Under generally accepted accounting principles, a tax position is recognized as a benefit only

if it is "more likely than not" that the tax position would be sustained in a tax examination,

with a tax examination being presumed to occur. The amount recognized is the largest amount of tax

benefit that is greater than 50% likely of being realized on examination.

For tax positions not meeting the "more likely than not" test, no tax benefit is recorded. The Organization

had no material uncertain tax positions that qualify for either recognition or disclosure in the financial

statements as of December 31, 2015. As of December 31, 2015, the Organization has accrued no interest and no

penalties related to uncertain tax positions. It is the Organization's policy to recognize interest

and/or penalties related to income tax matters in the income tax expense.
