990 Sch H Part VI, Line 3	Patient Education All Memorial Hermann Acute Care facilities and Rehab facilities have Third Party Qualification vendors on-site or trained financial counselors Once someone requests or a financial counselor has determined through interaction with the patient and/or guarantor that the patient cannot pay for services, the financial counselors will either screen themselves or the patient/guarantor is referred to the Eligibility vendor on-site to screen for any Federal/State/Local Government program which may cover their services These vendors act as agents for the patient/guarantor and may at times go to hearings for Medicaid or Disability as a legal representative of the patient Also, all our entities, including service lines, have posted notices of a patient's right to request charity Our statements that are sent to patients have documentation on the back informing the patient of Memorial Hermann's Charity policy and their right to request such, (in English and Spanish) Accounts are referred to be processed either on a real time basis by the hospital staff while the patient is still in the hospital or by electronic referral via data download which occur weekly and after the patient has been discharged The goal is to make contact with the patient for financial screening to determine eligibility for governmental assistance as soon as possible TIRR Memorial Hermann has embedded case managers and social workers in the hospital-based physician clinic to help patients with their doctors and needs TIRR Memorial Hermann inpatients and outpatients require a great deal of assistance with a wide range of resources, and case management plays a significant role in providing supportive services to each patient Social workers provide not only case management, but behavioral counseling as well If needed, social workers can refer patients to TIRR Memorial Hermann's psychiatrist Counseling services are available to families as well as to patients Assistance for Memorial Hermann ER patients to take advantage of Communit resources for primary care outside the emergency rooms are through Memorial Hermann's navigation services In 2008, Memorial Hermann launched the ER Navigation program and Today,the ER Navigation program places Community Health Workers (CHWs) or "navigators" on-site in seven Memorial Hermann's emergency rooms to educate patients on the importance of identifying and using a consistent health home rather than relying on emergency rooms for their primary care Patients eligible for the program are 18 months to age 65 who have accessed the ER for primary care related condition and are uninsured or on Medicaid They provide patients with clinic referrals,make appointments, arrange transportation, share information and referrals to community and safety net programs, educate about qualifying for and using public benefits and other payment resources, serve as a liaison between the patient and providers and tackle other challenges to appropriate care CHWs stress the importance of having a health home and provide support and guidance in making and keeping future health appointments While navigators initially meet with patients during the ER visit, much of their work is done in follow-up, ensuring that a clinic appointment was made, was successful and assisting with the paperwork required for qualification for Medicaid, CHIP or county indigent programs Similar support is through the COPE (Community Outreach for Personal Empowerment) Program which provides empowering services for uninsured patients to improve their health and well being through education about and coordination with community health services COPE targets patients who are at the highest rate of declining health and recidivism Enrolling these populations into public benefits through all of these venues automatically increases their likelihood of obtaining regular primary and preventative care, the kind of care that ensures health and the potential for a prosperous future while concurrently eliminating the cost burden presently experienced by safety-net providers
