Form and Line Reference	Explanation
Part I, Line 7	The costing methodology utilized for this table was derived from Worksheet 2, Ratio of patient care cost to charges with data from filed cost reports for the filing fiscal year

Form and Line Reference	Explanation
Part I, Line 7g	The Hospital provides to the community several provider based physician and specialty practices to serve this rural island population. These practices are listed on Part V of this schedule. The facility subsidizes their operating costs to maintain access and coordination of care to our population.

Form and Line Reference	Explanation
Part I, Line 7, Column (f)	The Bad Debt expense included on Form 990, Part IX, Line 25, Column (A), but subtracted for purposes of calculating the percentage in this column is \$ 3,702,221

Form and Line Reference	Explanation
Part III, Line 2	<p>The estimated cost of bad debt expense as reported is derived from the accounting systems and software the organization uses to calculate the cost-to-charge ratio from the as-filed Medicare Cost Reports Mount Desert Island Hospital (MDIH) estimates the cost of bad debt expense using accounting systems and software from our organization to calculate the cost of care from the as filed Medicare Cost Reports This estimate best represents the value of providing care for those services that will be considered or deemed uncollectible The value of these services at cost are estimated to be \$2,256,375 This is the amount the hospital must forgive as a benefit to the community for providing services</p>

Form and Line Reference	Explanation
Part III, Line 3	The Hospital's financial assistance policy provides administrative and accounting guidelines for the identification, classification, and reporting of patients receiving financial assistance as distinguished from bad debts. Accordingly, the Hospital has estimated that no amount of bad debt expense at cost is attributable to patients eligible under the organization's financial assistance policy.

Form and Line Reference	Explanation
Part III, Line 4	See Footnote 2 on Page 8 of the attached audited financial statements

Form and Line Reference	Explanation
Part III, Line 8	<p>The IRS Form 990, Schedule H instructions and guidance provide a template in Worksheet 2 as a way to determine the overall cost to charge ratio that could be applied throughout Schedule H in order to convert charges to cost. Where applicable, we have utilized the Worksheet 2 template calculation. The only area where we did not utilize this template calculation was in Schedule H, Part III, Section B, Line 6, Medicare allowable costs and payments related to the subsidized health services. Instead, the Hospital utilized the Medicare cost report estimated cost and payment for these services. The Hospital believes that provider based clinics listed in above should be considered a community benefit due to the fact that without the Hospital subsidizing and offering the services that these clinics offer, the community-at-large would have to travel 45 minutes or more to the nearest hospital and those who live on the outer islands in our service area would need to travel over 2 hours to obtain services. As such, Mount Desert Island Hospital believes that by offering and subsidizing these clinics within its community, and thus enabling community members to have easy access and an easier commute for these services, this benefits the entire community at large.</p>

Form and Line Reference	Explanation
Part III, Line 9b	<p>The Hospital does not initiate collection efforts against a patient that qualified for a sliding fee scale unless that patient failed to meet his or her obligation under a mutually agreed upon payment arrangement. After determining the patient did not qualify for a readjustment to his or her payment terms, the Hospital would follow normal notification practices dictated by our collection policy, which is in compliance with the 501(r) regulations. If the collection agency suspects or gains knowledge that someone may need to apply for one of the programs, the agency sends out a financial assistance application to the patient or guarantor and proceeds to notify MDIH of the outreach. Information about our free and sliding scale programs are on our website, on our account statements, and posted in public areas and at our provider clinics. We also make available a Patient Financial Counselor to help navigate the process.</p>

Form and Line Reference	Explanation
Part VI, Line 2	<p>Mount Desert Island Hospital assesses the health needs of the community through the use of a collaborative Community Health Needs Assessment. As a key participant in the CHNA process, our institution is able to further address and identify those areas of most concern and need in our community. A community needs assessment is a point-in-time effort to measure the health and wellbeing of the community. It serves as a constructive tool to and basis for Mount Desert Island Hospital's strategic and subsequent action planning to develop health policy advocacy, allocate resources, improve or expand existing services, implement new programs and collaborate with other community health care providers. A community health needs assessment also serves as a benchmark for future assessment of measured progress toward established community health objectives. The Mount Desert Island Hospital's Community Health Needs Assessment provides an opportunity to gain insight into the needs and assets that are served. It also provides a measure to identify and address the needs of the vulnerable populations within our community. The Mount Desert Island Hospital process was a partnership with Healthy Acadia, a comprehensive community health coalition that was formed in 2001 with the public health funding provided by the Maine Center for Disease Control and Prevention. The Community Health Improvement Plan and Health Needs Assessment were performed using the Mobilizing for Action through Planning and Partnerships process, which utilized a broad cross-section of our demographic and service area. This process delivered the basis for the assessment which demonstrated the strengths and opportunities for our plan. This process involved the gathering of quantitative data such as demographics, health indicators, and local statistical information as well as qualitative data from public surveys, focus groups, and community stakeholders. The data helps support short-term and long-term decisions about allocation of community human and capital resources. Participants included members of the Hospital's medical staff, nursing staff, board of trustees and administration. Focus groups were used to gain feedback from diverse and remote populations, as we are an institution that serves the rural and coastal community of Mount Desert Island and the other islands off the Coast of Hancock County. This feedback was essential to continue to develop strategies that meet the needs of our residents. This collaborative effort developed several themes for strategic initiatives and goals. The organization reviewed the overarching needs and validated those to the health needs of the community. This process was reviewed and prioritized through the Board Designated Planning Committee of the organization, which develops and maintains oversight of the Hospital's official Community Health Needs Assessment and Implementation and Evaluation Plans. The Implementation Plan is reviewed periodically and updated as strategies and initiatives are completed or modified. Those items that were not achievable are reviewed and documented as to the barrier for successful implementation and/or alternatives. MDI Hospital is currently continuing its action on the items from the 2011 plan as there are several broad reaching programs that will continue to be a focus for our organization, using supplemental data from the Maine Shared Health Needs and Planning Process (Maine SHNAPP). They are outlined on our adopted implementation plan under the evaluation process. The plan was first adopted in 2011 and the continuation has been approved by the Hospital's CHNA planning committee who has been authorized by the Hospital's board of directors to oversee the CHNA process on the board's behalf. The supplemental plan was approved as well while the Hospital engaged in a comprehensive update to its CHNA in partnership again with Healthy Acadia. The results are available upon request and through www.mdihospital.org. The Hospital's county-wide Community Health Needs Assessment, which aligns many state and county partners in Hancock County, was led primarily by Eastern Maine Health Systems and identified several health initiatives that MDI Hospital developed within their adopted implementation plan. The implementation and evaluation plans and CHNA are located on the Hospital's public website along with a notice to solicit comments from the community regarding any questions, suggestions or concerns regarding the CHNA and the implementation plan.</p>

Form and Line Reference	Explanation
Part VI, Line 3	<p>The Financial Assistance Policy (FAP) information is sent with all account statements and is printed on the back of the statement. A Plain Language Summary of the FAP is also available on our Hospital website, provided to all inpatient and observation patients upon discharge, posted in public areas, and available within the departments and clinics of our organization. The Hospital provides a patient financial representative to help navigate the process to ensure that our patients have access to the care and services they need. MDIH is committed to providing access to quality healthcare services with compassion, dignity, and respect for those we serve, particularly the poor, indigent, and underserved in our communities, regardless of their ability to pay. We assist our patients who cannot afford to pay for part or all of the services received by working with our community to identify those in need and find the financial resources that may be made available to them. MDIH has adopted guiding principles when handling billing, collections, and financial support functions for our patients. We provide effective communications with patients regarding hospital bills and make affirmative efforts to help patients apply for public and private financial support programs, including providing resources to perform the application process on behalf of the patient. We have implemented policies and procedures for assisting low income patients in a consistent manner that is in compliance with the State of Maine Chapter 150 Guidelines for Free and Reduced Care. A patient financial representative is also available to assist with triaging patient needs and working with our patients to align resources. This representative is available to explain and review patient payment obligations as well we have a patient advocate to facilitate issues that arise during the course of this process. Information about hospital based financial support policies and external support programs that provide coverage for services are made available to patients during the pre-registration and registration processes and/or through communications with patients seeking financial assistance. MDI Hospital and Health Centers provide interpreter services to all patients and families as well. Support is available to uninsured and underinsured patients who do not qualify for public programs or other means of assistance. Notification about financial assistance programs at MDIH, including contact information, is available through messaging included on patient bills and at discharge, in physician offices, public areas, care management staff, registration areas, billing support staff, and reception in the Hospital and at our clinics. Patient brochures describing the financial counseling services, our financial assistance policies, financial assistance application, and the applicable services which are available in these areas as well as this information may be found on our public website.</p>

Part VI, Line 4	<p>Mount Desert Island Hospital is a 25-bed, critical access hospital located in Bar Harbor, Maine providing acute, swing, obstetrics, and nursery services. The Hospital is licensed by the State of Maine. The mission is to provide compassionate care and strengthen the health of our community by embracing tomorrow's methods and respecting time-honored values. Its services include acute inpatient, swing bed, 24-hour emergency center, diagnostic services, lab, physical therapy, pharmacy, and surgical services. Along with hospital services, the Hospital employs the majority of primary and specialty care physicians in the area. The Hospital provides the only behavioral health clinic services in Hancock County, which has been identified as a need in the CHNA for mental and substance use treatment availability. Hancock and Washington County are considered rural by the State of Maine and the United States Census Bureau, under guidelines set forth by the Office of Management and Budget (OMB). The Hospital service area (HSA) as defined by the Maine Health Data Organization (MHDO) uses the statistical method where the greatest proportion of residents received their inpatient care. The Hospital's primary service area is Mount Desert Island and the towns it supports as well as the outer islands off the coast of Bar Harbor, Northeast Harbor, and Southwest Harbor. Also included in our service area are the towns of Trenton and Lamoine, Maine. The Hospital entered into a collaboration to bring dental and oral health services to Mount Desert Island which is defined as a federally underserved location for dental health and identified as a need in the Hospital's CHNA. MDI Hospital opened a dental center in Southwest Harbor to address the community's needs for oral health, collaborating with another Hancock County Hospital to provide the services in this region to those who were in need of access to oral healthcare.</p>

The Hospital's bylaws, amended in June 2015, establish an Audit Committee separate from the Finance Committee. Previously, the Finance Committee was responsible for "Recommending to the Board the auditors for the Corporation, securing and overseeing any necessary financial audits (including the appointment, compensation, retention, oversight, and partner rotation of any financial auditors), and assisting the Board with its review of annual audits." The Audit Committee is now responsible for these items. The Audit Committee is made up only of members who "are not employees of the organization or an immediate family member of an employee of the organization. Immediate family members refer to a person's spouse (including partners from same sex marriages or civil unions), children, parents, grandparents, siblings, as well as one's in-laws. It also includes adopted children and stepchildren. In addition, members are not eligible if they engage in any private business transaction with the organization or receive compensation from an entity that has material business relationships with the organization." The Chair of the Finance Committee serves on the Audit Committee.

Additionally, interested persons have a duty to disclose any actual or possible conflicts of interest at the time they arise. After disclosing a potential conflict of interest and answering any questions that might be asked concerning such interest, the affected person shall withdraw from any meetings, deliberations, votes, or other matters concerning the conflict. To ensure that the Hospital does not engage in activities that could jeopardize its tax exempt status, the Board or a committee appointed by the Board, periodically reviews compensation and similar arrangements to ensure they are reasonable and are the result of arms-length bargaining. In conducting these reviews the Board may use outside advisors.</p>
