Part X FIN48 Footnote	The Association evaluates uncertainty in income tax positions based on a more-likely-than-not recognition standard. If that threshold is met, the income tax position is then measured at the largest amount that is greater than 50 percent likely of being realized upon ultimate settlement and current and deferred income taxes would be recognized. As of June 30, 2015 and 2014, there were no accruals for uncertain income tax positions. If applicable, the Association records interest and penalties as a component of income tax expense. At a minimum, tax years from June 30, 2012, through the current year remain open for examination by federal and state tax authorities.
