Department of Health and Human Services' three-part aim of achieving better care for patients, better health for our communities, and lower costs through health care system improvement. With respect to prevention, education and outreach related to cancer, we are especially proud of the services provided through Fox Chase Cancer Center. As a National Cancer Institute Comprehensive Cancer Center, Fox Chase is one of only 41 centers in the country to qualify for this designation. Its Office of Health Communications and Disparities addresses the cancer needs of its geographically, racially and ethnically diverse population through individual contact, group teaching and other modes to teach about cancer and screenings. Temple University Health System takes great pride in the broad array of services it provides to the community. Below is a summary of some of the programs and activities conducted this year to help advance the wellness and improve the quality of life in our communities. PROVIDING CRITICAL SOCIAL RESOURCES Temple connected more than 13,000 people with community-based social services,

	IMMERSION IN SCIENCE HIGH SCHOOL PROGRAM	Through the Fox Chase Cancer Center Immersion Science High School Program, FCCC provided free education programming to diverse high school students from the target region. In May of 2015, 250 high school students from the target area participated in a one day Health Careers Symposium hosted by the Immersion Science Program that included >60 hands-on courses in the full array of careers available at an NCI-designated Comprehensive Cancer Center. The Symposium is cost-free in order to ensure diversity and equality of the participants. In addition to the Symposium, 24 students from 22 Philadelphia area schools participated in an 11 session, intensive hands on training course in cancer research. The Immersion Science program provides staged, comprehensive exposure of high school students to increase retention in biomedical careers and to provide direct instruction in laboratory techniques and scientific thinking. There is no cost to participate, and, in fact, summer salaries were provided to students in the Phase 3 segment of the program. In total eleven (11) students were awarded full-time (\$2,250) or half-time (\$1,125) fellowships for research in Fox Chase laboratories. The Immersion Science program reaches many additional Philadelphia area students through a Teacher Training program. This past fall, seven teachers trained in Immersion Science approaches that will be used in high school classrooms. This program is also free of charge and includes continued access to a Footlocker containing advanced level laboratory equipment for use in their home classrooms. Through this program, an additional 150 students experienced the Immersion Science program in 2015. In addition, Fox Chase has established partnerships with local institutions to provide career counseling and scientific seminars, free of charge. In 2015, members of the faculty and/or the postdoctoral fellows program participated in collaborations with West Oak Lane Charter School (a science-focused, K-8 charter school in Philadelphia), Central High School, the Franklin Institute, Ursinus College, and Temple University. An estimated 150 hours were provided to students in these educational institutions. FOSTERING VOLUNTEERISM Members of the Health system's Board of Directors are comprised of dedicated volunteers from diverse backgrounds who offer expertise and govern the organization without compensation. Similarly, our executive team routinely participates in not-for-profit community health and social service organizations, as volunteer members of their boards-of-directors, and as participants in their outreach services. In addition, our hospitals engages volunteer community members to help advance its healthcare mission. Through our chaplaincy, family support, and other programs, and other programs of our hospitals, our volunteers touch more than 30,000 people annually, helping to advance healing through their compassionate services to patients and their families. PROMOTING MULTI-CULTURAL SERVICES With an annual investment of about \$1.8 million, Temple University Health System has 327 language-proficient staff, all who have been credentialled through the Linguistic and Cultural Services Department. This includes 9 full-time medical interpreters, 2 medical interpreters in leadership roles, 23 active dual-role interpreters, 134 language proficient physicians, 21 RNs, 1 social worker, and 138 other language proficient bi-lingual staff. EMERGENCY PREPAREDNESS AND RESEARCH This program helps ensure our staff and hospital facilities are prepared to continue to provide safe, quality patient care even under the most austere conditions. We work on many levels, both inside and outside the Temple Health System, educating our communities about the importance of personal preparedness. Temple's Emergency Preparedness and Research Program is a critical link in the federal, state, and local disaster response plans. AMERICAN RED CROSS BLOOD DRIVES We help ensure that our nation has a safe and reliable blood supply. Temple hospitals helped collect more than 900 pints of blood from employees, physicians and community members. PHILADELPHIA "MOM" PROGRAM Temple's nursing staff and social workers assist the City in enrolling the new mothers shortly after delivering their infant and prior to discharge. New mothers and their babies from birth through the child's 6th birthday are connected with social, educational, and healthcare supports. INVESTING IN HEALTH PROFESSIONS EDUCATION Temple invests about \$70 million to provide the education and training necessary to develop a professional healthcare workforce to benefit the broader community. This includes part of the cost of training more than 500 residents and fellows in over 45 teaching programs. Our residents and fellows are involved in various efforts that directly impact the community, including our Cradle to Grave program, our HIV clinic, and other community outreach initiatives. The exposure that our Residents receive c

	IMMERSION IN SCIENCE HIGH SCHOOL PROGRAM	aring for our diverse, low-income community helps Temple address health disparities while developing our nation's future physicians. Our investment in health professions also includes part of the cost of operating the Northeastern School of Nursing RN Diploma Program, providing an affordable option for diverse, community members who would not otherwise be able to attend traditional collegiate programs. REDUCING THE GOVERNMENT BURDEN: Temple's hospitals incurred about \$51 million in net charity and under-reimbursed care expenses. In addition, Temple maintains strong affiliations with the City of Philadelphia, Federally Qualified Health Centers, and numerous community health organizations to help ensure access to care for our vulnerable population. SUBSIDIZING CRITICAL HEALTH SERVICES: Temple University Hospital invested about \$22 million to subsidize critical health care services needed in our community. This includes support for our outpatient emergency, acute care and psychiatric services, as well as the inpatient psychiatric services on our Episcopal Campus. These physical and mental health services are critical to the health and welfare of our vulnerable communities. FUELING OUR REGION'S ECONOMIC ENGINE: The Health system employed nearly 8,000 people and paid about \$800 million in salaries and benefits. As a critical employer for North Philadelphia, about 22% of our employees live within its immediate and adjacent zip codes. For every \$1.00 of hospital employee compensation, about \$.92 additional compensation is spent elsewhere in the community (about \$700 million). For every job at Temple University Hospital, about 1.2 additional jobs are generated elsewhere (about 9,200 spin-off jobs).
