Form and Line Reference	Explanation
Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	Costing methodology for amounts reported on line 2 is determined using the organization's cost/charge ratio. When discounts are extended to self-pay patients, these patient account discounts are recorded as a reduction in revenue, not as bad debt expense. Discounts and payments on accounts are applied directly to the principal of the account. The Hospital does not charge interest or fees related to the use of a collection agency to collect these payments.

Form and Line Reference	Explanation
Schedule H, Part III, Line 3 Bad Debt Expense Methodology	The estimated amount of the organization's bad debt expense that is attributable to patients eligible under the organization's charity care policy is approximately \$1,128,749. This was based off the most recent community needs assessment reported, which indicated that 12% of the population is below the Federal Poverty Guidelines. The 12% was applied to the amount of bad debt expense.

Form and Line Reference	Explanation
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	St Alexius Medical Center does not issue separate company audited financial statements. However, the organization is included in the consolidated financial statements of Catholic Health Initiatives. The consolidated footnote reads as follows: "The provision for bad debts is based upon management's assessment of historical and expected net collections, taking into consideration historical business and economic conditions, trends in health care coverage, and other collection indicators. Management routinely assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible net patient accounts receivable. After satisfaction of amounts due from insurance, CHI follows established guidelines for placing certain balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by each facility. The provision for bad debts is presented on the consolidated statements of operations as a deduction from patient services revenues (net of contractual allowances and discounts) since CHI accepts and treats substantially all patients without regard to the ability to pay."

The Financial Counselor along with the Social Work Department staff attempt to identify all inpatients prior to discharge and begin the discussion of available programs including, but not limited to, the charity care program. Determination of eligibility should be made prior to discharge or as close to the date of service as possible. However, retroactive determinations are also eligible. Catholic Health Initiatives (CHI) is a national faith-based nonprofit health care organization with headquarters in Englewood, Colorado. An MBO is a direct provider of care or services within a defined market area that may be an integrated health system and/or a stand-alone hospital or other facility or service provider. CHI serves as the parent corporation of its MBOs which are comprised of 101 hospitals, including four academic medical centers, and 30 critical access facilities, community health service organizations, accredited nursing colleges, home health agencies, and other facilities that span the inpatient and outpatient continuum of care. Together, these facilities provided \$98.1 million in charity care and community benefit in the 2015 fiscal year, including services for the poor, free clinics, education and research. CHI provides strategic planning and management services as well as centralized "shared services" for the MBOs. Schedule H, Part V, Section B, Line 11 Facility , 1	Facility , 1 - St Alexius Medical Center 1 It was noted in the community health needs assessment that Alzheimer's disease in North Dakota had the 2nd highest per capita number of deaths related to Alzheimer's. Although we have offered education, memory screenings and support groups for Alzheimer's, the availability of medical specialists that treat Alzheimer's and other mental health issues is still a need. Recruitment efforts have not been completed thus far to meet the need, due to diminished availability of psychiatrists and/or neuropsychologists. 2 Although Diabetes and Obesity associated issues were identified as being prevalent in our minority Native American population, we continue to see a lack of participation by Native Americans at free/low cost community health screenings that have been offered. The reasons why participation from this population is low requires further investigation.

	Form 990, Part VI, Line 12c Conflict of interest policy	Catholic Health Initiatives ("CHI") has a Conflicts of Interest ("COI") policy in place to maintain the integrity of all of its activities. The policy applies to CHI Board of Stewardship Trustees and members of its committees, all board and board committee members of CHI Entities, all CHI employees, all CHI physicians (both employed and non-employed) and all physician administrators and leaders, advanced practice clinicians (both employed and non-employed), and all CHI research personnel (both employed and non-employed). Disclosure, review and management of perceived, potential or actual conflicts of interest are accomplished through a defined COI disclosure process. Each person has a general ongoing obligation to promptly and fully report to his/her direct manager, supervisor, medical staff office, board or board committee chair any situation or circumstance that may create a conflict of interest. The person must report the actual or potential conflict as soon as she/he becomes aware of it. In any situation where the person may be in doubt, a full disclosure should be made to permit an impartial and objective determination. In addition to the general ongoing obligation, there are initial disclosure obligations. The board, board committee members, and new employees are required to make disclosures at the time of their initial hiring/appointment. All non-employed, credentialed or contracted physicians are required to make disclosures at the time of their credentialing and during any subsequent reappointment or recredentialing. All researchers are required to make disclosures upon consideration of affiliation with a research sponsor. In addition to the general ongoing and initial disclosure obligations, there is an annual disclosure obligation. All corporate officers, board and board committee members, employees at the level of manager and above, researchers, supply chain employees, employed physicians, physician administrators and leaders, and employed advanced practice clinicians must complete a new conflict of interest disclosure annually. Disclosures of perceived, potential or actual conflicts involving financial interests are forwarded to the Conflicts of Interest Review Committee ("C-CIRC") or Legal Services Group for review depending on the position of the person involved. The C-CIRC reviews COI questionnaires containing disclosures of perceived or possible conflicts for employees at a level of manager or above, supply chain employees, researchers and physicians, physician administrators and leaders, and advanced practice clinicians (both employed and non-employed). In the determination of a conflict, a COI management plan will be developed for that person. With respect to those audiences for which the C-CIRC has review responsibility, the C-CIRC will facilitate development of any such conflict of interest management plan in collaboration with local CRP staff. A designated CHI Entity staff will be responsible for monitoring the COI management plan and for documenting monitoring activities. At its sole discretion, a CHI Entity may reject a Person's request to enter into the relationship in question, or require the relationship be sufficiently altered to avoid a potential COI. If the C-CIRC determines that there is a potential or actual conflict of interest that does not currently have appropriate controls to address the conflict of interest, it may recommend that the disclosing person be allowed to participate in the activity or transactions subject to restrictions as outlined in the COI management plan. If a Person does not agree with a determination made by the C-CIRC, its interpretation of the Policy or Addenda, or seeks an exemption or exception, the following steps should be followed. The Employee disputing the review decision, interpretation of the Policy, or seeking exemption or exception must present the matter to the Employee's immediate direct manager or supervisor for review and determination. If the Employee and the manager do not agree with the review decision, interpretation of the Policy, or seek exemption or exception, the manager shall consult with the manager's Vice President (or higher if the manager is a Vice President) to reach a determination. If the matter remains unresolved, it shall be referred to the CHI Vice President of Human Resources and the CHI Corporate Responsibility Officer. If they are unable to reach agreement, the matter shall be referred to the CHI General Counsel, whose decision shall be final. Reviews and determinations involving board and board committee members and corporate officers will be the responsibility of the board, board executive committee, or board chair, with guidance from the Legal Services Group (LSG). Annual COI disclosures of all trustee and corporate officers will be reviewed by the CHI Senior Vice President, Legal Services, and General Counsel or his or her designee who will report potential conflicts to the applicable Board Chair. The Board Chair

Return Reference	Explanation	
	Form 990, Part VI, Line 12c Conflict of interest policy	ir or designee shall make such further investigation of any conflict of interest disclosures as he or she may deem appropriate. If the conflict involves the Board Chair, the Vice Chair will assume the Chair's role. Based on review and evaluation of the relevant facts and circumstances, the Board Chair will make an initial determination as to whether a conflict of interest exists and whether, pursuant to the COI Policy, review and approval or other action by the Board is required. A written record of the Board Chair's determination, including relevant facts and circumstances, will be made. The Board Chair shall then make an appropriate report to the Executive Committee of the Board concerning such review, evaluation and determination. If a difference of opinion exists between the Board Chair and another Trustee as to whether the facts and circumstances of a given situation constitute a conflict of interest or whether Board review and approval or other action is required within the COI Policy, the matter shall be submitted to the Board's Executive Committee, which shall make a final determination as to the matter presented. Such determination, including relevant facts and circumstances, will be reflected in the Executive Committee minutes and will be reported to the Board. When any conflict of interest is considered by the board, the trustee or corporate officer, as appropriate, must disclose all of the material facts to the Board. The trustee shall not vote and the trustee or corporate officer shall not use his or her personal influence on the matter. The trustee or corporate officer shall be excused from the meeting during discussion and vote on the conflict of interest. In reviewing such transactions between CHI or CHI Entities and vendors or other contractors who are, or are affiliated with, Trustees or Corporate Officers, the Board will act as it would in reviewing transactions with unrelated third parties.
