Return Reference	Explanation
Schedule D, Part X, Line 2 FIN 48 (ASC 740) footnote	HSHS and the Foundation are Illinois not for profit organizations as described in Section 501(c) (3) of the Internal Revenue Code (the Code) and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable losses and projections for future taxable losses over the periods for which the deferred tax assets are deductible, management believes it is more likely than not that Kiara, Inc. will not realize the majority of the benefits of these deductible differences. The deferred tax assets attributable to the net operating loss carryforwards not realized as of June 30, 2015 and 2014 have been fully reserved in the accompanying consolidated financial statements due to the uncertainty of realization. HSHS recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. As of June 30, 2015 and 2014, HSHS does not have any liabilities for unrecognized tax benefits.

Schedule H, Part VI, Line 6 Description of affiliated group (continued A)	Enhance community health As part of our mission to embody Christ's healing love, we understand that we have a responsibility to improve the overall quality of life in our communities by supporting initiatives that promote health and wellness. We recognize we are most successful when we work together with a wide array of public and private organizations that share our commitment to improving lives. By doing so, we maximize our efforts and reduce the duplication of services. HSHS hospitals also understand we need to listen closely to the residents of the communities we serve to ensure the health care needs of all are being met. To that end, 13 of our hospitals completed Community Health Needs Assessments (CHNAs) in FY2015 and in FY2012 HSHS St. Clare Memorial Hospital in Oconto Falls, Wisconsin, who affiliated with HSHS in September 2015, completed their CHNA in FY2014. The information gathered from these assessments is being used to develop new, and enhance existing, programs and services that best address the needs of the community. Several priority needs were identified in the FY2015 CHNAs including mental health, chronic disease prevention and management, alcohol, tobacco and other drug abuse, nutrition/wellness, access to care, oral health, and domestic abuse. HSHS hospitals are addressing these and other needs by proactively offering educational opportunities, preventative screenings, and new or enhanced clinical services. In many cases, the hospitals collaborate with other hospital facilities, local departments of public health and community organizations to address identified needs. In western Wisconsin, HSHS Sacred Heart Hospital in Eau Claire and HSHS St. Joseph's Hospital in Chippewa Falls are taking the lead on programming to educate the public about mental health issues and treatment, the stigma associated with mental health, and the recognition of mental health issues. To combat the rising rate of suicides in the area, both hospitals are providing community education sessions on QPR (Question, Persuade and Refer), an evidence-based suicide prevention program. In addition, the hospitals hosted sessions to train community members to become Certified QPR Trainers. In southern Illinois, HSHS St. Elizabeth's Hospital in Belleville also identified suicide as a priority community health need. In response, the hospital in cooperation with the local county mental board offered QPR to educate the community about how to identify and talk to someone who may be considering suicide. In addition, St. Elizabeth's mental health counselors provided free evaluations to assess for services or referred individuals to other local agencies for assistance. They also provided telephone assistance to individuals with mental health questions. In FY2015, the counselors screened more than 300 clients and fielded more than 1,000 calls. HSHS St. Vincent Hospital in Green Bay developed the Sexual Assault Nurse Examiner (SANE) program comprised of 11 nurses and a medical director to provide care for anyone who has been sexually assaulted. Begun in 1992, St. Vincent's SANE program is the regional site for such care, one where all the hospitals in Green Bay and the surrounding communities send sexual assault victims. St. Vincent's SANE nurses have been properly trained to conduct the medical examination, collect evidence, treat injury and provide courtroom testimony. In FY2015, SANE served more than 185 individuals at a vulnerable and devastating time of their lives. HSHS St. Mary's Hospital in Streator, Illinois teamed up with the Streator YMCA to offer a 12-week weight loss program - Healthy You - to motivate more than 284 participants. The program included aerobics classes, cooking classes, and a maintenance program to encourage participants to weigh in monthly. Surveys were collected at registration to quantify progress for repeat participants - 14 percent returned with a further weight loss and 9 percent within 5 pounds of their 2014 weight. In FY2015, Healthy You participants collectively lost 2,982 pounds. In FY2015, HSHS St. Mary's Hospital in Decatur, Illinois partnered with Macon County Care Coordination (MCCC) comprised of the Macon County Health Board, Community Health Improvement Center, Decatur Memorial Hospital, Heritage Behavioral Health Center, and Macon County Health Department to provide a team approach to health care and behavioral health services for Medicaid recipients with chronic health conditions. In FY2015, a nurse practitioner was hired to lead the program and recruit physicians. Three teams consisting of a Registered Nurse, Care Navigator and Care Coordinator were hired to provide services. St. Mary's is in the final stages of the development of an interface with the Electronic Medical Record, and is working on fully integrating MCCC services into their Emergency Department and exploring possibilities of integrating MCCC within the HSHS Medical Group to provide care coordination for Medicaid recipients.

According to the National Assessment of Adult Literacy, only 12 percent of adults have "proficient" health literacy, i.e., nine out of 10 adults lack the skills needed to manage their health. Health literacy was identified in the CHNA completed by HSHS St. Nicholas Hospital in Sheboygan and the Department of Public Health in FY 2012. In FY2014, the Healthy Sheboygan County 2020 Health Literacy Committee hosted five focus groups (Hispanic, Hmong, low-income, senior citizens and young adults) and an Executive Briefing for health care leaders to share the results of the community survey and focus groups. In FY2015, with the support of St. Nicholas Hospital, a health literacy community awareness campaign was launched - Okay2Ask - to encourage people to build strong relationships with their health care providers and pharmacists.

Schedule H, Part I, Line 7 Bad Debt Expense excluded from financial assistance calculation	3626808

Form and Line Reference	Explanation
Schedule H, Part I, Line 7 Costing Methodology used to calculate financial assistance	To determine the actual cost of these services, the hospital uses a cost-to-charge ratio based on our audited financial statements to calculate the amounts reported on Lines 7a through 7i

Form and Line Reference	Explanation
Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	Self-pay patients are screened for verification of no insurance coverage. Once verification of no coverage has been completed, the guarantors will be screened for charity or uninsured discounts based on income levels. Those guarantors that do not qualify for charity through the screening process will be asked to provide proof of income in the form of a recent pay stub and/or recent tax return to determine the level of uninsured discounting. If no proof of income is provided or a guarantor's income is greater than 201% of the federal poverty level, the appropriate discount according to the established criteria will be applied. The amount of money not collected from those self-pay patients who are not eligible for charity care is reported as bad debt. Allowances for Doubtful Accounts have been recorded based on an historical matrix, using collectability percentages by payor and aging category in accordance with HSHS Executive Policy #F-23, Valuation of Net Accounts Receivable. Percentages are based on historical experience at the hospital and adjusted for known limitations.

Form and Line Reference	Explanation
Schedule H, Part III, Line 3 Bad Debt Expense Methodology	The hospital strongly believes that its charity care, and the related community benefit obtained from such care, is understated because of those patients who potentially qualify for charity care but do not wish to apply for it. In addition, some care is not classified as charity because of missing documentation on patient resources. Thus, the hospital's bad debt includes a portion that could be classified as charity care if application for such care was sought and/or completed. Currently, the hospital is implementing procedures and systems to more effectively determine charity care that will reduce a patient's documentation requirements and ease the patient's emotional burden in applying for charity care. This will provide a more accurate reporting of charity care services provided by the hospital.

Form and Line Reference	Explanation
Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs	The hospital continually strives to provide excellent patient care in the most cost effective fashion. Nonetheless, the Medicare program, in many cases, does not provide payment that covers the full cost of the care provided. Since it is the mission of the hospital to respond to community need, hospital management continually advocates for improved Medicare payment so that the cost of quality care to those patients who are not able to afford it is not compromised and is fairly subsidized by all payers. While this shortfall in Medicare payments is not classified as community benefit by the IRS, we nonetheless believe it is an important contribution made by the hospital to the health and well-being of the community. If the Medicare program did not exist, many Medicare patients would be eligible for charity care or other means-tested government programs. Further, by absorbing this payment shortfall and providing care below cost to these individuals, St. Mary's Hospital is relieving the burdens of the government. Accordingly, this shortfall restricts St. Mary's Hospital's ability to make funds available to provide for charity care and other community benefits.

Form and Line Reference	Explanation
Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	The hospital's policy on account resolution outlines the procedures to be followed when collecting balances on outstanding patient bills. Besides addressing the procedures and follow-up for accounts covered by insurance or governmental programs, the policy discusses situations where the patient may be eligible for financial assistance through our charity care program. If a patient is deemed eligible, reference is made to the hospital's charity care policy. Even with the best intentions, patients cannot always meet their responsibility to pay for the care they receive. For a number of reasons, from the loss of a job to temporary hardships, this leaves the hospital to cover the unpaid balance or even the entire bill, an expense for the hospital referred to as "bad debt." In fiscal year ended June 30, 2015, bad debt expense less recoveries was \$382,504 with no outside source of funding to help compensate for the expense. The cost, after applying the cost to charge ratio, was \$765,656. This is a growing problem. Bad debt accounted for 2.68% of our total costs in the fiscal year ended June 30, 2015 and constituted a significant community benefit.

Schedule H, Part VI, Line 2 Needs assessment	As indicated in Part V, Section C, St Mary's Hospital conducted a Community Health Needs Assessment in FY2015 (July 1, 2014 through June 30, 2015) In previous years, we assessed community need through involvement on the boards of other community health providers, such as Macon County Health Department, Community Health Improvement Center, and Macon County Mental Health Board Input from St Mary's Hospital's community-based Board of Directors and Advisory Committee, as well as patient admission data has provided, and continues to provide, valuable information regarding the health needs of our service area Provisions in the Affordable Care Act require charitable hospitals to conduct a CHNA and adopt implementation strategies to meet the needs identified To comply with these requirements, St Mary's Hospital led a collaborative approach to conduct its CHNA in FY2015 (July 1, 2014 through June 30, 2015), a process we undertake every three years An accompanying implementation plan was developed and approved by St Mary's Hospital's Board of Directors in September 2015

Schedule H, Part VI, Line 3 Patient education of eligibility for assistance	The Registration Department provides brochures to patients upon registration regarding the hospital's Financial Assistance Program. The brochures are also supplied in waiting and ancillary areas for easy access by the patient. The brochures include contact information for several community agencies that help patients determine their eligibility for assistance under federal, state or local government programs. The brochures also provide information on how to read and understand St Mary's Hospital's billing information. St Mary's website provides an explanation of Medicare forms at https://www.stmarysdecaturn.com/Patient-Guest/Patient-Financial-Services/Financial-Assistance.aspx. The organization has a representative onsite to assist patients who may be eligible for Medicaid assistance through the Illinois Department of Public Assistance. They work with patients to determine if they may be eligible, and if so, assist in pulling together the necessary application for submission. Patients are also provided a Fair Billing Act notification at the point of registration regarding separate physician billing they can expect to receive, plus information about the patient's financial responsibility if their insurance plan is out of network. One-on-one conversations to educate patients about financial assistance often stem from patients receiving a statement or a pre-collection letter. At that point, the customer service representative or cashier, or other qualified staff, will inform/educate the caller about financial assistance options. The first pre-collection letter reminds the patient their account is in delinquent status. It also informs them they may be eligible for financial assistance through the hospital. The letter provides direct contact information to begin the application process for charity care and lists the Internet address where the policy can be obtained. A system called Search America is now being utilized after failed attempts made by the hospital and our law firm to work out payment arrangements. That system accesses credit and other information and allows us to see the probability of a patient being able to pay their bill. After assessing that information, the hospital makes a determination whether to grant charity care or continue collection efforts.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 5 Promotion of community health	As a healing ministry of the Catholic Church and an affiliate of Hospital Sisters Health System (HSHS), St Mary's Hospital is committed to delivering high quality, compassionate, and cost-effective health care services to all. The hospital was founded more than 130 years ago to bring a healing presence and improve the health of our community, especially for those persons who are sick, poor, and disadvantaged. Because of the hospital's purpose and tradition, it is organized to promote the health of Decatur and surrounding areas. The hospital is governed by a Board of Directors, at least a majority of whom reside in the hospital's primary service area and who are neither employees nor independent contractors of the hospital (nor family members thereof). The Board ensures that St Mary's Hospital is responding to community need. In FY2015, for example, the Board reviewed the Community Health Needs Assessment and approved an Implementation Plan for addressing selected health focus areas starting in FY2016. Also consistent with its exempt purpose, St Mary's has an open medical staff with privileges available to all qualified physicians in the area. The hospital also operates an emergency department that is open 24 hours to all persons regardless of their ability to pay. As a not-for-profit hospital, St Mary's reinvests surplus funds to support the mission of the organization and health of the community rather than distributing surplus funds as profits to shareholders or individuals. Funds not committed to ongoing operations are generally used to upgrade facilities, secure new technologies, improve patient care, and support initiatives designed to promote health and ensure access for all. For example, St Mary's Hospital reinvested surplus funds in the following areas in FY2015: * Sonosite HD Portable Ultrasounds purchased for Anesthesia, ED and Cath Lab * TRIMANO Support Arm for Shoulder Procedures purchased for the Operating Room * Renovate Nuclear Cardiology Camera Room in Nuclear Cardiology * Metal Reduction Imaging Software * NaviCare Nurse Call System for all nursing units * Lymphatic Mapping Unit (Nod Seeker) purchased for the Operating Room * Sakura Finetek Tissue Tek 6 Processor purchased for Lab * OB TraceVue purchased for Maternal Child * Patient Beds - Behavioral Health purchased for Behavioral Health * Oncology EMR System purchased for Radiation Oncology * Wound Expert Electronic Medical Record purchased for the Wound Department * Digital Wireless Portable X-Ray purchased for Radiology. St Mary's also devotes significant resources to access for patients who cannot afford care, along with other community benefits. In fiscal year 2015, St Mary's provided more than \$2,908,470 million in Community Benefit services, including charity care at cost, unpaid costs of Medicaid and other public programs, and a range of diverse programs designed to enhance access and improve community health. Additionally, in fiscal year 2015, St Mary's provided \$3.7 million (at cost) in uncompensated care to patients who did not qualify for charity care or public assistance and more than \$4.6 million (at cost) in excess of Medicare payment for health care services. St Mary's provides a range of Community Benefit activities and programs that furthers our mission and long-standing commitment to our community. In many cases, these Community Benefit initiatives would not exist without the leadership role played by St Mary's Hospital and they often relieve a burden that would otherwise be carried by government.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 6 Affiliated health care system	St Mary's Hospital in Decatur is an affiliate of Hospital Sisters Health System (HSHS), a health care ministry that includes 14 hospitals, numerous community-based health centers and clinics, and hundreds of physician partners across Illinois and Wisconsin. The mission of HSHS is "to reveal and embody Christ's healing love for all people through our high quality Franciscan health care ministry." We live our mission by providing holistic healing to all who seek our care, as well as through Community Benefit. Working collaboratively with others in the communities we serve, our Community Benefit initiatives are strategically and successfully expanding access to care, improving the health status of residents, and increasing medical education and knowledge. In FY2015, our hospitals responded to needs identified in each of their most recent Community Health Needs Assessments (CHNAs) completed in FY2012. The information gathered from these assessments was used to develop or enhance Community Benefit programs and services to best address community health needs. Among the many priority needs identified in our CHNAs were chronic disease prevention and management, obesity, adequate food and nutrition, mental health, and access to health care services. HSHS hospitals are proactively addressing these and other needs through patient, provider and community education, preventative screenings, self-management classes, and new or enhanced clinical services. System-wide, HSHS collectively provided \$195.3 million in Community Benefit (9.9% of total hospital expenses) in FY2015. This amount included \$25.2 million provided for Financial Assistance (i.e. Charity Care) and \$132.3 million for unreimbursed care provided as part of the Medicaid program. In addition, HSHS hospitals committed significant resources to care for Medicare patients. The cost of providing services to primarily elderly beneficiaries of the Medicare program - in excess of governmental and managed care contract payments - was \$183.7 million. HSHS hospitals also recorded \$61.5 million in uncollectible accounts. While HSHS does not count the latter two amounts as Community Benefit, they nonetheless reflect our commitment to all persons in need of care. In addition to the dollars invested in our Community Benefit programs, HSHS continues to reinvest any surplus revenue from operations and investments into new medical technology, facility infrastructure and health care services in our communities. By doing so, we ensure our ability to meet the ongoing demand for high quality, efficient and easily accessible health care. As the U.S. health care delivery model continues to evolve, HSHS remains focused on implementing our Care Integration strategy. Care Integration coordinates the delivery of care across the continuum to meet the needs of each patient. During FY2015, HSHS made significant progress with this strategy as we implemented additional interoperable health information technologies and strengthened our alignment with physicians. Improve access to health services. As a Franciscan health care ministry, HSHS is deeply committed to serving those who are most in need with a special focus on the poor and vulnerable. We not only provide care to every patient who walks through our doors, but also reach out beyond the walls of our hospitals and clinics to care for those in our communities. Our efforts to ensure residents in the communities we serve receive the right care, at the right time, and in the right setting often involve partnering with others to achieve this goal. Across our two-state system, there are numerous examples of HSHS collaborating with other organizations to enhance access to care for those in need. In FY2015, HSHS and our 14 hospitals invested Community Benefit resources to educate the uninsured about new enrollment opportunities in affordable health care coverage and to facilitate the process. Studies have shown that people without insurance coverage are more likely than their insured counterparts to postpone care and to develop more severe and expensive conditions. It is for this reason that the Catholic Church, Catholic health care and HSHS have long promoted "coverage and access for all." HSHS and our 14 hospitals in partnership with local health departments, social service agencies and other health care providers played a vital role in educating eligible people in their local communities, by referring people to Certified Application Counselors and/or in enrolling them in the health insurance exchanges, or in securing coverage through Medicaid expansion. Of the eight states with the highest concentration of uninsured, Illinois was among 25 states that adopted Medicaid expansion under the Affordable Care Act. HSHS St Mary's Hospital Medical Center in Green Bay supports the NEW Community Clinic, a 38-year-old free health center for the uninsured and underinsured, and also provides free and discounted laboratory and radiology services to the clinic.
