Return Reference	Explanation
Part X, Line 2	During fiscal year 2014, the School adopted FASB ASC 740-10, Accounting for Uncertainty in Income Taxes. This pronouncement seeks to reduce the diversity in practice associated with certain aspects of measurement and recognition in accounting for income taxes. It prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position which an entity takes or expects to take in a tax return. An entity may only recognize or continue to recognize tax positions which meet a "more likely than not" threshold. The School assesses its income tax positions based on management's evaluation of the facts, circumstances and information available at the reporting date. The School uses the prescribed "more likely than not" threshold when making its assessment. At adoption, the School did not record any cumulative effect adjustment, and the School did not accrue any interest expense or penalties related to tax positions. There are currently no open federal or state tax years under audit. There is currently no unrelated business taxable income for tax year 2014.
