In the tradition of its founding sisters, SSMH strives to fulfill its mission by providing exceptional health care to everyone who comes to its hospitals, regardless of their ability to pay.</p> <p>Cardinal Glennon Children's Foundation (the Foundation) exists to support the healthcare and community services of Cardinal Glennon Children's Medical Center (Glennon). Glennon is a not-for-profit, 190-bed inpatient and outpatient pediatric medical center in St. Louis, Missouri, specializing in neonatology, cardiology, pediatric and fetal surgery, and cancer services. The Foundation raises funds to support Glennon's medical and community-benefit services, as well as to enable all youngsters to access those services through the Foundation's Children's Fund for families with limited or inability to pay for their children's services. The Foundation also raises funds for Glennon's technological advances. Further, the Foundation increases awareness of Glennon's services through publicity, hosting of special events and one-on-one interactions with community stakeholders. Therefore, through its multiple activities, the Foundation impacts the health of children who receive Glennon services.</p> <p>Some of the programs and enhancements supported by the Foundation in 2015 included:</p> <ul style="list-style-type: none">The Footprints Program: Footprints is a palliative-care program that helps families live well along a journey that may end at the graveside of a beloved child. Footprints' multidisciplinary team is comprised of a director who is an MD, a clinical care coordinator who is both a nurse and a chaplain, and a social worker; however, the team regularly calls upon other Glennon resources to assist these families. Primarily, Footprints focuses on:<ul style="list-style-type: none">Comfort - Developing family-directed, compassionate care plans that provide for children's comfort while respecting family values and beliefs; these plans can be followed at Glennon or at home.Advocacy - Being a voice for children and families while they are at Glennon and in the larger medical community.Support - Listening to family concerns and wishes, facilitating communication to ensure family goals, concerns and wishes are honored, assisting families with the extraordinary costs of caring for children's medical needs, assisting with burial costs of children who succumb to their illnesses. <p>During hospitalization, the Footprints team makes certain that each child's clinical bedside team is fully aware of the family's wishes and that the bedside team keeps each family informed of the child's condition, prognosis and care options. If a child is discharged, the Footprints team works with community care providers to ensure they are fully informed of the child's needs and will respect family wishes. The Audiology Department: Almost three in every 1,000 children are born deaf each year. These children face a lifetime of challenges, such as failure to develop language skills, reduced access to mainstream education, and difficulty in finding employment as adults. While traditional hearing aids amplify sound, cochlear implants provide an advantage for children with profound deafness because they actually compensate for damaged or non-working parts of the ear by finding useful sounds and sending them to the brain. Very young children are ideal candidates for the device because their central nervous systems are extremely adaptive, allowing their brains to make use of the sounds the implant provides. When implanted early and coupled with post-implantation speech and language therapy, children who are deaf have the ability to develop age-appropriate speech, language and social skills. One of the main barriers to children receiving cochlear implants is the cost. Therefore, the Foundation raises funds to provide cochlear implants, as well as other technology, services and surgeries that enable children with hearing loss to enjoy the sounds and successes of life.</p> <ul style="list-style-type: none">The Safe Kids Program: Safe Kids educates the public on prevention of childhood injuries in the home and on the road. The program primarily focuses on car-seat safety, bike safety, crib safety and cooking safety. Program staff members coordinate times and places where they check for proper car seat installations and provide car-seat adjustments or installations. Families who cannot afford car seats can receive one, free of charge. The program also provides bike-safety events and free bike helmets for families that are unable to purchase them, as well as home-safety events. Further, program staff members train car-seat technicians. <p>The Knights of Columbus Developmental Center: The Knights of Columbus Developmental Center serves children with suspected autism spectrum disorders and developmental delays. Last year, 1,937 children were served. The Center accepts children based on concerns of parents, pediatricians or other primary healthcare providers. Developmental specialists then conduct the necessary assessments to accurately diagnose or to rule out those concerns. When children are determined to be affected, the Center makes the best possible referrals to a select group of service providers. It continues to oversee and facilitate children's progress through medication management, periodic reassessments, and reevaluations of services needed. The center underwent a major expansion in 2013, as more than \$14 million of donations from various community groups and philanthropist helped create a new 11,000 square foot treatment facility on the medical campus. Contributors included the Knights of Columbus, Children's Miracle Network, Guth Foundation and the Glennon Guild.</p> <p>Child Life Services: Thanks to the generosity of donors, we are able to provide fun and engaging Child Life Services. The mission of the Child Life Department at SSM Cardinal Glennon is to advocate for the psychosocial, developmental, emotional and educational needs of all our patients and families. We strive to create a supportive environment, while helping empower patients and their families to make decisions affecting their care.</p>
