Form and Line Reference	Explanation
Schedule H, Part VI, Line 4 Community information	<p>The Charlotte Hungerford Hospital (CHH) is located in the northwest part of Connecticut (Litchfield County) in the town of Torrington. The service area of the hospital is comprised of thirteen towns with a total population of approximately 95,000 people. In recent years, the area is becoming more racially and ethnically diverse. In the past decade, the number of White residents increased at a slower rate compared to African American, Asian, and Hispanic residents. The local population is also aging, and has a lower percentage of persons under age 18 and a higher percentage of persons age 65 and older than in the state. This is evident in the high percentage of Medicare and Medicaid revenue (approximately 70%) the hospital receives as part of its operations. Of the 13 service area towns served by CHH, the towns of Torrington (11%) and Cornwall (12%) had the highest poverty levels. Both towns were above the state average of 10%. In terms of educational achievement, the overall county average for high school completion of 96% exceeded the state average of 89%. Lower levels of achievement are found in the towns of Torrington and Winchester. Both of these towns also have higher poverty rates and lower median household incomes than other towns served by the hospital. The school districts in these two towns had the highest percentage of students eligible for free or reduced meals with Torrington at 47% and Winchester at 61%. The vast majority of county residents speak English (91%) with 9% having a primary language other than English and 3% speaking English less than "very well". In terms of services provided to communities, Torrington generates 50% of hospital charges with 14% generated from Winsted.</p>
