| Schedule H, Part VI Lines 2, 4, & 5<br>Needs assessment and community information | <p>II COMMUNITY BENEFIT APPROACH Throughout its history CHI Mercy Medical Center has been intimately involved in community health collaboration and has played a key role in evaluating area health issues, setting priorities and plans for improvement. Mercy continues our deep commitment and involvement in the community's health. CHI Mercy Medical Center's Community Benefit Plan is based on our understanding of unique community needs derived from collaborative needs assessments, focus groups, and surveys conducted with our community partners. It is generally recognized that the health of the community is not the responsibility of any one entity, but rather requires the coordinated efforts of many entities - public and private - to realize an improved health status of a community. CHI Mercy Medical Center has been working with public and private entities in our service area to measure and improve the health status of the community. When examining demographic information about this area, it is important to keep in mind that because of the oil boom (and now downturn), area population and demographics have been changing very rapidly in the last few years. Though the general consensus is that the region is experiencing a temporary lull in activity, interviews with key community leaders revealed that few believe we are yet to have an accurate means to measure the population. Community leaders believe the Census data significantly understates the true nature of how many people are living in the area, due not only to rapid increase in population but also because many of those "living" in the area come for a few weeks at a time, and then return to a home base during off work rotations. The general demographic and geographic data is about Divide, McKenzie, and Williams counties, which comprise the majority of the North Dakota portion of CHI Mercy Medical Center's service area. The data that we do have indicates that while Divide County has a greater percentage of individuals aged 65 or older than the North Dakota average, the more populous counties of McKenzie and Williams have a lower percentage of residents 65 or older than the state average. All three counties have a higher median age than the state median, with McKenzie and Williams counties having slightly higher median ages (one and two years, respectively) and Divide County having a substantially higher (more than 14 years) median age. McKenzie and Williams's counties have a larger percentage of children under the age of 18 than the state average, which may indicate a need for health care services geared toward children. All three counties lag behind the state average in terms of individuals with a bachelor's degree or higher. The rate of Williams County residents with a bachelor's degree or higher trails the state average by more than seven percentage points, with Divide County trailing by nearly nine points and McKenzie County trailing by nearly six points. High school graduation rates tend to be closer to the state average. The educational backgrounds of area residents can affect a health care facility's ability to find qualified staff members. Williston State College, a two-year public college, offers associate degrees in health professions such as administrative assistant medical, health information management, medical/billing coding, medical transcription, mental health/addictions technician, nursing, and speech language pathology assistant.</p> |

Financial assistance applications are available on our website (<a href="http://www.mercy-williston.org">www.mercy-williston.org</a>) and at our facilities. The process is extremely confidential and our goal is to award financial assistance rather than turn patients over to collection for healthcare bills. Charity Care is free or discounted health and health-related services provided to person who cannot afford to pay for medically necessary health care. Eligibility is based on household income as well as other assets. Consideration is given to a patient who has significant or catastrophic medical bills and does not meet the income guidelines. Charity Care is given to uninsured, low-income patients who are not expected to pay all or part of a bill, or who are able to pay only a portion using an income-related fee schedule. Community benefit programs for the poor are geared to reducing morbidity and mortality in beneficiaries of Medicaid or state or local indigent programs. CHI Mercy Medical Center will not delay providing an appropriate medical screening examination required or further medical examination and treatment required in order to inquire about the individual's method of payment or insurance status. CHI Mercy Medical Center will not seek, or direct an individual to seek, authorization from the individual's insurance company for screening or stabilization services to be furnished by a physician, or mid-level practitioner to an individual until after an appropriate medical screening examination required, and initiated any further medical examination and treatment that may be required to stabilize the emergency medical condition. Eligibility for uninsured/underinsured discounts shall be determined based on 130% of the annually updated HUD Geographic Very-Low Income Guidelines, available assets and any extenuating circumstances. Thus, the standards of eligibility for the application of uninsured/underinsured discounts must consider assets, as well as income. CHI Mercy Medical Center shall utilize 130% of the HUD Geographic Very-Low Income guidelines as a minimum. Financial Assistance applications may be obtained at Mercy or on the website <a href="http://www.mercy-williston.org">www.mercy-williston.org</a>. CHI Mercy Medical Center includes information concerning its financial assistance policy on its website. In addition, financial assistance applications are prominently displayed in obvious locations throughout the hospital, including the emergency room and other patient intake areas, as well as outpatient facilities. Mercy's registration clerks are trained to provide consultation to those who have no insurance or potentially inadequate insurance concerning their financial options including application for Medicaid and for financial assistance under the charity care policy. Upon registration (and once all EMTALA requirements are met), patients who are identified as uninsured (and not covered by Medicare or Medicaid) are provided with a packet of information that addresses the financial assistance policy and procedures including an application for assistance. Mercy's staff will also assist the patient / guarantor with applying for other available coverage (such as Medicare or Medicaid), if necessary.</p> |

| Schedule H, Part I, Line 3c Eligibility criteria for free or discounted care | <p>When Catholic Health Initiatives (the ultimate parent organization to Mercy Medical Center) established its financial assistance policy it was determined that establishing a household income scale based on the HUD very low income guidelines more accurately reflects the socioeconomic dispersions among urban and rural communities in 18 states served by CHI hospitals and health care facilities. In comparing HUD guidelines to the Federal Poverty Guidelines (FPG), we find that on average HUD guidelines compute to approximately 200% to 250% (and sometimes 300%) of FPG. Mercy Medical Center bases its financial assistance eligibility on HUD's 130% of Very Low Income Guidelines based on geography, and affords the uninsured and under-insured the ability to obtain financial assistance write-offs, based on a sliding scale, ranging from 25%-100% of charges. An individual's income under the HUD guidelines is a significant factor in determining eligibility for financial assistance. However, in determining whether to extend discounted or free care to a patient, the patient's assets may also be taken into consideration. For example, a patient suffering a catastrophic illness may have a reasonable level of income, but a low level of liquid assets such that the payment of medical bills would be seriously detrimental to the patient's basic financial (and ultimately physical) well-being and survival. Such a patient may be extended discounted or free care based upon the facts and circumstances.</p> |

| Schedule H, Part I, Line 7 Costing Methodology used to calculate financial assistance | A cost accounting system was not used to compute amounts in the table, rather costs in the table were computed using the organization's cost-to-charge ratio. The cost-to-charge ratio covers all patient segments. The cost-to-charge ratio for the year ended 6/30/15 was computed using the following formula: Operating expense (before restructuring, impairment and other losses) divided by gross patient revenue. Based on that formula, \$74,357,504 / \$138,167,992 results in a 53.82% cost-to-charge ratio. Worksheet 2 was not used to derive the cost-to-charge ratio. |

| Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount | Costing methodology for amounts reported on line 2 is determined using the organization's cost/charge ratio of 53.82%. When discounts are extended to self-pay patients, these patient account discounts are recorded as a reduction in revenue, not as bad debt expense. |

| Schedule H, Part III, Line 3 Bad Debt Expense Methodology | Mercy Medical Center does not believe that any portion of bad debt expense could reasonably be attributed to patients who qualify for financial assistance since amounts due from those individuals' accounts will be reclassified from bad debt expense to charity care within 30 days following the date that the patient is determined to qualify for charity care |

| Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote | Mercy Medical Center does not issue separate company audited financial statements. However, the organization is included in the consolidated financial statements of Catholic Health Initiatives. The consolidated footnote reads as follows: "The provision for bad debts is based upon management's assessment of historical and expected net collections, taking into consideration historical business and economic conditions, trends in health care coverage, and other collection indicators. Management routinely assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible net patient accounts receivable. After satisfaction of amounts due from insurance, CHI follows established guidelines for placing certain balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by each facility. The provision for bad debts is presented on the consolidated statements of operations as a deduction from patient services revenues (net of contractual allowances and discounts) since CHI accepts and treats substantially all patients without regard to the ability to pay." |

| Schedule H, Part III, Line 8<br>Community benefit & methodology for determining medicare costs | <p>Mercy Medical Center is designated as a Critical Access Hospital (CAH). CAHs are rural community hospitals that are certified to receive cost-based reimbursement from Medicare. The reimbursement that CAHs receive is intended to improve their financial performance and thereby reduce hospital closures. CAHs are certified under a different set of Medicare Conditions of Participation (CoP). Shortfalls are created when a facility receives payments that are less than the costs of caring for program beneficiaries. Because shortfalls are based on costs, not charges, Mercy Medical Center, due to their designation as a CAH, received cost-based reimbursement for Medicare purposes. Mercy Medical Center will not experience Medicare related shortfalls. Although not presented on the Medicare cost report, in order to facilitate a more accurate understanding of the "true" cost of services (for "shortfall" purposes) the CHI Workbook allows a health care facility not to offset costs that Medicare considers to be non-allowable, but for which the facility can legitimately argue are related to the care of the facility's patients. In addition, although not reportable on the Medicare cost report, the CHI workbook includes the cost of services that are paid via a set fee-schedule rather than being reimbursed based on costs (e.g. outpatient clinical laboratory). Finally, the CHI Workbook allows a facility to include other health care services performed by a separate facility (such as a physician practice) that are maintained on separate books and records (as opposed to the main facility's books and records which has its costs of service included within a cost report). True costs of Medicare computed using this methodology: Total Medicare Revenue \$11,900,297 Total Medicare costs \$11,830,738 Surplus or Shortfall \$69,559. Mercy Medical Center believes that excluding Medicare losses from community benefit makes the overall community benefit report more credible for these reasons. Unlike subsidized areas such as burn units or behavioral-health services, Medicare is not a differentiating feature of tax-exempt health care organizations. In fact, for-profit hospitals focus on attracting patients with Medicare coverage, especially in the case of well-paid services that include cardiac and orthopedics. Significant effort and resources are devoted to ensuring that hospitals are reimbursed appropriately by the Medicare program. The Medicare Payment Advisory Commission (MedPAC), an independent Congressional agency, carefully studies Medicare payment and the access to care that Medicare beneficiaries receive. The commission recommends payment adjustments to Congress accordingly. Though Medicare losses are not included by Catholic hospitals as community benefit, the Catholic Health Association guidelines allow hospitals to count as community benefit some programs that specifically serve the Medicare population. For instance, if hospitals operate programs for patients with Medicare benefits that respond to identified community needs, generate losses for the hospital, and meet other criteria, these programs can be included in the CHA framework in Category C as "subsidized health services." Medicare losses are different from Medicaid losses, which are counted in the CHA community benefit framework, because Medicaid reimbursements generally do not receive the level of attention paid to Medicare reimbursement. Medicaid payment is largely driven by what states can afford to pay, and is typically substantially less than what Medicare pays.</p> |

| Schedule H, Part III, Line 9b<br>Collection practices for patients eligible for financial assistance | Mercy Medical Center's debt collection policy provides that Mercy Medical Center will perform a reasonable review of each inpatient account prior to turning an account for to a third-party collection agent and prior to instituting any legal action for non-payment, to assure that the patient and patient guarantor are not eligible for any assistance program (e.g. Medicaid) and do not qualify for coverage through Mercy Medical Center community assistance policy. After having been turned over to a third-party collection agent, any patient account that is subsequently determined to meet the Mercy Medical Center community assistance policy is required to be returned immediately by the third-party collection agent to Mercy Medical Center for appropriate follow-up. Mercy Medical Center requires its third-party collection agents to include a message on all statements indicating that if a patient or patient guarantor meets certain stipulated income requirements, the patient or patient guarantor may be eligible for financial assistance. All of Catholic Health Initiatives' hospitals' contracts with third party collection agencies include the following standards: * Neither CHI hospitals nor their collection agencies will request bench or arrest warrants as a result of non-payment, * Neither CHI hospitals nor their collection agencies will seek liens that would require the sale or foreclosure of a primary residence, and * No Catholic Health Initiatives' collection agency may seek court action without hospital approval. Finally, collection agencies are trained on the Catholic Health Initiatives Mission, Core Values and Standard of Conduct to make sure all patients are treated with dignity and respect. |

| Schedule H, Part VI, Line 6 Affiliated health care system | <p>Mercy Medical Center, along with its affiliated outpatient facilities, are part of Catholic Health Initiatives. Catholic Health Initiatives (CHI) is a national faith-based nonprofit health care organization with headquarters in Englewood, Colorado. CHI's exempt purpose is to serve as an integral part of its national system of hospitals and other charitable entities, which are described as market-based organizations, or MBOs. An MBO is a direct provider of care or services within a defined market area that may be an integrated health system and/or a stand-alone hospital or other facility or service provider. CHI serves as the parent corporation of its MBOs which are comprised of 101 hospitals, including four academic medical centers, and 30 critical access facilities, community health service organizations, accredited nursing colleges, home health agencies, and other facilities that span the inpatient and outpatient continuum of care. Together, these facilities provided \$981 million in charity care and community benefit in the 2015 fiscal year, including services for the poor, free clinics, education and research. CHI provides strategic planning and management services as well as centralized "shared services" for the MBOs. The provision of centralized management and shared services - including areas such as accounting, human resources, payroll and supply chain -- provides economies of scale and purchasing power to the MBOs. The cost savings achieved through CHI's centralization enable MBOs to dedicate additional resources to high-quality health care and community outreach services to the most vulnerable members of our society. Mercy Medical Center operates with its wholly owned affiliates and community partners, along with its fundraising arm, the Mercy Medical Foundation, to serve the health care needs of the Williston, ND communities.</p> |

| Form 990, Part VI,<br>Line 15a PROCESS<br>FOR DETERMINING<br>COMPENSATION OF<br>CEO | <p>The organization's top management official's compensation is paid by Catholic Health Initiatives (CHI), a related organization. CHI has a defined compensation philosophy. Both the executive and non-executive compensation structures and ranges are reviewed annually in comparison to market data. CHI uses The Hay Group as the independent third party to assess executive compensation programs and to ensure the reasonableness of actual salaries and total compensation packages. Compensation of the senior most executives is reviewed annually. The Hay Group reviews both cash and total compensation for overall reasonableness, for adherence to CHI's compensation philosophy, and for comparability to the not-for-profit healthcare market. This independent review is delivered by Hay Group to the HR committee of the CHI Board of Stewardship Trustees annually at their September meeting and minutes are shared with the full board at the December meeting. The last review was September 14, 2015. In addition, Hay Group completed a comprehensive review of all positions at the level of vice president and above in the fall of 2014 to determine and validate appropriate compensation levels. These levels have been reviewed annually since and revised based on market data, where applicable.</p> |

|                  | Form 990, Part VI, Line 12c Conflict of interest policy | <p>Catholic Health Initiatives ("CHI") has a Conflicts of Interest ("COI") policy in place to maintain the integrity of all of its activities. The policy applies to CHI Board of Stewardship Trustees and members of its committees, all board and board committee members of CHI Entities, all CHI employees, all CHI physicians (both employed and non-employed) and all physician administrators and leaders, advanced practice clinicians (both employed and non-employed), and all CHI research personnel (both employed and non-employed). Disclosure, review and management of perceived, potential or actual conflicts of interest are accomplished through a defined COI disclosure process. Each person has a general ongoing obligation to promptly and fully report to his/her direct manager, supervisor, medical staff office, board or board committee chair any situation or circumstance that may create a conflict of interest. The person must report the actual or potential conflict as soon as she/he becomes aware of it. In any situation where the person may be in doubt, a full disclosure should be made to permit an impartial and objective determination. In addition to the general ongoing obligation, there are initial disclosure obligations. The board, board committee members, and new employees are required to make disclosures at the time of their initial hiring/appointment. All non-employed, credentialed or contracted physicians are required to make disclosures at the time of their credentialing and during any subsequent reappointment or recredentialing. All researchers are required to make disclosures upon consideration of affiliation with a research sponsor. In addition to the general ongoing and initial disclosure obligations, there is an annual disclosure obligation. All corporate officers, board and board committee members, employees at the level of manager and above, researchers, supply chain employees, employed physicians, physician administrators and leaders, and employed advanced practice clinicians must complete a new conflict of interest disclosure annually. Disclosures of perceived, potential or actual conflicts involving financial interests are forwarded to the Conflicts of Interest Review Committee ("C-CIRC") or Legal Services Group for review depending on the position of the person involved. The C-CIRC reviews COI questionnaires containing disclosures of perceived or possible conflicts for employees at a level of manager or above, supply chain employees, researchers and physicians, physician administrators and leaders, and advanced practice clinicians (both employed and non-employed). In the determination of a conflict, a COI management plan will be developed for that person. With respect to those audiences for which the C-CIRC has review responsibility, the C-CIRC will facilitate development of any such conflict of interest management plan in collaboration with local CRP staff. A designated CHI Entity staff will be responsible for monitoring the COI management plan and for documenting monitoring activities. At its sole discretion, a CHI Entity may reject a Person's request to enter into the relationship in question, or require the relationship be sufficiently altered to avoid a potential COI. If the C-CIRC determines that there is a potential or actual conflict of interest that does not currently have appropriate controls to address the conflict of interest, it may recommend that the disclosing person be allowed to participate in the activity or transactions subject to restrictions as outlined in the COI management plan. If a Person does not agree with a determination made by the C-CIRC, its interpretation of the Policy or Addenda, or seeks an exemption or exception, the following steps should be followed. The Employee disputing the review decision, interpretation of the Policy, or seeking exemption or exception must present the matter to the Employee's immediate direct manager or supervisor for review and determination. If the Employee and the manager do not agree with the review decision, interpretation of the Policy, or seek exemption or exception, the manager shall consult with the manager's Vice President (or higher if the manager is a Vice President) to reach a determination. If the matter remains unresolved, it shall be referred to the CHI Vice President of Human Resources and the CHI Corporate Responsibility Officer. If they are unable to reach agreement, the matter shall be referred to the CHI General Counsel, whose decision shall be final. Reviews and determinations involving board and board committee members and corporate officers will be the responsibility of the board, board executive committee, or board chair, with guidance from the Legal Services Group (LSG). Annual COI disclosures of all trustee and corporate officers will be reviewed by the CHI Senior Vice President, Legal Services, and General Counsel or his or her designee who will report potential conflicts to the applicable Board Chair. If the conflict involves the Board Chair, the Vice Chair will assume the Chair's role. CHI has a defined compensation philosophy. Both the executive and non-executive compensation structures and ranges are reviewed annually in comparison to market data. CHI uses The Hay Group as the independent third party to assess executive compensation programs and to ensure the reasonableness of actual salaries and total compensation packages. Compensation of the senior most executives is reviewed annually. The Hay Group reviews both cash and total compensation for overall reasonableness, for adherence to CHI's compensation philosophy, and for comparability to the not-for-profit healthcare market. This independent review is delivered by Hay Group to the HR committee of the CHI Board of Stewardship Trustees annually at their September meeting and minutes are shared with the full board at the December meeting. The last review was September 14, 2015. In addition, Hay Group completed a comprehensive review of all positions at the level of vice president and above in the fall of 2014 to determine and validate appropriate compensation levels. These levels have been reviewed annually since and revised based on market data, where applicable.</p> |
