Under guidance issued by the Financial Accounting Standards Board, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the more-likely-than-not threshold, based upon the technical merits of the position. Estimated interest and penalties, if applicable, related to uncertain tax positions are included as a component of income tax expense. The Company has evaluated the tax positions taken on its filed tax returns. The Company has concluded no uncertain income tax positions exist at June 30, 2015. The Company's tax years from 2012 through 2015 are open and subject to examination.

Form and Line Reference	Explanation
Part I, Line 7	Charity care is billed at no more than the amount generally billed i e the best, or an average of the three best, negotiated commercial rates or Medicare rates for emergency and other medically necessary services, and is included in net patient service revenues Costs and expenses incurred in providing these services are included in operating expenses Charges for services rendered to individuals from whom payment is expected and ultimately not received are written off and included as an operating expense as part of the provision for bad debts The organization's bad debt expense cost is calculated using a ratio of total patient related expense over gross charges This is applied to total provision for bad debts, which is recorded at gross charges

Form and Line Reference	Explanation
Part I, Ln 7 Col(f)	A provision for charges for services rendered to individuals from whom payment is expected and ultimately not received is written off and included as an operating expense as part of the provision for bad debts. The organization's bad debt expense is calculated using a ratio of total expenses over gross charges. This is applied to total provision for bad debts which is recorded at gross charge less any applicable discounts.

Form and Line Reference	Explanation
Part II, Community Building Activities	MaineGeneral Health and Affiliates offers a variety of classes and community health outreach events to support and build our community. Such events range from cancer survivor classes and support groups, breastfeeding classes, sibling classes, a safe babysitter program and parenting education. The organization provides a wide range of programs to support a healthy and well educated community throughout all ages and health care situations. The organization offers diabetes care and smoking cessation classes, along with support groups for area individuals with a variety of health problems including Alzheimer's disease, bariatric surgery needs, brain injury, stroke and hospice. Space is provided free of charge and in some cases the support groups are managed and staffed by MaineGeneral employees.

Form and Line Reference	Explanation
Part III, Line 4	For receivables associated with self-pay patients(which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Medical Center records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between standard rates (or discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts. The organization's bad debt expense is calculated using a ratio of total expenses over gross charges. This is applied to total provision for bad debts which is recorded at gross charges less any applicable discounts. A significant portion of the uncollectable patient balances relate to individuals and families which are uninsured and with income levels over the uncompensated care guidelines. The write-off of these uncompensated balances provides community benefit for patients and families that can not afford to pay for their healthcare costs in addition to their other living expenses.

Form and Line Reference	Explanation
Part III, Line 8	The shortfall above reflects the amount of unreimbursed cost the organization funded to benefit the health of the community. The organization's Medicare allowable cost of care is calculated using a ratio of total expenses over gross charges. This is applied to total expenses and adjusted by actual Medicare payor mix percentage.

Form and Line Reference	Explanation
Part III, Line 9b	In accordance with the Affordable Care Act and the IRS 990 rules, individuals, once identified as eligible for the Organization's uncompensated care program, will be billed no more than the amount generally billed i.e. the best, or an average of the three best, negotiated commercial rates or Medicare rates for emergency and other medically necessary services

Form and Line Reference	Explanation
Part VI, Line 2	The method used for MaineGeneral's assessment in FY 2013 involved a review of community health trends utilizing secondary data sources from the 2010 Statewide Community Health Assessment (Appendix A) the 2012 State of Maine Public Health Assessment (Appendix B) and primary data collection regarding priorities by stakeholders after they reviewed the 2010 and 2012 data trends (Appendix C) Four strategies were used to select priorities taking into consideration the broad interests of the community MGMC serves 1) MaineGeneral's Prevention Center staff, Public Health personnel and community partners review the data and selected key priorities and metrics to monitor the impact of interventions 2) Participation in the Central Public Health District review of the 2010 and 2012 data to identify priorities that would be worked on collaboratively within the Central Public Health District as outlined in the 2013 Central District Health Improvement Plan 3) Survey of community stakeholders using an online survey This included a review of data trends from 2010 and 2012, and the review of selected priorities and goals to be worked on in 2013 through 2015 A survey tool using Survey Monkey was distributed to community stakeholders in the Central Public Health District that includes the towns in MaineGeneral Medical Center's primary and secondary service areas The survey was sent out via an email with a link to the survey tool, along with a data summary of the 2010 CHNA and the 2012 State Community Health Assessment The stakeholders are members of the Central Public Health District Coordinating Council, as well as a list of participants who participated in the 2010-11 Community Health Assessment forums held collaboratively with the Central Public Health District, MGMC and EMH Twenty-one stakeholders completed the survey 33 percent represented nonprofit community organizations, seven percent represented healthcare (non-physician), 26 percent represented public health, 13 percent represented physicians, 13 percent represented Community Health Coalitions and seven percent represented schools

Form and Line Reference	Explanation
Part VI, Line 3	For inpatient stays, the Medical Center Patient Registration Department provides a written notice regarding the availability of the uncompensated services program to inpatients upon admission or, in the case of an emergency, before discharge. In those rare cases where the notice was not given to the patient at admission or upon discharge due to unavoidable circumstances, a charity care notice was sent with the initial patient bill. All outpatient departments including provider based practices provide patients access to the written notice of the availability of the uncompensated services program at the time of service. Initial patient bills include a notification to patients on the availability of the uncompensated services program. Subsequent patient billings also include notices to patients about the availability of the program. During this process, if it appears that a patient is qualified for the government programs, the program application is provided to the patient and a patient financial services representative provides any assistance required in educating the patient on properly preparing the application. Current income guidelines are displayed in all business offices, main patient registration areas and emergency departments. The posted guidelines are updated annually based on changes in the federal poverty guidelines. The Hospital makes all reasonable efforts to communicate the contents of the income guidelines to persons that it has reason to believe cannot read the notice.
