Schedule H, Part I, Line 7 Costing Methodology used to calculate financial assistance	A sliding scale was used to determine the amount to charge patients who fell between 200% and 400% of the Federal Poverty Guidelines

Form and Line Reference	Explanation
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	The provision for bad debts is based on management's assessment of historical and expected net collections, considering business and economic conditions, trends in federal and state governmental health care coverage and other collection indicators. Throughout the year, management assesses the adequacy of the allowance for noncollectable accounts based upon these trends. The results of this review are then used to make any modification to the provision for bad debts to establish an appropriate allowance for noncollectable accounts. Patient accounts receivable are written off after collection have been followed under the companies policies. SJMC has policies providing assistance for patients requiring care but who have limited or no means to pay for that care. These policies provide free health related services to persons who qualify under certain income and asset criteria. SJMC maintains records to identify and monitor the level of financial assistance it provides. The value of bad debts reported on Line 2 represents the aggregate amounts remaining in net patient accounts receivable that are deemed to be noncollectable after exercising reasonable collection efforts.
