Schedule H, Part VI Lines 2, 4 & 5	<p>With flu ravaging our region in 1918, the need for local medical services was clear. The tragedy of that epidemic galvanized our community and what today is Harrison Medical Center was born-born of need and the promise of more effective medical care on the Peninsula. Nearly 100 years later, we are still caring for our communities, fulfilling that promise. Over the last century, Harrison has evolved from a small community hospital with access for all into the Peninsula's busiest medical center. Our board of community leaders has continued to renew that commitment to superior medical care and service for the region. The mission that guides us is as compelling today as ever: to make a positive difference in people's lives through exceptional health care. As we've grown, we've raised the bar. We moved patients to the top of the organization chart intent on excellence in safety, quality and service. We have made great strides earning recognition for providing excellent care. We expanded our presence to more communities and enhanced our services and improved facilities, technology and infrastructure. Today we are caring for patients from Kitsap, North Mason, Clallam and Jefferson counties with locations in Bremerton, Silverdale, Port Orchard, Bainbridge Island, Belfair, Poulsbo and Forks. Now Harrison offers a comprehensive range of specialties, services and programs, including a 24-7 emergency department that is open to all individuals regardless of their ability to pay. Care is provided by a staff of 2,300 and a medical staff of 415, who are part of Harrison HealthPartners, the Orthopaedic Alliance and other partner organizations. As a result of our open medical staff, many of the region's finest professionals choose to work with Harrison. Our team of doctors, advanced practice clinicians, nurses and staff is dedicated to making a positive difference helping people heal and enjoy health. Each year our services and programs are expanded to promote a healthy community.</p> <p><b>Community Benefit Approach</b> With two campuses located in Bremerton and Silverdale, WA in Kitsap County, Harrison Medical Center provides care to a population in excess of 250,000. The most recent estimates based on the U.S. Census reflect that over 15% of the population is sixty-five and over. The largest population growth is also reflected in the sixty-five and over age group, growing at about 24% over the next 5 years. The median household income is \$61,000 for the county. The largest ethnic group is White/Caucasian with Hispanic showing the highest growth at 20% over the next 5 years. Currently the Hispanic population is over 25,000. The educational background of the population shows that the majority of the population, 41%, has completed some college or has an associate's degree and 29% have completed a bachelor's degree. Starting in 2011, Harrison Medical Center has been one of five sponsors, along with the Kitsap County Public Health District, The United Way of Kitsap County, the Kitsap Community Foundation and Kitsap County, of the Kitsap County Health Priorities (KCHP) project which assesses the overall health needs for the community and identifies those areas in which we can make the most significant difference with limited resources. This project is supported by at least 37 different agencies providing care in the county. In this project, we solicited input from healthcare and community leaders directly, and invited members of the community via public announcements in the local newspapers. We facilitated multiple input sessions with this group over the next several months. Through this process, we ultimately identified our top health priorities for the county. The most recent Health Status Assessment was completed in 2014 and reflects a compilation and analysis of extensive data sources to identify issues having significant impact on the health and general well-being of area residents.</p> <p><b>Summary of Findings</b> Four key factors emerged as having the greatest impact on the overall wellness of the community. These issues were prioritized by community stakeholders through in-depth assessment of community data and surveys. They are listed below in order of priority:</p> <ol style="list-style-type: none"><li>1. Prevent Adverse Childhood Experiences (ACEs) and reduce the negative impact of ACEs</li><li>2. Ensure Mental Health care is accessible, available, and timely for all</li><li>3. Increase affordable housing and make homelessness a one-time brief event</li><li>4. Make it easy for all residents to be physically active and ensure all residents have healthier food options</li></ol>

Schedule H, Part VI Lines 2, 4 & 5	<p>Promotion of Community Health Harrison Medical Center promotes the health of the community in many ways Harrison's open medical staff practices in six locations throughout Kitsap, Clallam, &amp; Mason Counties, provides primary and urgent care as well as advanced specialty care In an effort to "lead by example", our Dietary and Fresh Start programs created a wellness program for employees The program offers group exercise classes, personalized dietary and activity plans, online community forums, and health screenings all meant to enable employees to lead healthier lives In addition, Harrison Medical also offers a nursing residency program designed to aid the transition of nursing students to staff nurses providing care for patients at the bedside Further, Harrison offers a multitude of health education and support classes for the community Harrison Medical Center values the relationships it maintains with the community and community organizations There are numerous community based support groups, which meet at Harrison on a regular basis using the medical center's meeting rooms at no charge The facilitators of these groups are often trained professionals of the medical center These groups include Diabetes Support for children and parents, Alzheimer's Support Group, Smoking Cessation Support Group, Amputee Support, Lupus Support, Women's Cardiac Health &amp; Cancer Program, Cancer Education Support, Look Good and Feel Better Support, Sleep Apnea Support, Better Breathers Club, Parkinson's, Stroke Support Group, Survivors of Suicide Support Group, Therapeutic Yoga Support, Hearing Support Group, Ovarian/Gynecological Cancer Support, Bariatric Surgery Support, Compassionate Friends Support, Breast Cancer Support, Traumatic Brain Injury Support, Women with Cancer Support, Men's Cancer Support Group, Perinatal Loss Support Group, Heart and Vascular Support, Kids Care Support, Lap-Band Support, Anchor Senior Support, and Orthopedic Support Harrison Medical Center's social workers provide assistance to community members with questions regarding services outside and inside of Harrison Medical Center Social Workers frequently arrange transportation for patients and their families who lack resources, procure urgently required discharge medications to low income patients, provide social work services for unbilled outpatient counseling for radiation oncology and rehab patients, and the social work director spends volunteer time each month working with community groups on mutual projects and serving on various community boards Harrison Medical Center recruits physicians to fill unmet needs in the community Analysis of the number and type of physicians and mid-level providers is used to evaluate access to primary and specialty care providers in the community Where gaps exist, Harrison works with our physician partners to recruit new providers to meet the gaps identified by the analysis</p>

Form and Line Reference	Explanation
Schedule H, Part I, Line 3c Eligibility criteria for free or discounted care	<p>When Catholic Health Initiatives (the ultimate parent organization to Harrison Medical Center's) established its financial assistance policy it was determined that establishing a household income scale based on the HUD very low income guidelines more accurately reflects the socioeconomic dispersions among urban and rural communities in 18 states served by CHI hospitals and health care facilities. In comparing HUD guidelines to the Federal Poverty Guidelines (FPG), we find that on average HUD guidelines compute to approximately 200% to 250% (and sometimes 300%) of FPG. Harrison Medical Center bases its financial assistance eligibility on HUD's 130% of Very Low Income Guidelines based on geography, and affords the uninsured and underinsured the ability to obtain financial assistance write-offs, based on a sliding scale, ranging from 25%-100% of charges. An individual's income under the HUD guidelines is a significant factor in determining eligibility for financial assistance. However, in determining whether to extend discounted or free care to a patient, the patient's assets may also be taken into consideration. For example, a patient suffering a catastrophic illness may have a reasonable level of income, but a low level of liquid assets such that the payment of medical bills would be seriously detrimental to the patient's basic financial (and ultimately physical) well-being and survival. Such a patient may be extended discounted or free care based upon the facts and circumstances.</p>

Form and Line Reference	Explanation
Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	Costing methodology for amounts reported on line 2 is determined using the organization's cost/charge ratio of 24.57%. When discounts are extended to self-pay patients, these patient account discounts are recorded as a reduction in revenue, not as bad debt expense.

Form and Line Reference	Explanation
Schedule H, Part III, Line 3 Bad Debt Expense Methodology	Harrison Medical Center does not believe that any portion of bad debt expense could reasonably be attributed to patients who qualify for financial assistance since amounts due from those individuals' accounts will be reclassified from bad debt expense to charity care within 30 days following the date that the patient is determined to qualify for charity care

Form and Line Reference	Explanation
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	The provision for bad debts is based upon management's assessment of historical and expected net collections, taking into consideration historical business and economic conditions, trends in health care overage, and other collection indicators. Management routinely assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible net patient accounts receivable. After satisfaction of amounts due from insurance, CHI follows established guidelines for placing certain balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by each facility. The provision for bad debts is presented on the consolidated statements of operations as a deduction from patient services revenues (net of contractual allowances and discounts) since CHI accepts and treats substantially all patients without regard to the ability to pay.

Form and Line Reference	Explanation
<p>Schedule H, Part III, Line 8 Community benefit &amp; methodology for determining medicare costs</p>	<p>Using essentially the same Medicare cost report principles as to the allocation of general services costs and "apportionment" methods, the "CHI Workbook" calculates a payers' gross allowable costs by service (so as to facilitate a corresponding comparison between gross allowable costs and ultimate payments received) The term "gross allowable costs" means costs before any deductibles or co-insurance are subtracted Harrison Medical Center's ultimate reimbursement will be reduced by any applicable copayment/ deductible Where Medicare is the secondary insurer, amounts due from the insured's primary payer were not subtracted from Medicare allowable costs because the amounts are typically immaterial Although not presented on the Medicare cost report, in order to facilitate a more accurate understanding of the "true" cost of services (for "shortfall" purposes) the CHI Workbook allows a health care facility not to offset costs that Medicare considers to be non-allowable, but for which the facility can legitimately argue are related to the care of the facility's patients In addition, although not reportable on the Medicare cost report, the CHI workbook includes the cost of services that are paid via a set fee-schedule rather than being reimbursed based on costs (e g outpatient clinical laboratory) Finally, the CHI Workbook allows a facility to include other health care services performed by a separate facility (such as a physician practice) that are maintained on separate books and records (as opposed to the main facility's books and records which has its costs of service included within a cost report) True costs of Medicare computed using this methodology  Total Medicare Revenue \$116,731,916 Total Medicare costs \$164,667,002 Surplus or Shortfall (\$ 47,935,086) Harrison Medical Center believes that excluding Medicare losses from community benefit makes the overall community benefit report more credible for these reasons Unlike subsidized areas such as burn units or behavioral-health services, Medicare is not a differentiating feature of tax-exempt health care organizations In fact, for-profit hospitals focus on attracting patients with Medicare coverage, especially in the case of well-paid services that include cardiac and orthopedics Significant effort and resources are devoted to ensuring that hospitals are reimbursed appropriately by the Medicare program The Medicare Payment Advisory Commission (MedPAC), an independent Congressional agency, carefully studies Medicare payment and the access to care that Medicare beneficiaries receive The commission recommends payment adjustments to Congress accordingly Though Medicare losses are not included by Catholic hospitals as community benefit, the Catholic Health Association guidelines allow hospitals to count as community benefit some programs that specifically serve the Medicare population For instance, if hospitals operate programs for patients with Medicare benefits that respond to identified community needs, generate losses for the hospital, and meet other criteria, these programs can be included in the CHA framework in Category C as "subsidized health services " Medicare losses are different from Medicaid losses, which are counted in the CHA community benefit framework, because Medicaid reimbursements generally do not receive the level of attention paid to Medicare reimbursement Medicaid payment is largely driven by what states can afford to pay, and is typically substantially less than what Medicare pays</p>

Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	Harrison Medical Center's debt collection policy provides that Harrison Medical Center will perform a reasonable review of each inpatient account prior to turning an account over to a third-party collection agent and prior to instituting any legal action for non-payment, to assure that the patient and patient guarantor are not eligible for any assistance program (e g Medicaid) and do not qualify for coverage through Harrison Medical Center's community assistance policy After having been turned over to a third-party collection agent, any patient account that is subsequently determined to meet the Harrison Medical Center community assistance policy is required to be returned immediately by the third-party collection agent to Harrison Medical Center for appropriate follow-up Harrison Medical Center requires its third-party collection agents to include a message on all statements indicating that if a patient or patient guarantor meets certain stipulated income requirements, the patient or patient guarantor may be eligible for financial assistance All of Catholic Health Initiatives' hospitals' contracts with third party collection agencies include the following standards * Neither CHI hospitals nor their collection agencies will request bench or arrest warrants as a result of non-payment, * Neither CHI hospitals nor their collection agencies will seek liens that would require the sale or foreclosure of a primary residence, and * No Catholic Health Initiatives' collection agency may seek court action without hospital approval Finally, collection agencies are trained on the Catholic Health Initiatives Mission, Core Values and Standard of Conduct to make sure all patients are treated with dignity and respect

Schedule H, Part VI, Line 3 Patient education of eligibility for assistance	Harrison Medical Center includes information concerning its financial assistance policy on its website. In addition, Harrison Medical Center prominently displays its financial assistance policy in both English and Spanish in obvious locations throughout the hospitals, including the emergency rooms and other patient intake areas, as well as in Harrison Medical Center outpatient facilities. In addition, Harrison Medical Center registration clerks are trained to provide consultation to those who have no insurance or potentially inadequate insurance concerning their financial options including application for Medicaid and for financial assistance under Harrison Medical Center's financial assistance policy. Upon registration (and once all EMTALA requirements are met), patients who are identified as uninsured (and not covered by Medicare or Medicaid) are provided with a packet of information that addresses the financial assistance policy and procedures including an application for assistance. Harrison Medical Center registration clerks read the organization's medical assistance policy to those who appear to be incapable of reading, and provide translators for non-English-speaking individuals. Harrison Medical Center's staff will also assist the patient/guarantor with applying for other available coverage (such as Medicaid), if necessary. Counselors assist Medicare eligible patients in enrollment by providing referrals to the appropriate government agencies.

Schedule H, Part VI, Line 6 Affiliated health care system	<p>Harrison Medical Center, along with its affiliated outpatient facilities, are part of Catholic Health Initiatives. Catholic Health Initiatives (CHI) is a national faith-based nonprofit health care organization with headquarters in Englewood, Colorado. CHI's exempt purpose is to serve as an integral part of its national system of hospitals and other charitable entities, which are described as market-based organizations, or MBOs. An MBO is a direct provider of care or services within a defined market area that may be an integrated health system and/or a stand-alone hospital or other facility or service provider. CHI serves as the parent corporation of its MBOs which are comprised of 101 hospitals, including four academic medical centers, and 30 critical access facilities, community health service organizations, accredited nursing colleges, home health agencies, and other facilities that span the inpatient and outpatient continuum of care. Together, these facilities provided \$981 million in charity care and community benefit in the 2015 fiscal year, including services for the poor, free clinics, education and research. CHI provides strategic planning and management services as well as centralized "shared services" for the MBOs. The provision of centralized management and shared services - including areas such as accounting, human resources, payroll and supply chain -- provides economies of scale and purchasing power to the MBOs. The cost savings achieved through CHI's centralization enable MBOs to dedicate additional resources to high-quality health care and community outreach services to the most vulnerable members of our society. Harrison Medical Center operates with its wholly owned affiliates and community partners, along with its fundraising arm, the Harrison Medical Center Foundation, to serve the health care needs of the Kitsap County, Washington communities.</p>

Schedule J, Part I, Line 3 Arrangement used to establish the top management official's compensation	Compensation for the top management official was established and paid by Catholic Health Initiatives (CHI), a related organization. CHI used the following to establish the top management official's compensation: (1) Compensation Committee, (2) Independent Compensation Consultant, (3) Written Employment Contracts, (4) Compensation Survey or Study, (5) Approval by the Board or Compensation Committee.
Schedule J, Part I, Line 4b Supplemental nonqualified retirement plan	During the 2014 calendar year, Harrison Medical Center maintained a supplemental non-qualified deferred compensation plan. The following reportable individuals were eligible to participate in that plan: Michael H. Anderson, Jeanell Rasmussen, Forrest Ehlinger, Robert C. King, Adar Palis, Scott Bosch. During 2014, the following contributions were made by Harrison Medical Center to the deferred compensation plan: Michael H. Anderson - \$39,600; Jeanell Rasmussen - \$18,041. Due to the "super" vesting rules under the Harrison Medical Center deferred compensation plan, participants who have met certain requirements such as age, years of service, or more than 5 years of plan participation are eligible to receive their 2014 contributions in cash. These cash payouts are included in the participant's reportable compensation in column (iii) Other Reportable Compensation on Schedule J, Part II. During 2014, the following contributions that would have been made by Harrison Medical Center to the deferred compensation plan were paid in cash: Forrest Ehlinger - \$32,884; Robert C. King - \$55,983; Adar Palis - \$24,236; Scott Bosch - \$157,857. During the 2014 calendar year, Catholic Health Initiatives (CHI), a related organization, maintained a supplemental non-qualified deferred compensation plan for MBO CEOs/Presidents and other CHI employees at the level of Senior Vice President and above. Form 990, Part  
VI, Line 16b  
Joint Venture  
Policy

Harrison Medical Center has not formally adopted a written policy or written procedure regarding joint ventures. However, CHL's system-wide joint venture model operating agreement incorporates controls over the venture sufficient to ensure that (1) the exempt organization at all times retains control over the venture sufficient to ensure that the partnership furthers the exempt purpose of the organization, (2) in any partnership in which the exempt organization is a partner, achievement of exempt purposes is prioritized over maximization of profits for the partners, (3) the partnership does not engage in any activities that would jeopardize the exempt organization's exemption, (4) returns of capital, allocations, and distributions must be made in proportion to the partners' respective ownership interests, and (5) all contracts entered into by the partnership with the exempt organization must be at arm's-length, with prices set at fair market value. Any joint venture agreements that do not conform to the model agreement are generally reviewed by counsel.

Form 990, Part VI, Line 11b Review of form 990 by governing body	THE FORM 990 IS REVIEWED BY THE DIRECTOR OF FINANCE AND THE CHIEF FINANCIAL OFFICER TO ENSURE ACCURACY AND COMPLETENESS OF DATA. ONCE THEIR REVIEW IS COMPLETE, THE FORM 990 IS SHARED WITH THE BOARD OF DIRECTORS. THE BOARD OF DIRECTORS RECEIVES AN ELECTRONIC COPY OF THE FORM PRIOR TO FILING.

Return Reference	Explanation	
	Form 990, Part VI, Line 12c Conflict of interest policy	<p>Catholic Health Initiatives ("CHI") has a Conflicts of Interest ("COI") policy in place to maintain the integrity of all of its activities. The policy applies to CHI Board of Stewardship Trustees and members of its committees, all board and board committee members of CHI Entities, all CHI employees, all CHI physicians (both employed and non-employed) and all physician administrators and leaders, advanced practice clinicians (both employed and non-employed), and all CHI research personnel (both employed and non-employed). Disclosure, review and management of perceived, potential or actual conflicts of interest are accomplished through a defined COI disclosure process. Each person has a general ongoing obligation to promptly and fully report to his/her direct manager, supervisor, medical staff office, board or board committee chair any situation or circumstance that may create a conflict of interest. The person must report the actual or potential conflict as soon as she/he becomes aware of it. In any situation where the person may be in doubt, a full disclosure should be made to permit an impartial and objective determination. In addition to the general ongoing obligation, there are initial disclosure obligations. The board, board committee members, and new employees are required to make disclosures at the time of their initial hiring/appointment. All non-employed, credentialed or contracted physicians are required to make disclosures at the time of their credentialing and during any subsequent reappointment or recredentialing. All researchers are required to make disclosures upon consideration of affiliation with a research sponsor. In addition to the general ongoing and initial disclosure obligations, there is an annual disclosure obligation. All corporate officers, board and board committee members, employees at the level of manager and above, researchers, supply chain employees, employed physicians, physician administrators and leaders, and employed advanced practice clinicians must complete a new conflict of interest disclosure annually. Disclosures of perceived, potential or actual conflicts involving financial interests are forwarded to the Conflicts of Interest Review Committee ("C-CIRC") or Legal Services Group for review depending on the position of the person involved. The C-CIRC reviews COI questionnaires containing disclosures of perceived or possible conflicts for employees at a level of manager or above, supply chain employees, researchers and physicians, physician administrators and leaders, and advanced practice clinicians (both employed and non-employed). In the determination of a conflict, a COI management plan will be developed for that person. With respect to those audiences for which the C-CIRC has review responsibility, the C-CIRC will facilitate development of any such conflict of interest management plan in collaboration with local CRP staff. A designated CHI Entity staff will be responsible for monitoring the COI management plan and for documenting monitoring activities. At its sole discretion, a CHI Entity may reject a Person's request to enter into the relationship in question, or require the relationship be sufficiently altered to avoid a potential COI. If the C-CIRC determines that there is a potential or actual conflict of interest that does not currently have appropriate controls to address the conflict of interest, it may recommend that the disclosing person be allowed to participate in the activity or transactions subject to restrictions as outlined in the COI management plan. If a Person does not agree with a determination made by the C-CIRC, its interpretation of the Policy or Addenda, or seeks an exemption or exception, the following steps should be followed. The Employee disputing the review decision, interpretation of the Policy, or seeking exemption or exception must present the matter to the Employee's immediate direct manager or supervisor for review and determination. If the Employee and the manager do not agree with the review decision, interpretation of the Policy, or seek exemption or exception, the manager shall consult with the manager's Vice President (or higher if the manager is a Vice President) to reach a determination. If the matter remains unresolved, it shall be referred to the CHI Vice President of Human Resources and the CHI Corporate Responsibility Officer. If they are unable to reach agreement, the matter shall be referred to the CHI General Counsel, whose decision shall be final. Reviews and determinations involving board and board committee members and corporate officers will be the responsibility of the board, board executive committee, or board chair, with guidance from the Legal Services Group (LSG). Annual COI disclosures of all trustee and corporate officers will be reviewed by the CHI Senior Vice President, Legal Services, and General Counsel or his or her designee who will report potential conflicts to the applicable Board Chair. The Board Chair</p>

Return Reference	Explanation	
	Form 990, Part VI, Line 12c Conflict of interest policy	<p>ir or designee shall make such further investigation of any conflict of interest disclosures as he or she may deem appropriate. If the conflict involves the Board Chair, the Vice Chair will assume the Chair's role. Based on review and evaluation of the relevant facts and circumstances, the Board Chair will make an initial determination as to whether a conflict of interest exists and whether, pursuant to the COI Policy, review and approval or other action by the Board is required. A written record of the Board Chair's determination, including relevant facts and circumstances, will be made. The Board Chair shall then make an appropriate report to the Executive Committee of the Board concerning such review, evaluation and determination. If a difference of opinion exists between the Board Chair and another Trustee as to whether the facts and circumstances of a given situation constitute a conflict of interest or whether Board review and approval or other action is required within the COI Policy, the matter shall be submitted to the Board's Executive Committee, which shall make a final determination as to the matter presented. Such determination, including relevant facts and circumstances, will be reflected in the Executive Committee minutes and will be reported to the Board. When any conflict of interest is considered by the board, the trustee or corporate officer, as appropriate, must disclose all of the material facts to the Board. The trustee shall not vote and the trustee or corporate officer shall not use his or her personal influence on the matter. The trustee or corporate officer shall be excused from the meeting during discussion and vote on the conflict of interest. In reviewing such transactions between CHI or CHI Entities and vendors or other contractors who are, or are affiliated with, Trustees or Corporate Officers, the Board will act as it would in reviewing transactions with unrelated third parties. The transaction is not to be approved unless the Board determines that the transaction is fair to CHI or the CHI Entity. The Board must approve the transaction by a majority of the Trustees on the Board, without counting the vote of any individual who has an interest in the transaction. All determinations of conflicts of interest are reported as required by law, regulations, and CHI policy.</p>

Form 990, Part VI, Line 15a Process to establish compensation of top management official	<p>The organization's top management official's compensation is paid by Catholic Health Initiatives (CHI), a related organization. CHI has a defined compensation philosophy. Both the executive and non-executive compensation structures and ranges are reviewed annually in comparison to market data. CHI uses The Hay Group as the independent third party to assess executive compensation programs and to ensure the reasonableness of actual salaries and total compensation packages. Compensation of the senior most executives is reviewed annually. The Hay Group reviews both cash and total compensation for overall reasonableness, for adherence to CHI's compensation philosophy, and for comparability to the not-for-profit healthcare market. This independent review is delivered by Hay Group to the HR committee of the CHI Board of Stewardship Trustees annually at their September meeting and minutes are shared with the full board at the December meeting. The last review was September 14, 2015. In addition, Hay Group completed a comprehensive review of all positions at the level of vice president and above in the fall of 2014 to determine and validate appropriate compensation levels. These levels have been reviewed annually since and revised based on market data, where applicable.</p>
