Form and Line Reference	Explanation
Part III Line 2	Bad Debt Expense at cost was calculated by multiplying bad debt expense of 7,570,836 by our cost-to-charge ratio of 40.68 derived from Worksheet 2 in the IRS Schedule H instructions for a total of 3,079,816

Form and Line Reference	Explanation
Part III Line 3	Estimated bad debt attributable to patients eligible for charity care was calculated by running a report within our patient revenue software of all bad debt account balances greater than 25,000. The total of that report was 26,988, which was then multiplied by the cost-to-charge ratio of 40.68 for a total of 10,979.

Form and Line Reference	Explanation
Part III Line 3	We feel that, at a minimum, the estimated bad debt attributable to patients eligible for charity care of 10,979 should be considered community benefit due to the fact that a patient with an outstanding balance of 25,000 or greater usually qualifies as catastrophic if the patient completes the application process. In our Charity Care policy, we define catastrophic care as any illness or injury that will likely require continuous or frequent treatment for more than one year. We provide care to individuals in need without regard to ability to pay.

Form and Line Reference	Explanation
Part III Line 4	City Hospitals footnote for Accounts Receivable - patients states accounts receivable are reported at net realizable value. Accounts are written off when they are determined to be uncollectible based upon managements assessment of individual accounts. The allowance for doubtful accounts is estimated based upon a periodic review of the accounts receivable aging, payor classifications, and application of historical write-off percentages. City Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements, primarily with Medicare, Medicaid, and various commercial insurance companies. CHI maintains allowances for potential credit losses and such losses have historically been within managements expectations.

Form and Line Reference	Explanation
Part III Line 8	Part III Line 6 was calculated using total cost from the Medicare Cost Report less Medicare reimbursement of direct GME. City Hospitals shortfall of 15,920,287 on Medicare program should be considered a community benefit because we are relieving a government burden by providing care in excess of our cost to these patients.

Form and Line Reference	Explanation
Part III Line 9b	CHI does have a debt collection policy. The policy does not yet address collection practices to be followed for patients who are known to qualify for charity care or financial assistance.

Form and Line Reference	Explanation
Part VI Line 2	City Hospital Inc is a part of WVU Hospitals - East, a healthcare system serving the Eastern Panhandle of WV The WVUH-East Marketing Department considers several components in assessing how the organization determines the need of the communities it serves Through outside consultants to collaborating with various departments, a needs assessment takes into account several factors including physicians to population ratios, physician availability in the entire service area, and general health risks for our community The Primary Service Area PSA for WVUH- East includes Berkeley County, WV and Jefferson County, WV with Morgan County, WV being a secondary service area This data is then analyzed to provide general estimates to where WVUH-East entities could better care for residents of West Virginia Eastern Panhandle

Form and Line Reference	Explanation

Physician distribution and population data come from the American Medical Association and the U.S. Census Bureau and the general health risk for our community come from clinical diagnosis information gathered by the West Virginia Health Care Authority and Thomson Reuters Market Planner Plus. We also conduct market research to ask consumers how they perceive the health system and where they go for health care services. Once all the data is gathered to determine where residents of West Virginia are going for care and what types of services they are receiving, a needs assessment can then begin based on physician distribution and population estimates. Note that WVUH-East is working with other local organizations in a project known as MAPP (Mobilizing for Action through Planning and Partnerships) to create and implement a community health improvement plan.
