To encourage the implementation of open standards and standards-based interoperability in foundation projects. To ensure a high degree of quality in foundation projects in order to build and preserve the foundation "brand". To make foundation and related software more accessible to end users - eg binary "stack" builds, cross package documentation. To provide support for the use of OSGeo software in education via curriculum development, outreach, and support. To encourage communication and cooperation between OSGeo communities on different language (eg Java/C/Python) and operating system (eg Win32, Unix, MacOS) platforms.
