St. Luke's Wood River Medical Center:

Part V, Section B, Line 5:

A series of interviews with and surveys (questionnaires) of community  
representatives and leaders representing the broad interests of our  
community were conducted in order to assist us in  
defining, prioritizing, and understanding our most important community  
needs. Many leaders that participated in our process were individuals who  
have devoted decades to helping others lead healthier and more independent  
lives. All of the leaders we interviewed have significant knowledge of our  
community. To ensure they came from distinct and varied backgrounds, we  
included multiple representatives from each of these categories:

Category I: Persons with special knowledge of or expertise in

public health

**Part V Facility Information** (continued)

**Section C. Supplemental Information for Part V, Section B.** Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16i, 18d, 19d, 20e, 21c, 21d, 22d, 23, and 24. If applicable, provide separate descriptions for each hospital facility in a facility reporting group, designated by facility reporting group letter and hospital facility line number from Part V, Section A ("A, 1," "A, 4," "B, 2" "B, 3," etc.) and name of hospital facility.

Category II: Federal, Regional, State, or Local health or other

departments or agencies (with current data or other

information relevant to the health needs of the community

served by the hospital)

Category III: Leaders, representatives, or members of medically

underserved, low income, and minority populations, and

populations with chronic disease needs

Each potential need was scored by the community representative on a scale

of 1 to 10. Higher scores represent potential needs the community

representatives believed were important to address with additional

resources. Lower scores usually meant our leaders thought our community

was healthy in that area already or had relatively good programs

addressing the potential need. These scores were incorporated directly

into our health need prioritization process. In addition, we invited the

leaders to suggest programs, legislation, or other measures they believed to

be effective in addressing the needs.

was not in alignment with our mission and strengths, St. Luke's Wood River

tried to identify a community group or organization better able to serve

the need.

Significant community health needs not addressed by St. Luke's Wood River

are as follows:

(1) Tobacco cessation programs

Tobacco cessation is not a strength of St. Luke's Wood River,

and as a critical access hospital we will focus our limited

resources on higher priority needs. St. Luke's will indirectly

support tobacco cessation programs by referring to our community

partners who provide them.

(2) Children and Family Service

St. Luke's Wood River will not develop its own children and family

support services due to resource constraints and because this need

has low alignment with our mission and strengths. However, we will

provide financial sponsorship support to organizations in our

community serving this need because the need is ranked above the

median. St. Luke's will also indirectly support this need through

informational and referral services offered from our St. Luke's

Center for Community Health Office. The organizations St. Luke's

sponsors are described in our Implementation Plan.

Part VI, Line 4:

St. Luke's Wood River Medical Center, Ltd. serves the health care needs  
of people living in the greater Blaine County area.

The criteria used in selecting this area as the primary service area  
was to include the entire population of the county or counties where  
greater than 70% of the inpatients reside. The residents of Blaine  
County comprise about 74% of inpatients served.

Both Idaho and the primary service area are comprised of about 95% white  
population while the nation as a whole is 72% white. The Hispanic  
population in Idaho represents 11% of the overall population and about 20%  
of the defined service area.

Idaho experienced a 21% increase in population from 2000 to 2010 ranking  
it as the fourth fastest growing state in the country. Blaine County has  
followed that trend experiencing a 13% increase in population within that  
timeframe. The service area is expected to grow by over 20% by the year  
2020. St. Luke's Wood River is constantly working to manage the volume and  
scope of its services in order to meet the needs of an increasing  
population.

Over the past ten years the 45 to 64 year old age group was the  
fastest growing segment of the service area. Over the next ten  
years, however, the 65 years or older age group is expected to grow by

**Part VI** Supplemental Information (Continuation)

about 50% making it the fastest growing segment. Currently, about 12%

of the people in the service area are over the age of 65, and by about 2020

about 19% of the population is expected to be over the age of 65.

The official United States poverty rate increased from 13.3% in 2005 to

15.3% in 2010. The service area poverty rate has also increased since

2005. In 2005 it was 7.1% and by 2010 it was about 10.1% but still

well below the national average. The poverty rate in the service area

for children under the age of 18 is 14.6%, which is also up over the

past several years but well below the national average.

Median income in the United States has risen by 8% since 2005. Despite

decreasing by over 10% since 2007, median income in Blaine County is still

significantly higher than the national median income.

Part VI, Line 5:

The organization annually reviews the conflict of interest policy with each

board member and also with new board members. Persons covered under the

policy include officers, directors, senior executives, non-director members of

Board committees and others as identified by a senior executive. At all

levels the board is responsible for assessing, reviewing, and resolving any

conflicts of interest that have been disclosed by a covered person, or a

conflict of interest disclosed by a covered person with respect to a

covered person other than himself/herself. Where a conflict exists, the

affected parties must recuse themselves from participating in any

discussion related to the conflict.

Form 990, Part VI, Section B, Line 15:

Executive compensation is set by St. Luke's boards of directors and is

reviewed annually. Compensation levels are based on an independent analysis

of comparable pay packages offered at similar institutions across the

country, with the goal of placing executives in the 50th percentile of those

surveyed. These surveys are usually done every two years, with the most

recent compensation survey completed during calendar year 2014.

St. Luke's Health System is committed to providing the highest quality

medical care to all people regardless of their ability to pay.

To keep that commitment, St. Luke's puts a great deal of time and effort

into recruiting and retaining the top physicians in a variety of medical

fields. Our relationships with physicians range from having privileges at

the hospital to full employment.

For those physicians who choose to be employed, St. Luke's must offer

competitive pay and benefits.

Physician compensation is based on a range of criteria and can be

influenced by a number of variables including:

-Community need for medical specialty

-Experience

-Productivity

-Geography

-National surveys adjusted for local conditions

-Willingness to serve regardless of patients' ability to pay

-Duration of relationship and contractual terms

-Performance on quality metrics

To ensure physician compensation and benefits remain within industry

standards and legal requirements for not-for-profit institutions, St. Luke's

has a Physician Arrangements policy that specifies circumstances requiring

a third-party valuation and also periodically uses third-party consulting

firms to review St. Luke's physician compensation arrangements.

Given the growing national shortage of physicians, recruiting and retaining

physicians is more critical than ever to guarantee that people seeking care

at St. Luke's will continue to have access to the physicians and

specialists they need regardless of their insurance status or insurance

provider.
