Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-349, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered" under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Reporting requirements generally will be phased in over a three-year period, as follows:

- Stock in a corporation acquired on or after January 1, 2011
- Mutual funds and dividend reinvestment plan (DRP) shares acquired on or after January 1, 2012
- Options and any Debt Instruments that provide a simple fixed payment schedule for which a yield to maturity can be easily determined acquired on or after January 1, 2014

3 The cost basis of this security has been provided to us by you or your introducing firm and Pershing makes no representation as to the accuracy of this information.

4 You have selected a disposition method for this security that differs from the default disposition method indicated in the Your Account Information Section. If you choose to sell or transfer a portion of these shares, the disposition method noted here will be used.

* Noncovered under the cost basis rules as defined below.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered" under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B.

* Noncovered under the cost basis rules as defined below

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered" under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Reporting requirements generally will be phased in over a three-year period, as follows:

- Stock in a corporation acquired on or after January 1, 2011
- Mutual funds and dividend reinvestment plan (DRP) shares acquired on or after January 1, 2012
- Options and any Debt Instruments that provide a simple fixed payment schedule for which a yield to maturity can be easily determined acquired on or after January 1, 2014

* You have selected a disposition method for this security that differs from the default disposition method indicated in the Your Account Information Section. If you choose to sell or transfer a portion of these shares, the disposition method noted here will be used.

Portfolio Holdings Disclosures**Pricing**

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered" under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Reporting requirements generally will be phased in over a three-year period, as follows:

- Stock in a corporation acquired on or after January 1, 2011
- Mutual funds and dividend reinvestment plan (DRP) shares acquired on or after January 1, 2012
- Options and any Debt Instruments that provide a simple fixed payment schedule for which a yield to maturity can be easily determined acquired on or after January 1, 2014

Portfolio Holdings Disclosures

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable, however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

* Noncovered under the cost basis rules as defined below.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Reporting requirements generally will be phased in over a three-year period, as follows:

- Stock in a corporation acquired on or after January 1, 2011
- Mutual funds and dividend reinvestment plan (DRP) shares acquired on or after January 1, 2012
- Options and any Debt Instruments that provide a simple fixed payment schedule for which a yield to maturity can be easily determined acquired on or after January 1, 2014

Cost Basis on fixed income securities may be adjusted for amortization, accretion, original issue discount adjustments, or principal paydowns. The calculation is based upon the taxpayer election, type of fixed income security, and certain attributes, obtained from sources believed to be reliable. In the event, one or more of these attributes is changed, there may be a temporary incorrect adjusted cost basis reflected until the cost basis system is amended to reflect this change. These calculations will not be performed under certain circumstances, including those involving foreign bonds, bonds sold short or bonds issued with less than one year to maturity. This information is meant as a general guide and you should consult your tax advisor in the preparation of your tax returns.

Portfolio Holdings Disclosures

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable, however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to
