Return Reference	Explanation
Part X, Line 2	NOTE Houston Hospitals, Inc. is part of the Houston Healthcare System, Inc. The following is a footnote from the combined financial statements: The System applies accounting policies that prescribe when to recognize and how to measure the combined financial statement effects of income tax positions taken or expected to be taken on its income tax returns. These rules require management to evaluate the likelihood that, upon examination by the relevant taxing jurisdictions, those income tax positions would be sustained. Based on that evaluation, the System only recognizes the maximum benefit of each income tax position that is more than 50% likely of being sustained. To the extent that all or a portion of the benefits of an income tax position are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of this position. Should any such penalties and interest be incurred, they would be recognized as operating expenses. Based on the results of management's evaluation, no liability is recognized in the accompanying combined Balance Sheet for unrecognized income tax positions. Further, no interest or penalties have been accrued or charged to expense as of December 31, 2015 and 2014 or for the years then ended. The System's tax returns are subject to possible examination by the taxing authorities. For federal income tax purposes, the tax returns essentially remain open for possible examination for a period of three years after the respective filing deadline of those returns.

Part III, Line 2	The bad debt expense amount ties to the audited financial statements. Bad debt is treated as a deduction from revenue and includes an allowance for doubtful accounts. Bad debt is not included in total expenses for book or tax purposes. The allowance for bad debts is calculated on outstanding accounts receivable (net of payments and discounts) and considers historical collection rates, the insured status of the patient account, and the age of the receivable.

Form and Line Reference	Explanation
Part III, Line 3	Houston Hospitals began using Presumptive Eligibility to identify patients eligible for free care, therefore, we estimated \$0 00 of the bad debt expense is attributable to patients eligible under the financial assistance policy

Form and Line Reference	Explanation
Part III, Line 4	<p>Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the System analyzes a variety of information for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the System provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectibles, deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payers who are known to be having financial difficulties that make the realization of amounts due unlikely). There were no significant changes to the underlying assumptions in the allowance methodology for third-party payers. For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the System records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected, after all reasonable collection efforts have been exhausted, is charged off against the allowance for doubtful accounts. The System's provision for bad debts decreased \$20,625,000 from \$46,646,000 in 2014 to \$26,021,000 in 2015. This decrease was the result of the System's adoption of Presumptive Eligibility to identify patients eligible for free care.</p>

Form and Line Reference	Explanation
Part III, Line 8	Section B, lines 5-7 are calculated using Worksheet A, provided in the Schedule H Instructions, and the 2015 as-filed Medicare Cost Reports 100% of the Hospital's Medicare shortfall should be treated as community benefits since the organization provides healthcare access for Medicare patients and accepts payment below cost benefiting our community largely made up of Medicare beneficiaries 18 1% of our Medicare patient visits are indigent based on Medicaid eligibility and an additional 3 0% qualify for Charity Care The Centers for Medicare and Medicaid Services recognizes the hardship of our Medicare population by paying us Medicare Disproportionate Share payments

Form and Line Reference	Explanation
Part III, Line 9b	The Bad Debt Collection Practices policy for Houston Hospitals states that collections are ceased upon the patient's approval for Indigent or Charity Care. The Patient Liability Billing and Collection Policy provided the guideline for the collection of Patient liability. Collection effort should only be conducted for the Patient Liability. The policy defines the Patient Liability as the amount owed by the patient and /or Guarantor after application of all insurance benefits and Financial Assistance Policy discounts. If the person is a 100% self-pay patient and does not qualify for Financial Assistance, then it is the entire balance less any discounts. The Financial Assistance Policy provides guidelines to qualify for free or discounted Financial Assistance.

Part VI, Line 3	Information regarding the Indigent Care Trust Fund is available at each of our registration areas and displayed with signage and cards. We also inform our patients and families of our Financial Assistance policy during the inpatient and outpatient admission process. Our System website provides information on our Patient Financial Services, which includes billing, insurance, and our indigent and charity care guidelines and policy. The first billing statement sent out to patients also addresses this process with specific instructions. These cards with financial information are available at community events, health fairs and education seminars. The cards and signage are provided in English and Spanish.

Part VI, Line 4	<p>Geographic Service Area- Houston Healthcare serves the medical needs of residents in the Central Georgia area with the primary service area being Houston and Peach counties. Residents in surrounding counties also turn to Houston Healthcare for their medical services, with these counties including Bleckley, Crawford, Dodge, Dooly, Macon, Pulaski, Taylor, Twiggs and Bibb County. These areas are considered our secondary service area. All Houston Healthcare facilities are located in Houston County and are governed by two Boards of Trustees. The Executive Team also oversees all operation and activities for the Houston Healthcare System.</p> <p>Demographics- Meeting the diverse health needs of Houston County residents is an ongoing challenge. Houston County has a younger population than the state and the nation in that the median age is 34.4. Between 2000 and 2010, according to the US Census, the population of Houston County increased by 26.3 %. The number of Hispanic residents increased by 158.2 %. Houston Healthcare's diverse population served includes 63.4% Caucasian, 28.5% African American, 6.1% Hispanic and 2% other. (US Census Bureau American Community Survey 5 year estimates 2008-2012) With over 2,400 employees, Houston Healthcare is the 3rd largest employer in Houston County. Robins Air Force Base is the largest with over 21,377 contractors, civil service and military staff, followed by Houston County Board of Education with 4,564 teachers and staff. Perdue Farms, with over 1,820 poultry workers, many of whom are Hispanic, is the 4th largest and Frito-Lay, producer of snack food with over 1,300 workers is the 5th largest. (Houston Development Authority) Population of Houston County is estimated by the census report at 140,699 in 2014 which include Perry with a population of 13,839 and Warner Robins with a population of 66,558. Perry's median household income is \$49,976 per year with 14 % of individuals living below the federal poverty level, Warner Robin's median household income is \$45,183 per year with a 16.6% of individuals living below poverty level. The latest Census estimate shows in all, 31.9 % of Houston County residents live below 200% of the federal poverty level. (Community Commons, Retrieved July 2014/US Census Bureau American Community Survey 5 year estimates 2008-2012) The three leading causes of death include cardiovascular disease, cancer and stroke. There are also an increasing number of persons with Diabetes. The PRC Community Health Needs Assessment reports that an average of 14% of persons in Houston County are diagnosed with Diabetes. Georgia continues with higher rates of pre-term births (less than 37 weeks) and low birth newborns than the average for the US. Houston County's overall rate of tobacco usage is lower than the state average but remains high among the lower income population. The obesity rate in Central Georgia residents is 30.3 percent. These facts demonstrate the need for education on lifestyle changes related to nutrition, exercise and tobacco avoidance. These stats and others have prompted our dedication to improving the community we serve by establishing an implementation plan that includes priority areas, measurable goals and objectives along with collaboration among Houston Healthcare leadership and other community leaders. Other hospitals serving the community- There are no other hospitals within Houston County besides Houston Healthcare, however some community members utilize hospitals outside of our county. Number of federally designated medically underserved areas - In our service area, Crawford, Peach, Twiggs and Macon counties are underserved by primary health professionals, according to the State Office of Rural Health, generally meaning more than 3,000 people per doctor. Bibb and Houston counties have pockets of underserved populations.</p>

Form and Line Reference	Explanation
Part VI, Line 5	Houston Healthcare Board members are active community members. They are employed or retired from various community organizations such as local schools, local and state government, physician practices, law firms and insurance agencies. Their education, experience and community involvement enable our organization to provide much needed services and benefits to meet community needs. An open medical staff enables the organization to provide the services needed by the community and allows needed access to the indigent, as well as Medicare, Medicaid and CHAMPUS Tricare populations. Houston Healthcare supports the Volunteer Medical Clinic in several ways: providing a building for the free clinic as well as accepting referrals from the Clinic for required services such as Lab and Radiology. Advocacy initiatives are ongoing to improve health and increase access through local partnerships with others in the community including public health and RAFA. Houston Healthcare collaborates with Robins Air Force Base through Relay Health (Access Medical Records), Mental Health collaboration efforts to improve transition of care, Physician Grand Rounds, educational training classes and MOU for Physical Therapy Technicians.
