Schedule H, Part VI, Line 2 Needs assessment	The Organization performs community needs assessments as needed. Planning workgroups consisting of community partners are formed to define the community and its needs through review of healthy people initiatives, census documents, and local government health and welfare agencies. Considering other community resources/assets, data collection methods are used to identify particular problems or subgroups and areas known to have high poverty rates and to be underserved. The data is analyzed and priorities are set based on trending information which may target a specific need. When a need is identified, the Hospital develops a plan to implement a program either through community collaboration or individually. Outcomes from the programs are measured and considered in subsequent community needs assessments. Community benefit plans are presented to senior leadership and board members to ensure the findings are incorporated into the Organization's strategy and policy development. For example, senior leaders are required to provide direct service hours to the poor as part of their performance goals.

Schedule H, Part VI, Line 3 Patient education of eligibility for assistance	The Organization goes to great lengths in order to inform and educate patients/persons who may be billed for patient care about their eligibility for assistance under federal, state or local government programs and under the Organization's Charity Care Policy. The Charity Care Policy and application is posted on the Organization's website. Admissions and other key areas contain summary information of the Charity Care Policy. As part of the intake/discharge process, patients are provided with a copy of the policy and other information for financial assistance. If during the course of the patient registration process, treatment, or upon discharge it becomes evident that a patient may need financial assistance, the patient shall be referred to the Organization's Community Care program. Patients may be identified as needing financial assistance at any time during the course of an encounter. A referral for consideration of Community Care Financial Assistance can be initiated by any member of the hospital's workforce, including medical staff members, who become aware of the patient's potential need for Community Care Financial Assistance. The Charity Care Policy was also translated into dialects prevalent in the community in order to reach out to those that may speak another language. Patient registration staff and financial counselors are provided with scripts to follow when interacting with patients. As part of the charity care process, patients must register with the county public assistance to see if they may qualify under any other federal or state programs.
