In 2015, the Hospital had 787 patient days, served 18,816 outpatients including emergency services to 7,865 patients. The Hospital provided essential emergency treatment, inpatient acute care, outpatient surgical services, laboratory, imaging diagnostic services, infusion services and cardiac rehabilitation services to the residents of the Santa Ynez Valley, including the communities of Solvang, Buellton, Santa Ynez, Los Olivos, and Ballard. Santa Ynez Valley Cottage Hospital provides emergency services to anyone seeking care, regardless of their ability to pay. The hospital is diligent in ensuring that all patients have adequate access to care. All patients who do not present with third-party insurance are automatically screened for eligibility in government health programs and are assisted in applying for financial assistance if the patient does not qualify for any other assistance. In order to ensure that the Community has access to physician specialists, the Santa Ynez Cottage Valley Hospital also rents medical office space on a per clinic basis. In 2015, while also realizing shortfalls in Medi-Cal, and indigent care the hospital provided flu shots at a reduced cost to the community, low cost bike helmets and CPR classes. The hospital's cardiac rehabilitation service also provides a low cost exercise program for seniors. In addition, the hospital provides grants to support nursing education.

Schedule H, Part I, Line 7 Costing Methodology used to calculate financial assistance	<p>The costing methodology includes inpatient, outpatient, and emergency department and is broken down by payer categories. Both direct and overhead costs have been allocated, by services rendered. Each Payer's net revenue is offset by the total cost and the results by Payer are calculated. In addition to a hospital wide cost to charge ratio, we have calculated cost to charge ratios for each Payer, based on the cost of the type of services rendered to their specific patients. Therefore, the community benefit amounts attributable to Medicaid and other government programs are calculated based on their specific cost to charge ratio.</p>

Form and Line Reference	Explanation
Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	<p>Patient service revenue, net of contractual allowances and discounts, is reduced by the provision for bad debts, and accounts receivable is reduced by an allowance for uncollectible accounts. The hospital establishes an allowance for uncollectible accounts based on many factors, including payer mix, age of receivables, historical cash collection experience, and other relevant information. A portion of the hospital's uninsured patients will be unable or unwilling to pay for services provided and a portion of the hospital's insured patients will be unable or unwilling to pay for co-payments and deductibles. If these individuals do not qualify for financial assistance, the hospital records a provision for bad debts related to these insured and uninsured patients in the period the services are provided. The hospital writes down the expected reimbursement after reasonable collection efforts have been exhausted.</p>

Form and Line Reference	Explanation
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	<p>The hospital establishes an allowance for doubtful accounts based on many factors, including payer mix, age of receivables, historical cash collection experience and other relevant information. A significant portion of the hospital's uninsured patients will be unable or unwilling to pay for services provided and a significant portion of Cottage's insured patients will be unable or unwilling to pay for co-payments and deductibles. Thus, hospital records a provision for doubtful accounts related to these insured and uninsured patients in the period the services are provided.
