Our Mission

Dreyfus Chemistry Laboratory at MIT

The purpose of the Camille and Henry Dreyfus Foundation, Inc., is to advance the science of chemistry, chemical engineering and related sciences as a means of improving human relations and circumstances throughout the world. Established in 1946 by chemist, inventor and businessman Camille Dreyfus as a memorial to his brother Henry, the Foundation became a memorial to both men when Camille Dreyfus died in 1956. Throughout its history the Foundation has sought to take the lead in identifying and addressing needs and opportunities in the chemical sciences.

Below is a brief video about the Foundation history and mission.

Overview

Camille Dreyfus directed that the Foundation's purpose be "to advance the science of chemistry, chemical engineering and related sciences as a means of improving human relations and circumstances throughout the world." The Foundation has sought to identify and address needs and opportunities in the chemical sciences through a series of programs and awards.

In broad terms, the programs support accomplished young faculty, develop leadership in environmental chemistry, support undergraduate research and emeritus faculty, and fund lectureships at primarily undergraduate institutions.

Camille Dreyfus Teacher-Scholar Awards Program

Deadline: February 10, 2017**Announcement:** early May 2017

The Camille Dreyfus Teacher-Scholar Awards Program supports the research and teaching careers of talented young faculty in the chemical sciences. Based on institutional nominations, the program provides discretionary funding to faculty at an early stage in their careers. Criteria for selection include an independent body of scholarship attained in the early years of their appointment (see below), and a demonstrated commitment to education, signaling the promise of continuing outstanding contributions to both research and teaching. The Camille Dreyfus Teacher-Scholar Awards Program provides an unrestricted research grant of \$75,000.

Eligibility

The Camille Dreyfus Teacher-Scholar Awards Program is open to academic institutions in the States, Districts, and Territories of the United States of America that grant a bachelor's or higher degree in the chemical sciences, including biochemistry, materials chemistry, and chemical engineering. Nominees must hold a full-time tenure-track academic appointment, and are normally expected to have been appointed no earlier than mid-year 2011. Awardees are from Ph.D. granting departments in which scholarly research is a principal activity. Undergraduate education is an important component. Institutions may submit only one Camille Dreyfus nomination annually. Renominations are accepted.

Selection

The Foundation seeks Camille Dreyfus Teacher-Scholars who demonstrate leadership in research and education. Nominations must provide compelling evidence of the advance of important knowledge in the chemical sciences by the nominee. Further, the nomination should describe dedication and contributions to education in the chemical sciences, particularly with respect to undergraduates.

The nominee's scholarly research achievements are assessed by a panel of distinguished faculty in the chemical sciences. The letters of recommendation should address the nominee's research accomplishments as an independent faculty member. Other considered factors are: awards and honors, publication of research achievements in leading journals, and success in attracting research funding.

Budget

The Camille Dreyfus Teacher-Scholar Award provides a \$75,000 unrestricted research grant. Of the total amount, \$7,500 is for departmental expenses associated with research and education. Charges associated with indirect costs or institutional overhead are not allowed. Defrayal of academic-year salary is not permitted. Funds are normally expended over a period of five years. Foundation approval is not required for budgetary changes after an award is made. If the awardee leaves the institution, the transfer of the remaining funds requires prior Foundation approval.

Nomination Procedure

Institutions may make only one nomination annually for the Camille Dreyfus Teacher-Scholar Awards Program. All nomination materials and letters of support must be received at the Foundation office by the

deadline Nominations recommended for approval are presented to the Foundation's Board of Directors in time for award announcements by early May 2017 The nomination consists of

- 1 The online nomination form
- 2 A letter of nomination from an institutional representative highlighting the nominee's achievements, and the basis for selection (limited to three pages)
- 3 A summary description of the nominee's research accomplishments as an independent faculty member, and a description of research plans (limited to six pages, including references)
- 4 A statement intended to convince the reviewers of the nominee's dedication to education in the chemical sciences (limited to two pages)
- 5 A CV (limited to five pages) including a list of publications in which independent contributions and undergraduate coauthors are clearly identified. Research support should be indicated
- 6 A budget (limited to one page) describing how award funds are anticipated to be used

Send all above materials as a PDF to: programs@dreyfus.org.

Letters of support Three letters of support should be sent directly to the Foundation from individuals who know and address the nominee's accomplishments as an independent faculty member No more than one of these letters may be from the candidate's nominating institution Outside letters are generally given a greater weight Letters should be formatted on 8 1/2 x 11-inch letterhead, using 12-point font size, and be no more than three pages The letters of support should not be received with the nomination package, but instead should be sent as a PDF to programs@dreyfus.org

Reports

A final report is due at the end of the fifth year. The report should be concise and contain the following information

- 1 Highlights of research accomplishments during the award period and a description of any noteworthy accomplishments in chemistry education
- 2 Research plans
- 3 Categorical financial report ([click here](#) for categories)
- 4 Use of the \$7,500 for departmental expenses associated with research and education
- 5 An updated CV
- 6 An optional statement of newsworthy stories concerning the Teacher-Scholar during the period of the Camille Dreyfus Teacher-Scholar Award

Send all above materials as a PDF to programs@dreyfus.org.

Additional information

- 1 Publications and presentations describing work supported by the award should acknowledge the Camille Dreyfus Teacher-Scholar Awards Program
- 2 Recipients of the award are designated Camille Dreyfus Teacher-Scholars
- 3 Procedural questions may be directed to the Foundation office by telephone at 212-753-1760 or e-mail at programs@dreyfus.org.

Henry Dreyfus Teacher-Scholar Awards Program

Deadline May 18, 2016**Announcement:** early August 2016

The Henry Dreyfus Teacher-Scholar Awards Program supports the research and teaching careers of talented young faculty in the chemical sciences at undergraduate institutions. Based on institutional nominations, the program provides discretionary funding to faculty at an early stage in their careers. The award is based on accomplishment in scholarly research with undergraduates, as well as a compelling commitment to teaching, and provides an unrestricted research grant of \$60,000.

Eligibility

The Henry Dreyfus Teacher-Scholar Awards Program is open to academic institutions in the States, Districts, and Territories of the United States of America that grant a bachelor's or master's degree in the chemical sciences, including biochemistry, materials chemistry, and chemical engineering. Awardees are typically in departments that do not grant a doctoral degree. Nominees must hold a full-time tenure-track academic appointment, be after the fourth and not after the twelfth years of their independent academic careers, and be engaged in research and teaching primarily with undergraduates. Institutions may submit only one Henry Dreyfus nomination annually. Renominations are accepted.

Selection

The Foundation seeks Henry Dreyfus Teacher-Scholars who, as independent faculty members, have demonstrated leadership in original scholarly research of outstanding quality, substantially with undergraduates, as well as excellence and dedication in undergraduate education.

Recommendations for awards are based on evidence of outstanding educational efforts and the nominee's scholarly research achievements with undergraduates as an independent faculty member, as assessed by a panel of distinguished faculty in the chemical sciences. The three outside letters of support (see below for details) are of particular value to the reviewers. Other considered factors are awards and honors, publication of research achievements in leading journals, and success in attracting research funding.

Budget

The Henry Dreyfus Teacher-Scholar Award provides a \$60,000 unrestricted research grant. Of the total amount, \$5,000 is to be allocated for departmental expenses associated with research and education. Charges associated with indirect costs or institutional overhead are not allowed. Defrayal of academic-year salary is not permitted. Funds are normally expended over a period of five years. Foundation approval is not required for budgetary changes after an award is made. If the awardee leaves the institution, the transfer of the remaining funds requires prior Foundation approval.

Nomination Procedure

Institutions may make only one nomination annually for the Henry Dreyfus Teacher-Scholar Awards Program. All nomination materials and letters of support must be received at the Foundation office by the deadline. The nomination consists of

- 1 The online nomination form
- 2 A letter of nomination (limited to two pages) from an institutional representative (e.g. the department chair or dean) highlighting the nominee's research and teaching accomplishments and the basis for selection. In addition, this letter may contain institutional and departmental descriptive information
- 3 A summary description of the nominee's research accomplishments as an independent faculty member and a description of research plans (limited to six pages, including references)
- 4 A statement that illustrates the nominee's efforts in education in the chemical sciences (limited to two pages)
- 5 A CV (limited to five pages) including a list of publications in which independent contributions and undergraduate coauthors are clearly identified. Research support should be indicated
- 6 A budget (limited to one page) describing how award funds would be used

Send all above materials as a PDF to: programs@dreyfus.org.

Nominations recommended for approval are presented to the Foundation's Board of Directors and announced by early August.

Letters of support: Three letters of support should be sent directly to the Foundation from individuals who know and address the nominee's capabilities and accomplishments as an independent faculty member. No more than one of these letters may be from the candidate's nominating institution. Letters from outside the nominating institution are given the greatest weight. A letter from the candidate's Ph.D. or postdoctoral advisor is appropriate but should discuss the nominee's accomplishments as an independent investigator. Letters should be formatted on 8 1/2 x 11-inch letterhead, using 12-point font size, and be no more than three pages. The letters of support should not be received with the nomination package, but instead should be sent as a PDF to programs@dreyfus.org.

Reports

A final report is due at the end of the fifth year. The report should be concise and contain the following information:

- 1 Highlights of research accomplishments during the award period and a description of any noteworthy accomplishments in chemistry education
2. Research plans
- 3 Use of the \$5,000 for departmental expenses associated with research and education
4. An updated CV
5. Categorical financial report (click [HERE](#) for categories)
- 6 An optional statement of any newsworthy stories concerning the Teacher-Scholar during the period of the Henry Dreyfus Teacher-Scholar Award

Send all above materials as a PDF to: programs@dreyfus.org.

Postdoctoral Program in Environmental Chemistry

Deadline: August 1, 2017**Announcement:** November 2017

The Camille and Henry Dreyfus Foundation seeks to further the development of scientific leadership in the field of environmental chemistry with a postdoctoral fellowship program. The Postdoctoral Program in Environmental Chemistry provides a principal investigator with an award of \$120,000 over two years to appoint a Postdoctoral Fellow in environmental chemistry.

Eligibility

The Postdoctoral Program in Environmental Chemistry is open to all academic and other not-for-profit organizations in the States, Districts, and Territories of the United States of America. Applications are accepted from principal investigators who have well-established research efforts in environmental science or engineering. These research activities need not be located in traditional departments in the chemical sciences, and collaboration across departments and institutions is encouraged. The postdoctoral fellow is usually not already identified nor in the principal investigator's lab at the time of application. Note: award recipients must wait two years from the conclusion of an award before being eligible to reapply.

Research Areas of Interest

Applications most likely to be of interest should describe innovative fundamental research in the chemical sciences or engineering related to the environment. The importance of the research should be explained. Examples include but are not limited to the chemistry associated with the climate, the atmosphere, aquatic or marine settings, toxicology, soil or groundwater. Also of interest are chemistry-related energy research (renewable sources, sequestration, etc.), and new or green approaches to chemical synthesis and processing, both with a clearly stated relation to the environment.

Selection

Applications come from the principal investigator. Recommendations for awards are based on several factors: assessment of the proposed research, the arrangements for the interdisciplinary educational broadening of the Fellow, and an assessment of the ability to both attract the best young Ph.D. candidates and subsequently place them in high level independent starting positions. Applications are reviewed by distinguished scientists in the environmental and chemical sciences.

Budget

The Postdoctoral Program in Environmental Chemistry provides a \$120,000 award, payable in two \$60,000 installments. Funds are normally expended over a period of two years after the appointment of the Fellow. Charges associated with indirect costs or institution overhead are not allowed. Of the total annual award amount, the stipend support of the Fellow is no less than \$48,000 (stipends may be supplemented from institutional or other sources). Fringe benefits of the Fellow taken from this award may not exceed \$12,000 annually.

Application Procedure

All application materials must be received at the Foundation office by the deadline. Applications

recommended for approval are presented to the Foundation's Board of Directors in time for award announcements by early November

Required Information

Application package The application should be formatted on 8 1/2 x 11-inch paper, using 12-point font size. Assemble it as

- 1 The online application form
- 2 A research proposal that would be judged as likely to advance environmental science in important ways (limited to four pages, including references)
- 3 A CV (limited to five pages) for each of the key professional personnel that includes ten or fewer relevant publications
- 4 A one-page description of the educational opportunities and institutional strengths in environmental science, and how the Fellow would be involved in them

Send all above materials as a PDF to: programs@dreyfus.org.

Reports

The first-year award of \$60,000 will be paid after the Foundation has been provided with the Fellow's CV and anticipated start date. The second-year award of \$60,000 will be paid upon request, after completion of the first year. The request should be accompanied or preceded by a financial report and a progress report from the project director that contains highlights of accomplishments under the award and the research plan for the coming year.

Send all above materials as a PDF to: programs@dreyfus.org.

Final reports are due when all funds are expended. The final technical report should detail the anticipated consequence of the research and provide information regarding the future professional plans of the Fellow. An optional statement may be included of newsworthy stories concerning the Mentor, the Fellow, or the consequences of the research funded during the period of the award.

Additional Information

1. Publications and presentations describing work supported by the award should acknowledge the Camille and Henry Dreyfus Postdoctoral Program in Environmental Chemistry.
2. The faculty mentor is designated a Camille and Henry Dreyfus Environmental Chemistry Mentor. The postdoctoral scientist is designated a Camille and Henry Dreyfus Environmental Chemistry Fellow.
3. Questions may be directed to the Foundation office by e-mail at programs@dreyfus.org or by telephone at 212-753-1760.

Senior Scientist Mentor Program

Deadline May 18, 2016**Announcement:** August 2016

The Camille and Henry Dreyfus Foundation supports eminent faculty who maintain active research programs with undergraduates in the chemical sciences. The Senior Scientist Mentor Program provides an award of \$20,000 over two years for undergraduate stipends and modest research support.

Eligibility

The Senior Scientist Mentor Program is open to all academic institutions in the States, Districts, and Territories of the United States of America that grant a bachelor's degree or higher in the chemical sciences, including biochemistry, materials chemistry, and chemical engineering. Faculty with eminent status on or before July 2016, and who maintain active research programs in the chemical sciences, may apply to the program. More than one application per department or institution is permitted.

Selection

Successful applicants are expected to be closely engaged in a mentoring relationship with undergraduate students. The evaluation will be based on both an assessment of the research proposed and the plans for undergraduate participation in the research. An applicant's history of mentoring undergraduates is favorably viewed.

Budget

The Senior Scientist Mentor Program provides a \$20,000 award over two years, intended mostly for undergraduate stipends. Modest research support is

Joseph Sherma
2012 Awardee

also allowed. Funds are normally expended over a period of three years after notification of an award. Charges associated with indirect costs or institutional overhead are not allowed. Faculty salary and any expenses associated with graduate students are not permitted. Foundation approval is required for significant budgetary changes. If the awardee leaves the institution, the transfer of the remaining funds requires prior Foundation approval.

Application Procedure

All application materials and letters of support must be received at the Foundation office by the deadline. Applications recommended for approval are presented to the Foundation's Board of Directors in time for award announcements by early November.

Required Information:

Application package The original application should be formatted on 8 1/2 x 11-inch paper, using 12-point font size, and assembled as

James Dye
2012 Awardee

- 1 The online application form
- 2 In four or fewer pages total, applicants should describe
 - a the specific projects or project types in which the undergraduates will participate
 - b ongoing research with undergraduates
 - c how they will interact with and mentor the undergraduates
- 3 A CV (limited to five pages) that includes a list of up to 15 relevant publications in which contributions by undergraduate coauthors are clearly identified
- 4 A letter from an institutional representative highlighting the applicant's achievements with undergraduates and confirming that the institutional facilities required for the proposed research are available

Please generate all above materials as a single PDF document and e-mail it to:
programs@dreyfus.org.

Letter of support A letter of support must be sent directly to the Foundation from a colleague, preferably from outside the institution, who is familiar with the applicant's research, teaching, and experience in mentoring and advising undergraduates. Letters should be formatted on 8 1/2 x 11-inch letterhead, using 12-point font size, and be no more than three pages. The letter should not be received with the nomination package.

Please have the letter of support generated as a single PDF document and e-mail it to:
programs@dreyfus.org.

Reports

The second payment of \$10,000 will be sent upon request, after completion of the first year. The request should be accompanied or preceded by a financial report and a concise progress report from the award recipient.

A final report is due at the end of the second year. The final report should be concise, formatted on 8 1/2 x 11-inch paper, using 12-point font size, and contain the following sections:

1. Highlights of research accomplishments during the award period
2. Future plans for the undergraduate researcher(s)
3. Categorical financial report ([click here](#) for categories)
4. An optional statement of newsworthy stories concerning the student(s) and/or the Mentor during the period of the Camille and Henry Dreyfus Senior Scientist Mentor Award

Please generate the report as a single PDF document and e-mail it to:
programs@dreyfus.org.

Additional Information

- 1 Publications and presentations describing work supported by the award should acknowledge the Camille and Henry Dreyfus Senior Scientist Mentor Program
- 2 The award recipient is designated a Camille and Henry Dreyfus Senior Scientist Mentor
3. Procedural questions may be directed to the Foundation office by telephone at 212-753-1760 or e-mail at **programs@dreyfus.org**

Jean Dreyfus Boissevain Lectureship for Undergraduate Institutions

Deadline May 18, 2016**Announcement:** August 2016

The Jean Dreyfus Boissevain Lectureship awards provide an \$18,500 grant to bring a leading researcher to a primarily undergraduate institution to give at least two lectures in the chemical sciences. One of the lectures should be accessible to a wide audience. The remaining lecture(s) may be more technical. The lecturer is expected to spend more than one day at the institution to substantively interact with undergraduate students and a broad range of faculty over the period of the visit.

A portion of the award is to support two undergraduates in summer research. The undergraduates engaged in summer research are expected to work with mentors in contemporary chemistry.

Eligibility

Applications are accepted from departments in the chemical sciences at primarily undergraduate institutions in the States, Districts, and Territories of the United States of America. Eligible departments grant a BS or MS degree in chemistry, but not a Ph.D. Institutions are restricted to only one application annually for this program. Institutions that receive an award are not eligible to re-apply for five years. Applications not funded in the year of submission will remain in contention for two additional years, though updated applications may be submitted during this period.

Selection

The application is evaluated based upon the following:

- 1 One or two examples of the proposed invited lecturer and a schedule for the visit, which is expected to be a minimum of two days. The potential lecturer(s) may be contacted in advance of the proposal submission to gauge interest and to allow for planning a better integration of the visit with departmental initiatives.
- 2 A description of the department's efforts in scholarly research and education in the contemporary chemical sciences. Cited examples of the latter should include, but are not limited to:
 - descriptions of the faculty research programs
 - external research support
 - undergraduate participation in research
- 3 In addition, the following may also be included:
 - the historical number of chemistry majors, and the number of those that go on to graduate school in the chemical sciences
 - special educational or outreach efforts

Nominations are reviewed by distinguished faculty in the chemical sciences.

Budget

The award total is \$18,500. Of this amount, \$2,500 is an honorarium for the lecturer, and \$5,000 is to be

allocated to the support of the lectures (for example travel, accommodation, receptions and/or dinners, etc.) The remaining \$11,000 is to support the summer research of two undergraduate students. Each stipend is to be no less than \$4,500. The balance may be used to defray costs associated with the research and/or the scientific advancement of each student—e.g., travel to scientific meetings. Charges associated with indirect costs or institutional overhead are not allowed.

Application Procedure

All materials must be received at the Foundation office by the deadline. The application is limited to nine pages, including the online application form. It should be formatted on 8 1/2 x 11-inch paper, using a 12-point font. Assemble it as

- 1 The online application form
- 2 A brief introduction to the department
- 3 A listing of the department faculty with their educational backgrounds and year of appointment in the department cited, a brief description of their research programs, a list of three representative research publications for each, with undergraduate coauthors indicated, and a list of current and recent external support for each, with award years and amounts indicated
- 4 A description of undergraduate involvement in research
- 5 Examples of the proposed lecturers (again a maximum of two, who may be contacted in advance) and topics
- 6 Proposed schedule of the lectures and activities that demonstrate broad engagement of the lecturer with students and faculty
- 7 A description of how the lecturer's visit will integrate into ongoing departmental interests
- 8 A description of the process to select the undergraduate research students
- 9 A simple budget describing how award funds are anticipated to be used

Send all above materials as a PDF to: programs@dreyfus.org.

Applications recommended for approval are presented to the Foundation's Board of Directors and announced by early August.

Reports

Reports are due after the lectureship and upon completion of the undergraduate research. Reports should be concise and contain the following information

Lectureship report

- 1 A summary description of the lectureship, including titles, photographs and/or video footage, promotional materials, invited audience, and approximate attendance
- 2 A description of the lecturer's engagement activities
- 3 Categorical financial report

Undergraduate Research report

- 1 Description of the research activities, curricula vitae of the mentors, and the students' future plans
2. Categorical financial report

Send each report as a PDF to: programs@dreyfus.org.

Additional information

- 1 Publications and presentations describing research supported by the award should acknowledge the Jean Dreyfus Boissevain Lectureship for Undergraduate Institutions
- 2 Procedural questions may be directed to the Foundation office by e-mail at programs@dreyfus.org or by telephone at 212-753-1760

Jean Dreyfus Boissevain

Jean Dreyfus Boissevain was President of the Camille and Henry Dreyfus Foundation from 1956 until her death in 1991. Born in Chicago, in 1931 she married Camille Dreyfus, founder and chairman of the Celanese Corporation of America and of the Camille and Henry Dreyfus Foundation. Her second husband, Ernest W. Boissevain, died in 1984.

An operatic soprano and patron of the arts, as Jean Tennyson she sang with several leading European and American opera companies, including La Scala in Milan, the Chicago Civic Opera, and the San Francisco Opera Company. She also sang on the CBS Radio program "Great Moments in Music" from 1942 to 1946.

After World War II, Mrs. Boissevain founded the Artists Veterans Hospital Programs of the Musicians Emergency Fund, which presented concerts for patients in veterans hospitals. She also served as a patron of the Philharmonic Society of New York and as vice chair of New York City's Lewisohn Stadium Concerts. She was a trustee of the New York City Opera and a principal supporter of the Spoleto Festival.

Mrs. Boissevain received several awards, including the Stella della Solidaneta from the Italian government, the St. Olaf Medal from the King of Norway, and an honorary Doctor of Humane Letters from the University of Vermont.

ACS Award for Encouraging Women into Careers in the Chemical Sciences

The Camille and Henry Dreyfus Foundation established the Award for Encouraging Women into Careers in the Chemical Sciences in 1993 to recognize significant accomplishments by individuals who have stimulated or fostered the interest of women in chemistry, promoting their professional development as chemists or chemical engineers. The award consists of \$5,000 and a certificate. A grant of \$10,000 is also made to an eligible non-profit institution, designated by the recipient, to strengthen its activities in meeting the objectives of the award. Nominees for the award may come from any professional setting: academia, industry, government, or other independent facility.

The American Chemical Society's Web site provides additional information on this program, nomination guidelines, and awardees.

ACS Award for Encouraging Disadvantaged Students into Careers in the Chemical Sciences

The Camille and Henry Dreyfus Foundation established the Award for Encouraging Disadvantaged Students into Careers in the Chemical Sciences in 1993 to recognize significant accomplishments by individuals in stimulating students, underrepresented in the profession, to elect careers in the chemical sciences and engineering. The award consists of \$5,000 and a certificate. A grant of \$10,000 is also made to an eligible non-profit institution, designated by the recipient, to strengthen its activities in meeting the objectives of the award. Nominees for the award may come from any professional setting: academia, industry, government, or other independent facility.
