The Clifton Foundation Federal Footnotes Form 990-PF

Part IX-A, Summary of Direct Charitable Activities

Don Clifton Strengths Institute. The Foundation began collaborating with the University of Nebraska College of Business Administration (CBA) in 2015 to establish the world's largest Strengths Institute. The Foundation is partnering with CBA in the development of the Don Clifton Strengths Institute (Institute) to prepare students to become high-achieving leaders able to make an impact on organizations and the world. The Foundation provided a \$1,125,000 grant in 2015 to support CBA in efforts to initially fund the Institute, select the leadership staff and begin the research design for the program. Students from all colleges within the University of Nebraska will be able to learn strength-based sciences as part of their leadership development. The Institute will develop entrepreneurs and others who will create economic energy to promote free enterprise, jobs and development of humans in the workplace.

Clifton Fellows for K12: The Fellows were selected in the fall of 2015 and announced at an event sponsored by the Foundation. The 13 Fellows are school leaders in Howard County, Maryland, devoting the fall of 2015 through spring of 2016 academic year to implement strengths-based practices in every school in the Howard County school district.

The Strengths Lab: Seven George Washington University students were selected by the Foundation to participate in an intensive summer education and work experience during the summer of 2015. The participants designed an entrepreneurial program business plan for high school youth, for which the university students received stipends totaling \$9,750. The Foundation staff started work in the fall of 2015 to implement the program during 2016

Expenses to manage these activities include travel and meetings of \$7,163 and program administration costs of \$184,120.

The Foundation also supports programs designed to expand the knowledge of academicians/students about strengths-based psychology. Expenses often include continued online course development and maintenance to increase online activity and interaction between teachers and students.

The Foundation employed Shane J. Lopez, Ph.D. in 2015. Dr. Lopez researched the links between hope, strengths development, academic success, and overall wellbeing and collaborated with scholars around the world on these issues. He specialized in hope and strengths enhancement for students from preschool through college graduation, advocating a whole-school strengths model that also builds the strengths expertise of educators, parents, and youth development organizations.

Dr. Lopez published research papers and designed public academe project plans for strengths application. He presented his work to nonprofit and community audiences across the country.

The Clifton Foundation (Foundation) awards the Clifton Strengths Prize (Prize) periodically. The purpose of the Prize is to recognize the life's work of Donald O. Clifton, Ph D and his enduring influence on the

field of psychology. The intent of the Prize is to promote further groundbreaking theory, research and practice in the area of strengths-based psychology. Recipients of the Prize must exemplify one or more of the following:

- 1. Taking the field of strengths psychology to new areas of inquiry,
- 2. Establishing a distinguished record of accomplishment in top scientific outlets;
- 3 Developing a stream of research that inspires new work by other scientists in the field; and/or
- 4. Leading an organization which supports the core attributes of strengths-based psychology and leadership.

No funds were distributed in 2015 for the Prize.
