Washington Trust Bank relies on industry pricing services to provide the market value of assets traded on security exchanges, such as stocks, bonds and mutual funds. Such information is deemed reliable based on the closing bid price for the last business day, but it is not guaranteed and should not be interpreted as the price at which an entire position could be sold. Assets that are not traded on securities exchanges are valued infrequently and the market values reflected on this statement are not reliable as a price at which these assets may be bought or sold.

Note: the term bid price is used by the investment industry to indicate the price where a security could be sold.
