Part IV Supporting Organizations (continued)

Section B. Type I Supporting Organizations

	Yes	No
1 Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised or controlled the supporting organization.		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (1) a written notice describing the type and amount of support provided during the prior tax year, (2) a copy of the Form 990 that was most recently filed as of the date of notification, and (3) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).		
3 By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.

Return Reference	Explanation
Part X, Line 2	Schedule D, Part X, Line 2 requires that the organization provide the text of the footnote to the organization's financial statements that reports the organization's liability for uncertain tax positions under ASC 740. ASC 740 addresses the accounting for uncertainty in income taxes recognized in an entity's financial statements and prescribes a threshold of more-likely-than-not for recognition and derecognition of tax positions taken or expected to be taken in a tax return. The adoption of ASC 740 by BSHSI on September 1, 2007 did not have a material impact on BSHSI's consolidated financial statements. As the organization does not conduct a separate audit of its financial statements, below is the related statement from the Bon Secours Health System, Inc. consolidated audited financial statements. The System and most of its subsidiaries (including certain joint venture entities) are exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended. The system accounts for uncertain tax positions in accordance with ASC Topic 740. The System's taxable subsidiaries have approximately \$84,748 and \$61,513 of net operating loss carryforwards as of August 31, 2015 and 2014, respectively, which expire in varying periods through 2035 and are available to offset future taxable income. The System's deferred tax assets are fully reserved at August 31, 2015 and 2014 as the System considers it more likely than not that these amounts will not be recognized. Any changes to the valuation allowance on the deferred tax asset are reflected in the year of the change.

Part I, Line 7	<p>Part I, line 7a Charity Care at cost is computed by applying a cost-to-charge ratio to the aggregate charity adjustments recorded in the general ledger Part I, line 7b Unreimbursed Medicaid is computed by determining the cost of Medicaid services supplied less payments received for these services To determine the cost of Medicaid services provided, a cost-to-charge ratio is applied to traditional and managed Medicaid gross charges captured in the patient accounting system and general ledger Payments include payments for individual claims, payments from the Medicaid program paid outside the claim process (such as medical education payments) and expected or actual cost report settlements Part I, line 7b(f) Prior to 2006, Medicaid in the state of South Carolina was reimbursed to hospitals on a fixed prospective basis (fixed rates not directly related to costs) For years 2006 - 2012, the State reimbursed Hospitals on a cost basis (actual costs to provide services) This reimbursement resulted in the hospitals receiving payments close to their costs Starting is 2013 the State changed reimbursement methodologies to a fixed rate prospective basis (fixed rates not directly related to costs) For the first year the rates state wide were set to approximate the hospital's cost to provide service For the subsequent years the fixed rate will be adjusted by a state wide inflationary factor and not related to an individual hospitals cost For 2013 the Hospital's unreimbursed Medicaid percentage for St Francis Hospital, Inc is fairly consistent with those of other hospitals in the state Part I, line 7c Unreimbursed costs from other means-tested government programs are computed by applying a cost-to-charge ratio to the total charges to patients covered under these programs The charges are identified by the financial class assigned to the patient For Part I, Line 7 a-c computations The cost-to-charge ratio is derived using the suggested computation in Worksheet 2, Ratio of Patient Care Cost-to-Charges Operating expenses and Gross patient charges are taken from the general ledger Expenses for nonpatient care activities recorded in operating expenses are approximated as directly equaling other operating revenue, assuming these activities do not provide profit Part I, line 7e Community health improvement services and community benefit operations are accumulated throughout the year and reported at actual cost in a software program that specifically addresses this purpose Part I, line 7f Health professions education cost is determined as the direct and indirect cost of qualifying education activities as traditionally reported in columns 21-24 on Worksheet B of the Medicare cost report as a Medical Education program, nursing school or other allied health program</p>

Part II, Community Building Activities	The Bon Secours' Building Healthy Communities Initiative was created in 2008 to lead efforts towards building healthier communities in which each Bon Secours facility serves. Using a multi-level process of community engagement, grassroots advocacy, and strategic partnerships with public or private organizations and individuals, the Bon Secours St. Francis Healthy Community Initiative works to strengthen the assets of the community while identifying needs to ultimately improve the overall health of community residents. The Bon Secours St. Francis Healthy Community Initiative seeks to leverage our health care resources, outreach services and programs, clinical expertise, and relationships to best target the sources of poor health rather than just address the symptoms.

Form and Line Reference	Explanation
Part III, Line 2	Bad debt expense on the general ledger includes 1) actual write offs of discounted gross charges where it is determined an uninsured patient can pay and does not pay, and 2) the estimated write offs for uninsured patient accounts with outstanding balances after discount Estimates are based on historical collection rates When an uninsured patient is billed for patient care services, the charges are automatically discounted and the patient is requested to only pay the amount after discount The discount is recorded as an adjustment to gross revenue and is not recorded in bad debt expense If the balance after discount is not paid or not paid in full, the unpaid amount will be written off to bad debt expense When a patient remits a payment on an account that has already been written off to bad debt expense, the payment is recorded as a recovery of bad debt, which reduces bad debt expense

Form and Line Reference	Explanation
Part III, Line 3	The organization does not report an estimate for the portion of bad debt expense that may have been likely to qualify for financial assistance under the hospital's charity care policy. The organization takes the position that ample opportunity and assistance is provided to the patient to qualify under the financial assistance policy. If sufficient information is not provided, the organization must assume the patient does not qualify.

Form and Line Reference	Explanation
Part III, Line 4	Please see Footnote "(2d) Accounts Receivable, net" discussing "accounts receivable" on pages 11-12 in the attached BSHSI consolidated audited financial statements ("AFS") "Allowance for uncollectible accounts" is discussed in the second paragraph in Footnote "(10) Net Patient Service Revenue" on page 45 of the attached AFS There is not a separate "bad debt expense" footnote in the AFS

Form and Line Reference	Explanation
Part III, Line 8	Medicare allowable costs reflected in Part III come directly from the facility's Medicare cost report. The cost report segregates the total facility actual expenses into costs for support departments, clinical departments (routine and ancillary) and nonreimbursable departments. The cost report uses appropriate statistical bases to "step down" support costs to allowable clinical and nonreimbursable departments. The charges for clinical departments are matched to the total cost for these departments for a cost-to-charge ratio. Medicare-specific allowable costs for in- and outpatient ancillary departments are computed by applying the department-specific cost-to-charge ratio to the Medicare program charges by department. For routine departments, a per diem total cost is computed and applied to Medicare program days for the Medicare routine program cost. The organization feels the total shortfall of Medicare reimbursement compared to computed Medicare allowable costs should be treated as community benefit. The hospital improves access to patient care by providing services regardless of a patient's ability to pay or the hospital's ability to receive full cost reimbursement for services. The hospital also relieves the government of a financial burden when it provides care to publically insured patients where reimbursement is less than cost of providing the service. In addition to the costs reported above, the organization incurred additional costs relating to Medicare support that are not includable in the Medicare Cost Report in the amount of \$2,359,825.

Form and Line Reference	Explanation
Part III, Line 9b	The hospital has a written policy that describes collection practices applying to patients that qualify for charity care or financial assistance. If full assistance is approved, no collection efforts are pursued on that patient's account(s). If partial assistance is provided, the patient is responsible for the adjusted account balance and collection efforts will follow the established practices for all patients where a self-pay balance exists. Collection efforts are not pursued on any pending FAP account. Specific criteria exist for how much financial assistance, partial or total, will be provided to the patient based on the assessed need. Criteria is based on Federal Poverty Guidelines and is reviewed and updated annually. Once a patient has been deemed eligible for the Patient Financial Assistance Program (FAP), the patient is notified by letter within 60 days after receipt of the application and supporting documentation. The patient retains eligibility for a period of twelve months from the date of the application. This eligibility is signaled to hospital admissions, billing and collection staff by the assignment of a specific financial class with accompanying eligibility dates. At the end of those twelve months, the patient is responsible for reapplying for FAP eligibility.

Form and Line Reference	Explanation
Part VI, Line 2	BSSFHS conducted a comprehensive needs assessment over the course of 18 months, and released it in 2013. The CHNA process included a community telephone survey, secondary data analysis, and focus groups. This was completed with input provided by those with public health knowledge. Additional groups were well-captured through this document, including individuals representing the broad interests of the community, persons with special knowledge of the medically underserved, low-income, minority, and chronic disease populations. This CHNA process will be conducted every three years, with the next CHNA to be released in 2016.

Form and Line Reference	Explanation
Part VI, Line 3	<p>Patient financial assistance policy is communicated to patients verbally upon scheduling, registration, visible postings of the policy in common areas throughout the hospital, brochures and on Bon Secours website. In addition, patient statements request that patients apply for financial assistance, if needed, once any patient financial obligation is determined. Bon Secours is committed to ensuring access to health care services for all. As a health care provider, Bon Secours treats all patients, whether insured, underinsured or uninsured, with dignity, respect and compassion throughout admission, delivery of services, discharge and billing and collection processes. Bon Secours addresses the needs of the uninsured by providing free or reduced fees on hospital services, community outreach efforts to assist with enrollment in Medicaid and other medical coverage programs, including free community-based preventive and primary care services. Bon Secours proactively screens to identify individuals and their families who may qualify for federal, state or local health insurance programs or the Bon Secours Patient Financial Assistance Program ("FAP") and assist the potential eligible patients through the qualification process. Potentially eligible patients that do not qualify for a federal or state health insurance program are referred to the Financial Assistance Coordinator located in Patient Financial Services for assistance in completing the documentation required to establish FAP eligibility. Patients are responsible for providing the information necessary to complete the documentation. The FAP aids uninsured and underinsured patients who do not qualify for government-sponsored health insurance and who communicate their inability to pay for their medical care. The FAP provides 100% financial assistance to uninsured patients with annual family incomes at or below 200% of the Federal Poverty Guidelines ("FPG"), A sliding scale assistance policy is afforded patients that exceed the income guidelines for 100% assistance. Sliding scale assistance is provided to patients and progressively declines in proportion to the patient's higher income level. Additionally, all uninsured (i.e. self-pay) patients are given a reduction to the amount of the full charges for medically necessary services through a community service adjustment ("CSA"). The CSA is market adjusted and based on the payment discount received by other health care payers doing business in the community. For these patients, the FAP also sets a maximum annual family payment liability to ensure that no family suffers a catastrophic financial burden to receive necessary health care services. Based on research conducted by the Tax Foundation, a non-partisan tax research group based in Washington DC, the maximum annual family liability is based on a sliding scale determined by the family income and size. In addition, a variety of other potential payment options are available. Bon Secours is dedicated to meeting the needs of non-English speaking patients by having on-site Spanish translators, and other language translation services. In addition, Bon Secours employs a telephone language service which assists in meeting any language needs that arise. The translation services are offered to non-English speaking patients from admission to discharge, including the financial process.</p>

Part VI, Line 5	<p>BSSFHS has an open medical staff with privileges available to all qualified physicians. BS SFHS operates an emergency room at both of its hospitals which provide services 24 hours a day, seven days a week to ensure access to needed emergency care for all persons. In 2015, the health system was driven by the Bon Secours mission to serve the community by the leadership of a governing board that included sixteen members, thirteen of whom are representative of the community. BSSFHS supports several community programs through the Bon Secours mission to be "good help to those in need." As part of this mission, BSSFHS provides dedicated staff and services with the sole purpose of measuring needs, engaging partners, and addressing the needs of the community. Below gives examples of this commitment.</p> <p>Access to Oral Health Care Program The BSSFHS Oral Health Services program provides access to oral health care through an integrated service partnership providing a mutually beneficial relationship between businesses, funding agencies, a dental hygiene training program, and a college of dentistry. The St. Francis Mobile Dental Unit provides the opportunity to reach out to outlying portions of the county and reach populations that face multiple barriers to care, including transportation. The fixed sites at the Greenville Free Medical Clinic and the New Horizon Family Dental Care ensure that a range of comprehensive oral health services are available in the community on a sliding fee scale or at no cost for the underserved. During Fiscal Year 2014-2015, 3,656 children and adults have received education and services through the Oral Health Program.</p> <p>Care for Families and Children Annually, BSSFHS provides each family with a 4-year-old kindergarten student residing in Greenville County a self-care manual/resource for accessing appropriate health care in Greenville. The self-care guides are purchased from the American Institute of Preventive Medicine (Health at Home). It explains common medical issues and provides a decision tree for how to care for the problem at home and how and when to seek appropriate medical care. On average, this health literacy project, "A Healthy You," documents nearly 50% of families able to avoid one or more visits to the doctor in the past 6 months because of the Health at Home book. In addition, over 60% of families specify that Health at Home books helped them decide when to see a doctor, and thought that the Health at Home books saved them money on medical or health care in the past 6 months. Finally, the Center for Developmental Services (CDS) is a local organization that ensures children with special developmental needs and their families are linked with appropriate interventions in a comfortable, convenient and organized manner, parents, siblings, and caregivers are supported throughout their time in the service delivery system. BSSFHS financially supports the Bilingual Support and Hispanic Outreach programs administered by CDS. This program assists thousands of Spanish-speaking families in making certain their children with developmental delays and disabilities receive services in a culturally respectful and understandable way. Additionally, BSSFHS unveiled a new, state-of-the-art bilingual kiosk in the CDS waiting area. This kiosk links Spanish-speaking families to on-line health resources and information that might not otherwise be available in Spanish. On average, 120 health-related sites are visited each month and approximately 1,400 families utilized the kiosk. CDS services. The kiosk also offers Spanish-language take-home health materials and a telephone is made available to link individuals to United Way's 211 system, Greenville County's comprehensive source for community health and human service assistance.</p> <p>Community Outreach Community Wellness (CW) is made up of a team of three nurses and two social workers, who bring their expansive experience to the community. Clients are treated holistically -- mind, body, and spirit. By fostering trusting relationships with community members, the health outreach team helps transform hurt into hope, promotes and defends human dignity, and fosters a healing and caring environment. CW provides the most vulnerable members of the community with opportunities to improve their health and quality of life, focusing on reaching those who are underserved and uninsured. Staff assist individuals and families with navigating the healthcare system and accessing community resources, including health education, personal safety, and basic life skills. Clients are able to establish a patient-primary care provider relationship, improve overall health, reduce unnecessary emergency department admissions, and decrease readmission to the healthcare system. CW assists clients with finding basic needs such as affordable health care, medications, medical supplies, transportation, and food/clothing. Additionally, CW provided individual and group presentations, screenings, and written</p>
