Mental illnesses are more common in the United States than most people think and happen to people regardless of economic status, gender, age, race, or background. One in 17 Americans has a serious mental illness, according to the National Institute of Mental Health, which also identifies these illnesses as the leading cause of disability in the United States. This means that in Minnesota's 11-county Twin Cities metro area alone, there are more than 200,000 people living with mental illnesses. Guild Incorporated exists to help individuals, 16 years and older, living with these illnesses, counter the devastating effects of poor physical health, chronic homelessness, high unemployment, extreme poverty and other health and social complexities that are often experienced, seeing strengths, creating options, and restoring health, all toward the goal of helping people lead quality lives. Guild celebrated 25 years of service to the community on April 18, 2015. Services are successful when those served live in safe, affordable housing and homelessness is prevented, maintain their optimal physical and mental health, find suitable employment or pursue education, have recreation and socializing opportunities, and, report a sense of satisfaction with their quality of life. Because mental illness can affect every area of a person's life, Guild focuses on an integrated model of care, treating the whole person, not just the mental illness. This whole health approach helps prevent hospitalizations and enhances the quality of life so individuals can live successfully in the community. Services are mobile, provided in the community when and where needed.

Return Reference	Explanation
Form 990, Part III, Line 4d	Community Treatment Services Integrated & Intensive Case Management, and Care Coordination services help individuals who have psychiatric illnesses of a serious nature gain access to medical, social, education, vocational, financial, and other necessary services related to individuals' mental and physical health needs. Stability in housing, optimal health, and connections to one's community are the desired results of these services. Assertive Community Treatment (ACT), an intensive outpatient service, helps individuals living in the community who experience severe, hard to manage symptoms of mental illness. The goal of ACT is to decrease or prevent recurring acute episodes of illness. This evidence-based, "hospital without walls" model uses a multi-disciplinary team model to provide mobile services, delivered where needed, most often in individuals' homes. Two teams served 180 adults in 2015. A specialty ACT Team, launched in February 2014, serves transition-age youth, ages 16-20, with diagnosed serious mental illness and substance use disorders. Early intervention with community-based treatment is designed to prevent mental health conditions from becoming disabling. Eighty-four percent of those served in 2015 maintained or improved their functional status over time, 89 percent maintained or reduced their risk of harm. Seventy-five percent maintained or completed their chosen education program. In 2015, 1004 individuals received Community Treatment Services. Seventy-four percent of individuals served maintained stable housing (as measured by the Housing Movement Table administered during the last six months of 2015, the goal is 70%). Collaborations with two health plans enhance the organization's ability to coordinate and assure care for both medical conditions such as hypertension and diabetes and mental health conditions, and help ensure that individuals served get the treatment they need for their medical conditions. This is especially important as the life-span for people who have serious mental illness is shortened by twenty-five years, largely due to treatable medical conditions. A record number of people (outside the usual referral sources) called Guild directly for help in 2015. In 2015, mental health professionals responded to 699 calls within one business day, a nine percent increase over 2014. Through this "Community Access", callers receive help to address immediate needs, identify appropriate options, and help to secure ongoing services.

Form 990, Part III, Line 4b	Residential Crisis Services (Maureen G. Heaney Guest House) help individuals in psychiatric or other crises stabilize in the community without becoming homeless, and, whenever possible, without high-cost hospitalization. Intensive Residential Treatment Services (Guild South) assist individuals to develop and enhance psychiatric stability, personal and emotional adjustment, self-sufficiency, and skills needed to live in a more independent setting. Permanent, supportive housing provides 24/7 on-site services for residents who need a higher level of care to assure stability in housing and optimal health (Rick's House). In 2015, 135 individuals accounted for 154 admissions to the 4-bed Residential Crisis Services. The average length of stay was seven days. Ninety-two percent (141/154) of admissions resulted in the individuals stabilizing their situations without hospitalization for psychiatric care. Sixty-two individuals were served in the nine-bed Intensive Residential Treatment Services program, with an average length of stay of 58 days. Seven individuals were served by Rick's House in 2015. Three individuals moved to other living settings during the year.

Form 990, Part III, Line 4c	Guild's Delancey Street services engage people who have histories of long-term homelessness compounded by problems of mental illness, substance use, and chronic medical conditions. Delancey Street takes a "housing first" approach, assisting participants to establish and maintain housing, improve their health, and, increase their quality of life through meeting desired goals. Initially begun in 2003 as a pilot project to demonstrate the potential to end homelessness for the "most marginalized single adults", Guild's Delancey Street continues as a provider for the Metro Long-term Homeless Supportive Services Project in the seven-county metropolitan area in Minnesota. In 2015, 49 individuals were served in this "housing first", continuous-care model, over 100 percent of capacity. Eighty-one percent of those served for one year or more kept continuous housing in 2015. Delancey Apartments opened in 2009, resulting from collaboration between Guild Incorporated and Project for Pride in Living. It provides 13 units of permanent, supportive housing for people experiencing chronic homelessness who have had difficulty maintaining their housing, and features easy access to things like nursing and employment support. Nineteen individuals benefitted from this housing in 2015. Guild is demonstrating, in partnership with Regions Hospital, Hearth Connection, and the Division of Healthcare Research and Quality within the state Department of Human Services, reduction in avoidable high-cost health services while increasing stability in health and housing for low-resource homeless individuals with complex healthcare needs who turn to hospital emergency departments for ongoing health concerns. This Hospital to Home project served 23 individuals in 2015. The most recent client outcome report was published by Wilder Research in February 2015, incorporating outcome data through April 2014. Emergency department use consistently decreased over time (68% after enrollment). Clinic use has decreased and rebounded overall, while varying for individual participants based on their health needs. Participants accessed medications more consistently after enrollment, including stabilizing the number of pharmacy claims overall and accessing more of the same medications repeatedly. Despite long histories of homelessness, all participants moved into stable housing within four months of enrollment in the initiative. Guild partners with Dakota County Community Services in a supportive housing initiative to help people living in shelters who have barriers to housing (including co-occurring disorders, medical issues, low income, and/or history of criminal charges) "find, get, and keep" their own housing. Sixty-one formerly homeless individuals are now housed and have access to on-going housing supports to aid in maintaining stable housing. Additionally, in collaboration with Heath Connection and Medica, Guild served 24 Medica members with the "housing first and permanent supportive housing model. Medica recognizes the inextricable relationship between health and one's living arrangement, and partnered with Hearth Connection to access specialized providers meet the need for supportive services for Medica members who are homeless.
